TAX POLICY ON CO-OPERATIVES IS MODIFIED

Application Granted For Return Of Taxi Seized In Fare With Moonshine Case

Following is the text of a judgment rendered in the Supreme Court by Mr. Justice A. E. Arsenault, granting the application of Mrs. Miriam Good for the return to her of an automobile seized by the City Police on the night of May 14 last:

"The evidence in this case discloses that the claimant's husband Roy Good, is a taxi driver and was for some time employed by James Power who operates a taxi stand in Charlottetown.

"After the said Roy Good intermarried with the claimant Miriam Good, the said Miriam Good purchased a car which she subsequently exchanged for other cars. The said cars were all registered in her name but in order to help her husband make a living, she allowed him to operate the several cars as taxis. By arrangement with Power, he operates at Power's taxi stand on a percentage basis when at any time a call came in to Power's taxi stand, and a car was not available, the call was passed on to Good.

"Such a case occurred on May 14th last. A call came in that night to send a taxi to Cherry Valley. The call was taken by one of Power's drivers named Shepard, but he could not go as there was only one car available and it was needed for calls within the City, and he asked Good, who was then idle, to take the call. Good did so, and proceeded to a house at Cherry Valley and there picked up a fare. The night was dark and Good swears that he did not notice whether the fare had any parcel with him. As a matter of fact, the fare had a milk can with him.

Milk Can of Moonshine

"Police Officer Webster says that he saw the taxi, and his suspicions were aroused by the fact that Good was evidently trying to get away from him by backing the taxi; that he went to the car and found the passenger in the car with a milk can, which he afterwards found contained moonshine.

The Excise Act provides:

"(a) That she has an interest in the property as claimed.

"(b) That she was not guilty of any collusion in reference to the offence.

"(c) That she took reasonable care to satisfy herself that the vehicle was not likely to be used contrary to the provisions of the Act.

"The car was seized and the responsibility is placed on the

**Notice:—All parties interested in the levelling and re-seeding of the Mt. Herbert United Church Cemetery, meet at the church Monday evening, July 29th, at 8.00 p.m. D.S.T.

**Driving wagons going at reasonable prices; a limited number of used truck wagons; buggy wheels as good as new; nickle-mounted driving harness; box carts; a number new car trailers. All sizes in belting to 18" rubber traces. Clinton Morrison, Fredericton.

O.P.A. Removes Ceilings On Many Items

By Stanley P. Chase

WASHINGTON, July 26 —(AP)—A reborn Office of Price Administration today poured out price orders in large batches, raising or removing ceilings on thousands of items and making its first day of new life the busiest of its turbulent career.

Most goods simply reverted to the ceilings of June 30, under the O.P.A. Revival Act signed "with reluctance" by President Truman Thursday. But prices were raised on shoes, coal, oil burners, rubber heels, cotton rugs, chinaware, galoshes and a long list of building materials.

Ceilings were swept away completely from major types of industrial machinery; from a wide range of household items like awnings, fruit jar rings, medicine droppers, rubber floor mats; from nearly all the furs not previously exempted; and from thousands of building hardware and equipment items.

For other manufacturers—such as those making stepladders, razor blades, glass light shades and automatic pencils—the way was open to apply for higher prices on their lowest-cost lines.

All these actions were pending when O.P.A. expired. Still to come are a flood of increases authorized under the O.P.A. Act now in force.

Another Steel Strike Threatened

MONTREAL, July 26 —(CP)—Threat of a further strike in Canada's fabricating steel industry loomed today with the announcement by the United Steelworkers of America (C.I.O.) That a mass meeting of employees of three Montreal plants of the Steel Company of Canada, together with 500 striking workers of Canadian Tube and Steel Products Limited, a Dominion Steel and Coal Corporation subsidiary, would be held here Monday night.

A U.S.W.A. spokesman said tonight that it had not been determined whether a strike vote would be taken among the Stelco employees.

Death Toll From Bombing Now 76

JERUSALEM, July 26 — (Reuters) — The death toll from last Monday's bombing of British military headquarters in the King David Hotel here mounted to 76 tonight, it was announced. Forty-six persons were injured in the blasts, set off by Jewish terrorists, and 30 still are missing.

Meanwhile, the Palestine Arab higher committee cabled the Arab delegation now in Rome urging them to seek the Pope's intervention "to put an end to the crimes which the Jews commit against the government in order to save the lives of Arabs and the holy places."

