

Insert This Letter In The Press.

MR. R. MORRIS. of Brookville, Ont. Would Have All Sufferers Know How He Banished Terrible Neuralgia and Dyspepsia.

Paine's Celery Compound Was the Great Deliverer After Failures of Physicians.

The Wells & Richardson Co., Limited. Gentlemen,—Having suffered with neuralgia in the head for two years, I tested the skill of doctors and made use of many kinds of medicine as well as the electric battery, but got no relief from any of these sources. I decided to give Paine's Celery Compound a trial, as I noticed by the press that it was highly recommended for my troubles. I used several bottles and it cured the neuralgia as well as the dyspepsia from which I suffered. Now I am able to work all winter. In the past had to lay off several months in the cold weather. I am happy to say the neuralgia has not troubled me for over a year. I recommend Paine's Celery Compound to any one suffering as I did with terrible neuralgia and dyspepsia. I trust you will insert this letter in the press so that others may be benefitted. Faithfully yours, R. G. MORRIS.

Church Services.

METHODIST. Prince Street.—Prayer and Praise Service at 10.15.—Rev. H. Johnson at 11 and Rev. Dr. Andrews at 7. Strangers welcome. Attentive ushers. The sacrament of Lords supper after evening service. The Sacrament of the Lord's Supper after the evening service.

Grace Church.—Rev. H. Pierce at 11 and 7. Sunday School at 2.15. Strangers always welcome and provided with comfortable seats.

PRESBYTERIAN. Zion.—Prayer meeting at 10. Rev. D. B. McLeod at 11 and 7. Sunday School and Bible Class at 2.3

St. James.—Prayer meeting at 10. Rev. T. F. Fullerton at 11, and 7. Sunday school and Bible Class at 2.30.

CHURCH OF ENGLAND. St. Paul's.—Services at 11 and 7. A1 welcome. Seats free and unappropriated.

ST. PETER'S CHURCH. Holy Communion at 8 a. m. Matins 11 a. m. Evensong 7 p. m. All seats free and unappropriated.

I was cured of Rheumatic Gout by MINARD'S LINIMENT. ANDREW KING.

I was cured of Acute Bronchitis by MINARD'S LINIMENT. Lt.-Col. C. CREWE READ.

I was cured of acute Rheumatism by MINARD'S LINIMENT. C. S. Billing.

French Flannel Waists entirely distinctive efforts—remember that. A line pervaded by an air of freshness and absolute originality.

Our New Duchess of York Hat leads the fashion. Only \$1.00 at Paton's. 5c.

Opening New Furs and New Jackets New Underwear and Blankets.—Paton & Co. 7 1/2.

Flannel Waists A very pretty design in a blue flannel waist was seen last week at Paton's. It was no fullness from the shoulders or neck. The entire front and back of the waist are ornamented with groups of fine lines of stitching, forming a strip effect.

A second model of grey was ornamented with bands of black taffeta starting just above the line of the bust and extending around the figure. The simple shirt waist pattern is very popularly followed, but when tucked it adds to its smartness. They show 24 New Samples this week. Order yours, 100 colors to choose from. Paton & Co. 10 1/2.

HORSES FOR ARMY

A Talk With The British Officers.

Yesterday afternoon Captain Maudsley and Major Rowe who have been purchasing horses for the Imperial Army left for Summerside. Yesterday a GUARDIAN'S representative had a pleasant conversation with both gentlemen in reference to the horses desired and those offered. Captain Maudsley in reviewing his work in Canada said that he had bought largely in Ontario, shipping from Montreal to South Africa. The following were the shipments made:

- S. S. Anglo African 750
S. S. Iona 800
S. S. Rembrandt 830
S. S. Indian 1,000
S. S. Raeburn 900

The horses are bought in three classes, viz: Cobs for Mounted Infantry—14-2 1/2 to 15 hands high. Cavalry horses—14-1 to 15-2. Artillery horses—15-2 1/2 hands.

