—POLICE COURT—In the Police court at Summerside on Tuesday one drunk was fined \$2 and costs. S.

—DEATH OF MR. EDWARD McCARDLE—The death occurred at his home in Middleton of Mr. Edward Eugene McCardle, son of Mr. and Mrs. Thomas McCardle. The deceased, who was only 29 years of age, had not been well for some time but had only been seriously ill for about two months. His sister, Miss Margaret, R. N., came home from the Canadian West to nurse her brother during his last illness. He was a very likable young man and had many friends amongst whom he will be much missed. There are left to mourn besides his parents, three brothers and three sisters namely:—Daniel and Ada, Mrs. Edward Sherry of Chelton, Miss Mabel, training for a nurse in the Canadian West. Frederick in the West; Bert and Miss Margaret at home, to whom much sympathy is expressed. The funeral took place on Wednesday morning at St. Malachias's church, Kinkora and was largely attended. S.

—SAD BEAUEMENT—The community at Elmsdale sympathizes very deeply with Mr. and Mrs. Williams of Elmsdale in the death of their son, Nelson Henry, after only a short illness at the tender age of 15 years. The young lad was a bright student and apparently in the best of health. He had been helping his father in the hay field one day and became suddenly ill. Although not feeling well he had not complained until he collapsed while working. In spite of all that could be done he only lived a few weeks. He will be very much missed both at home and by his companions with whom he was a general favourite. There are left to mourn besides his parents, several brothers and sisters, to all of whom much sympathy is extended. The funeral took place on Wednesday and was very largely attended. S.

—FAREWELL PARTY—The Ladies Social Club of Trinity United Church, Summerside, gave a farewell party on Monday evening at the home of Mrs. Mattie Gordon in honor of Mrs. Russell Cox and Mrs. Albert Woodside, who are leaving Summerside to make their homes in the Eastern part of the Province. Both ladies were ardent workers of the club, who very much regret their departure. Mrs. Cox and Mrs. Woodside were sorry to leave as they had had very many pleasant times at the club's social gatherings and they would always watch with interest the future of Trinity United Church and the Ladies Social club. The evening was pleasantly spent in music and games. Refreshments were served by the hostess before the ladies departed for their homes. S.

—WHALES WORRY HEALTH OFFICERS—The large school of whales which became stranded on the point at the entrance of the Percival River in the Western part of the Island are still a problem to the health officers as to their disposal as they are a menace to the health of the people of the district. Mr. Henry Brien, of Lot 11 Health Officer has been doing what he can to get rid of them. He authorized Mr. William Vincent of West Devon to try to burn them with the aid of kerosene oil. Mr. Vincent used three barrels of oil on one carcass but it only burned while the oil lasted. They are now considering burying them, but even this will be a considerable undertaking and will take some time and expenditure of money. It is fortunate that the weather is becoming cooler as they are a great source of danger to the health of the people in the district. There are now 175 whales ranging in size from twelve to twenty-nine feet. Some weigh over three tons. Many have had their young on the flats and the young ones are dying of starvation. A great many of the smaller ones were used for fox meat when they first appeared. S.

Grain Shipping Records Broken

(Special to the Guardian)
WINNIPEG, Sept. 9.—New grain shipping records for the period between August 1 and September 6 were marked up today after railway statisticians had vainly searched records of past year movements for the equal of the present eastern rush. A total of 56,267,000 bushels was shipped from the Prairies during the period. Both railways announced shipping over their lines had broken all early season figures. One of the heaviest movements came during the past twenty-four hours, when 2,017,000 bushels was marketed by the Canadian Pacific and Canadian National lines. Cars loaded totalled 2,163 despite the intensive shipping. Storage space in country elevators became slightly more cramped with 35,585,000 bushels in store. There still is sufficient available space to take care of the rush it is stated.

—Miss Jean McKearney of the staff of the Experimental Fox Farm, Summerside, left on Saturday on a four weeks visit to Newark, New Jersey. She will be the guest of her cousin, Mrs. H. G. Darney.—S.

—The Misses Dorothy and Pauline and master William Crews, left for their home in Medford, Mass. on Saturday morning after an enjoyable holiday spent with their aunt Mrs. Everett Haslam, Springfield, Lot 67, and other relatives. E.

—Mrs. George A. O'Hara, accompanied by her sister, Miss Agnes Deegan, of Cambridge, Mass., are visiting Cape Traverse and vicinity. They are the guests of Mrs. Charles Wright. It is many years since they have visited the Island and are struck with the improvements, especially in Summerside. When they were on the Island last R. T. Holman's was a small country store and they were amazed to see that it has grown to its present large proportions and employing such a large staff.—S.
