

PREPARING FOR THE CAR FERRY

Contractor and Engineer Now At Carleton Point Laying Plans for Work.

CAPE TRAVERSE.—Aug. 24.—Mr. Fred Miller, together with Mrs. Miller, arrived at Cape Traverse Saturday where Mr. Fripp and Mr. MacKie joined them.

Mr. Miller is the contractor for the Car Ferry pier at Carleton. Mr. Fripp is the government engineer in charge and Mr. MacKie the contractor for Tormentine where work is in full swing.

Mr. Miller will build camps at once for his help and staff and later on, his whole plant will be on the ground as well as his lumber. The Branch Railway from the main line to Carleton Point is a necessity, he says, and the Department will be urged to give this their immediate attention.

Mr. Miller regrets that auto trucks are not allowed on the island as he could use them in hauling cement and other material from Summerside which he will be forced to buy elsewhere.

HOW TO GET RICH

Mr. Cotton's Humerous Suggestions.

Mr. R. L. Cotton, the newly elected President of the Maritime Press Association, in replying to the Toast of "The Fourth Estate" at a dinner given to the Association in St. John's, said he had been pleased with the apparent prosperity of St. John's.

MONCTON GIRLS APPREHENDED ON I. C. R. TRAIN.

NEWCASTLE, Aug. 23.—Shortly before four o'clock yesterday afternoon, Constable Broecker received telephone instructions from I. C. R. Detective Tingley at Moncton, to board the north bound Limited here, and detain two girls, from Moncton, who were said to be on the train bound for Montreal in company with two young men.

HAGUE CONGRESS ON DISARMAMENT

THE HAGUE, Aug. 22.—(Special.)—The Chief work of the twentieth universal peace congress at its opening here today was the adoption of three resolutions dealing with disarmament.

The first contained a request that the question of the restriction of armaments be included in the programme of the next international conference.

The second protest against the sinister influence of persons interested in armament industries.

The third recommended the consideration by peace societies of the draft of a general treaty for gradual disarmament, of which Professor Quide, of the University of Munich, is the author, in order that the next congress shall be in a position to discuss the subject with full information at hand.

The Congress, which is under the patronage of Prince Henry of the Netherlands, was opened in Knights Hall amid scenes of great enthusiasm and with a determination on the part of the delegates to stem the tide of militarism.

All the civilized nations were represented, the delegates in attendance numbering 950, many of whom were women pacifists.

Premier Heemskerck, of the Netherlands, extended a welcome to the delegates on behalf of the "classic country on international law."

Professor de Louter, of Utrecht, was elected president of the congress. In his inaugural address the president opposed the ideal of a supernational organization for the purpose of bringing about peace.

Other speakers said that in spite of recent events in the Balkans the idea of universal peace clearly was progressing.

During the session compliments were showered on Mr. Andrew Carnegie and his late fellow workers Mr. T. M. C. Asser, Minister of State and delegate of the Netherlands to the first and second Hague Peace conference, who died on July 29.

ST. PETERSBURG, Aug. 13.—Professor Bahmetieff, of Moscow, announces that he has been experimenting to determine the source of life and has obtained some remarkable results along a collateral line, the suspension of life, by the use of a substance which he calls "anabiosis."

He has been a specialist for seventeen years in the study of hibernation and the results of cold upon animals, particularly bears, and his discoveries are in this field.

He has progressed to a point, he says, where he can place an entire herd of cattle in a state of suspended animation during the severe Russian winter, thereby saving the cost of fodder, shelter and attendance, and revive them in the spring in good condition.

The treatment which he has applied successfully to several different kinds of animals, reduces them to total unconsciousness; respiration and digestion cease completely. They are kept for months at a uniform temperature, regulated by a thermometer, and when they are brought into light, humidity and warm they recover consciousness, apparently not weakened by their experience.

Professor Bahmetieff has not yet been able to apply "anabiosis" to human beings to determine if healthy persons could be transferred to complete suspended animation and then restored at will to their previous health; but he is in negotiation with the prison department to obtain volunteers among condemned men who will submit themselves to the treatment.