Col. Dent, the head of the commission in Canada has been in the west but has found that sufficient care has not been exercised in breaking and the freights are high. Captain Maudsley has loaded three ships doing the work under the auspices of the Board of Agriculture, the idea being that every portion of the country should be inspected in order that it may be understood the exact class of horses required. Reports are also sent in to the Government of the facilities for production.

Recently the captain received a cable from London stating that the class of horses required must not be over 15 1/2 hands high.

The short legged horses have been found to be more active, doing better than the heavier.

Thursday 24 horses were secured and \$2,500 was paid out. No restriction was made as to weight, the conformity being taken into consideration. When a horse is bought he is first passed by the inspecting officer, examined by the veterinary, then the animal is branded on the off fore foot with the regiment number and on the near fore foot with a broad arrow, the same mark being used on the flank.

Books containing a description of the animals are kept. Major Rowe is a gentleman of 29 years experience in the Imperial Army, and has a keen conception of what a horse should be for service. He states that in Canada there is a tendency to keep too many horses. Farmers and cabmen as well as repeatedly found driving two horses where one good animal would be sufficient to do the work, provided that horse was properly nourished and looked after.

The stomach of a horse is not large, in fact it is only as large as a football and in consequence it needs frequent nourishment. In going around to the different Cities the Colonel states that the absence of nose bags is painfully evident.

A second impression in reference to Canadian horses is the fact that they are broken into service before the constitution has been properly formed. It is absolutely necessary to have the constitution right. It seems appalling that a young horse should be placed alongside of an older one and compelled to do an equal share of the work. The result must be evident to all who pause for a moment to consider. A broken down constitution is as useless in horse flesh as in anything else.

A third feature which needs immediate remedy is the mode of shoeing. The elevation of the foot on three calks is certainly unnatural and barbarous. A shoe should only be for the protection of the hoof and not for the elevation of the animal.

It understood however the number of horses offered here and the quality exceeded the expectations of the officers, as they were told before coming to the Island that it would be impossible to get anything to suit their purpose. Unfortunately the inspection was hampered to some extent by the people who persisted in crowding around and many more animals would have exchanged hands had the people aided in the matter by not crowding into the stable.

MALT BREAKFAST FOOD. And Its Great Advantages.

Malt Breakfast Food is the great food triumph of the age. It combines the health-giving properties of pure MALT with the strength-yielding virtues of choice WHEAT.

Malt Breakfast Food which contains the greater concentration of nutriment is the most delicious, the most easily assimilated, the most satisfying and the most strengthening of all grain foods.

Malt Breakfast Food in its manufacture is partially predigested so that the weakest stomach can relish and appropriate every particle.

Malt Breakfast Food is not an irritant nor does it, task digestion as other grain foods do. It quiets the deranged stomach and keeps digestion perfect.

Malt Breakfast Food is the best food for youth, middle and old age. It builds up flesh, bone and strength, and gives activity and clearness to the brain. It is heartily indorsed by the RALSTON HEALTH CLUB numbering over ten millions members. At all Grocers

Kenneth J. Martin, B. A. Barrister, Solicitor, Notary Public, & MONEY TO LOAN.

OFFICE:—Brace's Building, Summerside P. E. Island.

TEACHERS CONVENE

The Officers Elected For Ensuing Year.

FRIDAY MORNING. Session opened at 9 o'clock the President in the chair. After reading minutes the committee on resolutions reported:

Resolved: that the Executive Committee be instructed to secure midsummer holidays in all the schools of the Province. That the Executive Committee be instructed to continue their efforts to procure such recognition from the Government as will secure alternate meetings of the Summer School of Science in this Province.

That the Executive endeavor to secure additional holidays for such teachers as attend Summer School of Science.

That the Executive take steps to have the papers on education in the P. E. Island Magazine by Judge Warburton published in pamphlet form provided they can do so without cost to the Association.

That this Convention is of opinion that more favorable rates of travel be granted to teachers attending Conventions so that they at least enjoy the same privileges in this respect as persons attending the horse races.

That provided midsummer holidays be granted to the rural districts an additional one or two weeks be also granted making the vacation in the country districts equal with the city schools.

