Annual Meeting C. W. L. Branch Summerside

The Summerside Branch of the Catholic Women's League held its annual meeting on Thursday in the K. of C. Home, the President, Mrs. Joseph J. Callaghan, in the chair.

Rev. J. J. MacCallan, D.D., V.G.O., was present and in a most interesting and congratulatory address commended the members of the League in the work they had accomplished during the year and urged them to continue in well-doing.

After the minutes of the last annual meeting were read by the Secretary, Mrs. Ida Dawson, the President, submitted her annual report.

PRESIDENT'S REPORT

To the Chaplain, Officers and members of the Catholic Women's League.

Another year has passed and it is my duty as your President to present a report outlining the activities of the year.

During the year ten regular and eight executive meetings besides numerous committee meetings were held.

On April 26th, the Feast of the Lady of Good Counsel, our Patron Saint, a Mass was offered for the members of the League, and at Easter, flowers were sent to decorate the altar.

At the closing of the school, prizes were donated by the League to the pupils of St. Mary's Academy and Summerside High School.

In July the Diocesan Convention was held in Charlottetown, the President, Mrs. McMahon and members of the League attended. A very interesting report was read by the President, who spoke very highly of the courtesy and kindness extended to them while at the Convention.

In September we were honored by a visit from the Past National President, Mrs. MacIntyre, who gave us very interesting talks on the work, aims and objects of the League, which was deeply appreciated by the League. She spoke very highly of the work done by the Sisters of Service, especially throughout Western Canada.

At the suggestion of our Chaplain, a Study Club was organized in October to be held every Friday in the K. of C. Home. The aim of the C. W. L. Study Club is to train women in orderly thinking and clear expression to turn out leaders as well as active workers, to give them a better understanding of the teaching of the Church and the lessons to be drawn from her history. "The Faith of Our Fathers" has been carefully studied and discussed by our Chaplain, Rev. Dr. MacCallan, and members of the League. We are very much indebted to our Chaplain for the interest he has taken in this Club.

In October your Past President, owing to her departure from town, was compelled to resign her office, much to the regret of all the members, who appreciated the interest and time she had so unselfishly given for the good and welfare of the League.

In November, two High Masses were said, one for the souls in purgatory and one for the deceased soldiers. A wreath was placed at the soldiers' monument on Armistice Day.

At Christmas the usual activities were carried on, a number of boxes were sent to the Orphanage by members of the League, also a great number of boxes were sent to those in need in our own church. We are very grateful to the manager of the Theatre for his donation of 300 toys to the League for the poor children. This we sent to the Christmas Community Tree and were distributed to the little children Christmas eve.

The Girl's Guild, which functions under the care of the League, is one of our important branches, and we should endeavour to encourage the girls as well. You can readily see the advantage of such a Club, of the invaluable aid it is to lonely girls, for here they become acquainted with other girls and find companionship and friendships in the Society.

Last month Miss McKenna, of the Red Cross, and Mrs. J. J. Gaudet, former of the Red Cross, gave some interesting talks on health, etc. The practical knowledge gained by these talks are a valuable assistance to the girls. At Christmas they also sent to the Orphanage, and at the present time are making a quilt, which they intend to donate to help pay their expenses.

In the cause of Social Service and Child Welfare, this sub-division has been most active, a great amount of time and money being expended for this good cause. I must emphasize in particular the excellent work done by the ladies of the Sewing Circle, who meet every Thursday, and help make it possible for us to carry on this great work.

It is quite impossible for me to express in words the good that is being done in the department. I can only thank them most heartily for their unflinching co-operation with me in this good cause.

I must also thank the kind sisters of the Convent for their splendid co-operation with us in our work of supplying cocoa to the undernourished children of the Convent. They very unselfishly gave their time in the morning to make the cocoa and give it to the children, which made it quite easy for us to carry out this wonderful work. A more detailed account of the Social Service work is found in the Social Service report.

The funds to carry on our regular work were raised from membership fees, cake sales, card parties, envelope collections and a lottery.

Before Lent we had a series of card parties in conjunction with the K. of C.'s, the proceeds being divided equally. We were glad to cooperate in this, thus helping both societies to carry on. We feel greatly indebted to the Knights of Columbus for their great generosity in giving us the use of the rooms for our many activities. It would be practically impossible for us to conduct so many lines of work without their co-operation, and it is with a deep and heartfelt sincerity that we tender them our grateful thanks.

