for the term yesterday with a large attendance, has been thoroughly renovated and repainted during the holidays and presents a splendid appearance. The walls of the classrooms are beautifully toned and the lighting arrangements tend to make day or night study equally pleasant and convenient. New typewriters have been added to the equipment which is thoroughly up to date.

visited the province—The Reverend Major W. F. McConnell, B. A., B. D., who has recently been appointed Dominion Organizer of the Presbyterian Church, spent Sunday and Monday in Prince Edward Island, on behalf of the Presbyterian Association. Major McConnell is organizing Presbyterians who are opposed to Church Union, so that they may take the necessary steps to prevent the Presbyterian Church from passing out of existence. He is a distinguished scholar and preacher, and during the war served with distinction as Chaplain in the Canadian Forces. Major McConnell has ready organized New Brunswick with great success. He left Charlottetown yesterday morning for Nova Scotia, and from Nova Scotia he goes to the Canadian West.

police court.—A man recently arrested for collecting money and failing to make a proper return was given six months suspended sentence by the magistrate. He made restitution of the money collected and was given a twenty-four hour stay to get out of the city. A breach of the Motor Vehicle Act was dismissed.

A WORLD TOUR.—Rev. Dr. Edwin Simpson and Mrs. Simpson, formerly of Belmont, this province, are at present in Charlottetown, guests of Mr. and Mrs. J. A. Clark, Experimental Station. They have just returned from an eight months world tour, going by way of Panama, across the Pacific, to Japan, China, India, Egypt, Palestine, Greece, Europe, to England and Scotland, and returning by way of Quebec. Needless to say the tour was a most enjoyable and profitable one, and a description of it will probably form the subject of many lectures in the not distant future. By request Dr. Simpson will speak at the Wednesday evening service in the vestry of the Baptist church on impressions received in Bethlehem, Jerusalem and Gallilee.

THURSDAY
\*Quite a number of women and girls left Harmony Jct., Monday for Boston, among the number were: Mrs. Flora McDonald, Rockbarra; Miss Margaret McDonald, Rockbarra; Miss Kate McDonald, Rockbarra; Mrs. Dunphy, and three children, Hermanville.

\*HOLY TRINITY CHURCH.—The following services will be held in Holy Trinity church, Georgetown, the 15th Sunday after Trinity (September 9) 8 o'clock Holy Communion 11 o'clock, Holy Eucharist and sermon 2:30 o'clock, Sunday school, 7 p.m. Rev. Father W. F. Cotton, officiating.

TO BOSTON BY MOTOR.—A motor party consisting of Misses Isabelle D. Nicholson, Orwell Cove, Isabelle J. McLeod, Point Prim, Florence McLeod, Valleyfield and Mr. Angus McDonald, Hartsville, left this morning for Boston on a short visit.

SAFETY FIRST.—A boy in Bayfield, N. B., met with a painful accident a few days ago in a very simple way. With some other young folks he went for a car ride about dusk. While some three or four miles from home his car stopped. He presumed that he was out of gas; accordingly he set about to investigate. Lighting a match he attempted to "peer" into the gas tank but of course an explosion took place and the boy spent several days in bed afterwards a bit wiser and a bit sorer about the head and eyes. Moral—don't look for gas with a lighted match.

REPAINTED.—The Union College, which opened

MRS. MISENER'S ACHEs AND PAINs

Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branchton, Ont.—'When I wrote to you for help my action was mostly prompted by curiosity. I wondered if, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' I worked on munitions, and, in the heavy lifting which my work called for, I strained myself, causing inflammation from which I suffered untold agony, and I often had to give up and go to bed. I had doctor for years and without getting permanent relief, when I started to take your medicine." —Mrs. GOLDWIN MISENER, Branchton, Ont.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

GRADED HOGS.—The first carload of Island hogs brought by grade in accordance with the new Hog Grading Regulations, was assembled at Emerald on August 29th, Mr. J. Watson Fyfe being the purchaser. At the request of the farmers, Mr. Fyfe had the hogs graded by the government grader and paid a premium of 1c per lb. on all hogs grading "Select."

