P. W. C. DEBATE—The regular meeting of the Debating Society of Prince of Wales College was held yesterday. The subject, "Resolved that the tyranny of capital causes the strikes of labour." was keenly discussed by the speakers, Andrew Leslie as leader of the supporters of the resolution dealt ably and eloquently with this question. He argued that the blame for the strikes of labour should be placed where it belongs, upon the shoulders of infamous dissemblers who affect for the poor a benevolent concern which they do not feel, who subsidize the public press, who decry free speech, who corrupt legislation and who plunder the labour of the world. George Mitchell and Helen Mallett contributed some strong arguments in support of the resolution. Alexander Matheson as leader of the con side also showed much skill as a debater. He contended that strikes were not caused by the tyranny of the capitalists but by the Labour Unions, as the leaders of these unions were often incited with greedy motives and did not have the interests of the labourers at heart and often made unreasonable demands. Mr. Matheson was ably supported by Jessie Acorn. The vote resulted in a decisive victory for the pro side. After a few congratulatory remarks to the speakers from the Honorary President, Dr. S. N. Robertson, and from the Critic, Cedric Yeo, the meeting adjourned.

COMING CONVENTION.— The Halifax Herald says:—The Union of Quebec Municipalities which included the cities of Montreal and Quebec, intends holding a combined excursion and convention in June next, and has arranged to go by steamer to Charlottetown. They have sent an invitation to the Nova Scotia Union asking the executive of that body to send delegates to their meetings which will be held aboard the steamer. At yesterday's meeting the Nova Scotia Executive appointed Arthur Roberts, K. C., as one of the delegates, and may add others later. Premier Armstrong instructed Mr. Roberts to convey the greetings of the Province to the Convention, and to invite them to visit Halifax whenever they should find it convenient. The Quebec Union will be entertained by the Provincial as well as by the civic authorities in Prince Edward Island.

ON TOURIST BUSINESS—Mr. C. C. Avard of Sackville, President of the New Brunswick Tourist and Resources Association spent yesterday in the city conferring with the Publicity Committee of the P. E. Island Tourist Association with reference to a joint advertising campaign to be carried on this Spring in Canadian and American papers. The joint campaign conducted last year by the two provinces proved very successful and with the experience of the past it is hoped to make the campaign this season even more successful. Under Mr. Avard's presidency the membership of the New Brunswick Association grew from about a hundred to over 1700 in 1924 and this year the objective has been placed at 3,000 with good prospects of this being realized. Mr. Avard complimented the Prince Edward Island Executive on the work done last year and expressed the opinion that with the present programme much more effective work will be accomplished this year. He looks for a very considerable increase in the tourist business of the Maritime Provinces during the coming summer.

THE MARKETS

(Canadian Press)

MONTREAL, March 31.—The export trade in wheat here today was very quiet, but there was some demand from foreign buyers for oats and barley and sales of odd loads were made to the United Kingdom for first half April shipment. There was no further developments in the local market for cash grain, prices for oats being about steady, but the demand for car lots for domestic and country account was limited and business was quiet. Prices for winter wheat grades of flour were steady at the recent declines noted during the month of [illegible] fluctuated $1.90 per barrel [illegible] patents selling as high as [illegible] per barrel and closed at the lowest at $9.50. The market for winter wheat-flour was without any new feature to note. In spite of the lower prices ruling in the millfeed market there was no improvement in the demand noted from any source and the movement continues to be disappointing for the season of the year. The trade in standard grades of rolled oats was quiet, while the undertone to the egg market was easier. Prices did not show any further change, but prospects are that values will reach a lower level in the near future. Owing to the more liberal supplies coming forward the feature of the butter market was the stronger feeling that developed and prices advanced 1-2 to 1 cent per pound which was attributed to the increased demand from United States buyers for fresh made creamery butter and also to the fact that local buyers showed more disposition to operate. There continues to be a steady demand for all the fodder made cheese coming forward and the tone of the market was firm with latest sales of western No 1 white and colored being at 2 1-2 to 23 cents per pound and No 2 grades at 21 1-2 to 22 cents per pound and Quebec 20 pound cheese at 24 to 24 1-4 cents per pound. Beans steady at 2.70 per bushel.

OTTAWA, March 31.—The tone of the market is quiet and prices are holding fairly steady! it is reported that one western Ontario packer has commenced storing. There seems to be a surplus of local fresh on most Canadian markets and in Winnipeg. It is anticipated that a car will be shipped east in the next few days. Stroage operations have also commenced in British Columbia. Prices in the United States are about six cents higher than when storing commenced a year ago. Toronto jobbing extras 35, firsts 33, seconds 30, Montreal jobbing extras 35, firsts 32, seconds 30. Winnipeg unchanged. Saskatchewan jobbing prices extras 29, firsts 27, seconds 24. Alberta jobbing extras 30, firsts 28, seconds 25. Vancouver unchanged.

MONTREAL, Mar. 31. —Dominion Live Stock: There were 108 [illegible], 32 sheep, 676 hogs and [illegible] calves for sale on the two markets today. The cattle were mostly common type dairy cows, a few Holstein bulls and a number of springers. Common cows sold around $4 and bulls from $4 to $5. There was a heavy offering of common to just medium calves. Trading was slow at one yard and fairly active at the other. The bulk of sales made up to ten o'clock were in the neighborhood of $6 to $.25. A few reached $7 and very common ones sold for $5.50. Hog prices were easier. Sales of good quality and suitable weight hogs were made at from $13.75 to $14.265 and poorer ones $13.50 and up. Selects sold yesterday for $14.60 and sows $11.75 to $12.
