...COMPLETE WORK.—Messrs. L. McCormack, and Earl Dingwell, Fortune, have almost completed their contract. The contract was let by Mr. Charles Stevenson, the work being the improvements on the beautiful drives and walks on Abel's Cape one of the old historic spots of Fortune. Report has it that in the days of Captain Kidd, treasure was buried on Abel's Cape and lots of treasure seekers have tried to locate it and report also has it that one man did find some a number of years ago.—F.

...A PRIZE WINNER.—The competition held by the Courier, for the best written letter on Santa Claus, open to all Canadian children under 12, closed some time ago, and it is decidedly gratifying to note that the first prize has been carried off by one of the little Island girls, Miss Roma Stewart of Georgetown. When one considers that the competition was open to all Canada, and that the second and third went to different provinces, it becomes a most pleasant duty to congratulate this Island girl on having so successfully upheld the honor of her province and town, and her friends hope that in the future they shall hear more of the results of such talent.—G.

...WINTER SPORTS.—A meeting of the Georgetown Hockey Club was held Wednesday night to discuss plans for the coming winter and to elect new officers. The meeting opened at seven-thirty with last year's president, Mr. John Boudreau, in the chair. A new set of officers were elected, and then the club members began a discussion, as to the advisability of introducing some changes. Several resolutions were passed, relating to membership, etc., but the most important was the resolution to enter the intermediate league during the coming season. Although the Georgetown boys labor under serious disadvantages, compared to their Charlottetown and Summerside confreres, as regards rink space, etc., nevertheless those who have seen them play, have witnessed a brand of hockey that may well make other teams look out for their laurels. The baseball club gave the Charlottetown boys a mighty half-hour last fall, though with a hastily-formed

team, without coaching and with very little practice, and they will doubtless add further to their reputation this winter.—G.

...SMELT SCARCE.—Smelts are reported to be very scarce by the Fortune Fisherman at the present time.—F.

Shares each \$100

The Eastern is a Sound, Safe Good Fox Proposition

The Eastern Black Foxes, Limited is a breeding and selling company calculated to pass the objections offered by the most conservative investor—and to meet the demands of those who desire to invest in a company that is sound, safe, good and reliable in every respect.

The company has been incorporated with an authorized capital of \$195,000, divided into 1950 shares at \$100 each but the full capitalization is not being issued at present—just sufficient stock is being issued to pay for the five pairs of foxes now owned by the company and the necessary expenses for the first year.

The Foxes, Now Owned, Are The Best in Both Fur and Breeding

The high quality of the foxes now owned by the Eastern company is proven by the fact that the average purchase price was \$18,000 a pair. Five pairs have been secured and are the very best stock obtainable both for fur quality and prolific breeding strain.

this company and there are not many young companies before the public to-day with breeding stock so wholly good, capitalization so moderate, prospects so good and the directorate more reliable.

Options sold. The company has already sold, under agreement of sale, 3 pairs of 1914 pups. If enough pups are born to fill these sales it will mean a dividend of at least 30 per cent, on the entire amount of present stock issue.

A Word About the Ranch --Ranching Done at Cost

Because of the lateness of the season the directorate has thought it advisable to defer the construction of the Eastern ranch until the spring. It is now so very near breeding time that the shifting of the foxes might prove inimical to results and for that fact the foxes have been boarded out for the winter at a cost arrangement that will not exceed 1 or 2 per cent. of the value of the increase.

The ranch, when built, will be located near Charlottetown and the ranching will be done at the actual cost of feeding and looking after the foxes—not on a percentage basis as most companies are figuring on.

The ranch management including a day care-taker, night watchman, veterinary, etc., have not yet been secured but the company will spare no effort to make such details equally good with the best now before the public.

The Time to Invest is NOW---

There are hundreds of people on the Island to-day—you know of some of them—who have regretted that they didn't invest in the fox business before this. Of course you know your own business best but if you want to get in on the ground floor of a black fox proposition we heartily recommend the Eastern, where your chances of loss are most remote and the possibility of profits extremely bright.
