WINNIPEG MARKET FOR WHEAT CLOSES 1 1/2 to 2c HIGHER

WINNIPEG, July 10.—Wheat prices closed higher on the market yesterday following excellent buying by seaboard interests. The upward movement was also influenced by the strength of the Minneapolis market where July wheat again advanced another four cents, touching \$1.64 and the firm tone of the Chicago market where prices were up 2 1/2 cents for both July and September. The local market closed 1 1/2 to two cents higher with July at \$1.54 1/2; September, \$1.66 1/2 asked; December \$1.34 1/2.

When boiling new milk, to prevent a skin from forming on the top as it cooks, add 2 tablespoons of cold milk to every pint when at the boiling point and stir for a minute. The so-called skin will then be absorbed and the milk will not be impoverished.

Long experience and a sound business reputation is your guarantee of good service.

PERSONALS

Miss Mary Hynes, Jamaica Plains, Mass is spending her vacation at her home in Montague. Her many friends are giving her a glad welcome.

WILMOT VALLEY SCHOOL EXAMINATIONS.

The semi-annual examination of Wilmot Valley school took place on Wednesday afternoon June 30th, with a number of parents and visitors being present. After the pupils had been examined in all the subjects by their teacher, Miss Georgina Cairns and prizes had been presented to those standing highest in the various classes, all present were treated with home made candy. Miss Dorothy Hogg then on behalf of the pupils presented the teacher with a beautiful silk scarf while Miss Audrey Clark read the following address: Dear Miss Cairns—

At the close of the school year, we, the pupils of Wilmot Valley School wish to express to you the esteem with which you are held among us. We have appreciated the faithful manner by which you have taught us.

You have always been patient and kind, and have tried to make our lessons as pleasant as possible. We wish you to accept this small gift, not for its real value, but as a little remembrance of your Wilmot pupils. Signed on behalf of the pupils of Wilmot Valley School.

MONTAGUE MEMORIAL SCHOOL CLOSING.

The closing exercises of the new Montague Memorial School were held Wednesday evening, June 30, in the large I. O. O. F. Hall. The hall was crowded to capacity, a large number of parents, ratepayers and visitors being present. This fitting end to the school year is now an established event in Montague, and pupils as well as parents always endeavor to make the closing exercises an appropriate ending of a successful school year. The year just ending has been a very successful one in regards to educational interests in Montague. Principal Crozier and pupils are to be congratulated for the splendid year's work accomplished, and all the ratepayers for the interest manifested in the children's education and welfare. The new Montague Memorial School, dedicated to the memory of the soldiers who gave their lives for this community, was opened during the past year. This building, up-to-date and modern in every detail, ranks with the very best in the province. Mayor MacKinnon capably presided as chairman for the evening, and after speaking very favorably of the work in the school during the past year, the following program was carried out:

Chorus: "O Canada"; recitation, "Welcome," Winnifred McDonald; recitation, "Those Pants," Fred McKenzie; exercise, "What the trees think," 14 boys and girls; recitation, "Sale of a Tadpole," Ethel Cunningham; Island Hymn; recitation, "Hattie's views on housecleaning," Pearl Mellish; class prophecy, Doris Sterling; cadet drill; recitation, "A Little Girl's Hope," Emma Nelson; piano solo, "Flower Song," Malcolm McKinnon; recitation, "Winking at me," Adele Parkman; motion song, "Tiny Tots" by 5 small girls; class poem, Helen Mellish; trio, "Maple Leaf," 3 girls; dance, Martha and Navella Cunningham; prize recitation, "Highland Hospitality," Francis Coffin; play, "A Perfect Holiday," a sketch adapted from Louise Alcott's "Little Women," valdictory, Robt. Shaw; presentation of certificates; presentation of prizes; presentation to teachers; addresses by Mr. Shaw and Mr. Hynes; God save the King.

