Murder Strikes At Two More Los Angeles Women

LOS ANGELES, March 11.—(AP)—Death in the dark struck down two more women today, bringing to four the unsolved murders in an outbreak of feminine slaughter which began Jan. 15 with discovery of the body of the "Black Dahlia."
Police identified one of them as Evelyn Winters, 42, divorced wife of Sidney Justin, head of Paramount Studio's legal department.
But hours after the second discovery, identity of the other woman was obscure.
Japanese mustard growers found the ravished body on a river bank in nearby Norwalk, strangled with an electric light cord and a blue-and-white quilted bathrobe twisted about her neck. Tire prints found on a road a short distance away were studied, as were a pillow, pillowslip and under garments discovered nearby.

Britain Requires 800,000 Workers

LONDON, March 11.—(CP)—Labor Minister George Isaacs told the House of Commons today that nearly 800,000 additional workers were needed to rebuild Britain's industry and prosperity.
Speaking during the second day of the vital three-day debate on economic problems, Isaacs said: "The general situation is acute and we have not got enough men and women for all the jobs we have to do."
He declined to disclose the location of the new seat. A caucus of Nova Scotia members would be held later in the week in an effort to reach a definite decision on the location.
No change would be made in Prince Edward Island which will retain a representation of four. He indicated that any changes in New Brunswick, which will retain a representation of 10 seats, would be minor.
But his lean face clouded and his voice was touched with sadness when his visitors remarked upon the unprecedented world tragedies which beset the first eight years of his reign.
Now did he conceal his preoccupation when the current Moscow conference and the difficulties facing it were mentioned. He nodded assent that the beginning of the conference did not augur well for solid achievements.
Despite the indefatigable diligence and determined efforts made by certain statesmen and some progress for the moment along one or another particular line, he said the events of the last year do not

Pope Pius Hopeful For A Lasting Peace

(By Charles H. Guggill and John P. McLaughlin)
VATICAN CITY, March 11.—(AP)—Pope Pius, completing the eighth year of his reign in a tempestuous world, told the Associated Press today he was hopeful the world would achieve a just and lasting peace but the price might be some degree the sovereign rights of nations.
Receiving two Associated Press correspondents in a private audience, he commented that positive, constructive ideas have not as yet entered the building of peace, but he expressed the hope that a United Nations might be placed in the position effectively to guarantee the security of all.
Today, at 71—he celebrated his birthday and the eighth anniversary of his election 10 days ago—the vigor of his personality was more than ever in contrast to the frailty of his body. Tomorrow is the anniversary of his coronation.
Clad in white robes and skull cap and seated behind his golden desk, he readily replied to the correspondents' questions in English.

Re-elected To Parliamentary Association

OTTAWA, March 11.—(Special)—J. Watson MacNaught, Liberal member for Prince, was re-elected to the executive of the Empire Parliamentary Association at a meeting held this morning in the Parliament Buildings here. Mr. MacNaught will represent Prince Edward Island on the Association's governing body.
Sole change in the executive of the Canadian section this year was the election of Gordon Innes, Liberal member for Halifax whose death occurred some months ago. Present at the gathering was Sir Howard D'Elvile, secretary-general of the Association.
At the meeting, it was agreed that Canada would present a new table for the British Parliament at Westminster to replace the former table of the House which, with other equipment and appointments, was destroyed in the bombings of London.
"We hoped that Canada would present the United Kingdom Parliament with a speaker's chair as a return courtesy for the speaker's chair Westminster presented to us some 26 years ago after the Ottawa Parliament buildings were destroyed by fire," Mr. MacNaught explained, "but Australia got ahead of us. N. Z. Press Is Critical Of Canadian Policy

By J. C. GRAHAM (Canadian Press Correspondent)
AUCKLAND, N.Z., March 11.—(CP)—Criticism of some aspects of Canadian foreign policy have appeared in the New Zealand press recently, and an explanation on some points by the Canadian high commissioner, Dr. Alfred Rive, met further criticism.
In an address to the Auckland Rotary Club, Dr. Rive said Canada would resist any attempt within the British Commonwealth to set up a superior governmental authority. A scheme involving the surrender of some of the powers of the free and independent nations within the Commonwealth so that some sort of a super body could be established was quite beyond the grounds of practical politics so far as Canada was concerned.
Commenting on the address the New Zealand Herald remarks: "Why is it that Canada, which set such an inspiring example of unselfish Commonwealth patriotism in the war, should so ostentatiously avoid any Commonwealth obligations or responsibilities in the post-war world?"
"There is no suggestion of a supra-national government in the idea that the prime ministers of the Commonwealth, by free exchange of thoughts, should agree change of common foreign policy, thus using, instead of dissipating, the strength inherent in the family."

Big Four Split Wide Open On Demilitarization

By WES GALLAGHER
MOSCOW, March 11.—(AP)—State Secretary Marshall tonight won his first diplomatic triumph in the Foreign Ministers' Council when the United States, Britain and France put up a solid front and blocked a Russian proposal to place the complex China question on the agenda.
A conference official said the three western representatives, opposing a suggestion by Foreign Minister Molotov, insisted that China must be present if Chinese affairs are discussed in the council. Molotov finally withdrew his proposal.
The four foreign ministers then split wide open when they tackled the first and least controversial problem of Germany, the question of demilitarization, informants disclosed.
Harris Accusations
Molotov hurled a broadside of accusations that the Western powers had failed to demilitarize their occupation zones and were keeping German troops in military formations, contrary to the Potsdam agreement.

Alberta, P.E.I. Not Affected By Redistribution

OTTAWA, March 11.—(CP)—At least two Provinces—Alberta and Prince Edward Island—are likely to see no changes in the boundaries of their Federal electoral constituencies under the bill increasing seats in the Commons from 245 to 255.
Sub-committees reporting today to the Redistribution Committee of the Commons recommended that no changes be made in the two Provinces, which like New Brunswick, would not gain or lose any seats under the bill.
J. M. Dechene (L.—Athabasca), chairman of the sub-committee for Alberta, said the members of that Province would not gain or lose any seats under the bill.
Dr. M. E. McGarry (L.—Inverness-Richmond), chairman of the committee for the Maritimes, said the committee had agreed on two alternative locations for the new seat that will go to Nova Scotia under the bill, which will raise the Province's representation from 12 to 13.
