BERMUDA HEARS LITTLE ABOUT WAR

No Automobiles, Street Cars or News from Europe to Disturb Tourist.

BERMUDA, January 27.—Bermuda winter still maintains its reputation of being a semi-tropical land. What cannot be done to-day is left over till tomorrow, and what is not accomplished to-morrow is deferred till next week.

Bermuda is, at the same time what it has always been, an ideal ocean rest for the valetudinarian who can relax the day long, undisturbed by street cars, or automobiles, both of which are excluded from the island.

It is as if by a wave of the magician's wand that the tourist leaves the frost and cold of a northern climate and comes here, in the space of three days, to find roses and the narcissus blooming in the gardens, and a whole host of strange vegetation, from vines to cactus, the palm and the rubber tree, springing up at the most unexpected places.

At least for all but a fragment of that time may had to eat food containing much waste matter. He then developed a muscular digestive tube, forty feet long, of handling it. When waste matter is removed from food as in refined cereals, these muscles do not function, but become weak and constipated results. We have inherited our ancestors' anatomy. By returning to a diet of entire grains we restore function in the bowels and relieve constipation.

Milk has been used liberally to stimulate the French soldiers before they go into battle and its effects have been such that the French Government has urged the sale of milk, in preference to other soft drinks, behind the trenches when the soldiers go off duty for their spells of rest and recreation.

Forty-six British missionaries belonging to the Universities Mission are still prisoners in German East Africa. There are forbidden to receive letters, and all efforts on the part of the British Government to secure their release have proved ineffective.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderrine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, and incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Farm for Sale At Milton

The undersigned offers for sale his farm at Milton, consisting of 140 acres with new dwelling house and outbuildings all in good repair; also crop and farming implements. Only 1/2 mile from Milton Station.

ST. DUNSTONS CATHEDRAL SPOTS OF INTEREST IN AND AROUND BAY FORTUNE

The harbour of Bay Fortune made memorable by the visit of the war ship commanded by Lord Townshend, in which Capt. Marryot sailed as midshipman, is situated about six miles southwest of Souris by water and two or three miles further by land; on the south side of the harbour is Abels Cape, where the site is still visible of the old house occupied by Edward Abel, agent of Lord Townshend, proprietor of Lot 50, who Capt. Marryot says was villain enough to be Steward of any gentleman's estate.

ST. DUNSTONS CATHEDRAL

General Statement St. Dunstan's Cathedral Building Fund for Year ending January 31st, 1916.

Table with columns: EXPENDITURE, To total Ordinary Expenditure, To Net Capital Expenditure.

Table with columns: RECEIPTS, By Total Ordinary Receipts.

Table with columns: CATHEDRAL DEPT., 1915 Jan. 31 To Amount Debt, Less Payments this Year.

Table with columns: 1916 Jan. 31 To Balance— Still due.

HUMAN RACE HALF A MILLION YEARS OLD.

At least for all but a fragment of that time may had to eat food containing much waste matter. He then developed a muscular digestive tube, forty feet long, of handling it. When waste matter is removed from food as in refined cereals, these muscles do not function, but become weak and constipated results.

MILK AS A BRACER.

The Pasteur Institute of Paris has just made the declaration that one of the most powerful stimulants known is milk. It has been in use for months now as the one stimulant for the French soldiers in the trenches, and its effect on them has simply justified the statement made by the famous institute in regard to it.

Abel's Cape has frequently changed owners since the death of Abel, and now, with the exception of a few acres on the point of the Cape where the cremated remains of C. P. Floccon, the previous owner, are buried, owned by Milton R. Dingwell, who within the past twenty years has established and built up one of the most successful country stores in the province.

IMPRISONED MISSIONARIES.

Forty-six British missionaries belonging to the Universities Mission are still prisoners in German East Africa. There are forbidden to receive letters, and all efforts on the part of the British Government to secure their release have proved ineffective.

AGE OF HENS.

"With the vast improvement in the feeding of poultry which has taken place during the last few years," says "The Farmer and Stock Breeder," "there is a decided tendency on the part of purely egg farmers to keep the hens a third season. The saving in the rearing is held to compensate for the lessened egg output. Hens that have been fed on the nitrogenous side from chickenhood, and never allowed to get fat internally, are younger in the third season, and will produce more eggs than hens of the second season that have been on all starchy grain."

AGE OF HENS.

