SUNSHINE FURNACE

And Coal Economy

COMBUSTION taking place in the dome or top chamber of furnace fire-pot is the result of air and heat mingling with fumes. This combustion produces heat-energy, which the radiating surfaces above and around fire-pot absorb or draw in and then deflect or throw off. Incoming cold air receives this heat-energy, the result being heated air. Now, if the combustion takes place at a faster rate than the radiating surfaces can absorb and deflect, the surplus heat-power will pass up the chimney or into cellar—*a waste of coal.*

There is no waste of coal in "Sunshine" Furnace. Circuit of radiator is so complete, and air-circulating space so large, that every bit of heat-energy is quickly absorbed and quickly deflected on the circulating cold air, which is thus quickly heated and ascends through the hot-air pipes to rooms above.

The check-draft of a furnace is situated on the smoke-pipe. When this draft is closed—especially on an "ordinary" furnace—heat particles can escape up chimney. When check-draft is opened the incoming cold air from the cellar drives all heat particles back into furnace proper. If the grates and fire-pot of furnace are not constructed properly, there's a clogging and gathering of ashes, and fire does not burn up readily. If no provision is made for gas escape, the check-draft must be left closed indefinitely—*a waste of coal.*

There is no waste of coal in "Sunshine" Furnace. No clogging can take place in the 4-piece grate, no ashes can gather on the straight fire-pot walls, and the Automatic Gas Damper makes every provision for the escape of gas; consequently, check-draft can be opened shortly after coaling and all heat-energy saved for radiation.

WROTE RULES FOR WIFE TO OBEY

attendance upon Charles F. Brandt, a lawyer of Brooklyn, who was taken to the observation ward of the Kings County Hospital, said last night that papers will probably be prepared for Brandt's commitment as insane. Brandt tried to wreck the furniture in the house of his brother, Dr. William Brandt.

"My husband had been acting strangely for a year," said Mrs. Emma V. Brandt, the lawyer's wife.

"I think it was due to the use of morphine and overwork. On May 20 he became enraged because I asked him for money to pay the washwoman and struck me on the head with an umbrella. Then he went away.

"Next my husband sent me a long written list of rules for running the house, threatening that if I did not sign an agreement to abide by them he would have me evicted. The rules were carefully written out and numbered in order.

"The first one said that I must get in every morning at half-past six o'clock.

"The second provided that breakfast must be on the table at 7.20, not a minute earlier or a minute later. Then there was a rule as to how the coffee should be made, another for the cooking of the eggs and others for the preparation of a variety of dishes.

"One of the rules specified that not over $16 a month should be paid for a maid and that no maid should be hired without having first been approved by Mr. Brandt. They were rules about the washing and the sweeping and the care of the furniture. I was forbidden by rule to let the smell of the cooking pervade the house. I was not to be out of the house after eight o'clock in the evening. Every feature of management of the household was covered by rule."

The marriage of Mr. and Mrs. Brandt eleven years ago occurred three months after Mr. Brandt, on a rainy afternoon, offered the woman who afterward became his wife the use of his umbrella. At that time the two were strangers.

FATHER SAW DAUGHTER SINK.

ST. CATHERINES, Ont., July 13.—A tragic death owing ro an accident occurred at Port Dalhousie Sunday evening. Capt. Louis Allen and his nine year old daughter, Collette, were in bathing near Muir's dry dock, and Captain Allen, who was teaching his daughter to swim, took her on his back into deep water. Suddenly she loosened her hold and sank. The father was unable to seize hold of her again and the body was not recovered for about half an hour.

HYPNOTIZED A YOUNG GIRL

PETERBORO, Ont., July 13.—Almost beyond belief is the story concerning the Mesmerism of a fourteen year old girl who undoubtedly would have been enticed away by a suspicious looking stranger near Jackson Park, on Dominion Day, had it not been for the timely arrival of neighbors. Spell bound, unconscious of her evironments, Etta Kennedy, a little girl stood knee deep in the water when a dark stranger, who, without the slightest warning, suddenly appeared from the bushes on the bank and stopped the merriment of several girls bathing. Passing his hands before his face in the weird fashion of a professional hypnotist, he fixed his gaze on the Kennedy girl. She immediately appeared to come under his influence. When rescued from the sight of the unknown personage she became unconscious, and about midnight Wednesday had to be taken to Nicholls Hospital, where she almost died from shock.

Etta Kennedy is only fourteen years of age, and is the daughter of Samuel Kennedy. She is a bright young girl and during the day was employed by various persons a a child's nurse. iAt night she usually stayed at the Cresswell Home in the North end of the city.

Toronto citizens acquainted with the family who went to see the little victim yesterday said she was still hysterical and biting herself in convulsions. The doctors are hopful of pulling her through but fear for her mind.

GENERAL BOTHA SAVED REFERENCES

MONTREAL, July 13.—A special London cable says :—

"Sir Wilfrid Laurier, who became very friendly with General Botha during the last imperial conference, will be interested to learn that Botha saved the preference in South Africa.

"The news has just reached London that at the South Africa customs conference, the ministers of Cape Colony and Orange River Colony strongly opposed the retention of the British preference. The Natal ministers made an ineffectual response and the preference seemed doomed when General Botha who had remained inscrutably dumb said :—

"'I would never have proposed the preference when it was proposed, when there was no chance of British reciprocity, but i am not going to slap the British public in the face now they evidently mean to respond.

"In the end the preference was retained."

THREE WIDOWS DIED FROM SHOCK.

YUSOVA, Russia, July 13.—The bodies of 214 persons recovered from the Rikovsky mine, which was the scene of an explosion of gas, were buried Friday. Three women who stood at the mouth of the pit and recognized the bodies of their husbands, dropped dead from shock. A number of others have gone mad.

Minard's Liniment Co., Limited.

Gents.—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good.

A RAT EXHIBITS DREAD SYMPTOMS

SEATTLE, July 13.—A rat bearing all the symptoms of having been afflicted with bubonic plague germs, is now in possession of the health authorities. The rat was caught in the residential section of the city.

This is the first plague rat located in this city since April 30, and the fact that it is the first to come from the residence district has caused considerable uneasiness among the officials who have had charge of the campaign against the plague.

WOMAN DROWNED BENEATH BOAT

WINNIPEG, July 13.—Before the eyes of her two sisters and several summer residents, Miss Ivy Cull, 21 years of age, of the Winnipeg school teaching staff, was drowned yesterday in Lake Helisson, a summer resort in Dakota. Miss Cull and her two sisters went out early in the afternoon in a canoe. The craft was overworked and when within two hundred feet of shore turned turtle and the three occupants were thrown into the water. The lake was calm and the trio of young women were good swimmers, but Miss Cull seems to have been held underneath the craft when it turned, with the result that she was drowned before aid could reach her from the shore. Her two sisters saved themselves by swimming.

ea and Car Sickness Quickly Cured
