—The friends and relatives of Pte Horace R. Taylor, 105th Overseas Canadian Highlanders will be pleased to learn from letters received by his parents, Mr. and Mrs. Fred W. Taylor, Freetown, of his safe arrival in England. Private Taylor is delighted with England, and the sights he has already seen. He and his friend, Tommy Geddes, formerly of Glasgow, Scotland, are planning a trip to Scotland in the near future.

—W. K. McGOUGAN, Globe Fox Exchange, is Guardian agent in Summerside.

—NEW TELEPHONE.—Quite a number of new telephones have lately been placed in the neighborhood of Springfield. W

—HOLIDAYS OVER.—To the joy of some and to the regret of others, the country schools opened on Tuesday. Most of the scholars are looking well after their vacation. A number of new teachers have been engaged in different parts of the county. W

—GOING TO ENGLAND.—It is with much regret that the residents of the west of Prince County have heard that their beloved rector, the Rev. Frank G. Hasden, is about to leave them and to return to England. During his stay he has endeared himself not only to his own congregation, but to all who have met him. His many friends wish him further and continuous success when the time comes for him to take up his new work. W

—NEW ANNAN RACES— If old Jupiter Pluvius does'nt pull out the rain plugs on Aug. 23rd, the biggest crowds that ever attended the races at New Annan will be there. "Something doing every minute," will be the watchword. The seven furlong race will be an innovation for racing on P. E. Island. Those 2.30 horses that have been "stalling" and "backing and filling" so as not to get mile records will have to race for "blood." The free for all, with such horses as Princess Etta, Sister Patch, and Helen R., and not forgetting Hilda S. (The most consistent racer P. E. I. ever produced). The exhibiting of Captain Aubrey, one of the most beautiful and speediest carriage stallions in America, and the trapeze exhibition between the heats will give an almost continuous performance. cheap fares and convenient train arrangements from all parts of P. E. Island. H. R. Mouse, Kensington, will attend to transportation to and from New Annan Station. 1521-8-7M1i.

—KENSINGTON NONOGENARIAN Mr. Gregory Higgins of Kensington, enjoys the distinction of being the oldest living man for many miles around here, being in his ninety-sixth year. He enjoys good health, eats three square meals each day, and smokes (but not to excess) as he has done for seventy-five years. The old gentleman is interesting to talk to, especially when he tells of conditions, people and places on P. E. Island seventy-five and eighty years ago, for instance, he remembers when Summerside was called "Green's Shore" and the community consisted of three dwelling houses. His extra span of life is attributed to his even temperate habits of life and strong constitution. He was always a steady consistent worker at physical labor till with the last twenty years. His interest in happenings of the present day is failing, but he can talk vividly of happenings that occurred seventy-five years ago. He always read everything that was procurable in early days on P. E. Island, and took a great interest in world politics, particularly the rumors of war, and warlike preparations in Europe, and now, irony of fate, when the big war which he always predicted is raging, his mind is not able to grasp the situation. Barring accident, it is expected he will live to see the century mark. —K.

There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

EXPERTS WRESTLE WITH PARALYSIS

Rockefeller Engages Noted Japanese Scientist to Experiment.

PLAGUE IS SPREADING.

Germs Well Developed in Little Animals From Philippines.

NEW YORK, Aug. 9.— Backed by the millions of John D. Rockefeller, Dr. Hidyo Noguchi, "the strategist of bacteriology," has set out to find a cure for infantile paralysis.

The disease today killed and attacked more than 200 more babies, bringing the total deaths to 1,068 out of 4,842 reported cases. Deputy Health Commissioner Billings said the city could expect 10,000 cases before the epidemic is controlled.

Dr. Noguchi and the country's leading pathologists and bacteriologists are working day and night to evolve a specific. Scientists place their greatest hopes in the Japanese, whose brilliant laboratory conquests in the fifteen years of his association with Dr. Simon Flexner have been notable.

