ACTRESS INJURED IN ENCOUNTER WITH PROWLER

SANTA BARBARA, Calif., July 18 — Astress Jeanette Macdonald received a black and swollen eye and scratches and cuts on her face in an encounter with a prowler in her El Encanto hotel cottage Friday night. Police arrested a 14-year-old bellboy as her assailant and charged him with battery.

Miss Macdonald told police she was awakened by the slamming of a door, got out of bed to investigate and was confronted by a boy holding a blanket toward her. She kicked him and struggled with him, she said, and he struck her in the right eye. She screamed and her assailant ran.

Chief of Police L. R. Greeson said the boy declared he was hunting a souvenir in the actress' cottage, that he took a handkerchief and fled when she turned a light on.

Miss Macdonald, the wife of actor Gene Raymond, who is in the army, is studying voice here with Mme. Lotte Lehmann.

SMOKE BUT NO FIRE — Not always when there is a lot of smoke is there any fire as was proven about 3.30 yesterday morning when the Fire Department was called to the Island Telephone building. Too much coal gas in the furnace is thought to have been the cause of the smoke.

VISITORS TO P. E. ISLAND — Mr. and Mrs. Clark Capwell, Providence, R.I., are spending their annual holiday on P.E.I. They are guests at Mrs. Capwell's parents, W. A. and Mrs. MacQuarrie, Hampton. They are accompanied to the Island by Mr. and Mrs. Elton Jenks and daughter Miss Susan of Cranston, R.I., who are enjoying their first visit to the Island.

YOUTHFUL GUEST ENTERTAINED — Mrs. H. W. Bernard of Bradalbane, entertained eleven young guests on Friday to a tea party from 3 to 6 p. m. in honor of Miss Sheila McInnis of Charlottetown, who has been spending the past two weeks the guest of her aunt, Miss Mary Graham. Games and other amusements were provided for the guests, after which supper was served on the lawn. Miss Mary Graham assisted the hostess in serving. The guests included the Misses Sheila McInnis, Freda Hickox, Roberta and Christianne Todd, Jaretta and Eleanor Murray, Betty Cousins, Lois Abbott, Dorothy Matheson, Lulu and Alice Toombs.

CROP PROSPECTS — The Bank of Montreal Crop Report for the Maritime Provinces says: Grains have made good progress and crops will be average. The yield of hay will be below average except in Prince Edward Island, where a heavy crop is in prospect; cutting has commenced. While pasture has improved owing to recent rains, it is only fair in some districts of New Brunswick and Nova Scotia. Potatoes and other roots have made good progress and the outlook is promising. Apples are sizing well and prospects for an average crop are favourable. The yield of strawberries has been light in New Brunswick and Nova Scotia, but plentiful in Prince Edward Island. While recent rains have been beneficial, additional moisture is required in many districts.

CASUALTY LIST—Among those reported killed in action in the latest Canadian Army Casualty List is Lieut. Ronald Joseph MacDonald, who was serving with the Royal Canadian Artillery. Lieut. MacDonald's next of kin is his mother, Mrs. Clara Novella MacDonald, Peake, P.E.I. Among those reported as having died is A/Sgt. James Le Roy Ramsay, who was also serving with the Royal Canadian Artillery. A/Sgt. Ramsay's next of kin is his mother, Mrs. Mizzie Ramsay, Alberton, P.E.I. Among those reported missing are —Corporal Ambrose Randolph MacIntyre, who was serving with a Nova Scotia and P.E.I. Regiment, and whose next of kin is his wife, Mrs. Isabell A. MacIntyre, Souris East, P.E.I. and Private Ora William McEwen, who was serving with the Royal Canadian Army Service Corps, and whose next of kin is his wife, Mrs. Lena McEwen, Harvard St., Summerside, P.E.I. and Privates Carl Thomas and Frank Baglole, Roland William Bishco, Simon Benedict Doiron, Abraham Jackman Edmunds, Joseph Hubert Gass, David Juke Horton, Chester Stanford McLennan, and Eugene O'Hanley, each of whom were serving with a Nova Scotia and P.E.I. Two Outstanding Artists Coming

Next Friday evening, July 21st, the Dance Band from No. 62 C. A. B. T. C. will have as their special guests, Arnold Hanright, trumpeter of Amherst, N. S., and Lionel Naylor of London, England, drummer.

Mr. Hanright is the leader of the War Industries Band and one of Canada's outstanding young trumpet players especially in dance work, at which he excels.

Mr. Naylor was born in London, England and is making his home now in Amherst where he plays for a very fine local outfit and is also drummer for the War Industries Band.

These two artists of swing music will perform with the Dance Band from Beach Grove Training Centre at a special dance in the Holy Name Hall on Friday evening, and as a specia l attraction, "Bobbie" Naylor, jitterbug champion of Nova Scotia will "do his stuff."