FAMILY REUNION.—Among the guests at the Revere yesterday were Mr. and Mrs. G. R. McMahon, of Kensington, and their sons, Rev. P. L. McMahon, Souris, M. P. McMahon, Kamloops, B.C., Peter M. and Mrs. McMahon Ella and Parnell McMahon, Kensington. They returned to Kensington in the afternoon.

WEST AND CLYDE RIVER.—Services Sunday, Sept. 9th, West River 11 a.m., Clyde River 3 p.m. Subject: "Abram's Altar." Sabbath School one hour before each service, when Miss Haslam will address the children. As this is Communion Sunday at Canoe Cove there will be no service at West River in the evening.

PLEASANTLY REMEMBERED.—On Sunday morning a very pleasant event took place in the Methodist church, Souris, when the pastor read an address to Miss Wanda Acorn, and presented her with a lovely bag, etc., on behalf of the friends and members of the church. Miss Acorn, being taken by surprise, made a sweet reply. The occasion being on account of the young lady leaving home for W. C. Her many friends wish her success in her studies.

MEMORIAL DEDICATED.—On Sunday evening, Aug. 19, at St. James' church, Port Hill, a beautiful desk copy of the Book of Common Prayer was dedicated to the glory of God and in loving memory of Edward Gorrell. The late Mr. Gorrell was baptized in and for many years a member of St. James' church. This beautiful and appropriate memorial has been placed in the church by the widow of the late Mr. Gorrell.

SEES BRIGHTER OUTLOOK.—Mr. J. E. Dalrymple, vice president in charge of traffic of the Canadian National Railways who recently visited New Brunswick, Nova Scotia and Prince Edward Island, has returned to Montreal and reports having found many evidences of a strong tendency towards betterment of business and general conditions in the Maritime Provinces. Crops have been good in all sections. Much activity is shown in lumber, pulp and manufacturing industries and labor conditions appear to have returned to normalcy, he reports.

\*MONTAGUE MATINEE RACES, Friday, Sept. 14. Three classes. Class A, premium 100 bushels oats. Class B, premium 75 bushels oats. Class C, premium 50 bushels oats. Entries close with Secretary Saturday, Sept. 8. Also a match race will be held between Longset, 2:06 1/4, owned by H. Kelly, Southport, and Edgeron, 2:15 1/4 owned by James McDonald, Georgetown. T. G. Ives, secretary.

\*NARROW ESCAPE.—What might have been a very fatal accident, occurred at Morell, Saturday, Sept. 8, when Mr. Joseph A. McDonald of St. Peter's Lake, returning from the Marie Races, had one of the hind wheels of his buggy smashed off by a car running into it from the rear. Mr. McDonald with his sister and another girl were driving down Main St. where a car coming at full speed in a by-street frightened the animal causing her to jump. But Mr. McDonald by his skilful management succeeded in raising his mare to the left, leaving ample room for the car to pass. Instead of doing so it crossed the street and came on behind McDonald's rig; the result being a bad smash-up. Luckily the mare, which was up only a three-year-old was quiet and did not attempt to kick or run. Had it not been so the accident would likely have had a much more serious ending.

HAZELBROOK CIRCUIT.—Rev. R. W. Lindsay will conduct services on Sunday Sept. 9, on his field as follows: Cross Roads at 11 a.m.; Alexandra at 3 p.m.; Hazelbrook at 7 p.m. The speaker for the reopening service at Hazelbrook, Sunday evening Sept. 9, will be Rev. N. A. Whitman of Bedouque. There also will be a roll call on Monday Sept. 10, at 7:30 p.m. Prayer meeting Wednesday Sept. 12 at 7:30, a public meeting of the Women's Missionary Aid Society on Friday, Sept. 14 at 7:30 p.m., addressed by Rev. C. A. Armstrong of Montague, and Conference meeting Saturday Sept. 15, at 3:30 p.m.

