Drake was held on Friday to Birch Hill cemetery and was largely attended. Rev. Ewen MacDougall, officiated at house and grave.

Master Charles Mutch recently spent a pleasant day the guest of his grandparents, Mr. and Mrs. W. J. MacEachern.

After the recent snowstorm, sixty men under the supervision of foreman Benj. Horton, Mr. John H. Myers and Jas. Redmond were engaged in shovelling snow on the railway lines in this section. A great many of the men suffered with their eyes, some having to quit work, going completely blind for a short time, due to the snow and the March wind no doubt. M.

McPHERSON, Kas., March 9.—A dozen eggs weer used to pay postage of six letters here. The eggs were found by a rural mail carrier on his route with a request that the eggs be used to pay for the postage on the letters. The mail carrier brought the eggs to town and stamped the letters, realizing no profit.

Morning Stock Letter

Wall Street Mirror Says:—

Special to Johnston & Ward

NEW YORK, March 10.—Further strength should be seen in the market today, but aside from the buoyancy in the utilities and a few of the specialties it cannot be said that the market as a whole is making much progress on the upside. Getting back to the averages again the industrials must get above 187 as measured by the Dow Jones averages before it can be said that they are likely to get up around their former tops made in February. On the other side of the picture is the presumption that if the industrial averages breag down through 178 they will not run into another resistance point until they get down around 1722. What is being seen of the two points mentioned above it should still be regarded as a day to day affair and commitments made accordingly. Once again the Street is flooded with tips on second grade issues, the market for which is being made against options. Those who follow the "jiggles" usually see a quick profit but in the long run they end up in grief.

The unfilled tonnage statement of the Steel Corporation as of the first of March is due to be made public today at noon. This is one of the few occasions when there have been no advance estimates regarding whether the corporation back log of orders will show an increase or a decrease.

Wall Street hears rumors of a deal connecting Pillsbury Flour and Gold Dust. Inas much as the gold Dust Corpn already own Standard Milling and the heads of the Gold Dust Corpn are experienced in the flour business, the move would be logical.

American Woolens is still the biggest mystery stock on the list. The Company has reported deficits for the past three years, the 1930 loss being $4,897,000. Still the balance sheet shows $18,000,000 in cash and $7,000,000 in Government securities at the close of 1930 against $10,000,000 cash and no Government securities at close of 1929.

FARMERS USE MINE EQUIPMENT

TOMBSTONE, Ariz., March 10.—At last a use has been found for part of the equipment around abandoned stamp mills and ore smelters, relics of boom days in this vicinity. Farmers are buying the galvanized water storage tanks and converting them into water tanks for ranch use. The average mine tank may be made into two 5,000 gallon water tanks.

THEY RACKETEERED IN EGYPT

CHICAGO, March 9.—Recketeering in ancient Egypt has been revealed through mummy exhibits at the Field Museum. X-Ray photographs of the mummy show that the embalmers preserved only the heads, arms and legs of many of the clients. To save expense, the torsos of the bodies were removed and the wrappings disguised to appear that the entire body had been treatedd.

An Oil that is Prized Everywhere—Dr. Thomas Eclectric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

HUNTER RIVER AND VICINITY

Hunter River School is rapidly improving under the capable management of Mr. Edward Smith of Pownal.

Miss Ruby Stead, teacher at Brackley Point, spent the week-end at her home in Wheatley River.

Mr. Joseph Matheson, Wheatley, has installed a beautiful new Radio.

Mr. William Bowen, Wheatley River, was a visitor to Summerside on Tuesday. While there he was the guest of his son Morris and also Mr. Will Toombs, Kensington.

The many friends of Miss Mary Jane McRae, Ebenezer, who had a very severe attack of acute indigestion on Thursday, are glad to learn although she is still very weak that she is again on the road to recovery.

Hooking again is the order of the day in this section of the country, among the women. A number of beautiful mats have already reached completion at this early date. Beware Ladies, you do not let your rugs go at too low a price to the mat buyers as they are always on the look-out for bargains.

We are sorry to learn that Miss Emily Doiron, Ebenezer, is still confined to her bed and is very little improved.

The regular meeting of Wheatley River Women's Institute was held at the home of Mrs. Malcolm Rackham on Feb. 11th. In absence of President and vice President, Mrs. Robert Sellar presided. Roll call was responded to with a "Valentine Verse and a nickel." Five members and three visitors were present. The bad condition of the roads being responsible for the small attendance. Minutes of last meeting were read and approved. There were no reports from the various committees. It was moved and seconded that the bills on hand be paid. Ways of raising funds were then discussed and a motion was carried that the members contribute a dime at next meeting. It was also decided that a program of Irish selections be put on at March Meeting whicch by invitation will be held at the home of Mrs. Robert Sellar, roll call to be answered with a recipe for a "Hot Supper Dish." One new member was enrolled. Meeting adjourned with singing "God Save the King." A dainty lunch was served by the hostess, after which a social hour was enjoyed in conversation and music. L.

HomeManufacture Reduces Prices

Among the more important industrial plants of the city is the Charlottetown Can Company Limited. This is the first Company that manufactured sanitary cans east of Montreal. In olden times lobster packers made their own cans by hand. Some twenty five years ago this improved sanitary can came into use for packing lobsters. As the machinery was complicated and very expensive small packers and users of cans could not afford to put in the necessary equipment.

In order to avoid the necessity of bringing in cans made a thousand miles or so away this company was formed. It is of the utmost importance to all packers of the Island as it not only gives them a supply of cans which they can procure at short notice but also protects them on price. The existence of this factory has been the means of keeping the price of cans far below that ordinarily payed for imported cans.

