A VISIT TO A. HORNE & CO'S CARRIAGE AND SLEIGH EMPORIUM

A COMPLETE RANGE OF THE NEWEST MODELS IN SLEIGHS IS SHOWN TOGETHER WITH ALL DRIVERS' ACCESSORIES FOR WINTER COMFORT.

A Guardian representative had the extreme pleasure of visiting Messrs. A. Horne & Company's sleigh and carriage emporium, and being shown the advanced line of sleighs.

This firm has a representative showing of the full line sleighs, manufactured by the Canada Carriage Company, Brockville, Ont., McLaughlin Carriage Company, Oshawa, Can., and the Tudhope Carriage Company, Orilla, Ont. These lines are conceded to be the most superior on the Canadian market. They are especially adapted to local roads, and local conditions—they are honestly built with honest materials, by honest, competent workmen. These factories are presided over by experts in their respective lines. Each model is designed and constructed for utility and good practical use. Every phase and every condition is taken into consideration. Our representative was also informed that Messrs. A. Horne and Company had a number of these models especially designed to suit Prince Edward Island roads. This is a noteworthy and attractive feature to local buyers. Of course, if it were not for the fact that this firm's placing order being so enormously large, they would have little prospects of succeeding in having the manufacturers alter their designs to suit local conditions. However, Messrs. A. Horne & Company's sleigh and carriage business is so phenomenally large that they are invariably successful in procuring any reasonable features that are advantageous. This firm has for many years past been specializing in carriages and sleighs and it is not too much to say that the factories they represent are among, if not the best in Canada. The reporter was shown a great many different model sleighs all having their own particular features, as regards utility and practibility. There is no requirement in the sleigh line that cannot be supplied at these show rooms. The models are so varied and numerous that anyone who cannot secure what he requires would be very difficult to please.

Messrs. A. Horne & Company are also featuring at the present time a large range of harness, including twenty-five different kinds and styles.

Fur robes is another line that is conspicuously evident in their show rooms. This line includes practically everything desired from $5 up. Sleigh bells and chimes are also given prominence.

Messrs. A. Horne & Company have built up a big business through honest effort and fair dealings with the public. Their business is rapidly increasing from year to year, which is in itself a compliment to the management. This local concern sells their goods either for cash, or if more preferable, customers are given the accommodation required. This is one of the local institutions that the public can point to with pride, one that has grown and developed to wonderful proportions. This growth has been healthy and has been achieved through legitimate efforts and honest dealings.

Anyone desiring to procure anything in the line of sleighs and accessories will not be disappointed if they visit the show rooms of Messrs. A. Horne and Company.

They have a branch show room in Summerside and reliable agencies in all parts of the province, where sample sleighs, etc., are shown. 6719

How Do YOU Class Your Printing EXPENSE or INVESTMENT?

If your one idea is to secure a cheap job, and impress this fact strongly upon the average printer then you will be almost certain to get what you want as regards cheapness, but you will pay for it in full. You can positively class this as an expense.

If, on the other hand, you appreciate the importance of good printing—if you employ the services of a printing office with good facilities up-to-date material, and capable help then you will get a good job at a very moderate price. When brains are mixed with up-to-date printing material the result is sure to be satisfactory—the work will be right. This you can rightly class as an investment.

I have organized my printing shop to high state of efficiency so that I can ensure every client receiving just what he is paying for. If you want low priced work, I can show you low priced stock, and you may rest assured that good taste and up-to-date material will be employed, and the work will be harmonious and effective.

If, on the other hand, you want a high-class job prepared—one that will "stand out" from the ordinary, I believe I can give you just what you want at a price you want to pay.

Get in touch with me anyway. It will cost you nothing, and may mean more than you actually realize.
