Cornelius Lowther, Sr. whose life has been one of gentle kindness has donated his late residence at Cra-paud to the use of Rev. and Mrs. W. A. Tompkins, while they live; and afterwards to the Cra-paud Methodist Church. This great kindness is much appreciated by Mr. and Mrs. Thompson and family, the people of the Cra-paud congregation, the Thym Methodist Circuit, and all Mr. and Mrs. Lowther were long connected with the various church, social and business enterprises of the community; long identified with the people in the sympathetic, neighbourly and religious currents of their life; long among them in friendship and ministry; and this benevolent deed will keep alive their memory in the hearts that have been so touched. The name Lowther is a respected one. The many members and connections of the family stand side by side with the stalwarts of this province. CAPTAIN BARTLETT ON WAY TO ETAB

COPENHAGEN, Denmark, Aug. 12.—The captain of the Greenland steamer Godthaab, which has returned from North Star Bay, says he met Captain Bartlett, the commander of Peary's ship, the Roosevelt, on his way to Etah to get Eskimos and dogs for a great expedition next year to the most northerly polar district, Crocker Land, which was discovered by Peary in 1906.

The expedition will be led by Professor MacMillan and George Borup, who were with Peary on his last polar trip. It will proceed to Cape Columbia on the steamer. Crocker Land was seen but not reached by Peary on his journey westward from Cape Columbia. It is northwest from Grant Land and almost due north from Cape Hubbard, the most westerly point attained by explorers on that coast.

THREE CHILDREN PERISHED IN HOME. PORT ARTHUR, Ont., Aug. 24.—Three daughters of Mr. and Mrs. Schmidt, Chamberlain Street, on the outskirts of the city, were burned to death in a fire which destroyed their home yesterday, and from which two other children narrowly escaped with their lives. "Fire from some unknown cause started in the upper floor as Mrs. Schmidt was preparing breakfast, and when she went to the stairs to call the children she was met by a wall of flame and smoke. Two children were able to jump from the windows. Three others were overcome and their bodies were found later in the ruins.

UNDERTAKERS MAKE SERIOUS COMPLAINTS AGAINST THE DOCTORS. HAMILTON, Aug. 24.—A serious complaint is being registered against the hospital authorities by the local undertakers. It is said the doctors at that institution have been making a practice of dissecting bodies of poor

patients who have died there. In the case of unfortunate who have no one to claim the body, the charge is made that the hospital doctors mutilate the bodies to such an extent that often when the undertaker is called, he finds it impossible to embalm the corpse.

TRIPLE MURDER AT BONNEVILLE. BONNEVILLE, Ind., Aug. 24.—A triple murder was committed in Bonneville this morning. Richard Lee, Mrs. Lee and their 17 year old son Clarence were killed in their beds with a hammer, and the firemen had reached the house it was blazing from all sides. Trying to enter they found that all the doors and windows were locked. Breaking down the door the firemen found the incinerated bodies of Lee, his wife, and his boy. Robbery it is believed was the motive.

It is known that the Lee family consisting of the father, mother and two children had sold a small piece of property and divided up the money between them. The older son, William Lee, who is 21 years old, was arrested by the Sheriff this morning, on the charge of murdering the other members of the family. THE WAY EDITH PRACTICED.

DIES FOR SAKE OF A RIVAL

BALTIMORE, Aug. 23.—A strange story of the double devotion of the wife and a young woman to John Howard Hall, a chemist, and the infatuation of one woman for the other, had developed as the result of an attempt to carry out an apparent suicide pact by Mrs. Hall, when Miss Hyle threw herself under an electric car and was killed, and Mrs. Hal was seriously injured, while Hall looked on.

The tragedy brought to light a most remarkable three-cornered love affair. Hall and Verna Hyle had been acquainted many months and her parents believed him to be single. When it became known that he was married, Hyle was ordered away from the Hyle home, but letters passed between the couple and one of these fell into the hands of Mrs. Hall. Curiosity led her to seek the girl whom her husband seemed to love. Then came about a meeting meeting between Verna Hyle and Mrs. Hall, in the latter part of November, and at once a deep attachment sprang between them.

The parents of the girl became acquainted with this state of affairs and did all in their power to break it up. She met at Hall's home, Miss Hyle frequently but to no avail. The couple continued quietly spending the day there.
