THE CHARLOTTETOWN GUARDIAN

WEDNESDAY MORNING, JANUARY 30, 1907.

THE SITUATION.

The Laurier Government has been over ten years in power. Before and after their advent to power the Liberal organ in this city was making ridicule of the Conservative party for giving us only a "member without portfolio" in the federal Cabinet.

Since then the Island had, for a time, a full-fledged Cabinet Minister at Ottawa, and an able one, in the person of Sir Louis Davies.

Where are we now, after ten years of Liberal rule? We have lost the Cabinet position. We have not even a "member without portfolio" now at Ottawa.

We had six members in the House of Commons down to 1896. We have but four now.

We have lost not less than 15,000 of the population of the Island since 1896. Our losses in trade, industry and property values have been proportionate.

These conditions may be satisfactory to certain high-salaried officials and to the Government organ. They are not satisfactory to the people!

The organ which speaks of "Tunnel foolishness" from day to day should read again the resolution moved by Premier Peters and unanimously adopted by the Legislature in 1905. We again quote it:

"It is not in the province of this Legislature to dictate the means by which your Government shall carry out the Terms of Union in respect to continuous communication, but we desire to press upon you that by the construction of a Tunnel under the Straits of Northumberland between the Island and the Mainland, the terms and agreement of Union between the Federal Government and this Province may be carried out and this Province may receive the same consideration with regard to inter-communication as the other Provinces of the Dominion."

It is for Premier Peters to say how he likes to have the recognized organ of his Government go on calling him a fool from day to day, and adding thereto a like epithet for every member of his Government and every member of the House.

If it pleases these gentlemen, The Guardian has no fault to find!

THE GERMAN ELECTIONS.

The Reichstag, otherwise the House of Commons of the German Empire, was dissolved last December by the Emperor under somewhat peculiar circumstances.

The Reichstag had become restive under the enormous and increasing burden of the military establishment and the tremendous outlay involved in the rapid creation of a powerful navy. Added to this was the costly war which for years has been in progress in German Southwest Africa.

This proved the last straw. When in addition to the general budget a supplementary vote of nearly \$10,000,000 was called for to continue the war, the Reichstag proved recalcitrant and by a vote 178 to 164 in a House of 397 refused the money.

Emperor William met the refusal with his mailed fist. He dissolved the Reichstag and coupled with the dissolution the open threat that he would also dissolve the new House to be elected if it would not carry out his will.

In any British country such action on the part of a Government or ruler would be inconceivable. If attempted it would have aroused popular indignation and inevitable defeat.

But Germany has bent humbly to the will of her imperial War Lord. The new Reichstag by a large majority will support the imperial policy, for the time, at least. It will yet be seen how the Kaiser will carry himself in the hour of his great electoral vic-

THE KENSINGTON MEETING.

It is no part of our duty to advise Premier Peters as to the course of action he shall pursue but we greatly regret that on behalf of himself and Hon. Mr. Hughes he has publicly declined to attend the meeting at Kensington on Friday evening next.

That meeting has been called by leading men of both political parties in Kensington and surrounding districts to discuss the momentous question of our relations with the Dominion.

The political leaders of the Province have been invited. We know from letters received that many prominent Liberal electors are desirous that the Premier shall be present, and would be glad, even yet, if he and Mr. Hughes would reconsider their declination and attend.

Kensington is a populous centre, easily accessible by many roads and the railway, and it is moreover fairly central for a large body of people most grievously affected by the present conditions.

Doubtless in declining to attend the meeting the Premier had no thought of treating lightly the invitation extended him and his colleague from Kensington, but there is a regrettable possibility that his absence, should he stay away, might be misinterpreted or misconstrued.

THE LATE MR. BLAIR.

The press of Canada from one end to the other has published extended and highly appreciative notices of the late Hon. A. G. Blair. In scores of editorial notices we read of his great gift of leadership, his masterly grasp of public affairs, his resolute will, his strong friendships, his genial and kindly spirit, and his exemplary devotion as a husband and father. All these go to show that a great man has fallen in New Brunswick.

In a century past he divided with the late Sir Leonard Tilley the honor of being New Brunswick's foremost son. In several respects Mr. Blair's position was foremost of all. His ascendancy was over the whole Province, while Sir Leonard's was more especially strong in St. John and the counties intersected by the St. John river.

There was not a county or city in the entire Province in which in his prime Mr. Blair had not a very large control. Regret for his sudden demise must be coupled with regret that he has left behind and in sight no man in his Province of even approximately equal force and breadth of influence.

Out of School Because of Colds

THOUSANDS OF CHILDREN WILL ACQUIRE LUNG TROUBLES, WHICH COULD BE AVOIDED BY USING

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

The records of attendance at the Toronto Public Schools show that ten thousand children were absent on account of colds during a single month.

"The worst enemy of all to the child so far as keeping him from school is concerned, apparently is the common, everyday cold," says Dr. Goodchild in his report to the Ontario School Association.

"Not only does the cold prove an enemy in this way," he continued, "but it is well known that many of the more serious diseases follow from the simple cold. As a result of the patient becoming weakened down in his resistance against disease, the germs of various infectious diseases the more easily find a place to multiply somewhere in the organism."

Parents who take a practice of keeping Dr. Chase's Syrup of Linseed and Turpentine in the house have at hand the most certain means of curing coughs, colds, croup and bronchitis, and positively preventing more serious disease. It is sometimes forgotten that few ailments possess more possibilities of danger than a common cold.

Mrs. EUGENE ILEN, King Street, Truro, N. S. states: "From an infant one of my children was troubled with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help him and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis we used it and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it to fail to bring relief."

Not only is Dr. Chase's Syrup of Linseed and Turpentine a positive cure for croup, bronchitis, whooping croup, asthma and severe chest colds, but it is also a preventive of all diseases of the lungs.

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or E. H. Mansson Bros. & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.

Buy your collars, undershirts, and linen suitings now and have them made up during the long winter months. You can save money at our remnant sale. Paton & Co. 1-104f.

WHITEWEAR CHEAP SALE