We have representatives on the Children's Aid Society as well as the Public Library Committee.

Before closing, I wish to extend to our Chaplain, Rev. Dr. MacCallan, our heartfelt gratitude for the interest he has taken in our League,

CENTRAL GUARDIAN

Awarded Medal For Bravery

The letters and address printed below were read at the ceremony on Thursday in the Town Hall, Summerside, when Mr. James McNeill, of Borden, was awarded the bronze medal of the Royal Canadian Humane Association for saving the life of Florence Moran, of Summerside, on Dec. 26, 1932, from drowning in the pond adjacent to the Electric Light Plant at Summerside.

ADDRESS AND PRESENTATION BY MR. MCLEAN

In the first place, let me say that the gathering is different from great many others which I have had the honour to address in that it is a very happy one. The rescuer and the rescued are both alive, while on other occasions it has been a painful duty of making a presentation where someone connected with the accident had lost his life but not so this evening, as I have said, we are all alive and well.

Thoughtfulness: Quick thinking is one of the most important factors in an emergency, especially such as this, was, in trying to save the life of Florence Moran, was instrumental in the saving of this girl.

Kindness: This act shows that our friend James has another splendid trait, that of kindness. It shows that he had spirit and wit; it is unselfishness well developed, and the thoughtfulness of others was uppermost in his mind which prompted him to immediate action and which, as I have mentioned, was instrumental in the saving of this girl.

Courage: These other traits are useless without courage and here again our hero of the hour had the courage of his convictions and acted accordingly. He knew that immediate action was necessary and he did not hesitate to think of the danger to himself—his courage carried him successfully through the ordeal.

Determination: Determination to accomplish the task to which he had set his mind and heart on was another very essential feature in the successful and happy ending to this accident; determination to overcome every obstacle and rescue his friend had taken possession of him and enabled him to carry out his plan.

Medals of this kind are rare and only given when it can be proved that the persons to whom they are awarded had risked their own lives in order to save others in the Royal Canadian Humane Association, of Hamilton, Ontario, after looking thoroughly into this case, have come to the conclusion that James McNeill, on Dec. 26, 1932, risk his life and, therefore, accordingly, have instructed me to present this medal to him and to read the accompanying letter.

ROYAL CANADIAN HUMANE SOCIETY

Letter from the Secretary of the Royal Canadian Humane Society to Mr. James McNeill:

James McNeill, Borden, P. E. Island:—

Sir:—We congratulate you upon having been awarded the bronze medal of the Royal Canadian Humane Association for gallantry in the rescue of Florence Moran, daughter of Mr. and Mrs. J. Moran, Summerside, Dec. 26, 1932.

The record shows that for your prompt action, Florence MacInnis would have lost her life. Your record on that occasion has been examined by our Board of Investigating Governors and our officers are pleased to approve of the award being made.

Yours faithfully,
H. E. Waterman,
Letter from Mayor and Councilors of Town of Summerside:

James McNeill, Borden, P. E. Island:—

Dear Sir:—The Town of Summerside is proud of you and extends to you congratulations on having been awarded the bronze medal of the Royal Canadian Humane Association for gallantry in the rescue of Florence Moran, daughter of Mr. and Mrs. J. Moran, Summerside, Dec. 26, 1932.

The record shows that for your prompt action, Florence MacInnis would have lost her life. Your record on that occasion has been examined by our Board of Investigating Governors and our officers are pleased to approve of the award being made.

Yours faithfully,
H. E. Waterman,

H. E. Waterman,

AVIATION INSPECTOR HERE

Mr. Stuart Graham, Montreal, Inspector of Civil Aviation, arrived in the City by plane yesterday on a routine visit. While here he will inspect the City's flying school, which is in the Moncton-Charlottetown, and Charlottetown-Magdalene Islands air service. He will leave by plane this afternoon for Moncton. He was registered at the Canadian National Hotel.

INVESTURE OF SCOUTS

Two Boy Scouts, Raymond Smith and W. H. Andrew, were invested as members of the Kirk Troop after the regular Friday meeting last evening. There were ten scouts present at the meeting. The rules for gaining proficiency badges, particularly the markman badge, were discussed. Following the meeting eight of the scouts went to the Prince Edward Hospital, where Raymond Smith is confined through illness, and the two new scouts were invested. Congratulations were extended them by the group.