Judge Warburton on the teaching of History contended that the learning of history should not be the mere memorizing of facts. As a rule the text books relate only the incident and say nothing about the cause which led up to the event. True teaching of history goes further back and gets at the cause and all that led up to such results.

If children are taught to trace these results from their reasoning powers are trained and they will retain the events much better than if they memorise mere facts as they occurred. History is more than a mere statement of facts; it ought to be much more. Teach the child the events of history by all means, but let it be done in such a way as to train his thinking powers. If this is done and he knows how to reason for himself he will soon find out all he wants to know of the history of his own and other countries.

The hearty thanks of the Association were tendered Judge Warburton for his very admirable address. Col. Parker on Child and Man said among other things: The child is a born lover; he is not born selfish. Selfishness is inculcated and encouraged in our schools. The system of marking averages, percentages, is detrimental to true teaching. The child is a born worker, is born with a natural instinct for activity which is marred and crushed by the many so called systems of education. Manual training is relative to the other work of the school. The manual work of the child from 3 to 16 should be devoted to hand work. Let them have physical training by all means and there is no physical training like manual training. The intellect demands it.

Isolated manual training is better than none at all. That is the way all great things began. Every school ought to have an all round manual training department, there should be opportunities for clay modelling, for woodwork, for horticulture and for all the industries. Every school should have music and play of all kinds. Music lies at the foundation of all motion. In all we let the teacher aim to make the life of the child better. Let every teacher take the last words of the great Teacher to Simon—Feed my lambs.

An interesting paper on the outlook for Manual Training in the province was read by Prof. Collier. This paper showed the great increase in interest in the above subject since its inception which was in October last year when the first Manual Training department was opened at Queen Square School by the chairman of the Executive. There is now accommodation for 200 boys each week in Charlottetown, 200 in Summerside, 120 students in P. of Wales College, two classes for teachers in Charlottetown numbering 40 and a class for teachers in Summerside of 20. This does not include the voluntary classes in Charlottetown by which instruction is given to 100 more boys each week. A vote of thanks was tendered Mr. Collier for his excellent paper.

Mr. Seaman expressed the hope that before long the girls enjoy the same privileges as the boys in the matter of Manual Training.

The Committee on Finance reported as follows: On hand from last year \$153.92 Interest 4.47 Enrolment 63.39 Lecture 38.65 Total receipts for year 101.62 Expenses of Executive 74.24 Expenses of Col. Parker 97.56 Balance 89.74

The committee on resolutions reported further: That the Board of Education be asked to take such steps as shall secure the teaching of such training as will fit students to become teachers of the same. That the minimum age of females receiving license be advanced from 19 to 18 years of age.

That the thanks of the Association be tendered the press for courtesies extended and especially to the Patriot for free copies distributed to members of the Association; to Mr. G. H. Haszard for plants loaned for decoration and to the ladies and gentlemen who so kindly assisted in decorating the hall.

That the thanks of this Association be tendered to Col. Parker of Chicago, to Prof. Andrews of Sackville, to Dr. Hall of Truro for their presence at this convention and the valuable help rendered by them in the various discussions and to any and all who by music or reading or in any way helped to make this session the success it has been; and to Dr. Taylor for his kindness in entertaining Col. Parker during his stay in the city.

That the Teacher's Association having learned of the unfavorable symptoms developing in the condition of the President of the United States unite in prayer to Almighty God to spare his valuable life and desire to put on record our sincere sympathy with the people of the United States in their hour of deep sorrow.

Election of Officers resulted as follows: President.—Inspector Campbell. Vice President.—Queens', Wm. McMillan. Vice President.—Prince, J. P. Ready. Vice President.—Kings, G. J. McCormac. Secy. Treas.—J. W. Young. Rec. Secy.—Charles McKenzie.

Executive committee.—James Landrigan, J. D. Seaman, W. D. McIntyre, Miss Bremner, Miss McClure. The newly elected President was conducted to the chair.

Resolved that the thanks of the Association be given to the President and retiring officers of the past year for the efficient manner in which they conducted the business of the session.