The cable was signed by Jamal Husseini, deputy chairman of the committee

Royal Assent To B.N.A. Bill On Redistribution

By JAMES McCOOK
Canadian Press Staff Writer

LONDON, July 26 — (CP Cable) —A special Royal Commission today gave royal assent to the British North American Bill on redistribution of representation in the Canadian House of Commons less than an hour after the British House of Commons had passed the measure in eight minutes.

The bill had been previously passed by the House of Lords. It authorizes that the membership of the Canadian Lower House be ascertained by dividing the population by 250.

(The revised Commons will have 255 members, but in determining representation the Yukon (one member) and Prince Edward Island (four members) will not be included in the division.)

Canadian-born Beverly Baxter, Conservative member for Wood Green, criticized the bill as being an "anachornism."

Sir Frank Soskice, Solicitor-General, and Anthony Eden, deputy Conservative leader said the measure was a bill of Canadian concern and should be passed quickly.

Mr. Baxter said he agreed the legislation should be passed automatically but said it still was an "anachronism" that the imperial parliament should pass legislation dealing with the constitution of a dominion. He added that the Canadian parliament should be able to make its own constitutional changes.

Viscount Bennett, former Conservative Prime Minister of Canada, had said earlier in the House of Lords that the matter was entirely within the jurisdiction of the Canadian people but that Britain had to accept responsibility for enacting legislation. He suggested discussion with Canadian authorities on the amendment to allow Canada to make its own constitutional changes.

American Troops Fire On Jews

(By The Associated Press)

FRANKFURT, Germany, July 26 —The United States 3rd Army announced tonight that Jewish displaced persons made two organized attacks on American soldiers in southern Germany last night and that seven Jews were wounded by American bayonets and bullets.

The Army said American troops fired on a group of 150 Jews who attempted to storm a United States barracks at Windsheim, and that American soldiers, with bayonets fixed, restored order after "an angry mob" of Jews attacked American military policemen at the Wolfrathausen displaced persons camp, spitting upon and slapping the soldiers.

Six Jews were wounded at Wolfrathausen, 15 miles south of Munich, the Army said, and one Jew was hurt at Windsheim.

The Windsheim incident began, the announcement said, "when an unarmed American soldier in charge of an engineer water point was attacked by three Jews.

At the same time, the report continued, "a mob of some 150 Jews was advancing toward the barracks building. When ordered to disperse, the displaced persons replied with threats. In the resulting disorder, American soldiers fired a few shots and one displaced person was wounded."

"Screaming 'American Gestapo' and 'American S.S.', the Army said, "Jewish displaced persons again broke out of the Wolfrathausen camp Thursday night and spit on and slapped United States military police who were preparing to leave after quelling a riot there earlier."

Nurses Qualify For R.N. Degree

The following is the list in order of merit of graduate nurses who have qualified for their R.N. Degree in the recent examinations held at Charlottetown and Summerside. The total marks possible were 900; necessary to pass, 540.

Priority Given Bill To Boost Judges Salaries

OTTAWA, July 26 —(CP)— Justice Minister St. Laurent declined in the Commons today to meet opposition requests that legislation increasing the salaries and pensions of Dominion and Provincial Judges be shelved for a year, or until higher standings of living have been assured old age pensioners and workers.

The requests came from several C.C.F. members and from J. H. Ferguson (PC—Simcoe North), but Mr. St. Laurent said he felt that through the legislation he was carrying out a responsibility to the judiciary and to the country.

Some 17 years ago a Commons committee had recommended that the salaries of judges be increased and the pension plan improved so that the top men in the legal profession could be attracted to the bench.

Mr. St. Laurent said:

"I do feel that it is necessary to have that (salary) scale such that you can take a man who has reached the top and he can continue to live as he lived under those conditions without having to provide out of his capital what is required for his annual expenditure."

The new salaries, ranging from $8,000 to $20,000 will become effective as from Jan. 1 next. Current salaries range from $5,000 to $15,000.

Angus MacInnis (CCF—Vancouver East) argued that the salaries being made by judges now were in the higher income brackets. He felt it was unwise at this time to grant the judges a one-third increase in salary and then tell labor that if wages are increased by more than 10 cents-an-hour there will be inflation.

Support for the bill came from John Hackett (PC—Stanstead), well-known Quebec lawyer. He said there would be no dearth of judges even if the salaries were reduced but warned that Canada then would not obtain the men of high skill needed to administer the science of law.