The other day he brought back to full life a strange sturgeon which he had kept under "anabiosis" since winter without any kind of nourishment and in complete stillness. It proved to be perfectly healthy, with the roe in fine condition, which would not be the case with a fish kept frozen.

AMERICA'S CUP RACES ARE NOW A POSITIVE CERTAINTY.

NEW YORK, August 23.—Contracts between the New York Yacht club and the Royal Ulster Yacht club for next year's race for the America's cup, have been signed sealed and delivered, and now nothing stands in the way of the contest. Official announcement of this effect will be made within a day or so.

The New York club is going ahead with its plans for the defense of the cup, and announcement will also soon be made as to the size of the boat which will meet Sir Thomas Lipton's seventy-five footer, Shamrock IV, as well as the owner or owners of the boat or boats to be built to meet her.

That Lipton will be met with a yacht of the same size as his own, is believed to be a certainty, and that there will be at least three yachts striving in the trial races for the honor of defending, is also practically assured.

HARRY THAW IS NOT WORRING

Proceedings at Standstill Till Wednesday's Trial Opens.

OTTAWA, Aug. 24.—K. E. Robertson Assistant Superintendent of Immigration returned to Ottawa Saturday from Sherbrooke, where he was closeted with Hon. C. J. Doherty, Minister of Justice, acting head of the Department of the Interior and Immigration.

Mr. Robertson reported the Thaw proceedings at a standstill, and would likely remain until Wednesday when the present adjournment terminates. Probably Robertson will return to Sherbrooke Monday or Tuesday.

The expectation in official circles is that Thaw will have decided by Wednesday that a prolongation of his stay in Sherbrooke jail will not help him and probably he will move rapidly.

The officers of Immigration will be on hand Wednesday to deport Thaw should proceedings terminate. Letters are still coming in at offices of the government from people who object to deportation. A number of these appeals appear to be from an organized effort to arouse public sympathy on Thaw's behalf. Many letters have come as far west as Toronto.

SHREBROOKE, Aug. 24.—Harry Thaw is reconciled to his lawyers' procedure to be followed, Wednesday when he will be arraigned on a writ of habeas corpus. It is announced today that he is not worrying over the chief trouble between Thaw and his lawyers arose over talking to newspaper men, Thaw firmly insisting that he be allowed to manage the publicity end of his case. It is the undoubted opinion that Thaw will be deported to Vermont, and there is where fight will come.

HER JAW LOCKS AS SHE LAUGHS AT JOKE.

CAMDEN, N. J., Aug. 23.—Jennie Oehndt, 20 years old, laughed so hard at work to-day at jokes the other girls in the cigar factory where she works were telling that her jaws became locked and the 200 employees were near a panic when she began to scream with her mouth wide open.

A hurry call to the Cooper Hospital brought the ambulance, and that again unmoved some of the other girls, who, with difficulty, were restrained from jumping out of the windows.

At the hospital surgeons etherized the girl and reset the dislocated jaw. Then she was taken to her home. Some of the factory girls were so upset they had to stop work for the day.

KEGS OF WHISKEY IN CEMENT AND TAR.

SOUTH PORCUPINE, ONT., Aug. 23.—By the disclosure that barrels of cement and pitch contained within them ten gallon kegs of whiskey, the provincial police of this district claimed they have put a stop to a great deal of the liquor traffic. On Monday afternoon Provincial Constables Smith and Jordan became suspicious of a barrel of tar, weighing nearly 300 pounds, being unclaimed at the station. They managed to shift the heavy barrel and heard a jolting noise inside. They immediately opened the barrel and in digging out the hard tar, located the ten gallon keg of whiskey inside. A five hundred pound barrel of cement, which had been allowed to set solid, was next investigated and another ten gallon keg fell into the hands of the police. This was the start of an investigation and arrests followed.

THE WEATHER THE TEMPERATURE TIDE, MOON ETC

TORONTO, Aug. 25.—Fresh South westerly to Northwesterly winds, a few scattered showers at first but generally fair and cool.

The highest temperature recorded yesterday was 73 degrees above zero and the lowest was 57 above. The lowest the previous night was 53, above. At nine a. m. it was 73 and at nine p. m. 64 above.

THE WEATHER.—Yesterday was beautifully mild, with alternate cloud and sunshine, continuing clear at night.