SOCIAL SERVICE COUNCIL.—The annual meetings of the social Service Council which will be held in Charlottetown on Friday are open to the public. The morning session at 11 o'clock is of a business nature, but the afternoon and evening meetings should prove of great interest to citizens generally. The afternoon meeting will be in the Board of Trade Rooms and the evening meeting in the Strand Theatre. In addition to local speakers there will be present Miss Lantz, of the Children's Bureau, Montreal; Rev. A. J. Prosser, Superintendent of Children's Aid Society work in Annapolis County, N.S., and Dr. Shearer, general secretary of the Social Service Council of Canada.

BURKE — GAMBLE WEDDING A very pretty wedding was solemnized at 7:45 yesterday morning at the residence of the bride's parents, 86 Upper Hillsborough St., when Miss Lila May daughter of Mr. and Mrs. W. E. Burke became the bride of Mr. Elmer Claude Gamble of Rose Valley. The ceremony was performed by Rev. M. Ryan Pastor of the Methodist Church. The parlor was attractively decorated with cut flowers and potted plants. The bride who was given away by her father and unattended, was attired in a travelling suit of navy blue, with brown picture hat and carried a bouquet of sweet peas. The wedding march was pleasingly rendered by Miss Pearl Johnson. At the conclusion of the ceremony a wedding breakfast was served after which the happy couple left on a short honeymoon trip by motor throughout the province. The bride who was formerly a popular teacher at Lady Catherine, Tryon, was the recipient of many beautiful presents of silverware, cut glass and table linen. The Guardian joins in heartfelt congratulations.

A bad accident occurred at Augustine Cove yesterday afternoon which resulted in the death of Mr. Peters, a young man twenty years of age, of Augustine Cove. He was engaged with several other men in pulling down an old building on the property of Mr. Philip Leard, owned by Mr. Ed. McPady, and while working on a raised bench about eight feet from the ground fell with the timber, which suddenly gave way. His head caught between the timber of the bench and the ground and his skull fractured.

The accident occurred about 4:30 p.m., and the unfortunate man lived only twenty minutes. The collapse of the woodwork was so unexpected that no one noticed just how it occurred. Mr. Peters was buried under the heavy timbers of the staging when he fell, and it took three men to drag him from under the wreckage.

Dr. N. R. Boyver, of Crapaud, was first sent for, but as he was in town yesterday and just returning home at the time, Dr. Bell of Cape Traverse was notified, who arrived quickly on the scene and found the man in a dying condition. Dr. Boyver arrived just as he expired. Considering the circumstances of the accident and the nature of the injury it was decided that an inquest was unnecessary.

The victim is survived by his father and mother, and a number of brothers and sisters at Augustine Cove. He was a strong, able young man, and a general favorite. The bereaved family will receive the deep sympathy of the community.

FRIDAY
—RESIDENT'S DEATH REGRETTE.—Mr. James L. Gillis Moore, died at his home there suddenly, on Thursday morning about 3:30 o'clock. He had been ill, disposed for a few days, but his condition was not believed to be serious. Congestion of the lungs developed which terminated fatally. Funeral notice on advice from members of family abroad.—Y.

\*BRIDAL SHOWER.—Previous to her marriage and departure for Des Moines, Iowa, where she will make her future home, Miss Ruth Stewart of Montague was the guest of honor at a "showery" held at the home of Mr. and Mrs. Chas. McLure on Wednesday evening, Aug. 22nd inst. Besides being the recipient of a purse well filled with money, Miss Stewart also received the best wishes of her many girl friends who were present for every happiness that a happy marriage can bestow upon her. An unusually enjoyable evening was spent. Wedding bells seem to lose their melody when they mean the taking from our shores, and depriving us of the companionship of such an ideal young lady as Miss Stewart.—P.

\*ECHOES FROM THE RACES.—Mayor McLean of Montague, commenting on the horse races recently held there, reports that for such an immense crowd of people it was the best and most orderly gathering that he had ever attended, not a sign of intoxicating liquors to be seen anywhere, all seemed to be thoroughly enjoying themselves. This is a credit not only to the town, but also to those men who were instrumental in getting up this annual event. Never have we seen better tables than on this occasion, the proceeds from the races are for the school fund. It seems a great pity that some of the women absolutely refused to help out at this time, especially when the cause was such a worthy one.—J.