MT. ALBION

The members of the Mt. Albion Women's Institute met in Institute hall on Tuesday evening, March 3rd, for their regular monthly meeting. The president, Mrs. J. Spurgeon Jenkins was in the chair. Meeting opened with "Island Hymn" and roll call was responded to with suggestions for school lunches. Seventeen members and two visitors were in attendance. The minutes of the last regular meeting were read, approved and signed. Unfinished business was taken up and a committee appointed to arrange for play. The sick committee reported no sick at this time. Bills were presented and on motion paid. The following interesting programme was carried out,: Paper on "Education and Better Scchools" by secretary, reading "The Faithful Few," Miss Edna Jenkins, Reading "Aunt Shaw's Pet Jug." A contest put on by the President for which two beautiful prizes were given, first g oing to the secretary, second to Mrs. J. Hedley Jenkins. Miss Freda Ferguson, invited the next meeting, when an Agriculture program will be carried out in charge of Mrs. Benj. Jenkins, convener of same, roll call to be answered with garden hints. Meeting closed with National Anthem and dainty refreshments were served.

An accident which might have had a direful ending occurred on Saturday evening near Mt. Albion corner. Two gentlemen from Charlottetown, on going through one of the bad pitches, which are veritable young cellars" overturned the sleigh. The horse in some way getting his foot over the shaft, bolted, the occupants being dragged for quite a distance. The horse getting clear of the driver ran at a lively clip with the sleigh on its side and the shaft striking his leg until he turned Mt. Albion corner when he slowed down and went up to the tieing post at the store and stood quietly until the sleigh was righted by some men who were at the store. The two gentlemen arrived shortly after, somewhat shaken up and a few minor scratches on the face but otherwise uninjured. The horse also escaped injury with the exception of a few bruises on the leg caused by the sleigh shaft.

Service at the Hazelbrook Baptist Church on Sunday afternoon was conducted by Rev. E. J. Chisholm, and was well attended. A pleasing feature of the service was a duett beautifully rendered by Miss Frances Wood and Mr. Chisholm.

Mr. Warren Myers has returned home from a pleasant trip to Halifax.

Mrs. Boswell Jenkins, Cross Roads, visited her recently and attended the Institute meeting held in the hall.

Many friends of Mrs. Seymour Myers, Hazelbrook, will regret to learn that she has been called to her home in Melville, owing to the illness of her little brother.

The funeral of Mrs. Wallace

CHERRY VALLEY

Miss Hazel Ings was the guest of Miss L. M. Carrier on Saturday.

Mr. Louis Young and Miss Laura Young, Earncliffe, were recent visitors to Mt. Alion.

Friends of Mrs. Billy Irving, Cherry Valley, are glad to report she is recovering after her illness.

Mrs. Bridget Praught and Mr. Luke Praught, Earnscliffe, were recent visitors to Mount Ryan, the guests of Mr. and Mrs. Tom Brazil.

Congratulations are being extended to Mr. and Mrs. Wendelyn Morrissey, East Royalty, on the arrival of a baby girl.

Service was held in the United Church here on Sunday evening last, with quite a large attendance. Service was conducted by Rev. H. Pierce. The choir pleasingly rendered an anthem, "Don't Forget to Praise Him."

Mrs. Will Mutch and daughter, Elaine, who have been visiting in Eradalbane, have returned to Earnscliffe.

Special Representative of "Clothes of Quality" will be here

FRIDAY AND SATURDAY

Marth 13th and 14th

He brings you a value that men who know proclaim outstanding in Canadian clothing circles. He not only brings this exceptional offer, but he will gladly assist you in the choice of material, style or pattern, and personally measure each customer to insure an absolutely perfect fit in the finished garments. Remember, during his visit an EXTRA PAIR OF PANTS will be given free with every suit ordered.

"Clothes of Quality" need no recommendation—our satisfied customers are the best evidence of their superiority in cut, in service and in value.

Prices from $24 up. Guaranteed or money back.

THEODORE SENTNER

Charlottetown, P. E. I.

124 Kent Street

Now a Mutual Company

The directors announce that by joint action taken today by policyholders and shareholders, in accordance with the provisions of the Company's Special Act—just fifty years after the founding of the Company—the North American Life Assurance Company becomes a purely Mutual organization.

All of the Company's assets, exceeding forty-five million dollars, are now held for the policyholders. The whole of the accumulated surplus, as well as all future surplus earned, belongs exclusively to the holders of participating policies.

The policyholders now own and control the Company—there being no capital stock or shareholders. They will elect their own directors, and such directors will be solely responsible to them.

It is gratifying that Mutualization has been accomplished at a period in the Company's history when its financial position is impregnable—its surplus on 31st December, 1930, amounting to over eight million dollars.

It is equally gratifying that the redemption of the capital has been effected, and Mutualization brought about, without in any way disturbing the surplus already apportioned to participating policyholders. The accumulated surplus earnings from the non-participating section alone have been practically sufficient to redeem the entire capital.

Among the founders and early directors of the Company were such honoured leaders in Canadian life as Alexander Mackenzie, Sir William Meredith, Sir Oliver Mowat and Edward Blake, and the step now taken in Mutualizing the Company marks the fulfillment of their intentions, as expressed in the original charter, granted by the Dominion Government.

Moreover, the carrying out of Mutualization gives effect to the Company's declared principle and belief that the interests of the policyholders are paramount.

Directors:

THOMAS BRADSHAW	ALFRED J. MITCHELL