After the presentation of the prizes, the teachers, Miss Morrissey and Miss McLeod, Miss Van-J. L. Younker, Miss Hynes and Mr. Crozier, were each in turn the recipient of a gift, accompanied by an address from their respective pupils. Principal Crozier, on behalf of the teachers, thanked the pupils for their thoughtful acts on this

The Opportunity of a Lifetime FRENCH GOVERNMENT 6% BONDS ARE ON THE BARGAIN COUNTER

WE BELIEVE that an investment made today in French Government 6% Bonds (Loan authorized Dec. 16th, 1920; redeemable at par at the option of the Government on or after Jan. 1st, 1931), presents an exceptional opportunity for profit on any material advance in the value of French money (Francs).

Due to the depreciation of French Francs a French Government 6% Bond (of 1,000 francs denomination) can now be bought for \$27.00, with French exchange at normal (19.3c per Franc) the same Bond would have a value of \$193.00

International bankers believe French Francs will sell at 10 cents per Franc before very long. Just think what this means to French Government Bonds; with the Franc worth 10 cents, each Bond of 1,000 francs will have a value of \$100.00—a rise of over 270%, or a profit of \$73.00 for every \$27.00 invested today. With the franc selling at 15 cents, each Bond of 1,000 Francs will have a value of \$150.00, a rise of more than 455%, or a net profit of \$123.00 for each Bond of 1,000 francs, or for every \$27.00 invested today.

We made a lengthy and thorough investigation to determine the best way to buy French Francs for maximum profits. We are of the opinion that these French Government 6% Bonds afford the best medium, for they represent to French investors precisely what British Government and our Canadian Government Victory Bonds represent to us, being legal investments for every Institution, Trust Fund and Savings Bank in France, and constituting a strictly high-grade Government investment. They may be sold again instantly for spot cash, as they are listed on the Paris Stock Exchange and traded in throughout the financial centres of the world. The interest coupons (payable June and December 16th) have always been paid promptly on the dot, and can be cashed in Montreal, New York, London, and other financial centres through our House, banks or other institutions.

French Government Bonds will, we believe, unquestionably come back to normal (\$193.00 per 1,000-franc Bond.) The United States were financially bankrupt after the Civil War. Their securities could be bought for a song, yet in a few years the Americans were on their financial feet again, and today are considered the richest nation in the world.

Even England was once faced with what seemed to be a financial disaster. With Napoleon virtually pounding at her gates, British Bonds went for next to nothing, but the victory at Waterloo sent them sky-rocketing. The Rothschild family accumulated the major portion of its wealth by investing in British bonds and selling them when Wellington's victory became known.

The experience of France, too, bankrupt at the hands of Bismarck, is within the memory of living man. Her Bonds sold down to 7% of their value after the Franco-Prussian War. They appeared hopeless, yet in two years they had recovered 95%, making fortunes for the far-sighted investors who had the courage to invest in them. When millions of men and populations of nations lend their collective efforts to the task—nothing is impossible. The French franc will undoubtedly come back to normal.

A study of history convinces one forcibly that the most difficult thing in the world to destroy is national existence. History is repeating itself. The opportunity of a lifetime, to earn remarkable profits, exists today for investors, through the purchase of these high-grade French Government Bonds. They rank as the pre-eminent class of French Government securities, and are virtually a first mortgage on the entire assets and resources of the vast and wealthy Republic of France. The Bonds are valid for 30 years after maturity, and the interest coupons for 5 years after their respective maturity dates, thus enabling the investor to cash them at any time the exchange rates are favorable.

France is a first-class commercial, naval and military power of the world. French industries are thriving and working overtime. France is exporting goods to every country of the globe; her shipping is crowding the world's ports, and the nation shows every evidence of industrial and economic progress. Reparation payments from Germany are further enhancing the French treasury. These conditions will be quickly reflected in a rapid rise in the French franc, which in turn increases the value of French Government Bonds. That is why we urge you to buy French Government Bonds NOW, while they are on the bargain counter.

The payment of principal and interest on French Government 6% Bonds is guaranteed by the French Government and backed by the entire resources of the Republic of France.

INTEREST INCOME The income from the average commercial (Industrial) Bond is fixed, that is to say, exactly \$60.00 every year until maturity. The income from French Government Bonds comprises many of the advantages of an ordinary share, or of a common stock. While the income in French money remains fixed, the investor depends upon the exchange rate of the French franc expressed in dollars.