SUM'SIDE AND WEST

THERE were four horses among the shipments by the Northumberland yesterday.

Mrs. A. H. McPherson of Charlottetown, is visiting Mrs. Leonard Morris, Summerside.

Miss MAY SHARP left Thursday via Charlottetown on return to Halifax Ladies' College.

WANTED—100 men to work at Cape Quarantine pier. Apply to Bro. Gardner, Pres. Lime Kiln Club.

Miss Laura Green leaves this morning on return to Boston after spending her vacation at her home in Summerside.

MR George Crabbe was a passenger by the Northumberland yesterday en route to Montreal to visit his daughter Mrs. Wm. Wright.

Miss TRESSA COLWILL of Northam left by the Northumberland yesterday on return to the U. S. after spending the summer at home.

CHIEF Sark has received official information of the death of Chief David Bernard, of Dorchester. The deceased was a brother-in-law of the chief of Lennox Island.

Suits that suit and satisfy. You cannot afford to wear last year's clothing. When you see our styles and hear our prices you'll admit this.—Clark & Steeves the Tailors. 13 1/2.

MISS BLANCHE GRADY leaves to-day via St. John, thence by boat for Boston where she will spend a week or so visiting previous to entering the school for trained nursing at Newburyport Mass.

MR. James McKenna Queens St. has just bought from Mr. Pictou Harrington Clinton, New London, a very handsome driving mare, sired by Double Frenchman, dam by Hernando. She is very stylish and shows lots of speed.

MR. RITCHIE ELLIOT, Lic., Northam, who has had pastoral charge of the Baptist churches at Tyne Valley and Belmont during the past year left by the Northumberland yesterday on a visit to his home in Paradise, N. S., previous to resuming his course in Acadia College, Wolfville.

CONSIDERABLE interest is manifested in the Yacht Races, which take place in Summerside Harbor, Monday afternoon. A number of new boats have entered and judging from the list, the best day's aquatic sport of the season is awaited. The prizes are now on exhibition in the show window of Mr. J. A. Gourlie's store, consisting of the following:

- CLASS A. First prize—Silver Dessert Set. Second prize—Silver Butter Dish.
- CLASS B. First prize—Rifle. Second prize—Table Satt.
- CLASS C. First prize—Tollit Set. Second prize—Lemonade Set.

Classes A and C will start at 1 p.m. and Class B will be run off after the finish of the first races. The course is the same as in the previous regatta.

MR D. A. Sharp, the well known tree man in the city and is registered at the Revere. In referring to the fruit field of the province he stated last night that there is not more than half a crop. He makes the statement with a degree of knowledge as he has visited different sections of the province buying for shipment. Notwithstanding the shortage Mr. Sharp expects to make a shipment of 100 barrels in the near future. Great improvement is noticeable throughout the province in fruit culture. Mr. John Irving's orchard at Cape Traverse notwithstanding the off season will bear 60 barrels. Hon. Senator Yeo also has an orchard well worth inspection. The plums are excellent and in order to protect the trees the branches will have to be pruned up.

On the south side of the Hillsboro, the yield of fruit is said to be very light. There is no doubt about the Garden of the Gulf being a fruit producing province. In referring to the matter Mr. Starr stated some time ago that P. E. Island can grow apples which cannot be grown in the Annapolis Valley. The plum crop this year will be very large, and there is an indication that in the next ten years this province will rank as a fruit producing country.

A serious run-a-way accident occurred here yesterday about 10 a. m. which resulted in serious injury to James McDonald D. V. S. Mr. McDonald with a young man named Gallant was driving along the road leading a horse behind his carriage, coming into town from Mr. Thomas Glover's, and when in front of Mr. George Stavert's residence at the east end was run into by a horse with truck, belonging to Mr. Jesse Wright, North Bedouque and driven by Mr. Whidden, which a short distance behind started to run away throwing Mr. Whidden off the truck wagon struck Mr. McDonald's carriage, upset it and threw the occupants violently to the ground. The teams then ran in to town where they were subsequently captured. Mr. McDonald was picked up unconscious and carried into Mr. Stavert's house and Gallant in a delirious state was also taken into the house. The latter soon recovered and was brought to his home in Summerside, not seriously injured. Mr. McDonald fared worse however and was over an hour regaining consciousness. During the afternoon he improved considerably but is yet suffering from painful injuries particularly in his shoulder, though fortunately no bones are broken. At least reports last night he was considerably improved.

