**The WEEK
at S. D. U.**

The staff of Red and White for the year 1938-1939 has been announced. It consists of the following students:

Editor-in-Chief: Somerset Trainor
Assistant Editor: Thomas Holland
Associate Editors: -
Exchange: Charles McQuaid,
Alumni: Lawrence Landrigan,
Chronicle: Fred Howatt,
Athletics: P. P. McDonald,
Humor: Ronald McNeill and
Wagon Wheel,
Contributing: Leon LeClerc, Augustine Campbell, Ronald McDonald, Joseph McLeod,
Business Manager: James Higgins
Assistant Business Manager: John Sullivan and Harold Landry.

The students of Dalton Hall have installed a radio in the Philosophy Room of that building. This radio is for the students use during periods of free time. It is expected that they will gain much enjoyment, as well as instruction from it.

The informant, Mr. Landrigan, reports a few cases of slight influenza during the past week. The influenza was doing a rushing business for a few days, but now all the sick have recovered or are well on the way to recovery. Colds and sore throats were the chief complaints.

On Wednesday night the Dramatic Society of St. Dunstan's College was reorganized. The following constitute its slate of officers:

President: J. Sullivan
Vice President: J. Mahar.
Secretary: W. Shea.
Councillors: G. Fraser, J. Trainor.

The Saints drew second blood in the Intercollegiate football duel on Thursday afternoon. Opposed by fifteen good men, it was true from the New Brunswick capital they showed proof of their football ability and definitely established themselves as having contenders for the Maritime title. The fine teamwork that didn't quite click in the Mount A. game came through against U. N. B. for nineteen points.

It is reported that a couple of cops in Summers' capital they showed proof of their football ability and definitely established themselves as having contenders for the Maritime title. The fine teamwork that didn't quite click in the Mount A. game came through against U. N. B. for nineteen points.

St. Augustine's Society opened the debating season at St. Dunstan's with a discussion on commercial reciprocity between the United States and Canada. P. L. Aylward, T. Kelly and E. Larkin succeeded

fully defended such an agreement against A. Campbell, R. Howatt and L. Rossiter. M. R. Gendron gave a short talk on the necessity of religious ability. Mr. E. McCarey acted as critic for the evening. The Moderator, Rev. W. McCordie spoke briefly at the conclusion of the debate.

Provincial Intercollegiate football matches are under way on Saturday when Prince of Wales plays the Second Saints. The town squad are well able to take care of themselves on the gridiron as they proved in all a few weeks ago in an exhibition game against our first team. The Red and White warriors, however, have frequently given that same first team plenty of opposition during practices. So Saturday's game should put two evenly matched fifteen on the field to fight for the title now held by Saints.

S. P. C. A. Notes

The Society for the Prevention of Cruelty to Animals is putting on a Tag Day Sale on Saturday. The tags are attractive little pins—of various colors and designs. Please remember when you are approached that by buying one of these tags you are helping a very worthy cause.

During the past year Inspector McLean has humanely destroyed 2,000 cats, 1,000 dogs and 70 horses. The horses were all unfit for use (though many were very young) and were being used, and were suffering from some fatal injury or disease. Most of them were very old, and more were owned by persons who could not afford to give them the care and comfort which long years of service had entitled them. Dogs and cats were sick, stray, old and public nuisance—the greater number roaming the streets uncaared for and half starved.

When you consider the menace 3,000 diseased dogs and cats would be to the health of the community, you must realize the necessity of maintaining a society of this kind, apart from the humane aspect.

Most Charlottetown citizens are familiar with the work the S. P. C. A. is doing, and many have had personal experience of Inspector McLean's kind services. Routine inspection and "checking up" is carried on, inspection of horses on city streets, inspection of livestock being shipped, homes found for unwanted and stray animals.

So, today when you are asked to buy a tag, if you aren't particularly interested in the welfare of dumb animals, you are surely conscious of the fact that the S. P. C. A. is helping rid the city of a menace to the health of citizens. Buy a tag and help a worthy cause.

GRAIN

WINNIPEG, Oct. 14 (CP)—Good orders from export and overseas firms lifted Winnipeg wheat futures a cent late today. At the final bell prices were 3-1/8 cent higher, Oct. 61 3-8, Nov. 61 1-4, Dec. 60 5-8 and May 63 3-4-7-8.

Apart from export interest operations were quiet and at times trading almost stopped. Outside markets were steady with continued unfavorable crop reports from Australia, a bullish factor.

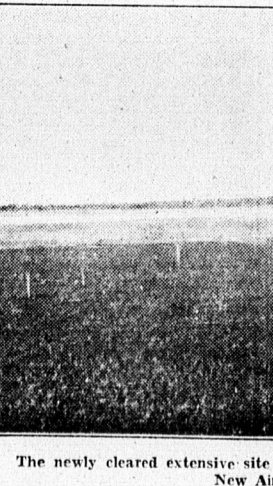

Liverpool closed 1-24 lower to 1-44 higher, Buenos Aires eased 1-8 cent at noon and Chicago scored small advances.

