—PRESBYTERIAN S. S. ENTERTAINMENT—On Monday evening, the Christmas entertainment of the Summerside Presbyterian Sunday School was held in the Church Hall. A large number of children and older ones were present. Lantern slides were shown of the story of Christmas and scenes of Christmas in other lands and in bygone days. Views of Red Riding Hood, the children's favourite, was a special feature of the evening. Moving pictures of wild life in Ontario delighted the children very much. Later in the evening the children presented little tableaux representing Mother Goose. Delightful songs by the little ones added to the charm of the old nursery rhymes. When Santa Claus arrived at the close of the performance he was greeted with shouts of joy. The magic lantern threw a moonlight effect over the platform. Candy, etc., was distributed by Santa Claus and prizes were given for attendance. Teachers and officers were kindly remembered for their faithfulness. Mr. Ralph Ramsay of Charlottetown operated the lantern and movie picture machine very well. Rev. Mr. Jeans was the efficient chairman and wished every one a very happy Christmas.—S.

AIR FORCE PLANES FEED ARMY ON MARCH
 LONDON, Dec. 25.—(By the Canadian Press.)—There is high romance, and a portent of new developments in military strategy, in the story, now told for the first time, of the feeding for two days by two squadrons of the Royal Air Force of a British army on the north west frontier of India.
 A column of 1,000 men left Dargal, a town north of Peshawar, to march to Chitral, nearly 150 miles away in the shadow of the grim Hindu Kush. To the Royal Air Force was delegated the task as an experiment of rationing this force completely for two days. Two halts were fixed, one between Dargal and Malakand (where there is a famous pass) and the other farther in the mountains at Chakdarra. The daily ration consisted of 56 parachute loads weighing 120 pounds, a total of more than three tons of food. At each stopping place a "dropping area" was marked out on the ground to guide the airmen.
 The squadrons on whom devolved this duty of dropping food like manna in the wilderness belong to No. 2 (Indian) Wing, stationed at Risalpur. Fourteen Westland "Wapiti" biplanes were loaded up with the provisions, each carrying four loads a day. Their task was not simple; the region is forbidding and dangerous. Official reports show that on the first day 48 of the 56 loads were successfully parachuted down to the ground, most of them falling within the circle marked out on the ground. Greater success marked the next day's operations, though the flying journey was longer and the territory more difficult, and 54 of the

HOLIDAY DENTIST HAS BUSY TIME

HOBART, Tasmania, Dec. 23.—(By The Canadian Press.)—Charles Rodway, a dentist of this city, slipped a pair of forceps in his pocket when he went on a holiday to Barron Island, a half-caste settlement, in case they might be needed. They were. No sooner had he reached the island than one Bingham, a half-caste, complained of toothache. Mr. Rodway quickly extracted the offending molar. Bingham departed in high feather, to spread the good news. Within an incredibly short time a remarkable epidemic of toothache was raging throughout the settlement. Rodway was besieged with patients from 4 o'clock in the afternoon until 10 o'clock at night. He was going at top pressure, and 101 teeth were parted from their owners. Of course, he extracted only teeth that were better extracted.

There is still little news of the rumored trouble in Russia, but one theory is that they are fighting for freedom from the freedom for which they fought last time.
