FERTILIZER ANNOUNCEMENT

To Farmers Near Charlottetown

Preparing a Fertilizer advertisement reminds me of a politician building his platform. PLANK NO. 1-Our prices are exactly the same as other Fertilizer dealers; no higher and no lower.

PLANK NO. 2-Buy your Fertilizer and lime from the dealer who in the fall of the year and throughout the winter months, buys what is offering in Turnips and Potatoes. Remember we buy each day regardless of market conditions and I feel confident that conservatively we have shipped from Charlottetown five cars of Turnips and three cars of Potatoes to any one car handled by any Charlottetown dealer and considerably more than the total of all the dealers put together.

PLANK NO. 3-We give employment here for about eight and a half months of the year to between forty and sixty men. Many of them are boys from your neighborhood.

PLANK NO. 4-In the fall of the year we buy our Potatoes from the field and grade them over our electric graders at Charlottetown which gives you a market for your No. 1's and your No. 1 smalls.

PLANK NO. 5-In order to have sufficient space to look after the heavy supplies offering during this past winter, I took over the Railway wharf shed at Charlottetown, heated it, and permitted other produce dealers to use it.

PLANK NO. 6-We are in a position to extend reasonable credit again this year to those farmers who have traded with us for a number of years and also in a position to take on new farmers near Charlottetown providing we feel satisfied as to their ability and honesty.

PLANK NO. 7-To any farmer near Charlottetown who, in the fall or any time during the shipping season, has a carload of Potatoes or Turnips we are pleased to buy same from him giving him the full carload price and dealer's commission. If I were a farmer with a large acreage or a carlot to offer, I would want to receive every penny possible for my produce.

PLANK NO. 8-When we are delivering your Fertilizer with our own trucks, we will be pleased to buy and truck in free what Potatoes you have left the day your Fertilizer is delivered at prevailing market price.

RECOMMENDATIONS-I recommend that you continue to have your land analyzed before you determine the exact amount of Fertilizer you should apply.

Realize this year that, while Fertilizer is slightly higher, your Seed is cheaper and your total cost per acre should not exceed that of the five year average. I do a little farming myself and last year I used more Fertilizer than the average farmer but I had a much larger run and heavier yield. On the average, since last fall, we have paid 3c to 4c per bushel more for 2 1-4 inch Potatoes than the market would allow us to pay for Certified Seed; but, to obtain this large sized Potato you must apply a little more Fertilizer. I strongly recommend that growers continue their little Seed plots of an eighth to a quarter of an acre, and tuber unit same. I like the look of the possibility of good prices for both Potatoes and Turnips this fall.

To the outlying sections, Messrs. George C. Kitson, Hampshire, Ludmire Coles, Milton, Irving Thompson, Dunstaffnage, Harold P. Cudmore, Brackley, John A. McKinnon, Union Road, Frank McNally, Scotchfort, and J. Leo Praught, Vernon will be soliciting for us a share of your Fertilizer and lime orders, to farmers in the sections that I have not mentioned I much prefer they come to the office to make satisfactory and financial arrangements about their Fertilizer requirements. We are not going to the expense of publishing or printing a Fertilizer price list for 1941. Our price is the same as other dealers. Your patronage in the past has been very much appreciated and has helped this business to develop to the extent that it has today. Your continued patronage will be appreciated and we hope to have our business expand as much in 1942 as it did in 1941.

YOU CAN MAKE MORE MONEY GROWING A SMALLER ACREAGE OF LARGE POTATOES THAN A LARGER ACREAGE OF SMALL POTATOES.

Respectfully yours, FRANK B. CLARKE