This, no doubt, will be one of the outstanding dances of the year and should be of special interest to all the local jive fans and anyone who is interested in really "hot" trumpet playing. 7-19-1i.

Ottawa Watches Election Campaigns

OTTAWA, July 16 — (CP) — The Commons starts holding forenoon sittings tomorrow in its final drive to clear the order paper and adjourn.

Meanwhile, political attention in the capital is divided between the problems still confronting the House, particularly the family allowance measure, and the provincial elections in Alberta and Quebec Aug. 8.

Politicians here are more concerned with the Quebec elections than the voting in Alberta because of the belief that neither the Liberals nor the Progressive Conservatives are an important factor in the western province and that it will be really a fight between the C.C.F and Social Credit.

While Alberta's election will not be generally considered a test of strength of the Dominion Government the voting in Quebec is regarded as having an important bearing on the approaching Federal campaign.

A prominent Liberal member of Parliament from Quebec claimed during the week-end that the swing in that province was towards the government of Premier Godbout but he added that the campaign had a long way yet to go.

There was a marked difference of opinion as to whether the Union Nationals or the Bloc Populaire was making the greater progress but the hardboiled election students here are giving the call to Maurice Duplessis' party because of its greater election experience.

SEE THAT HENS HAVE PLENTY OF WATER

Improved summer egg production is another means to save costs. Well maintained production in summer under present conditions can be made more profitable than in winter. It is possible to maintain a 50-60 per cent production in summer as well as in winter. When conditions are right, a hen can lay all the year round. Many of the principles of adequate housing apply equally in summer and winter.

Points to be observed in summer production are: (1) the comfort, contentment and proper feeding of the birds; (2) take out the windows open the doors, and make the poultry house as cool and airy as possible; (3) keep the house and nests clean, free from lice and mites; (4) ample supply of drinking water. Never let the water fountains go dry. Hens suffer intensely from lack of water on a hot day; (5) lots of green feed—the great conditioner, and (6) a good dust bath. The birds do like to dust themselves.

COMMON CHICKWEED

Common chickweed in spite of its frail appearance is a very hardy and persistant weed. Not originally native to Canada, it is to be found in all parts of the Dominion where the soil is moist and rich. The seed is small and is frequently found in clover and timothy. Under laboratory tests, many samples, particularly of timothy, are rejected on account of the prevalence of chickweed seed.

Sunburned lips soothed!

Relieve Cracking Instantly

Sore, cracked, sunburned lips make life miserable. Prevent sunburned lips with Lypsyl. It acts as a protective film between the delicate lip-skin and the burning rays of the sun. Its wonderful emollient action protects the delicate membranes from chapping caused by wind and water, so lips stay smooth and soft. When lips are already cracked, Lypsyl gives quick relief, seals the wounded membranes against dangerous germs, hastens natural healing. Get Lypsyl at your store today and use it regularly. Sold everywhere in handy stick form.

Polar Bear Chews Arm Off N. Y. Girl

NEW YORK, July 18 — (AP) — A 900-pound polar bear chewed the right arm off Miss Catherine Searless, 24-year-old daughter of a wealthy zinc manufacturer, early yesterday when she and three companions capped a night club party by visiting central park zoo.

Police said when the girl climbed over a three-foot guard rail and waved a handkerchief through the steel bars of the bear exclosure the beast grasped her arm and gnawed it from finger tips to elbow.

The arm later was amputated near the shoulder. Her condition was serious, but surgeons gave her a chance to live.

Increased Acreage Tobacco Plantings

A preliminary survey of the Canadian tobacco growing industry indicates that about 88,400 acres have been planted to all types of tobacco in 1944, an increase of 17,260 acres or 24.3 per cent over the 71,140 acres planted in 1943. The 1944 area exceeds by a slight margin the acreage goal set at the Dominion-Provincial Agricultural Conference in December, 1943, and is only slightly below the 92,300 acres planted in 1939, the year of record tobacco production in Canada.

Increases in acreage this year are common to all types of tobacco. The greatest expansion is found in the acreage of flue-cured tobacco in Ontario where about 68,000 acres are under cultivation, as compared with 55,700 acres in 1943, an increase of 22 per cent. The burley acreage has been increased by 54 per cent, and there are also increases of 10 per cent in the flue-cured acreage in Quebec, 32 per cent in cigar leaf, and 20 per cent in the pipe types.

SHADE FOR HOGS

Hogs do not sweat, but in warm weather they may become ill with the heat or too hot to eat enough to show gains. That is why shade for hogs in the open is so important. Hogs do not drink much water at one time. They like to drink a little and often. A supply of water should be within reach at all times.