Thus it will be seen that at the present rate for the franc the holder of a French Bond will receive for his investment approximately 600 francs per annum in Canadian money, equivalent to a return of nearly 7% on the investment, on the cost of his 10,000-franc Bond which at the present time is \$27.00.

When the franc reaches 8 cents, the value of the coupons will be higher; 600 francs will be worth which on an investment of \$27.00, is a return of 17 1/2%. Few common stocks offer so attractive a return.

When the franc has reached 10 cents, the \$1,000.00 per 10,000-franc Bond will be proportionately higher. Every franc in interest coupons will bring when cashed. Here the yield is 22 1/2%.

At 15 cents per franc the coupon on 10,000-franc Bond costing only \$27.00 a day (normal value \$1,930.00—a profit of \$1,660.00) will be \$6.00, representing a return of over 22%.

And lastly, with the franc at 19.3 cents or \$1,930.00 per 10,000-franc Bond, the coupons will be worth \$118.00 amount equivalent to a return of 43% on the original investment of \$27.00.

Holders of French Government 6% Bonds can cash them at any time for spot cash at the prevailing market price.

In view of the excellent prospect sharp advance in the value of French money, investors should buy as many Government 6% Bonds as they can conveniently afford. We are confident that present purchasers will double their money in a remarkably short time, but of course, immediate cash must be taken if early profits are made.

We are averse to referring to our clients in the field of foreign exchange but we most certainly are in the field of the most outstanding records on the continent. We had the courage to advise investors in British, Swiss, Dutch, Swedish, Norwegian, Spanish, Brazilian Argentine Governments and many other countries when such securities, because of their high value in the market, were being sold at a price which would have been profitable to their former value.

Among other securities in which our clients have profited, we have recommended to investors German Government 5% Bonds at \$39.00 per \$100.00 nominal value. These bonds were then back from clients who had paid \$2,800.00 per million mark unit.

We recommended to investors Government 5% Bonds at \$30.00 per \$100.00 nominal value. These bonds were then back from clients who had paid \$2,800.00 per million mark unit.

Substantial profit—indeed fortune—has been made by investors in the purchase of French Government and Municipal Bonds recommended by this House.

Remember: French Government 6% Bonds are genuine investment. The opportunity to buy them at their present low price is not likely to recur between now and the day the French franc comes par.

Table Showing Present Price and Possibilities

Table with columns: Denominations or Amount, Present Price, With Bonds at Par and Franc at 15 Cents, With Bonds at Par and Franc at 19.3 Cents. Rows include 1,000 Francs, 2,000 Francs, 5,000 Francs, 10,000 Francs, 25,000 Francs, 50,000 Francs, 100,000 Francs.

WE ARE selling a large number of these Bonds at the above price, which covers every expense. Upon receipt of accepted cheque or money order we will at once remit in full. Periodic flow added by registered and insured mail. Order with remittance to cover purchase, as it is received by cash and to insure that you receive as quotations change frequently.

For many years this Investment House has been Canada's foremost exclusive foreign Bond House. It is vitally important to us to have our clients select those bonds which will make the most money for them and make it most quickly. Our interest does not cease after a sale, for it is our constant aim to keep in touch with our clients, scattered throughout the length and breadth of Canada, the United States and Newfoundland, to render it trustworthy service, informing them when Bonds rise in market value, and informing them whether or not we deem it advisable to sell. This service is expensive to ourselves, but its value to our clients is incalculable.

THE INVESTMENT HOUSE OF C. M. CORDASCO & COMPANY. SPECIALIZING EXCLUSIVELY IN FOREIGN GOVERNMENT AND MUNICIPAL BONDS. MARCIL TRUST BUILDING - 222 ST. JAMES STREET MONTREAL CANADA. I enclose herewith cash / accepted cheque / money order for \$..... in full payment for the purchase from you of francs in French Government 6% Bonds (Loan of 1920), which you are to forward me by registered and insured mail.