HEAVY ICE IN GULF

Unusually heavy ice is reported lying in the Gulf of St. Lawrence between the Province of this Province and the Magdalene Islands. The C. G. S. Montcalm, which recently passed through the Cabot Straits, and which is now near St. Paul's Island, making the Gulf, has reported reports unusual conditions in those waters. The boys on the "north side" are reported to be jammed with ice on the point on the Charlottetown-Magdalene Islands air mail service states that the ice which two weeks ago formed an almost solid sheet between the Province and the Magdalene Islands, now shows signs of loosening up. The recent strong north-east winds have driven considerable ice into the Northumberland Straits, but during the month of March there was less ice than usual in the passage.

West Australia

Increased Bank Clearances

Bank clearances at the Perth Clearing House totalled \$76,868,819 in 1933, an increase of \$4,616,543, compared with the amount for the previous year, mainly attributable to larger wool receipts, and, to a lesser degree, to improved gold returns. It was the highest figure since \$83,932,408 was cleared in 1930.

Loan Paid For Stinking Fund

A 40-year-old 4 p. c. West Australian loan amounting to \$990,000 has been redeemed from a sinking fund of \$1,106,000, accumulated in London. It reached maturity on January 15. When the loan was floated it was arranged that the State Government should pay yearly into a sinking fund controlled by the Crown agent for the Colonies in London. The loan came under the Commonwealth Financial Agreement in 1929, but the State will receive the benefit of the surplus of \$118,000 in the sinking fund.

West Gold Yield Since 1919

The State's gold yield for 1933 was \$97,307 ounces, valued at \$7,706,882 at approximately \$4 7/8 an ounce, an increase of 31,645 ounces compared with the yield for 1932. This was the highest annual yield since 1919, when \$68,216 ounces was produced. In 1920 the production of gold was 61,788 ounces, and it gradually fell to \$77,176 in 1929, since when there has been a large increase each year. The output for December was 85,874 ounces, valued at \$2,947,789. It was 3785 ounces short of the total for November, but 3621 more than for December, 1932.

168 Ounces From One Ton

Small fortunes are occasionally being made by small mine owners and prospectors. At the beginning of January, F. W. Moloney treated one ton of ore from the Commodore mine, in the Cue district, for a return of 106 ounces of gold, worth over \$600.

Mr. Mach is obtaining rich ore from a prospecting area at Broad Arrow, 25 miles north of Kalgoorlie. He got 85 1/2 ounces from 14 1/2 tons some time ago, and lately 12 1/2 tons returned 95 1/2 ounces. Mach's ground was worked in the early days of the Broad Arrow goldfield, and had been abandoned.

From a lease at Mt. Monger, a few miles south-east of Kalgoorlie, F. Maffina obtained 367 ounces from 16 1/2 tons. Maffina got rich yields several times last year.

Many U. S. Citizens on Indies Trip

(Special To The Guardian)

HALIFAX, N. S., April 7.—The spring sailing of the Canadian National Steamships Line "Lady Nelson", Captain T. R. Coffin, from Halifax to Bermuda, the Lesser Antilles of the West Indies and Demerara (British Guiana) via Boston tomorrow (Sunday) night indicates the growing travel of Americans on these Canadian liners as several of the passengers are from Boston and others from New York, Pittsburgh and Philadelphia.

Among the Canadians who are journeying south on the "Lady Nelson" are, to Bermuda, Mrs. Munro, Mrs. C. T. White, Miss John, N.E. Dr. A. T. Mathers and Mrs. Mathers, Winnipeg. To Barbados, Mr. and Mrs. F. A. Somerville, Montreal. To Trinidad, Miss C. King, Toronto. To Demerara, Paul Saurer, Montreal. In addition the "Lady Nelson" is carrying a good cargo of Canadian products.

ST. CATHERINES WOMEN'S INSTITUTE

St. Catherine's Women's Institute held its regular monthly meeting at the home of Miss Hilda MacInnis on March 14th. The meeting opened by singing "Hail to the Queen," followed by repeating the Creed in union. Roll call was answered by six members paying a nickel. Two members paid their annual fees. There were four visitors. The minutes of the last two meetings were read and adopted. It was moved by Mrs. Annie Morrow and seconded by Mrs. John Inman that the Business Committee be given \$1.25 to purchase material for a quilt.

The secretary-treasurer reported having received the government grant. A questionnaire was filled out.