Dr. Noguchi is spending practically all of his working hours in his laboratory at the Rockefeller Institute. His assignments, it is said, was the personal direction of John D. Rockefeller, Mr. Rockefeller, one of his advisers today told the International News Service, is willing to spend any amount in the search for a specific.

The informant said the institute received a shipment of monkeys from South America this week. These are being used by Noguchi and his assistants.

Another shipment is due shortly from the Phillipines. Using these little animals as media, Dr. Noguchi hopes to work out the life cycle of the dread poliomyelitis germ just as was done with the material germ in the mosquito and the bubonic plague germ in the flea.

Two of the eminent scientists assembled in New York Thursday and Friday expressed the opinion that the chief hope for New York's crippled children lies in exhaustive but speedy laboratory work. They did not place much faith in the blood serum which was tested with varying results in the Willard Parker Hospital. This treatment has been abandoned, it was learned yesterday. There was an insufficient supply of the serum and results were negative it was stated semi-officially.

Surgeons of the New York Throat Nose and Lung Hospital, on East 50th Street, cling to their faith in the adrenalin treatment, recommended by Dr. Samuel James Meltzer. Dr. E. J. Bermingham, chief executive surgeon at the hospital, today issued an invitation to medical men to come to the institution.

A conference of charity, social service and health workers met in Commissioner Emerson's office today. It was decided to enlist the service of as many agencies as possible in a house-to-house canvass to begin Monday. The purpose of the missionaries will be to give advice to householders to locate new cases quickly and isolate promptly those infected.

..*NOTES FROM THE FAR EAST. —Amongst the strangers who are visiting at Elmira this week are Rev H. G. Mellick, B.D., Pastor of the Lawrencetown, N. S., Baptist church, and Mrs. Mellick. Rev. Mr. Mellick is a brother of the genial and obliging Postmaster, and may be reckoned with the successful Islanders abroad. Another esteemed townsman now on a short visit, is Mr. George B. McEachern, of H. M. Customs, Ottawa. Another of the successful Islanders, Mr. John F. Whear, Post Office Inspector, was also a visitor during the week. He found the post office in splendid shape. Everything A1, which speaks well for the postmaster. The money order branch, which was opened here a year ago is a great convenience to the people, especially since the mail order business has assumed such enormous proportions. Hundreds of thousands of dollars pass through this post office yearly, mostly to the mail order houses away, as well as large amounts for the big mail order house in Summerside. Miss Estella M. Harris and Miss Etta C. Holland are also visiting their parents, and Mrs. Emett Murphy, formerly Miss Helen McPhee, is also on a visit to her old home at Lakeville. Haying is almost done. Bountiful crops, good weather to save it, makes the farmer's heart rejoice. Crops are looking fine. Wheat, oats and potatoes promise to be bumpers. Fishing is also good, and now with large fishing establishments right here, the fishermen are making good money. Letters from "Our Boys" of the 105th reached here last evening, making glad the hearts of parents and friends of these brave soldier lads, gone to fight our battles. May they return safe and sound is the sincere wish and prayer.—Pro temp-er.

Magic "Nerviline" Cures Toothache, Earache

IT RELIEVES EVERY EXTERNAL PAIN

Cures, Colds, Coughs, Sore Throat, Tight Chest and Hoarseness

It's when sickness comes at night, when you are far from the druggist or the doctor, that's when you need Nerviline most. Experienced mothers are never without it. One of the children may have toothache. Without Nerviline—a sleepless night for the entire household. With Nerviline the pain is relieved quickly. It may be earache, perhaps a stiff neck, or one of the kiddies coughing with a bad chest cold. Nothing can give quicker results than vigorous rubbing with this old-time family remedy.

Nerviline is too useful, too valuable to be without. For lumbago, lame back, sciatica or neuralgia there is no liniment with half of Nerviline's power to penetrate and ease the pain.

As a family safeguard, as something to ward off sickness and to cure the minor ills that will occur in every family to cure pain anywhere, you can find nothing to compare with old-time Nerviline, which for forty years has been the most widely used family remedy in the Dominion. The most economical size is the large 50c. family size bottle, small trial size 25c. All dealers sell Nerviline.