The temperature at 10.30 o'clock on Saturday morning by the Rexall Store tested thermometer with a northern exposure was 75 degrees above zero.

The tide will be high this evening at 4.42 and tomorrow at 5.03; it will be high to-morrow morning at 3.33 and Tuesday at 4.24.

The sun sets this evening at 6.51 and tomorrow at 6.49; it rises to-morrow morning at 5.12 and Wednesday at 5.13.

The moon rises tonight at 10.40. The last quarter of the moon was on Sunday, Aug. 24th, at 8.18 p. m.

There will be a new moon on Saturday, Aug. 31st at 4.33 p. m.

ROUMANIANS DISCHARGE JEWS

BERLIN, Aug. 22.—(Special.)—The Roumanian government which expects to confer full rights of citizenship on Jews serving in the army in the recent campaign against Bulgaria seems bent, according to a Bucharest communication on restricting its action to the narrowest limit.

The Roumanian War Office has just served notice on several thousand Jewish volunteers, according to the newspaper, that they had been illegally mustered in and that they will be sent home. The government's favor, therefore, if limited to actual soldiers, will affect only 15,000 regulars of the 300,000 Jewish population.

JACK JOHNSON IGNORED IN ENGLAND

LONDON, Aug. 22.—(Special.)—If "Jack" Johnson appears at a London music hall at which he is booked to give a boxing turn on August 25 none of the other artists will perform according to a statement issued to the newspapers this evening.

Much resentment is expressed in music hall circles, where the engagement of a man under ban in the United States on the charge of being connected with the "white slave traffic" is regarded as a degradation to the profession.

The Variety Artists' Federation is expected to take formal action in the matter at a meeting to be held to-morrow. Several newspapers and magazines have voiced their strong opposition to Johnson's appearance on the English stage.

COLON, Aug. 22.—(Special.)—Not a single Chinese in Panama has complied to date with the law requiring the registration of all Chinese in the republic, the time limit of which expires on September 1.

Pressure was brought to bear on the Panama government by local merchants to modify the provision of the law, but a public statement issued today by the Minister for Foreign Affairs, Mr. Ernesto Lefevre, indicates that the administration intends to adhere to its policy.

Mr. Ou Yang-keng, the Chinese Consul General at Panama, will, it is reported here, give his exequatur because of his alleged delinquency in representing the law in its proper light to his countrymen.

BREEZY BUDGET FROM BRITISH ISLES

Built His Own Chapel The death took place, at the age of eighty-six, of Mr. W. O. Roberts, market gardener, of Bangor, one of the religious worthies of North Wales. He was a Baptist, and practically built a chapel with his own hands, loading himself 300 carts full of stone for the building. He was probably the oldest Sunday School teacher in Wales, beginning in his teens.

Congregation of Twelve For the vacancy in the charge of St. Peter's Episcopal Church, Montreal, Scotland, the managers, in an answer to an advertisement in a church paper in England, received 230 applications. The church has only a membership of twelve. It was established in 1724, and is richly endowed.

Prison Walls for Old Abbey It is proposed to utilize some of the stone in the north portion of the old prison in Paisley in connection with the restoration scheme of Paisley Abbey. The part of the prison to be purchased is a century old. The stone with which it is built is practically of the same quality as that used in the Abbey. Similar stone cannot now be got.

Find in Bottle of Stout Judgment for \$15 and \$5 for a doctor's fee was awarded by Judge Curran at Navan to John Neville, a groom, who sued a local public house keeper for \$250 damages due to the plaintiff's having drunk part of a bottle of stout bottled by the defendant, and which was alleged to have contained the body of a mouse. Asked by his honor how he knew there was a mouse in the bottle, plaintiff held the offending bottle up and said, amid laughter, "Because he is there still."

Oldest "Apprentice Boy" The death occurred of David Norris, caretaker of the Apprentice Boys' Memorial Hall and Walker's Monument, Derry. He is believed to have been the oldest Apprentice Boy in his city. When Mr. Gladstone introduced his first Home Rule Bill Mr. Norris was one of the thirteen "Boys" chosen as a deputation to attend the "Convention in Belfast to protest against the measure.