Improved cash wheat demand caused spreads to slip slightly higher during the session. Shippers and exporters were moderate buyers of Nos. 3 and 4 Northern, Nos. 2 and 3 garner and feed wheat. Coarse grains eased at the close.

UNDATED MONEY BOX

(By The Canadian Press)
Closing exchange rates
At Montreal—Pound 4.80 7-16;
U. S. dollar 1.01 7-16; franc 2.68 17-32.

Strong Winds Fan Ontario Forest Fires

FORREST FRANCES, Ont. Oct. 13 (CP)—Strong winds which fanned lumbering forest fires into dangerous blazes tonight added to the burden borne by fire fighters in the Rainy River bush country where 20 persons have died since the outbreak Monday.

Rangers and volunteers fought to keep the flames from attacking communities from which residents have fled. Motor trucks carried women and children out of Dewar and Sifton townships and relief crews found them shelter at Stratton, 40 miles west of Fort Frances.

Bedding and food supplies were prepared for the eight women and 25 children taken to Stratton. Husbands and sons remained at their homes to battle the fire but were feared their dwellings were doomed because of the near sale which sprang up just as Rangers believed the danger had disappeared.

So far authorities feel no further casualties will be added to the 17 who died in Dance township of northwestern Ontario and the three who fell in the flames across the International boundary in Rainy River, where the International falls area bore the brunt of destruction.

Flames raged near Emo, about 20 miles west of Fort Frances, and at Clearwater Lake, 45 miles northwest, while Morsion township reported the worst blaze in the district's history.

Morsion township crews received 2,000 feet of hose yesterday but today seen a hurried call for 2,000 more. Stern struggles were waged in the Spence Lake district where expensive tourist camps were threatened.

Fire swept close to the little town of Graham, about 120 miles northeast of here on the Sioux lookout branch of the Canadian National Railway, and a train was prepared at Port Arthur to remove residents if necessary. The 100 persons in the town watched as the prevailing rain stripped the flames about the wooded countryside.

International Falls, Minnesota, pulp and paper manufacturing city just a few hundred feet across the powerful southern winds, awoke today to find the flames so close that hose lines were attached to city hydrants.

A call for 200 men to protect International Falls was sent out when powerful southern winds threatened to send the flames against the outskirts. Business firms closed in some instances so employees could be used on the fighting lines.

"I've been in this country 39 years and this is the worst I ever saw," J. J. Cooper, in charge of fire fighters near Emo, reported. "It's all over the country."

He told how settlers refused to leave their small homes to the flames. One woman, Mrs. Bill Johnson, left with her two children only when Police issued strict orders, and 13-year-old Steve Kiger, a Winnipeg youth, with the fire fighters, was forced to rush through a flaming area to drag a woman and child to safety.

Describes Operation For Dizziness

(By WILLIAM BELL, Associated Press Staff Writer)
PHILADELPHIA, Oct. 13 (AP)—A cure for severe dizziness of a type that caused Martin Luther, German founder of a Protestant faith, to hurl an inkwell at the devil was described today by Dr. Waltere. Dandy, eminent Baltimore nerve specialist.

The Johns Hopkins Brain Surgeon told the United States chapter of the International College of Surgeons of an operation for relief of a rare disease, an affliction producing such violent dizziness that sufferers occasionally lose their balance and break an arm or leg.

"Luther had it," Dr. Dandy said after his address at the College's second annual assembly. "He threw an inkwell at Satan because the devil was in his ear."

The sploch of ink from a pot tossed by the religious leader can still be seen on the wall of a German schoolroom.

Dr. Dandy said Jonathan Swift, the great English satirist and author of "Gulliver's Travels," also was a victim of the disease.

The dizziness, accompanied by acute nausea and partial deafness in one ear, can be cured by an operation on the eighth cranial nerve, Dr. Dandy said. The surgery involves partial destruction of the nerve but leaves the hearing fibres intact unless deafness is too far advanced to warrant saving them.

More Freedom In Selecting Candidates

(C. P. by Guardian's Special Wire)
SASKATOON, Oct. 13—Full provincial autonomy in the selection of candidates for provincial and federal elections and partial autonomy in constituencies was approved at the third annual convention of the Saskatchewan Social Credit League, an announcement today said.

The new policy is a departure from that followed in selecting candidates for the Saskatchewan elections early this year, when the final choice from among several proposed candidates rested with the Western Social Credit Board, with headquarters at Edmonton.

An important step announced was the selection of E. J. Herman, M. L. A. as provincial Social Credit leader. The party had no Saskatchewan leader in the provincial elections last June, but Premier Aberhart of Alberta led the campaign for the Social Crediters.

