A TRAGEDY OF THE FAR NORTH

VANCOUVER, B.C., Oct. 30.—A despatch from Skagway says: It is believed that James Murray, otherwise known as Moonie, murdered his partner, Jas. Fisk last March at Hallbut Bay, near Selkovia, while insane. The skeleton of Fisk was found recently by natives, with a rifle ball in his back. It was identified by clothing and letters found on the body.

MAY REDUCE SIZE OF BULLSEYES

MONTEAL, Oct. 30.—Owing to the great number of possible scores on the short range at the last Bisley meeting, it is suggested to reduce the bulls-eye at 200 yards to four inches in diameter, inner to fourteen, and magpie to twenty-four, so that if a competitor happens to have one bad shot in his series he may, by delivering other shots near the middle of the target, pull up sufficiently to be in the front rank at the finish.

MUTINY ON A BRITISH BARK

Sailors Subdued by Officers—Landed at Singapore, Tried and Sentenced

SEATTLE, Wash., Oct. 30.—The British bark Dundee, Capt. James S. Stephens, arrived yesterday. The vessel sailed from Bremen on March 4th, bound for Seattle. When she reached Cape Horn in June 10 of her crew of 14 were sick and worn out. Heavy seas forced the ship back, and after beating about the Cape for a week with only three able-bodied men, the other sailors made the captain put about and run for Cape Town. Before reaching that port the sailors recovered to some extent and the captain refused to land in the straits of Sunda in July the crew mutinied and forced the officers to seek protection in their cabin. There they secured guns and subdued the sailors, taking their knives from them. The men refused to work the ship and it had a narrow escape from drifting on the rocks. In Batavia the crew was placed in irons and a crew of coolies navigated the vessel to Singapore, where the sailors were tried for mutiny. Part of the number were sentenced to eleven weeks' imprisonment and the rest to nine weeks at hard labor. The men contended that poor food and the brutal treatment of the officers had forced them to mutiny. On the way to this port a topsail yard was lost in a heavy gale that compelled the vessel to lay to for 10 days.

THE IMPERIAL MANIFESTO

The following is the text of the imperial manifesto issued by the Czar of Russia.

"We, Nicholas the Second, by the grace of God, Emperor and Autocrat of all the Russias, Grand Duke of Finland, etc., declare to all our faithful subjects that the troubles and agitation in our capitals and in numerous other places fill our heart with excessive pain and sorrow. The happiness of the Russian sovereign is indissolubly bound up with the happiness of our people, and the sorrow of our people is the sorrow of the sovereign. From the present disorders may arise great national disruption. They menace the integrity and unity of our empire. The supreme duty imposed upon us towards the Fatherland, to aid in terminating these troubles requires us to face ourself and to use all the force and reason at our command to hasten in securing the unity and co-ordination of the power of the central government, and to assure the success of measures for pacification in all circles of public life, which are essential to the well-being of our people. We therefore direct our government to carry out our inflexible will in the following manner: First—To extend to the population the immutable foundations of civil liberty, freedom of conscience, speech, union and association. Second—Without suspending the already ordered elections to the state Duma, to invite to participation in the Duma, so far as the limited time before the convocation of the Duma will permit, those classes of the population now completely deprived of electoral rights, leaving the ultimate development of the principle of the electoral right in general to the newly established legislative order of things. Third—To establish as an unchangeable rule that no law shall be enforceable without the approval of the state Duma, and that it shall be possible for the elected of the people to exercise real participation in the supervision of the legality of the acts of the authorities appointed by us. We appeal to all faithful sons of Russia to remember their duty towards the Fatherland, to aid in terminating these unprecedented troubles and to apply all their forces in co-operation with us to the restoration of calm and peace upon our natal soil. Given at Peterhof, Oct. 30, in the eleventh year of our reign."

NEGRO LYNCHED IN THE SOUTH

Shot Sheriff Who Attempted to Arrest Him of Murder of Colored Woman.