The next meeting is to be held at the school, roll call to be answered with a question box.

The meeting was closed by singing "God Save the King." A delicious lunch was served by the hostess, assisted by Mrs. John Inman and Miss Jean Moore. The remainder of the evening was pleasantly spent in music and conversation.

Upturn In Economic Conditions Verified

(Special To The Guardian)

MONCTON, N. B., April 6.—Concrete evidence of the upturn in economic conditions in the Maritime Provinces is being verified by the carloadings for the three months ending March this year as compared with last, covering the Atlantic Region of the Canadian National Railways, which show an increase of 15,167 loads. Figures for 1934 being 51,510 cars. Commodities making up this increase included coal, lumber, agricultural products, particularly potatoes and turnips and import and export freight.

Commenting upon the increase in carloadings Mr. W. U. Appleton, General Manager of the Atlantic Region, stated that the winter just passed has been one of the most severe ever experienced not only in the matter of snow but in low temperatures, but notwithstanding these adverse conditions there was no serious tie up of operations.

PEGS DEMANDED FOR VOTE

Charged with writing to David Johnston of Gracilly, Ireland, candidate for membership on the Pig Marketing Board, that he would send him 998 or two good pigs, James Crowley, of Whitecross, was arrested for soliciting a bribe. Crowley said he never intended to vote for Johnston and wrote only as a joke.

SAXOPHONE PLAYED IN CHURCH

To make his church services more attractive, Rev. William Robinson of Ladysmith, Natal, Africa, has introduced saxophone solos and phonograph records. He has fitted amplifiers inside the church and plays phonograph records in place of usual organ preludes. The saxophone solos are described by many of the congregation as "soothing."

NEW GIBRALTAR TUNNEL PLAN

Boring through the straits under the Straits of Gibraltar will not be difficult, according to engineers who are studying the new Gibraltar tunnel project to connect Europe and Africa. They say the maximum depth of the sea at the point is not more than 1,000 feet and the shortest possible distance between the shores is about six and one-half miles.

More Settlers For Maritimes Predicted

(Special To The Guardian)

MONCTON, N. B., April 6.—From the large number of inquiries received from families in Europe and also in other provinces of Canada it would appear there will be a considerable increase in the number of families settling in the Maritime Provinces this season, as compared with last. stated A. W. McKenna, Supt. of Agriculture, Canadian National Railways at Moncton.

The improvement in economic conditions and prices received for farm produce has made it possible, Mr. McKenna remarked, for over-emigrating to Canada to dispose of their property at more advantageous prices and this coupled with reports from families who have settled in the Maritimes during the past three or four years which are more optimistic with the general improvement that has taken place will make them feel confident of making a success in this part of the new world.

Ready Market For Banana Shipments

(C. P. By Guardian's Special Wire)

MONTRÉAL, April 6.—Auctioneering has been received by the Canadian National Steamships to provide 40,000 cubic feet additional space in each of the Lady Draka, Lady Nelson and Lady Hawkins for the carriage of bananas from the eastern group of the British West Indies to Canada. With the 12,000 cubic feet already installed in the Lady Draka, there will be a total of 52,000 cubic feet available every fortnight for the transportation of this fruit to Saint John throughout the year.

The initial consignment of bananas from the eastern group of the West Indies arrived in Saint John last Tuesday afternoon. The Canadian National liner Lady Nelson, according to reports received here, the fruit was in excellent condition and found a ready market in the Maritimes.

The inspector capacity of the 178 approved bachelors under the bachelors approval policy of the Dominion Department of Agriculture provides for 2,048,402 chickens

AWARDED FELLOWSHIP

AMHERST, N. S., April 5.—(Canadian Press)—Allison E. Johnson, M. A., who is now completing a theological course at Emmanuel College, Toronto, has been awarded a \$700 fellowship by the University of Chicago, according to word received here tonight.

Johnson, who has a B. A. degree from Mount Allison and an M. A. from Emmanuel College will take his doctorate degree at the Chicago University.

NEW AIR LINE TO CROSS SEA

Claimed to be the fastest four-engined air liner ever built, a passenger plane having a speed of 170 miles an hour will be placed on the Singapore-Australian line. The machine is expected to cross the Timor Sea, whose 400 miles of water has been the principal obstacle to air service to Australia, in three hours. The plane can climb 15,000 feet within a minute of taking off
