Island Rancher Home From Norway

Mr. Howard McKendrick, son of the well known rancher Mr. J. C. McKendrick, who arrived from Hommelvik, Norway, some few days ago is preparing for the return trip which he will make, possibly the latter part of this month.

In conversation with an Guardian representative, Mr. McKendrick stated that today is the anniversary of his first trip to Norway. He left here just one year ago today taking with him a shipment of ten pairs of foxes. He remained in Norway instructing the ranchers how to care for the animals, and they had excellent luck with the undertaking being rewarded with ten fine healthy pups from the ten pairs of foxes.

On his first trip Mr. McKendrick went to Norway direct from New York to Bergen the passage taking about ten days. On this trip, on which he is also taking a shipment of fifteen pairs of foxes, he will go by Germany.

It is Mr. McKendrick's intention to make his home in Norway, and his many friends in the city and throughout the Island will always be pleased to hear of his success.

NORWAY HAS LITTLE FAITH IN ARMS CONFERENCE

CHRISTIANIA, Norway, Nov 14.—Editorials in the newspapers here today agree that the whole world, especially the small nations, is watching the disarmament conference with great expectation. The Aftenposten is doubtful whether the conference "will give better results to a suffering world than did the Versailles treaty."

Entertainment at Falconwood Hospital

The inmates were entertained on Saturday evening by Mr. Patterson of Port Durell who provided a treat of apples, candy and oranges and two tours program of moving pictures.

On Friday evening the patients of Falconwood were privileged to see seven of Mr. Patterson's films and pronounced them to be superior to any so far shown at the Hospital.

Mr. Patterson expressed his intention to forward films for the entertainment of the patients at intervals while he remains in the Maritime Provinces. The Trustees and Superintendent of the Hospital and Infirmary are grateful to Mr. Patterson for his thoughtful and generous act.

CONCERT AND SOCIAL

The concert and basket social held at Webster's Corner Hall Monday evening in aid of Mt. Ryan Church was very successful considering the bad state of the roads.

Rev. Dr. Wm. Monaghan presided. The program was a banner one all the numbers being enthusiastically enjoyed. The concert party was made up of Wm. Rowley, Joe Doyle, George Trainor, Fred Duffy, Wallace Scantlebury, Louise Arsenault, Martina Monaghan, J. Austin Trainor and his little daughter Mary.

Dyed Her Faded Curtains And A Skirt Like New

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies.

Just buy Diamond Dyes, no other dye is guaranteed not to streak, spot, fade or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Shooting The Chutes

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare and really there is nothing better for coughs.

Into a 16oz. bottle, put 2 1/2 ounces of Pinex, then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel the healing membranes in the air passages, dry promptly, and soon you will notice the phlegm, and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and is equally splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound, and gives you a more positive, effective remedy for throat and chest ailments. To avoid disappointment ask your druggist for 2 1/2 ounces of Pinex with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

the court-martial at Fort Slocum, N. Y., thought upon Thomas G. Jones, had saved his life in France, had taken Jones' name, impersonated Jones at the trial and had been sent to Leavenworth as Jones. Haley and Jones were in the British army before the United States entered the war. They were close friends. One night while the unit was under fire an advanced post, Haley was wounded in the leg and disabled. Under heavy artillery and machine-gun fire Jones carried his comrade back to safety, escaping unscathed himself.

The next day Haley crossed the border and surrendered at the nearest army post. He said he was Thomas G. Jones and produced the papers to prove it. It was his plan to serve Jones' sentence so that his buddy would be free to return to the United States.

The programme went without a hitch until a soldier who had known Jones came to Leavenworth. An investigation followed and comparison of finger prints proved that Haley was not Jones. Machinery was at the set in motion to secure his release.

BOSTON, Nov 14.—Seven clergymen today exchanged the ministerial frock for laborers' overalls and went to work in the building trades. It was a one-day job for them, the result of an invitation by the Central Labor Union in return for the clergymen's courtesy asking labor leaders recently to speak from their pulpits.

In pelting rain, Rev. W. Harry Freda drove a cement wagon. Rev. Newton C. Fetter and Rev. C. A. Young worked as laborers on the new Municipal Latin School. Rev. Frank Kingdom and Rev. F. D. Parker piled brooms in a Winter Street building, and Rev. C. S. Stephenson and Rev. A. Smith did odd jobs on other buildings under construction in the business district.

BRITISH CATTLE MARKET

Dominion Live Stock Branch, Cables

November 10th 1921

A late cable from Glasgow, indicates that 137 Western cattle sold on the 9th, inst. from 8 3/4c to 9 2/3c (5d to 5 1/2d). Ninety four Ontario cattle changed hands from 9 1/4c to 10c (5 1/4d to 5 3/4d). Sixty six Canadian cattle were held over.

Scotch cattle of average quality sold from 8 3/4d to 9d, while choice kinds went from 9d to 9 1/4d. Irish cattle ranged from 6d to 6 1/2d. Shipment from Montreal during the past week were as follows: S. S. Passenger to Liverpool, 153 cattle. S. S. Cornishman to Liverpool, 843 cattle. S. S. Lakonia to Glasgow, 367 cattle.

In addition there were 783 cattle billed through Montreal to Boston, Mass., for export to Great Britain on the S. S. Winnifredian.

Said Mayor Moore of Philadelphia at a dinner: "Of course, if the government will spend enough money it can enforce prohibition. That is bound to be a hard job, though. Some of our most law-abiding citizens refuse to take prohibition law seriously. They are like the chap whose cellar was searched by a prohibition officer the other day. 'There are hundreds and hundreds of empty whiskey bottles in your cellar,' the officer said. 'How did they get there, friend?' 'Best, I know!' And the owner of the cellar gave a hearty laugh. 'Best! If I know! I never bought an empty whiskey bottle in my life.'"

Thompson came back to the office looking very brown. 'He had taken two weeks' vacation directly after Easter and so had been able to add several days to his rest period. To the amazement of his boss, however, he went and asked for a few extra days off. 'Why, you've only just had your vacation!' ejaculated the amazed employer. 'What do you want the extra days for?'