May Receive Presidential Nomination

(By KIRK L. SIMPSON, Associated Press Staff Writer)
WASHINGTON, Oct. 13 (AP)—The campaign strategy of young Thomas E. Dewey, republican candidate for Governor of New York, is attracting special attention.

While Dewey stuck to state issues both in his acceptance speech and his first major campaign address, there has begun to appear inferentially also a clearer picture of his attitude on broader national questions. This picture is of interest because of the possibility that election night returns in November might give him a long head-start toward a republican presidential nomination in 1940.

Selling Urgent On Stock Mart

TORONTO, Oct. 14 (CP)—The selling was more urgent than the buying in today's Toronto exchange session and prices were marked down moderately throughout, all index groups showing losses of 66 to 85 at the close. The close was around bottom for the day. Volume was down from the previous two sessions to 753,000 shares.

A four tone in New York influenced the Toronto list from the opening and group leaders eased off. Steels especially were heavy and National Steel Car backed up points and enlarged the loss to 3 1-2 by closing time.

After holding up until the last

Dull Trading On Montreal Market

MONTREAL, Oct. 14 (CP)—The stock exchange list chalked up some new highs today and then sold a little lower at the close in dull trading.

Widest advance of the day featured General Steel wares preferred, up 3-4 points to a new high for the year at 84 3-4. Price Brothers preferred closed at 62; up five points, after reaching a new high at 63.

Smelters went to a new high at 65 1-4 but sold off later in the day to finish at 64 1-4, a net loss of 1-4. Hudson Bay Mining reached a new high at 33 1-2 but closed at 33 1-4, up 1-4 on the day. The other new high was 19 for Distillers-Steams, which closed up 7-8 at 18 7-8.

Generally the list was spotty. National Steel Car sagged 3 1-4 points. Noranda Copper lost 1-2. Price Brothers Common dropped 3-4. Brazilian 1-2 and Steel of Canada 1-2. Building products and Lake of the Woods picked up a point each and Bell Telephone Montreal, Power, International Pete and McColl Fronteare were a little higher.

Sales: Industrials 41,200; Mines 137,300; Bonds \$2,850.

Adequate Markets Essential

WINNIPEG, Oct. 13 (CP)—Premier John Bracken of Manitoba today announced his government would move shortly for an international conference on the marketing of western agriculture products. The meeting would be held in Winnipeg, the date to be set later.

Mr. Bracken said outstanding Canadian and United States authorities would be invited to attend and special emphasis would be placed on the problem of marketing wheat. The conference also would consider the marketing of cattle, hogs, butter, honey, poultry products and fish.

It is hoped representatives of leading wheat exporting countries and an authority on European markets will be able to join discussions.

The premier stressed the fact larger wheat crops this year in Canada and United States had not been accompanied by a corresponding improvement in international demand with the result prices are about half the level of a year ago.

He believed the time had arrived for deep study of the situation as adequate markets for surplus agricultural products were absolutely essential to the west.

(C.P. by Guardian's Special Wire)
HALIFAX, Oct. 13—Alfred Campo of Westmount, Que., was in hospital here tonight recovering from head injuries and a general shaking up received in a highway accident at Enfield, near here, today.

Doctors said they expected a "good recovery" but it might "take some time."

Campo was one of two men in an automobile which collided with a milk truck on a narrow bridge at Enfield. The other, a man named MacQuarrie whose first name was not learned immediately, suffered an injured knee. He left for his home in Moncton, N. B., shortly after the accident.

The automobile was demolished and the truck badly damaged. Both the occupants of the truck however escaped without injury.

ATTENTION FARMERS
Near Charlottetown

In order to have sufficient turnips on hand daily for waxing and to keep a staff of over thirty men working this year we prefer to buy truck loads, approximately 200 bushel, from each grower at one time and have our trucks haul from your farm.

We do not want to handle turnips in bulk but we supply you with old bags or you can use old fertilizer bags which you have at home.

The weather is unusually warm for this time of year and I would strongly advise the turnip grower not to clip his turnips before he has made an arrangement to move them either the day that they are clipped or the following day.

The advice that we have is that turnips are not fit to be harvested for Fall storage until they are touched with frost in the field. Please remember this.

Our business has increased tremendously but we are not going to buy your turnips and haul them from your farm and let some other Produce Dealer get your Seed and Table Stock. We are open to take on many new customers but we hope that you realize our position, we are not in the turnip business exclusively. Our price on Seed, Table Stock and Turnips will not necessarily be any higher than your local dealer but it will be no lower. We assure you of that, we prefer farmers living near Charlottetown to contact direct with the office.