\*SHIPPING.—The following vessels arrived in the port of Montague during the past few days: The J. E. Collins, Capt. White from Pictou with Albion coal for John McLellan and Sons. The F. D. Cook, Capt. Cahoon from Pictou with Albion coal for Poole & Thompson. The Muriel, Capt. White with a cargo of limestone from Robinson's Quarry for M. C. McGowan. This stone will be distributed among the farmers and will help greatly in reducing the cost of lime.—J.

In the passing away of Mr. Daniel Connolly of this city death has again removed an aged and respected citizen. He had been a resident of Charlottetown since boyhood and in his earliest days was a carpenter by trade and was employed on the P. E. I. Railway until failing health caused him to retire. He was in his 74th year at the time of his death which occurred at his home, Dorchester St. East on Wednesday, August 22nd. All through his life he was known for his hospitality and kindness always having a cheery word and pleasant smile for everyone with whom he had the pleasure of knowing. Although not feeling well for some time he had been about as usual until about three weeks before his death he felt he was gradually growing weaker and his daughter was immediately sent for from the United States to be with him in his last moments. During all his illness he was comforted and cheered by his beloved pastor, Rev. R. St. John, who administered to him the last sacraments of the Holy Catholic church. His funeral took place from his home, Dorchester St. East, on Friday morning August 24th at St. Dunstan's Cathedral where a solemn High Mass was celebrated by Rev. R. St. John, after which all were present at about 145 and a very pleasant time was enjoyed. The funeral was held at the Roman Catholic Cemetery beside the remains of his son Peter (who predeceased him about four years ago). The last rites at the grave were performed by Rev. Father Maurice McDonald. There are left to mourn besides a sorrowing widow, two daughters, Mrs. Angus Chapman of the United States and Miss Mary of the United States (both cut at home) who with other sorrowing relatives will have the deep sympathy of all in their sad bereavement. R. I. P.

The annual picnic of the P. E. I. Ayshire Breeders Association, was held yesterday afternoon at the Experimental Farm Station. There were present about 145 and a very pleasant time was enjoyed. The picnicers gathered about 3 p.m. when a judging class of the Pioneer Ayshire Boys Club was held and prizes awarded. An enjoyable luncheon was given in the grove after which addresses were made by His Honor Lieut. Governor MacKinnon, Premier Stewart, Mr. Justice Hazard, ex-Commissioner of Agriculture, W. M. Lea, and the present Commissioner, Hon. J. H. Myers, Mr. A. W. Peters, of the Dominion Live Stock Branch here; Mr. Chas. Archibald Maritime district promoter, Live Stock Branch, Truro and Rev. Edwin Simpson. The speakers commented favorably upon the work of the boys clubs.

The Ayshire Breeders Association has made great progress during the year and this was also reflected in the present officers who comprise Superintendent J. A. Clark of the Experimental Station as president; Mr. Earl McEae, New Wilshire, secretary; Messrs. Ambrose Rodd, Fred McEae and Bert Brown, executive.

Among those present at the picnic yesterday was Hon. J. A. McDonald, Commissioner of Public Works.

After the addresses the ladies inspected the vegetables and poultry on the farm and the gentlemen were keenly interested in examining the splendid Ayshire herd.

Yours to Enjoy

"Thank God for Tea! What did the world do without it—how did it exist? I am glad I was not born before Tea." Thus wrote the brilliant Sydney Smith in the early days of the nineteenth century, and countless thousands have echoed his sentiments since. But if Sydney Smith could so enthuse over Tea as it was then, what would he say of it to-day, when science in growing and art in blending have brought your cup of Tea to such a high point of perfection.

And what would he think of to-day's cost? At an incomparably lower price you are able to enjoy Tea of a deliciousness Sydney Smith never knew or imagined.

"KING COLE" Orange Pekoe "The Extra in Choice Tea"

STEAMER WENT ASHORE.—The government chartered steamer Machinery with coal from Sydney which she was taking to the west shore near Tracadie about 12:30 p.m. yesterday at low tide, dredge operating at Mount St. Lewis. The steamer, which is a small one on her first trip to the Island, suffered no damage and it is expected that she got safely away again.

