# YESTERDAY'S STOCK AND BOND QUOTATIONS

## MARKET GOSSIP

(By John L. Cooley, Associated Press Financial Ed.tor)

NEW YORK, Aug 26—A fresh wave of buying sneaked up on the stock market today, after the list had been drifting lower during most of the day.

Early losses of 1 to 4 points in prominent issues were almost wholly cancelled in a late buying flurry, and several prominent issues closed with net gains of 1 to 4 points. A late bulge in cotton helped the movement in stocks, that staple rising more than $1 a bale to new highs for the year.

The share market turned dull on the decline, and although trading quickened in the late upswing, the day's transfers aggregated only 3,116,755 shares, or about a million less than yesterday's.

Early selling evaporated completely by mid-afternoon and aided by cheerful weekly merchantile reviews and optimistic analyses of the economic situation at the Washington conference, bull forces launched a new drive.

The price average of 60 leading issues gained 1 point, more than recovering its loss of 6-10 of a point yesterday, and registered a new top since the middle of March. At 66.6, it was only 4.7 points under the 1932 peak, reached in the second week of March, and well above the 1931 low reached in December.

Rails were a soft spot during the morning sag. Probably the principal reason for selling was a feeling that rails had been going ahead too rapidly.

Union Pacific, after selling off about 4 points, rallied to close up 1, net. American Telephone and U. S. Steel were leaders in the late upswing, rising about 3 points to new highs for the recovery. They receded a little from the best in the final dealings. U. S. Steel preferred closed up about 4.

Auburn was up nearly 9 points at the best, but it closed up little more than 5, net. Industrial Alcohol, Ingersoll, Rand, American Agricultural Chemical, Deleware and Hudson, and Lackawanna closed about 3 points higher. Issues up a point or two included American Can Santa Fe Case, International Harvester, Consolidated Gas, Corn Products, North American, Western Union and others. Westinghouse Electric finished ⅝ or a point lower.

## Grain Market

WINNIPEG
(Canadian Press)

WINNIPEG, Aug 26—Sympathetic to lower wheat quotations at Liverpool and a lull in the export trade wheat prices eased off in the closing stages of today's pit trade to close fractionally lower for the day. Prices at the close revealed losses of ⅝ cent.

October closed at 55; December at 56⅝ to ⅝ and May at 61⅝.

Offerings were of good volume although the selling was not credited to hedging operations but support in the deferred month stemmed the decline. This support was one of the main props of the market Thursday and came from Chicago and seaboard interests.

No. figure was placed on the amount of grain worked for export but it was believed fairly good sales were made. Cables confirmed the purchases of three cargoes of Canadian wheat, two from Churchill and one from Montreal.

No figure was placed on the amount of grain worked for export but it was believed fairly good sales were made. Cables confirmed the purchases of three cargoes of Canadian wheat, two from Churchill and one from Montreal.

The weather map in the west showed signs of clearing today but the recent rains were reflected in the smaller movement of the country wheat to elevators.

Cash wheat and coarse grains continued their uninteresting trade at prices generally unchanged.

CHICAGO

CHICAGO, Aug 26—Wheat trading lacked snap today and prices drifted generally lower. A brief rally at the start was checked by quick profit taking with eastern interests selling freely. Reactions carried prices about a cent below yesterday's close, but a moderate rally later erased some of the losses. Traders watched the business conference in Washington and kept a close scrutiny on cotton.

Corn and oats held within narrow ranges and followed wheat. Provisions were easier with grains.

Wheat closed weak, ⅛-½ cent lower; corn mixed ¼-⅝ lower to ¼ higher; oats steady to ¼ off, and provisions steady to 8 cents down.

BONDED WHEAT

NEW YORK, Aug 26—Bonded wheat closed easy. Closing: Oct 50; Dec 52¼.

EXCHANGE

NEW YORK, Aug 26—Foreign exchange steady. Demand rates: Great Britain 3.46⅞; France 3.20¼; Italy 5.12; Belgium 13.88½; Germany 23.79; Canada 88½.

