ANNUAL MEETING.—The annual meeting of the Charlottetown Steam Navigation Company was held yesterday. There was a good attendance. Considering the falling off in passenger traffic in general owing to the war, the returns from that source were fairly satisfactory. Some correspondence, relative to the disposal of the boats, including an offer from parties in Nicaragua, South Africa, was discussed, but nothing definite was done. It is possible that the boats may be sold in a short time. The following directors were re-elected:—A. E. Inge, President; John Richards, W. W. Owen.

## PROVINCIAL SEED FAIR

(Continued from Page One.)

between this and the poorest sample, which was bright, but no sufficiently graded. All the exhibits in this section were particularly good. There were very few exhibits of barley, but all were good.

Mr. J. Leslie Tennant, one of the judges in Class C, remarked upon the exhibits in that class as follows:—The wheat exhibits were of fair quality, some of the samples were not well graded and in a few of them wild peas were present in rather too large numbers. Most of the exhibits of white and white Russian were badly mixed. All the wheat was somewhat softer than in 1915. The first prize white oats were plump and uniform in size, some of the other entries were not well graded. All the samples showed unevenness of ripening. Black oats were of exceptional quality, all the entries being good. That winning first prize was very plump and thin in the hull. Most of the entries in barley were plump, well ripened and well graded. There was an exceptionally large number of entries in timothy seed. The first three lots were quite free from weed seeds, but were lullied slightly. Some of the samples were not well cleaned. A few entries were turned down on account of the presence of sheep sorrel. The colour of most of the seeds was a little dark owing to had weather conditions at harvest time.

Mr. Robert Robertson, one of the judges of potatoes said: Potatoes, as was to be expected, from the excellent exhibits shown here in previous years, the number of exhibits were not as great as in previous years. Most of the exhibits showed careful and skillful selection and in many cases it was extremely hard to decide between them. But a very few were shown that might not be placed well up in the prize list. Evidently the exhibitors had come to recognize the fact that only well selected and prime quality of potatoes need expect recognition. As usual the McIntyre formed the largest exhibit and many excellent entries had to go unplaced. In the class of "Any other Variety named" very great difficulty was experienced in selecting a winner, and some excellent exhibits were left after the prize winners were selected.

Following are the winners of special prizes:— Richards Silver Cup for best sample of white banner oats or Ligowo oats or white flax or Russian wheat and six rows of barley to be grown by exhibitor who is a member of a farmers' institute, awarded to E. J. Vessey, York. Silver Cup donated by Mr. F. R. Hearty, for best sample of oats from fields that competed in the standing grain competition, 1915, won by Mr. E. J. Vessey, Little York. Silver Cup donated by Hon. Charles Dalton, for largest and most creditable number of exhibits in sections 1 to 22, awarded to Mr. E. J. Vessey, York. Collection of Island Weed Seeds.—1, Henry Moyle, Central Bedouque; 2, Fred Moyle; 3, Alberta Dunn, St. Eleanors; 4, St. Eleanors School. Flax Seed.—1, Geo. McFarlane; 2, E. J. Vessey; 3, Judson Simpson. Timothy Seed.—1, Geo. McFarlane; 2, Geo. A. Jeffrey; 3, E. J. Vessey; 4, John W. Profit; 5, Artemas Clark; 6, Alex. McFarlane. Collection of Garden Seed.—1, Fred Moyle; 2, Fred Moyle; 3, Fannie Arsenault, Central Bedouque; 4, Mrs. Allan McLeod, Rose Hill.

The Fair will be concluded to-day with the sale by auction of all the prize seeds, which will take place at 10.30.—C.

NEW YORK, March 1.—It has been known here that a daring attempt to steal a sum estimated at \$1,000,000 consigned to New York banks, had been made on Saturday morning by burglars who broke into a United States mail van while it was on a ferry in transit from the Jersey Central Railroad.

The Post Office inspectors who have been detailed to the case admitted that the thieves had secured several packages other than those consigned to the banks, but those consigned to the banks, and those consigned to the Post Office, were not touched. They also refused to make any statement as to how the robbery was perpetrated.