Indians Getting Numerous The Indian population of the United States is slowly gaining, and having become adapted to a new civilization may be expected to increase in the same proportion as the white population that lives under similar conditions.

Carried Many Letters William Nell, superannuated letter carrier of Kingston, Ont. post office was presented with an Imperial Service medal for long service. He was a member of the carrier staff for twenty-six years.

LORD STRATHCONA STARTS FOR CANADA

No Intimation Has Yet Reached Government of His Resignation.

OTTAWA, Aug. 24.—The news that Lord Strathcona has sailed for Canada unexpectedly, has revived the stories in political circles that the High Commissioner intends to resign.

The cabinet ministers who are in Ottawa deny all knowledge of Lord Strathcona's intentions, while Premier Borden, with whom the High Commissioner would naturally deal, is out of the city, having left last night for Toronto, where he opens the Toronto exhibition, Monday.

There has been talk of Lord Strathcona's resignation for years, and yet despite his ninety odd years, he has continued to represent Canada in London.

When Premier Borden took office, he made a special trip to Ottawa and offered his resignation to the new first minister, but Mr. Borden personally requested him to continue in office.

While nothing is known at the capital of Lord Strathcona's intention, it is the belief that he is coming to Ottawa to consult the government on a number of important questions; his resignation may be one.

It can be stated definitely that his resignation is not in the hands of the government; a number of names are mentioned as successors. However it is all a matter of rumor and will be until Strathcona's intentions are definitely learned.

The six names mentioned for the High Commissionership are Hon. Clifford Sifton, Sir Hugh Graham, Sir Edmund Gosler, Sir Edmund Walker, Sir Richard McBride and Sir Redmond Robinson. All of these are outstanding Canadians and any one of them would fit the post.

In addition to the question of his retirement, it is understood that Strathcona is to take up with the government the question of a new Canadian building in London. The present quarters are inadequate and the government should have a structure in London, becoming its position as the premier overseas dominion.

The government has the matter under consideration for some time and there is a million dollars on estimates for the work.

Through Lord Strathcona's efforts an option on a suitable site was secured a year ago, but was lost through premature publication of the plans. At present the government has before it a scheme of Earl Grey which is for all the overseas dominions to co-operate in erecting a marine building to house all the offices under one roof.

A syndicate of prominent men interested in imperial questions have secured three options on a site on the strand where such a building could be erected on a site which is centrally regarded and an admirable one.

GERMAN CRUISER SPEEDING TOWARDS NANKING.

BERLIN, Aug. 22.—Advice received by the German foreign office today from Nanking, China, indicate that trouble is impending between the German naval officers and the southern revolutionaries who threaten to bombard the German consulate in Nanking, in which he and the German protected cruiser Scharnhorst are bottled up. The insurgent leader sent a letter to the German consul at Nanking, in which he declared that the Emden had bombarded the rebel positions on Lion Hill, and he announced his intention of retreating on the German cruiser and the consulate. In replying to the rebel commander's letter the consulate denied the allegation. In the meantime the German armored cruiser Scharnhorst is speeding towards Nanking.

Record hunger strike

The longest hunger strike on record was carried out some years ago by a Frenchman named Granie, who was arrested for murder in circumstance, which left no doubt of his guilt. He determined to starve himself to death in order to escape the guillotine, and from the day of his arrest refused to eat in spite of every effort on the part of the prison authorities, who first tried tempting him to eat by placing the most dainty meals in his cell, and when that failed, attempted forcible feedings. Granie held out for sixty-three days, at the end of which time he died.

Carried Many Letters William Nell, superannuated letter carrier of Kingston, Ont. post office was presented with an Imperial Service medal for long service. He was a member of the carrier staff for twenty-six years.

HUNGARY'S PREMIER FOUGHT A DUEL

BUDAPEST, Aug. 22.—(Special.)—Count Stephan Tisza, the Hungarian Premier, fought a duel with swords this morning with Marquis George Pallavicini, a lieutenant in the Austrian army. Both duellists were slightly wounded in the head.

The quarrel arose over the Marquis charging the Premier with trying to influence witnesses in the recent libel suit brought by Dr. Ladislaus von Lukacs, at the time Premier, against Deputy Desacs, who had accused Dr. von Lukacs of corruption.