NEW YORK, Aug 26—Raw sugar was a little easier today, and prices were 2 points from the general asking prices of the last few days. Trading was more active with sales confirmed of 24,000 bags of Cuban, 10,000 bags of Porto Rican and 46,800 bags of Philippines at 3.18, and 36,000 bags of Philippines at 3.19 to local and outport refiners, for prompt Aug-Sept shipment.

Prices moved within comparatively narrow limits with the market closing 2 points net lower to 1 higher. Sept. closed 1.14; Jan 1.13; March 1.10; May 1.14; July 1.18.

Refined sugar was unchanged with refiners listing at 4.25 and some second hands available at 4.12½. Business was moderate.

FREDERICTON, N. B., Aug. 26.—The toll of dead resulting from an accident at Yoho crossing, near Tracy on August 12, mounted to three today when Mrs. Walter Messer, 57, died in hospital from a fractured spine. Her husband was instantly killed in the accident when a large motor truck carrying 23 persons to the blueberry fields overturned at Yoho crossing.

Sylvia Lindsay, 18, was the second victim to die. Three others are still in hospital here.

## Stocks Continue Upward Trend

TORONTO, Aug 26 (By The Canadian Press)—The Imperial Economic Conference favoring industries, particularly base metal producers, the St. Lawrence waterway treaty and the natural reaction to 31 months of almost continual declines are constructive for the advance in 45 trading days, of a list of 23 issues traded on the Toronto Stock Exchange, according to statistics compiled by the stock exchange today.

These 23 stocks chosen, leaders in their respective groups and embracing the major pursuits of the Dominion, have appreciated on the average of 109.9 percent, or maintained a gain of practically 2½ percent daily. This is probably the most consistent advance in the history of the exchange for a similar period.

The appreciation in market values shows $645,672,985 on their outstanding capitalizations, more than $500,000,000 from the lows of the year.

In dollars appreciation Canadian Pacific Railway leads with a gain of approximately $161,000,000. International Nickle added on its quoted values $105,000,000, Imperial Oil, $96,000,000 and Montreal Power $70,000,000.

First position in percentage goes to Walkers Common with an appreciation of 210 percent above its low. Consolidated Smelters gained 200 percent, followed by International Nickle 185 percent Canada Cement 166 and Shawinigan 148 per cent.

MONTREAL, Aug 26—Potatoes on the Montreal wholesale market today dropped 5c a bag, becoming 30c per 80-lb. bags for new Montreal stock. There was a heavy supply, which eased the market in the face of a moderate demand.

The cheese market was again shaded ½c in order to bring export business. Quotations became 10½c to 10¼c per lb. for Ontario's, and 9¾c to 9¾c for Quebec's. Receipts were heavy, 8,935 boxes. British buyers were still holding off despite the continued lowering of prices here.

The butter market held steady at 20¾c to 21 cents per lb. for carlots or less of No. 1 Trading was quiet but the tone of the market was firm, surrounding conditions being favorable. Jobbing houses were quoting small lots to retailers at 22c for solids and 23c for prints. Receipts were 1,463 boxes.

The egg market held mostly at the same levels. There is a wide spread on extras, depending on quality. Some extras for shipment can be bought as low as 24c a dozen, while top quality extras arriving on the market are bringing as high as 28c a dozen, the bulk of trading remaining at the previous day's quotations of 25c to 17c per dozen. Firsts are 18c to 20c per dozen, and seconds are 13c to 14c per dozen for carlots. Receipts were 1,419 cases.

## Montreal Market Sidelights

(Canadian Press)

Volume of trading showed a contraction in today's session on the local exchange, and the trend of values closely followed that of the wall street market a rally in the late dealings following an earlier period of irregularity. At the close here in narrower lists, gains were in excess of losses by 14 to 10, while the average price of twenty stocks advanced .12. The day was not entirely lacking in news developments of a nature to affect market sentiment, for the late upturn in New York appeared to come in direct reflection of an optimistic statement by President Hoover at the opening of a national economic conference at Washington. Taken as a whole, however, the markets appear to have developed a waiting mood, pending a clearance picture of the course of trade and industry in the near future, while in a strictly market sense a period of consolidation can be expected, following on so extended an advance in values as has been enjoyed by the security markets in a comparatively brief period.