## THE HORSE QUESTION

The report of the directors of the Clydesdale Horse Association of Canada which was made at the annual meeting held early this month refers to the unsatisfactory condition of the horse market during the past year and its bad effect on breeding operations. The report says in part: "Not obtaining ready sale for their surplus horses, farmers were backward about breeding their mares. In our opinion, the present market is not a very profitable one for the horse raiser. Unless all signs fall 1916 foals will be mature. While Canada has not felt the influence of the war upon the horse supply to any large extent as yet, this does not apply to other countries. Thousands of horses have been taken from the United States during the year, and the available supply here must be greatly reduced. But in the countries of Europe directly affected by the war that the greatest depletion in horse flesh has taken place. "Not only will there be an increased demand for market animals but the country may be drawn upon at a distant date for breeding stock. When that time comes there will be a tendency on the part of the farmer to part with his good breeding mares, in fact, too many females suitable for breeding have been sold already during the buying of remounts. Farmers would guard against this. It is a mistake to part with good brood mares under any circumstances, and especially now, when the outlook is bright for the future of the horse industry when war ceases. Not only

IT IS THE REAL THING AT LAST AND LONDON IS QUIVERING WITH EXCITEMENT

LONDON, March 1.—London is tense with excitement waiting for news that the German fleet is coming out to give battle in the North Sea, or signals warning of the approach of a great Zeppelin fleet. "It is the real thing at least," wrote the military critic of the Times. "The decision of the enemy to put his forces to the test will be received with fierce delight by every allied regiment in the west. Four miles from Verdun the greatest artillery and infantry battle in the history of the world is being waged over the ruins of Fort Douaumont. The position has changed hands time and again since Brandenburgers stormed the shell-worked pile of debris late on Friday after the most terrific cannonading."

## "He is Always Telling Others About Them"

BROTHER AND SISTER CURED BY DR. CHASE'S KIDNEY-LIVER PILLS—NEWS OF CURE TOO GOOD TO KEEP.

In this letter Mrs. Hurley relates how glad she and her brother are to tell how they were cured of indigestion and kidney trouble by Dr. Chase's Kidney-Liver Pills. "That is the kind of enthusiasm Dr. Chase's medicine arouse and that is why they are so generally known and used today. People who are cured tell their friends and neighbors, and so the word is passed along. From the limits of Dr. Chase's practice at Ann Arbor, Mich., the good news of these medicines travelled until they are known the world over and considered indispensable in many thousands of homes. This is the kind of letters we are receiving daily and there can be no mistake in the enthusiasm expressed here. Mrs. J. J. Hurley, Upper Handwell, York, Co., N.B., writes: "I suffered from indigestion for two years, and tried a great many kinds of medicine, but got no lasting relief until I used Dr. Chase's Kidney-Liver Pills. I would take severe vomiting spells and be weakened down so that I could not do my work. I shall never be able to give the medicine enough praise for the benefit derived from its use, and will strongly recommend it to all my friends. "My brother has also used Dr. Chase's Kidney-Liver Pills and they have entirely cured him of lame back and kidney trouble. He is always telling others about them." Dr. E. L. Brine writes: "I can certify that this statement of Mrs. J. J. Hurley is correct in all details." Chronic indigestion is almost invariably associated with torpid, sluggish action of the liver, kidneys and bowels, and can never be really cured until these organs are awakened to healthful action by such treatment as Dr. Chase's Kidney-Liver Pills. ## THOUSANDS OF BABIES DIE BEFORE ONE YEAR

It is estimated that thousands of babies die in this country before the age of one year, and it is stated that one-half of these deaths are needless if all mothers were strong and infants were breast-fed.

Expectant mothers should thoughtfully strive to increase their strength with the strength-building fats in Scott's Emulsion which improves the blood, suppresses nervousness, aids the quality of milk, and feeds the very life cells.

Physicians prescribe Scott's Emulsion; it is doubly important during nursing. No drugs. Every druggist has it. Always insist on Scott's—the white food-medicine. No advanced prices. Scott & Bowne, Toronto, Ont. 13-27
