PASTEURIZED MILK.

The famous researches and discoveries of Louis Pasteur in bacteriology resulted not only in new methods for the prevention and cure of germ diseases in the human system but also in measures for preserving liquids from deterioration.

More recently a similar process, described some months ago in THE GUARDIAN was applied to milk, and this gives us pasteurized milk, which is meeting with an increasing sale in our city from the factory of Mr. J. C. McDonald, Water Street.

It will be seen at a glance that these are notable claims, and the increasing patronage bestowed upon the enterprise shows that on trial by numerous customers among our best citizens the claims have not proved to be unfounded.

We recently referred to Brae Notes sent to THE GUARDIAN and printed in this paper of the 20th instant as false and slanderous.

THE St. John Star of April 11th contains an interview with Dr. Bagnall in reference to the washout on the mainland. The Dr. returned on Thursday evening.

THERE ARE OTHERS but only one Kendrick's Liniment, the greatest modern household remedy.

CITY AND COUNTRY

In numbers indicate success Prof. Earle and his talented family have reason to feel gratified at the result of their weeks of careful preparation as shown by the packed house, which greeted them last evening in the Opera House.

The engineer misunderstood the signals and there was a frightful railroad collision, with terrible loss of life.

It has been the experience of Dr. R. V. Pierce and his staff of assistant physicians, that ninety-eight out of every hundred persons submitting to their treatment can be cured.

Sick people are invited to consult Dr. Pierce by letter free. All letters are held as strictly private and treated as sacredly confidential.

"Last spring I was taken with severe pains in my chest, and was so weak I could hardly walk about the house," says Mrs. G. E. Kerr.

A DUNDAS FARMER

After Many Trials and Failures, and Much Expense, he at Last finds a Cure for his Stomach Leading doctors had said he could not be Cured, but Dodd's Dyspepsia Tablets did it.

One of Hamilton's leading doctors, as well as the local physicians pronounced the case of Donald George Ross, a farmer of Dundas, Ont., one of Chronic Dyspepsia.

They told him his was a very bad case, and gave him no hope of ever being completely cured.

The Dyspepsia had brought on severe headaches and nervousness, which for three years made his life one of misery.

To-day Mr. Ross has no headache or nervousness. He has no indigestion or Stomach Troubles of any kind. He can eat heartily and sleep well.

He tells the story this way:—

"For about three years I have been troubled with headaches and nervousness caused by Dyspepsia. I could not get any relief. The doctors told me I had a very bad case and that I could not get a cure.

"I heard of Dodd's Dyspepsia Tablets and determined to try them. I am now cured. From my experience I believe that Dodd's Dyspepsia Tablets will cure any case of Dyspepsia, and would strongly advise any sufferer who may have failed to find a cure through the doctors or other medicines, to try Dodd's Dyspepsia Tablets.

Mr. Ross's character and reputation for honesty, makes this voluntary testimonial a valuable tribute to the curative properties of Dodd's Dyspepsia Tablets.

No matter what anybody says, or how many medicines have failed in your case, Dodd's Dyspepsia Tablets will not disappoint you.