CHANGES IN CITY SCHOOLS.—Miss Annie Walsh daughter of Mr. Martin Walsh is replacing Miss Alice Fennessey temporarily as teacher in Queen Square School. Miss Stella Welsh is replacing Miss Annie MacDonald in the same school who has been given a year's leave of absence. Miss Mary Hinson has been added to the teaching staff of Rockford Square School.

WORK ON NEW HOSPITAL.—Construction work on the new Charlottetown Hospital has proceeded steadily since June last, about forty men being continuously employed under the direct supervision of the contractors, Messrs. Phillips and Clark. Work on the top ceiling was started yesterday and this will be completed within a few days. A gravel roof will then be put on and will be finished by the end of the month. Work on the front tower, 30 feet above the roof, was also started this week. 150 tons of steel are being used in the framework throughout the immense building, which will have a floor space of 10,000 feet on each of the three floors, with the same space in the boiler room below. One half million high grade Citadel brick imported from Quebec is being used. The floors throughout are of reinforced concrete. The trimmings, also of concrete, are made right on the job. Excavation work was done last year and it will be remembered that the corner-stone was laid last June.

\*RECOVERING.—We are pleased to report that Mr. William Webster of Montague, who recently had his leg broken is making rapid strides to recovery. Mr. Webster is in hopes of again resuming his egg business.—J.

The feature of the weekly Rotarian luncheon yesterday, presided over by Rotarian, Thos. Morris was an interesting address by Mr. Wilfred Boulter, secretary in the Provincial Department of Agriculture, who first gave a short talk on some of the lines of work carried on by the Department.

At the motto of the Rotarians was service, presumably for our elders, the speaker cited the splendid opportunity for service in the Department of Agriculture for a province such as this, where the chief and practically the only industry is agriculture. The desire and object of the work carried on by the Department was to assist the farmer to secure the very best results possible for his labor. This could be done by encouraging and aiding him to produce a better product, as there is always a ready market for products of a high standard, and for which a higher price is always paid.

As an illustration of this Mr. Boulter mentioned that at the present time judges are out in each of the Counties, judging fields of standing grain. The grain on these fields when thrashed is exhibited during Farmers' Week, samples being taken by inspectors who take the sample from a bin, thus securing a representative specimen of the oats that will be for sale. This grain is scored by competent judges and a germination test secured, so that parties buying it have practically a guarantee of the quality of the seed they are purchasing. As a result of such a superior quality we are able to place our oats in any market in Canada at a very remunerative price.

Another work of great importance to the people of the province in which the Rotarians are keenly interested is the School Farms. Arrangements are being made at the present time for the successful carrying out of these, of which there will be at least fifty. This represents a large number of schools and the boys and girls taking part, in striving to win, secure valuable information.

Growth of Potato Growers Association

But a work of particular interest to the speaker was that of the Prince Edward Island Potato Growers' Association. This Association had had its inception in its infancy. Organized in 1920, without any definite object in view, it gradually expanded. In the fall of that year five car-loads of certified seed were shipped. During the following year plans were laid for further development and in the fall of 1921 between fifty and sixty cars were shipped.

Then the Association took up the idea of purchasing cooperatively the chemicals and fertilizer used. They also were in a position to tell the farmers what chemicals he should use and in what proportion they should be mixed. Formerly many spoke against the use of fertilizer, but today the farmer can take the poorest land on his farm, use a moderate application of the proper chemicals and secure a crop of potatoes that will give from 250 to 300 bushels to the acre. This could be verified from growers in any section of the Province, and it means a lot to our farmers, as the cost price of fertilizer has been lessened and the proper method of application made plain.

Following this work, a larger acreage made it possible for the Association to market of the 1922

crop over 200,000 bushels. The growers purchased about 2,500 tons of fertilizer, 50 tons of copper sulphate and many tons of poisons, all at the best possible prices. They also have purchased all the sacks used and have placed their orders this year for upwards of 100,000 of the large sized sacks.