THE LOST TO UNEARTH RUINS. It has been estimated that it will require 85 men working every day until 1947 to unearth the entire ruins of Pompeii.

IN THIS LOCALITY. The medicine dealers in this place say that there is no preparation on the market to-day that has anything like such an enormous sale as Dr. Chase's Kidney-Liver Pills. Would this extraordinary demand for Dr. Chase's Kidney Liver Pill continually and gradually increase if people were not being benefitted and cured by their use? Certainly not. One pill a dose. 25 cents a box.

CRAMPS, CHOLERA, DIARRHOEA and all Summer Complaints in Children and Adults readily cured by Fuller's Blackberry Cordial. Always reliable. At all dealers at 25 cents.

Mitchell's Bookstore, QUEEN STREET, OPPOSITE PROWSE BROS.

Home Needlework Magazine Issued Quarterly 35 cents per year Should be on every ladies' worktable. Excels in Embroidery FROM BEGINNER TO EXPERT. "Corticelli Home Needlework Magazine"—the invaluable manual which all others vainly try to imitate—will teach you at the modest rate of 35 cents a year, besides furnishing in beautiful colors, which cost thousands and thousands of dollars. Artists and experts of eminence in Embroidery, Crochet, Knitting, Drawn Work and Lace Making, engaged at princely salaries, will help you to establish An Embroidery Graduate Class. THROUGH CORTICELLI HOME NEEDLEWORK MAGAZINE, for the brightening and beautifying of your home, the elevation of spirits always accompanying high-class needlework, and to place a pleasant pin-money provider in my lady's hands. CORTICELLI SILK CO. LIMITED. P. O. Box 340, ST. JOHN'S, P. Q.

BLAST FURNACES IN UNITED KINGDOM. The United Kingdom has 850 blast furnaces; France, 870.

LUMBAGO BACKS STRAIGHTENED Don't lie around the house losing time and money because your back is stiff from lumbago. Do as thousands before you have done. Buy a large bottle of that unusually good liniment, Polson's Nerviline, and rub it frequently over the sore part. It gets in the pain, drives it out, limbers you up in no time. Nerviline is quick to relieve; never fails; never harms. Try it to-day. 25 cents.

THE LOST TO UNEARTH RUINS. It has been estimated that it will require 85 men working every day until 1947 to unearth the entire ruins of Pompeii.

IN THIS LOCALITY. The medicine dealers in this place say that there is no preparation on the market to-day that has anything like such an enormous sale as Dr. Chase's Kidney-Liver Pills. Would this extraordinary demand for Dr. Chase's Kidney Liver Pill continually and gradually increase if people were not being benefitted and cured by their use? Certainly not. One pill a dose. 25 cents a box.

EXTRAORDINARY JOURNAL. Probably the most extraordinary journal in the world is published weekly in Athens. It is written in verse, even the advertisements.

THE SUFFERINGS OF JOB. If the agonies of Job were worse than the tortures of itching piles from which so many people are now suffering he had much to endure. The difference is that there is no reason for any one to endure the miseries of piles for a single day. Dr. Chase's Ointment has cured tens of thousands of cases and is absolutely guaranteed to cure each and every form of piles. 60 cents at all dealers or by mail from Edmondson, Bates & Co., Toronto.

WAGES OF ITALIAN COTTON SPINNERS. The wages of Italian cotton spinners were only 11 pence for a 10-hour day in 1902. They have since doubled. In England cotton spinners average 20 shillings a week.

ONE TEASPOONFUL OF Pain-Killer is hot water sweetened will cure almost any case of flatulency and indigestion. A cold substitute, there is but one Pain-Killer, Ferry Davis', 25c. and 50c.
