MYSTERY OVER BODY FOUND

Severe Gash on Head Lends Suspicions to the Case

Special to The Guardian.

ST. JOHN, Sept, 10—When the tide went out this afternoon the body of Wm. Lockhart, longshoreman, of West St. John, was found in the mud in the Intercolonial ship.

There is a certain amount of mystery about his death as head shows a severe gash and doctors cannot tell whether it was received before he entered the water or whether he struck something when he fell off the wharf.

The deceased leaves his wife and children.

DISASTER GREAT IN CHINESE PROVINCE

PEKIN, Sept. 8—Only meagre reports have reached the capital from the walled towns, in the region of the Yang-Tse Valley where the floods have hemmed in the missionaries and other foreigners. The report received by the American Mission at Wu Hu estimating that 100,000 persons have been drowned by the water overflowing the banks of the Yang-Tse river has not yet been verified, but every account confirms the great extent of the disaster.

Travellers arriving by steamer at Hankow from the upper country reached by the river, report that many coffins, of a huge Chinese type were encountered floating in the Yang-Tse, which indicated that the waters are robbing the graves of former years to augment the number of dead bodies.

From Change-Te the Province of Hunan, comes word that the receding water is being followed by pestilence. That district hardly contains a survivor who has not been affected by the scourge and many are dying. The Chinese Government is making preparations for the relief of a certain number of the flood sufferers.

The International Relief Society which will convene at Chanagi one week from today will consider the question of extending its relief measures beyond the provinces of Negan-Hwei and Kiang-Su.

WHITE MAN SAYS HE IS A NEGRO

SPARTBURG, S. C., Sept. 8—His love for a mulatto girl, who told him she would not accept a white man as a suitor, caused C. M. Love, who has been passing as a white man, to admit that he was a negro. The admission resulted in his being sentenced by Mayor K. B. Lee, in police court, to pay a fine of $100 or serve thirty days in the chain gang.

Love has been in Spartanburg only a short time. He says he came here from Greensboro, N. C. He has the facial characteristics of a Caucasian, straight black hair and a mustache. His dark complexion would readily pass for sunburn. He applied for a room and board in the home of a white family, and was accepted without question. The white persons with whom he associated on terms of equality are highly indignant. Love applied for enlistment in the United States army as a white man, giving the name of C. M. Lewis.

WIDESPREAD SMUGGLING

NEW YORK, Sept. 8—The indictment of Nathan Allen and John R. Collins for smuggling, it was learned today, is only one step in the government's prosecution of custom frauds. The alleged frauds cover a period of several years, and it is reported that the banker under suspicion enabled his friends also to benefit by his carefully laid scheme.

This financier, it is said, has offices in several foreign countries, and if arrested he is expected to plead non-residence, with the accompanying right to bring jewels for his own use into this country duty free.

Allen and Collins are expected to comply with the U. S. District Attorneys' orders to appear here and plead within ten days.

NEW GLASGOW CHEESE FACTORY BURNED DOWN

The patrons of the butter and cheese factory at New Glasgow have left today nothing but the charred remains of their splendidly equipped factory and plant as the result of a destructive fire which, between nine and ten o'clock Saturday evening, completely wiped out the building and contents with the exception of about fifteen boxes of cheese.

The cause of the fire is unknown but it is supposed to have originated in the boiler room. The fireman left as usual about six o'clock on Saturday evening and everything was then all right.

When the fire was first observed it had gained great headway and the large crowd of nearby residents, who assembled after the alarm had been given, were powerless to do anything except save the 50 head of cheese.

In the building was a complete butter and cheese making plant, refrigerator, &c, and the storeroom contained 300 head of cheese. With the exception named everything was destroyed and the loss to the patrons will be a decidedly heavy one, especially at this busy season of the year. There is some insurance.

The factory has been in operation for twelve or fifteen years and was one of the most productive and progressive in the province, being situated in an especially fine dairying locality. The cheese maker is Charles Stevenson.

SIGHS AND BLUES

If you must sit and sigh
And have the blues,
Why don't you try
To realize
That there are sighs and sighs,
And blues and blues
From which to choose?
There 're heavenly blues, and blues of tranquil seas,
Both pleasant—if you have them, pray have these;
And when you sigh, be like the turtle-dove,
Who knows not grief, and merely sighs for love.

The most perfect home I ever saw was in a little house into the sweet incense of whose fires went on costly things. A thousand dollars served for a year's living of father, mother, and three children. But the mother was a creator of a home; her relation with her children was the most beautiful I have ever seen; even a dull and commonplace man was lifted up and enabled to do good work for souls by the atmosphere which this woman created; every inmate of her house involuntarily looked into her face for the keynote of the day, and it always rang clear. She has always been, and always will be, my ideal of a wife, mother, home-maker.

Helen Hunt Jackson.