This Year's Increased Sales

Of this year's crop the Association have already sold, to be exported by steamer from Charlottetown, at least five steamer loads. These steamers will carry from 16,000 to 12,000 sacks each, which represents a sale of immense volume. They have also many orders booked from Long Island for both Cobblers and Green Mountains and are today in a position where they cannot accept or confirm the orders which they are receiving. It will depend largely on the yield whether or not they will have any more for sale.

The speaker emphasized the benefit to Charlottetown of the shipping of these potatoes by steamer. It would mean at least a million of \$7,000 or \$8,000 to be distributed among local laborers, which seems a better thing for this Province than if they went forward by rail, as in that case there would be no further returns for the laboring people.

Labor Shortage in Country

The labor problem in the country, the speaker pointed out by the way, is at the present time somewhat acute. Farmers are everywhere expressing concern as to how they will be able to harvest their potato crop. This is not their work at the present time. It is almost impossible to secure any help. A great many of our men have gone West but it would almost seem advisable to start a campaign to have some returned, as the work of digging will be general within the next three weeks and will continue until shipping is done. It would be unfortunate if, after having produced such a remunerative crop, it was found impossible to harvest the market before frost.

Unlimited Future Market

The speaker then dwelt on the outlook and future possibilities of the seed potato trade. He explained that the Association have had visitors this year from Florida and the State of Maine and these men were very pleased with the type of potatoes which we are growing. They gave the assurance that should the stock sold to them give results equal to what they saw here there was an unlimited market for our potatoes. In conclusion Mr. Boulter thanked the Rotarians for the keen interest which they have shown towards this industry and for their generous spirit during Farmers' Week. He asked that they continue to use any effort possible to assist the work of the farmers whose success is most vital to the welfare of the city as well as the country at large.

The question was asked by one Rotarian as to what higher price was received for these potatoes. Mr. Boulter explained that last fall's shipments averaged the growers 70 cents a bushel for Cobblers and 50 cents a bushel for Green Mountains, both of which prices were considerably higher than the average prices received for table stock. Without stating definitely the price for this year he could assure his hearers that the amount already sold would net the growers \$1.00 a bushel, and that on considerable quantity of these a deposit had already been paid. The thanks of the Club was tendered by the chairman to Mr. Boulter for his very instructive and interesting remarks.

GOOD YEAR WINGFOOT CORD

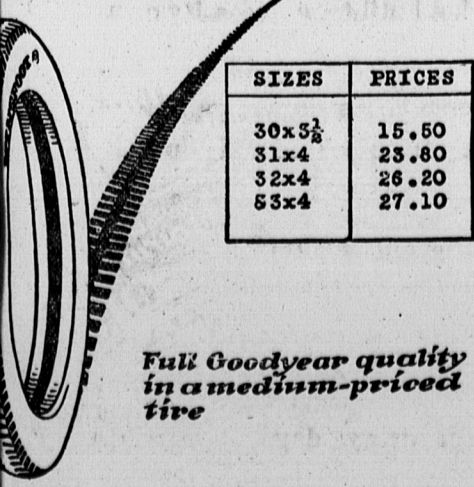

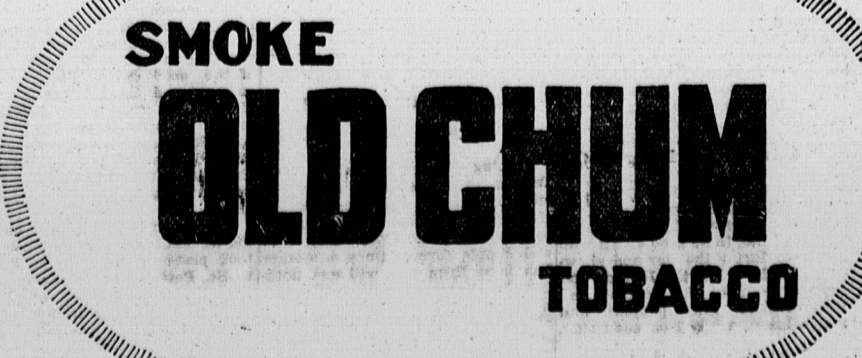

Table with 2 columns: SIZES and PRICES. Rows include 30x3 1/2 (15.60), 31x4 (23.80), 32x4 (26.20), 33x4 (27.10).
