meet the men who pay your rent

These men not only pay your rent . . . they supply 1 out of every 3 jobs in Canada! Because of them, you are able to enjoy such luxuries as orange juice for breakfast . . . gasoline for your motor car . . . bananas and cosmetics.

Who are they? Canada's customers!

And how do they pay your rent? Well, the average Canadian family spends one-fourth of its total income on rent. If you are making \$40 a week, you pay an average of \$10 a week for rent. Official figures, compiled by the Department of Trade and Commerce show that \$3.50 out of every \$10 in the pay envelopes of EVERY Canadian comes directly or indirectly from our Foreign Trade.

So, out of your \$40 weekly, you can thank foreign trade for \$14 every week—which is enough to pay your rent, and still leave some to buy clothes.

Canada's Foreign Trade is not only bringing you vast

benefits right now—it is building future Canadian prosperity. So, if you find a few things you want are still in short supply, and you think perhaps too many are being exported—remember that those exports are building up foreign trade that will mean extra prosperity and security for you and every other Canadian year after year.

And if you are employed in the manufacture or production of any kind of merchandise that can be sold abroad . . . do your job so well that the goods you have made will be desired above all others in foreign markets.

Remember, \$3.50 of every \$10 in your pocket came from our Foreign Trade. Bigger trade—more trade—will mean more jobs . . . better jobs . . . more money . . . for YOU. No matter whether you are employed in a store, factory, office or profession . . . Canada's foreign trade is vital to you.

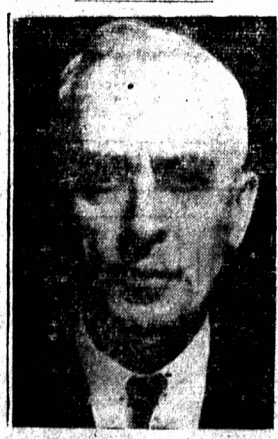

35 cents of every \$100 you get . . . comes from Canada's Trade Abroad

SUPPORT CANADA'S TRADE ABROAD—AND IT WILL HELP SUPPORT YOU

The Foreign Trade Service of the Department of Trade and Commerce maintains 30 offices and a corps of experienced Trade Commissioners abroad, and a staff of experts in Ottawa. This Service gathers up-to-the-minute information, provides a complete import and export service, thus bringing far-away markets to our front door.

Walt Disney Goes Long-haired

HOLLYWOOD, April 9 (AP)—Walt Disney has gone long-haired in a big way and helping him is the long-haired, wide-eyed surrealist, Salvador Dali. The artist is creating a six-minute surrealist sequence which will be part of a Disney feature and believe me, it will be a far cry from the antics of Pluto, Donald Duck, The Way Dali and his co-workers, Disney artists John Hanch, described it, it sounds like Sigmund Freud on a lost week-end.

The story, woven around a Latin-American song, Destino, concerns the destiny of life, I was told. Thus two lovers, who will be live ballet dancers, will scuffle over landscapes created by the master himself. The landscapes are typically dali, laden with cracking telephones and melting watches. I suggested that the artist like telephones and watches.

"Is not like" he answered, "is obsession."

The chase winds up in a pas de deux, or ballet dust, which takes on the semblance of a baseball game. There is even the huge figure of a catcher squatting and signalling with two fingers to the pitcher.

"Baseball is so fascinating," said Dali. "About the game I know nothing. But as an artist I am obsessed rather from Dali's remarks—you gather his remarks; they are fragments of English and French—that he is sold on the animated cartoon as a medium for his unique art. 'Here the motion is so fluid,' he seemed to say. 'You can create effects magnificus. Surrealism will reach immense numbers of people as has not before.'

Walter A. Rugh, P. E. (Ont.), M. E. I. C. Fel, I. R. E., Controller of Radio, Department of Transport, who was awarded one of the 1946 Medals of the Professional Institute of the Civil Service of Canada (above). A second Medal was awarded to the Radio Workers of the National Research Council.

Whitehall Notebook

By JAMES MCCOOK

LONDON, April 11 (CP)—Herbert Morrison, Government House leader, says he thinks the present House of Commons one of the best and most efficient in history, but not Sir John Jarvis, Conservative member for Guildford.

In an address in his Surrey constituency, Sir John said: "It is a poor House indeed to those who have known Parliament at its zenith. It is a noisy Government. There are far too many rude people there."

"Even Cabinet Ministers. Instead of addressing Mr. Speaker, sometimes direct their attacks to individual opponents in a most unparliamentary way. From the Government benches every day there come laughs and jeers as if their supporters were at a smoking concert."

"They roar at the cheapest sneers and jokes, and they even make fun of the names of members of our party. For example Quintin Hogg (Conservative member for Oxford

(they), brilliant son of a famous father (Lord Lord) had to listen to unmanly jeers about pigs and grunts."

Old Days: The Lords took a day to examine rates of pay in the forces and Lord Trenchmore, a veteran of the Boer War and First Great War, said he thought an entertainment allowance of 2s. 6d. (50 cents) daily too small because: "In my younger days, what would half a crown have bought? Fifteen pints of beer, six small whiskies and sodas, or about seven glasses of light port. But what would it buy now? Two pints of beer, about one whisky and soda, about a glass of light, very light port, a packet of cigarettes or a rather indifferent cigar."

Slow replies: Hon. Edward Carson, Conservative member for Isle of Thanet, more in sorrow than anger told the Commons that the War Office required 96 weeks to answer his letters on 16 cases he had raised while the Air Ministry took 151 weeks for 19 cases, an average of eight weeks for each case. Other averages were: Board of Trade, five weeks; Ministry of Education, 3 1/2 weeks; Ministry of Health, four weeks; Ministry of Food, five; Ministry of Works, three and Postmaster-General, 10 or 14 days.
