NEW MYSTERY: "Why was Tito excommunicated?"

Mystery man Tito of Yugoslavia lived most of his life underground—as a Communist criminal in the cellars of Belgrade, Zagreb and Split; in the dungeons of King Alexander's jailers and in the gallery of mountainside caves where he and his Partisans plotted their slashing attacks against the Nazis in World War II.

With The Kids On The Playground

O gude ale comes and gude ale goes; Gude ale gars me sell my hose, sell my hose, and pawn by shoon-Gude ale keeps my heart aboon!

The gude ale which Bobby Burns claimed kept his heart aboon, turned out to be the bad ale which sent the famous Scottish poet to an early grave.

The past week has been a busy one on all three squares; many of the boys having returned from attendance at summer camps, and many more just counting the days until they too will be partaking of this happy venture.

The small boys from all squares had plenty to talk about before and after their big hike to Dickerson's Shore on Thursday last. About 65 took advantage of the outing. They left town about 11 A. M. and marched to their rendezvous with the grace and vigor of soldiers fresh from basic, but on the return trip after a busy day of games and sports, they were marching to the tunes of "Tipperary" and "Pack Up Your Troubles" with the care-free attitude of veterans.

Hillsborough Square staged a big time waffle fry on Monday Night at Dickerson's Shore, and from all reports the outing was a huge success, with everyone having plenty to eat, and no casualties resulting from incompetent cooking.

What was intended to be an older boys picnic at Rocky Point on Tuesday of this week turned out to be a small boys hike to Southport, due to the following causes. To make a long story short, the majority of the older boys were stricken with the dread disease going the rounds in this modern age, namely, jazyboyitis, and wished to be provided with taxis to and from the boat. This means of conveyance was difficult to obtain at the time, and it is very unlikely that such will be provided in the future.

The following is a summary of the softball games played during the past week with the winning team being shown after the score. Hillsborough - Connaught 17-12 Hillsborough (Senior girls) Hillsborough - Connaught 17-16 Connaught (Junior girls) Hillsborough - Connaught 7-6 Hillsborough (Senior Boys) Hillsborough - King 22-16 Hillsborough (Senior girls) Connaught - King 28-11 Connaught (Senior girls) Hillsborough - King 16-4 Hillsborough (Junior boys)

There will be a track and field meet on King Square on Tuesday evening, June 20th, beginning at 8 o'clock sharp. A list of the various events will be placed on the square this week, and you are requested to look at this list and find out exactly what events you are eligible to enter. That's all for now folks. Have a good time until we see you next week.

AID FOR ACHING FEET The Illinois Association of Chiropractors thinks that housewives would be much happier and much less tired at the end of the day, if they could get rid of the strain on their feet.

Says the Association president, Dr. George C. Custer of Chicago: "Standing is much more destructive to the arches than walking. Housewives will do well to develop the habit of using a high kitchen stool for stationary chores."

Custer says that standing is such a static thing, it drains energy and causes fatigue. On the other hand, short brisk walks are a stimulant. The Association has decided to help out the housewife. It's compiled a list of rules of foot care

which should help to cut down on exhaustion on the coming warm days.

First—bathe the feet daily, and wipe them till they're extra dry.

Second—don't wear dress shoes for house work. It may not seem tiring to stand for hours in high heels—but there will be a great difference at the end of the day.

Third—change shoes and hose often.

Dr. Custer says statistics show that foot ailments are much too common in American women. For instance, at the age of one year, only eight percent show signs of foot weakness. By the age of ten years, about 53 percent have foot trouble, and when the foot is fully developed at the age of twenty—30 per cent are suffering from bad arches, callouses, corns or what-have-you.

Aerial View Of Murray River

Murray River is one of the beauty spots of Prince Edward Island. It is growing in popularity as a Tourist place. One nice group of cabins are located up the river near the dam which holds what is generally considered to be one of the biggest "ponds" on P.E.I. Many good trout are

taken both in the pond and below the dam. Both Murray River and Murray Harbour are named after James Murray who commanded the left wing of the Army under General Wolfe at Quebec on September 13th, 1759. Mod-

erately sized sailing vessels can come right up the river to the wharves here. The famous schooner "Skyhawk" can still be seen there frequently. There are several small industries including a splendid meat canning plant.