DAIRYBROOK, Ga., Oct. 29.—Gus Goodman, a negro, was taken from the jail at an early hour this morning by a mob of 50 and lynched on the bank of the river a short distance from the town. Earlier in the night Goodman shot Sheriff Stegall, who was attempting to arrest him for the murder of a colored woman a few minutes before. Although wounded, Sheriff Stegall shot Goodman twice, and the prisoner was placed in jail. A special train was sent to Thomasville for a physician, and after his announcement that the sheriff could not recover, the mob went to the jail, relieved the deputy of his keys and dragged Goodman from his cell. Goodman was strung up with a rope and fully 100 shots were fired into his body.

THIRTEEN KILLED CALIFORNIA EXPRESS

Disastrous Train Wreck Monday on the Santa Fe-railroad

KANSAS CITY, October 30.—Thirteen persons were killed and thirty wounded today in the wreck of a west bound Atchison, Topeka and Santa Fe passenger train known as the "California express," which was running 35 miles an hour, struck a loose rail ditching five cars near the eastern limits of Kansas City. The wreck occurred at Rock Creek cut on a curve where jagged rock walls on each side of the track form a bluff almost 100 feet high. The locomotive was going so rapidly that it passed the loose rail in safety. The mail car immediately behind jumped the track and struck the side of the bluff, and the four cars following ploughed through the wreckage and shot against the high stone wall. The sides of the coaches were crushed against the stone, killing and wounding passengers and trainmen. One smoking car, a chair car and a tourist sleeper car and two express cars left the rails. Three tourist sleeping cars, two standard Pullmans and the dining car remained on the track. The injured were given emergency treatment at the wreck and later was brought to hospitals in Kansas City.

THEY TORE DOWN STARS AND STRIPES

WINNIPEG, Oct. 30.—A sensation was created here on Sunday by the decoration of a Methodist church for harvest home festival services. The work was deputed to an American family in the congregation, and when the church assembled, a blaz of stars and stripes, with the picture of President Roosevelt in the centre, greeted the worshippers. Many refused to enter the building, and some of the flags were torn down. Later in the day they were replaced by Union Jacks.

NEWS FROM THE EAST

THE month is closing fine but cool with some potatoes still to dig. But few are moving to market from this section as the farmer's industries are now moving into other and more modern channels, and the time he would take hauling a load can generally be employed to more advantage at home. The soil here is capable of producing immense crops of potatoes we all know, and our enterprising men are looking forward to the day when the completion of the Elmitra Branch Railway will give capitalists an opportunity of erecting one or more starch factories at the different eastern stations to make a market for the surplus. God-fish are rather scarce at present in our waters and the catch is likely to be small. For some years back a school of squid has been here from mid-summer till late in fall, keeping more or less edible fish pursuing them in our waters, and supplying abundant and attractive bait to the fishermen, but this season the squid has not put in his appearance consequently the larger fish did not follow, and bait has been scarce all summer. Another convenience of modern and enterprising men inspired by the progressive ideas of the age in which we live the fish dryer at Souris, has afforded a ready and remunerative market all summer for fishes in the different stages of curing. Misses Amelia and Ethel McDonald and Laura Mellick have left for Boston. A. W. Bruce and Miss Bessie have been visiting friends in Hullo Bay and vicinity. His business and interests were efficiently looked after by Theodore Fraser during his absence. C. J. McLean has resigned as teacher at Red Point, and the school is now vacant. He left it in an excellent condition. Minard's Liniment for sale everywhere.

ASSAULTED BY CHINESE MOB

LONDON, Oct. 30.—A despatch to the Evening Standard from Shanghai says that Rear Admiral Train, commander-in-chief of the American Asiatic squadron, and his son, Lieut. Train, have been victims of a savage attack by Chinese outside of Nanking. The American officers were pleasant shooting, when the admiral accidentally shot a Chinese woman, slightly injured her. Hundreds of villages thereupon surrounded the officers, took away their guns, knocked the admiral down in the mud, and held Lieut. Train as a hostage. Forty American marines landed as a rescue party, and were attacked by a mob of Chinese, who tried to pitchfork the officers. The marines were obliged to fire twice. The Chinese officials refused to restore the officers' guns, and supported the villagers.