A little later on when the weather becomes colder we shall be loading cars of Turnips and Table Stock at Hazelbrook, Scotchfort, Suffolk and Vernon through the regular channels through which we loaded last year.

While transportation by water is open at Charlottetown we prefer to haul your Seed to Charlottetown with our own trucks. Later in the winter we shall load at stations along the line when the ads break up.

We have a new style hand grader manufactured by Hall & Stavert for sale at \$65.00, equipped with chain sizers.

Two or three farmers club together and buy a grader and if that does not suit you we will rent one to the farmers at a set rate per day. Why take chances of having your stuff rejected when it reaches the car on account of size? It is more economical to do the grading properly at home.

All our customers are cordially invited to come and inspect the Turnip Waxing Plant. We cannot afford to advertise frequently, therefore keep this add in mind.

FRANK B. CLARK

Accident Victim Is Recovering

(C.P. by Guardian's Special Wire)
HALIFAX, Oct. 13—Alfred Campo of Westmount, Que., was in hospital here tonight recovering from head injuries and a general shaking up received in a highway accident at Enfield, near here, today.

Doctors said they expected a "good recovery" but it might "take some time."

Campo was one of two men in an automobile which collided with a milk truck on a narrow bridge at Enfield. The other, a man named MacQuarrie whose first name was not learned immediately, suffered an injured knee. He left for his home in Moncton, N. B., shortly after the accident.

Currencies

NEW YORK, Oct. 14 (AP)—The Pound Sterling and French franc staged a minor rally in terms of the United States dollar today after a week of sharp declines.

The advance, which carried the pound 3-8 of a cent higher to close at 47 3-8 and the French franc .00 1-2 of a cent to 2.65 in quiet foreign exchange dealings, was attributed by money experts to short covering in foreign money and liquidation of long positions in the dollar.

Other leading European currencies, including the belga and guilder, showed narrow gains while the Swiss franc was unchanged.

LARGE FERTILIZER STEAMER HALLBJORG NOW UNLOADING AT CHARLOTTETOWN

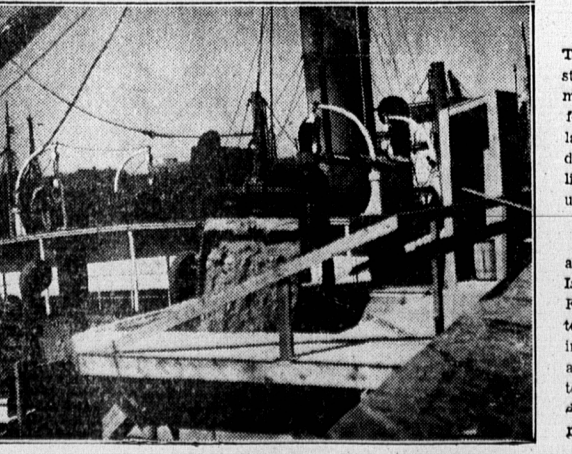

Lying Aside Bruce Stewart's Wharf

The longshoremen have been busy discharging the S. S. "Hallbjorg", Master J. Gulbrandson, which arrived in port on Monday from Antwerp, Belgium. The steamer is heavily loaded with Fertilizer for The Island Fertilizer Co. Ltd. and is now lying alongside their wharf.

The S. S. "Hallbjorg" was formerly one of the Canadian Government Marine ships, the "Canadian Voyager" and is now owned in Norway.

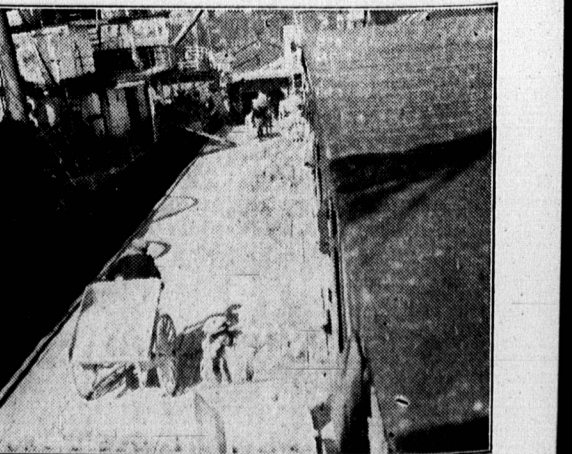

It is understood The Island Fertilizer Co. Ltd. expect two more cargoes of fertilizer before the close of navigation.

Tipping Tubs into Hoppers to be Carted to Building...

The discharging of these steamers and the subsequent mixing and shipping of the fertilizer, leaves with local labourers many thousands of dollars and does much to relieve the unemployment situation.

To assist in improving their already high class service to Island farmers The Island Fertilizer Co. Ltd. are adding to their large buildings, and installing a second mixing and shipping unit as a protection against possible breakdown during the busy shipping season.

Hauling Fertilizer From Hoppers into Building...