Today's duel was the third fought by Count Tisza in the present year. Marquis Pallavicini, who is a lieutenant of the Ninth Regiment of Hussars, visited the United States in 1910, when he acted as best man at the wedding of Count Anton Sigray, of Hungary, to Miss Harriet Daly, of New York.

RUSSIAN COUNTESS'S STRANGE DEATH

ST. PETERSBURG, Aug. 19 (Special.)—The Countess Tarnovska, who in 1910 was convicted in Venice of complicity in the murder of Count Kamarowsky, and was sentenced to eight years' imprisonment, was found dead on a St. Petersburg-Kiev express train to-day. She had been hanged. The police are investigating in an effort to determine whether it is a case of suicide or murder.

The Countess Marie Tarnovska, a beautiful Russian woman, was charged and found guilty of having persuaded a jealous young Nikolai Naumoff, to go to Venice from Vienna, and kill Count Kamarowsky, in order that she might obtain a 1,000,000 life insurance, the policy for which Kamarowsky had taken out in her name.

The Countess, it was said, was engaged to marry Kamarowsky. It was charged at the trial that the Countess had a mania for making men love her, and then turning them against one another. It was testified that she had repeatedly embraced Count Kamarowsky in the presence of young Naumoff, and had shown Naumoff forged love letters in order to arouse his jealousy. This was in fact found Naumoff guilty, but mentally unbalanced, and sentenced him to three years' imprisonment.

GREAT SWORDFISH RIPS OPEN BOATS

Remarkable Experience of Halifax Fishermen—Some Narrow Escapes.

HALIFAX, Aug. 23.—Fleets of American schooners have been off this part during the past few days after swordfish. Some thrilling tales were brought in by some of the fishermen.

The crew of the ship Malada say that while cruising four or five miles west of Sarnbro, a swordfish was harpooned and immediately made for the dory and drove his long sword clean through its side up to his eyes, barely missing impaling Owen Fleet and Emos Zinck, who were standing in the craft. The dory filled with water. It was found impossible to remove the carcass by hand, so a hitch was made round the tail with a rope and the schooner, propelled by gasoline engine, towed the fish, and in this manner the brute was broken clear, minus his sword.

Another story related had as principal a man on the Lockport vessel Buema, whom the seamen of the Malada saw and spoke to during their cruise. When the man had driven his harpoon into the floating fish as it rested at the surface the "sword" became all life. He flicked his tail in a mighty sweep and making directly for his hunter stabbed itself into the dory's side. The fish was tightly held. The fishermen prevented the swamping of on either side of the boat, and thus made an effective "hook," so that the dory sailed as well as ever, with part of its construction fish-bone.

Wonderful tales also came from Tancoot. Thomas Langille in his motor boat harpooned one of the big fish, which turned and drove its sword through the flooring of the engine room, and after a violent struggle snapped its sword off, back-ended and rushed away for half a mile before being taken. Clyde Hittle had a narrow escape when he attempted to secure a 300-pound "sword" that had been given to him by a fisherman in his dory, which had been launched from the motor boat for the purpose of hauling in the line and keg-buoy. Suddenly the fish turned and struck the dory, driving his three-foot blade right through the garboard, the sword passing between his legs and grazing his shirt near the elbow. The fish after a struggle extricated itself and made off at a minute's notice. A second dory was secured and after a short chase it was captured.

SHE MAKES COFFIN FOR HER HUSBAND.

GRIZZLY GULCH, CAL., Aug. 23.—After walking twenty-four hours with only a few brief stops, Mrs. Mary Stibling reached Grizzly Gulch today, leading a burro, on the back of which in a rude plank coffin was the body of her husband, P. T. Stibling, a prospector, who was killed on Friday by a cave-in on his mountain claim.

Mrs. Stibling made the coffin with her own hands and brought the body here so it could be buried with suitable rites.

Mrs. Stibling's partner was badly injured by the cave-in. Before leaving the claim Mrs. Stibling made the injured man as comfortable as possible and placed provisions where he could reach them. An expedition carrying aid to him was made up and started from here as soon as Mrs. Stibling's story was told.