"With the vast improvement in the feeding of poultry which has taken place during the last few years," says "The Farmer and Stock Breeder," "there is a decided tendency on the part of purely egg farmers to keep the hens a third season. The saving in the rearing is held to compensate for the lessened egg output. Hens that have been fed on the nitrogenous side from chickenhood, and never allowed to get fat internally, are younger in the third season, and will produce more eggs than hens of the second season that have been on all starchy grain."

CANT BELIEVE ALL YOU HEAR.

Anxious Railway Guard (as the train stops at the station) Excuse me—Sir, did you happen to hear cries for help as we came along? The Young Officer (delighted)—Oh, by Jove! Could you hear me. I was just practicing the Command "Halt!"

SPOTS OF INTEREST IN AND AROUND BAY FORTUNE

(By Mr. I. C. Underhay, Bay Fortune)

The harbour of Bay Fortune made memorable by the visit of the war ship commanded by Lord Townshend, in which Capt. Marryot sailed as midshipman, is situated about six miles southwest of Souris by water and two or three miles further by land; on the south side of the harbour is Abels Cape, where the site is still visible of the old house occupied by Edward Abel, agent of Lord Townshend, proprietor of Lot 50, who Capt. Marryot says was villain enough to be Steward of any gentleman's estate.

Abel's Cape has frequently changed owners since the death of Abel, and now, with the exception of a few acres on the point of the Cape where the cremated remains of C. P. Floccon, the previous owner, are buried, owned by Milton R. Dingwell, who within the past twenty years has established and built up one of the most successful country stores in the province.

an open sleigh without a fur or anything approaching one, a sleigh with fur robes never having been seen in this part of the country at that time. During the later years of Mr. Douglas' ministry the first carriage made its appearance at the church grounds a very humble affair with wooden axles and wooden springs, but was then thought quite a grand equipage.

About half a mile farther west is the site of the old French mill, with the old dam which scarcely a noticeable change effected by the passage of eighty years and the trees are still green that shaded the spring. A few chains up the stream from which we daily drew our supply of water for the school, and whose crystal fount supplied the emblem applied by the old Revd. Dr. Wiggins, father of Lady Davies, that admitted the writer's membership in the church visible this farm was then owned by John Townshend, a brother to Mrs. Wiggins.

On the same farm Mrs. Hubbard, mother of ex-Governor Rogers' first wife, was born and in the same house occurred one of those occasional proofs afforded us of the communion of spirits although the material bodies may be separated by many miles of sea or land. In the early part of the nineteenth century a young man left a comfortable and prosperous home in Devonshire, England, when about eighteen years of age to the great grief of his mother, to seek his fortune in America. After various adventures and changes came diminishing the amount of money he brought with him, he with his wife were occupying for a time the house in which Mrs. Hubbard was born when on their awakening one morning he said to his wife that he was sure that his mother was dead as he had plainly seen her in the night standing by his bedside. A month or two later he got a letter from England informing him of the death of his mother and as the date of her death seemed to correspond with the date of his vision further correspondence revealed that she died as

near as they could make out about the same hour that she had appeared to him and that just before her death she went into a sort of trance and when she came out of it she said "I have climbed the steep rock and seen him whom I have long wanted to see" and then closed her eyes in death. This farm is now jointly owned by Wallace Dingwell and his sister Sarah Dingwell now of Alberta. (To be continued)

UNWINDING THEM

A man came home the other evening and found his three children—a boy of seven, a girl of five, and a baby—all busy on the floor with his new box of cigars. "What are you doing with these cigars?" he roared. "Oh father," said the boy, pointing to the brown tobacco remnants on the carpet, "we was pretendin' that they was khaki soldiers, and we took off their puttees, and now we can't get them on again."

Fairville, Sept. 30, 1902. Minard's Liniment Co., Limited. Dear Sirs—We wish to inform you that we consider your MINARD'S LINIMENT a very superior article, and we use it as a sure relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it.

Yours truly, CHAS. F. TILTON.

How a Happy Home Can be Maintained

It very largely depends on the Mother's disposition; if she is animated and bright, everyone is happy; but if she is nervous, irritable and cross—everything goes wrong. Bright cheery women usually use Ferrozine, the greatest health-maker known. By acting through the blood Ferrozine is able to reach all the organs that need assistance; it establishes regular and healthy action of all functions, builds up the general health, fortifies the system with a reserve of energy that defies disease. Don't put off—Ferrozine costs only 50c at any Drug Store; get it today.