Gov't Sets Date For Thanksgiving

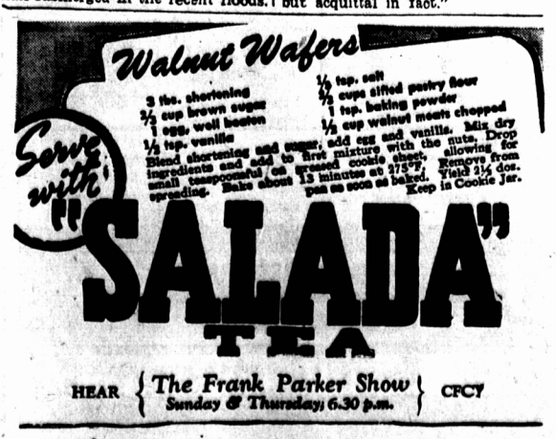
OTTAWA, July 26 —(CP)—The government, by proclamation in the Canadian Gazette, today set aside Oct. 14 as a "day of general thanksgiving to Almighty God for the blessings with which the people of Canada have been favored this year."

The proclamation said: "We do hereby invite all our people of Canada to observe the said day as a day of general thanksgiving."

LETTERS SAVE TIME

WELING, Kent, England — (CP) —Running a parish of 20,000 single-handed, Rev. Frank Moore, vicar of St. John's, writes personal letters to each of his parishioners. In each letter is a reply-paid postcard with a questionnaire. "If I get 20 replies out of 50 postcards I consider I am making progress," he said.

BURY ST. EDMUNDS, England —(CP)— J. Lane, a farmer here, donned a bathing costume recently to rescue his cattle which were half-submerged in the recent floods.



B.N.A. Act Violated By Ottawa's Negligence In Matter Of Appeal Court

Statement By Justice Minister

Following is the Hansard text of the question asked by Mr. W. Chester S. McLure, and the answer by Justice Minister St. Laurent, in the House of Commons on July 23 with regard to the appointment of a fourth Supreme Court Judge for this Province. The question was raised during discussion on a bill to increase judges' salaries:

Mr. McLure: "Mr. Chairman, I seldom enter into a discussion of bills of this kind, for the reason that I am not a lawyer and the legal fraternity are well able to take care of them. But I desire to direct a question to the Minister of Justice which deals with the judiciary of my Province, Prince Edward Island. The matter I shall mention I have often heard our lawyers discuss in Charlottetown and in different parts of the Island.

"In Prince Edward Island the Supreme Court which consists of three judges as at present constituted, we have no real court of appeal. I understand that when a judgment is given by one judge an appeal may be heard only by the remaining two judges of the Supreme Court bench, with the result that if they disagree, as often happens, the trial judgment stands, even when the appeal judges disagree on points not even raised before these trial judges. I might also mention that the outcome of many cases is often unsatisfactory because the amount involved does not permit of an appeal to the Supreme Court of Canada. Does the bill now before us take care of such a situation as this, and has any consideration been given to the rearrangement of the judiciary of Prince Edward Island so as to provide for an efficient appeal court without adding to the existing number of judges?"

Concedes Jurisdiction

Mr. St. Laurent: "This bill does not take care of the situation referred to by the hon. member. Consideration has been given to it at various times ever since I assumed the office of Minister of Justice. One of the suggestions made was that the number of County Court or District Court Judges be reduced and the number of High Court Judges increased so that there would always be three High Court Judges who had not participated in the judgment from which an appeal was taken. That has been discussed with the provincial authorities. The Hon. Member will realize that it is a matter within their jurisdiction. They are the ones who determine what courts they will have and

(Continued On Page 5 Col 5)

That the Dominion Government has failed in its constitutional obligation to provide Prince Edward Island with an adequate court of appeal in accord with the expressed will of the Legislature, was the view expressed to a Guardian representative yesterday by Mr. W. E. Bentley, K.C., secretary of the Law Society of Prince Edward Island.

Queried with regard to a recent statement in the House of Commons by Justice Minister St. Laurent on the subject of providing a fourth Supreme Court judge to insure an appeal court of three judges, Mr. Bentley said:

"Under the provisions of the British North America Act, 1867, certain duties and obligations are imposed upon the Province; others upon the Dominion. It is the duty of the Province, for instance, to declare what courts shall be constituted. This is done in the form of a provincial statute. It then becomes the duty of the Dominion Government to make appointments to the Judiciary so constituted.

"Such a statute was passed by the Prince Edward Island Legislature in 1922. Chapter 6 of the statutes of that year enacted that 'the bench of the said Supreme Court shall be composed of a Chief Justice and three other Judges.' That Act was enacted in May, 1922, and was well within the legislative authority of the Provincial Legislature, under Section 92 (14) of the B.N.A. Act, 1867. Section 92 (14) declares that 'in each Province the Legislature may exclusively make laws in relation to matters coming within the class of subjects next hereinafter enumerated, that is to say: (14) The administration of justice in the Province, including the constitution, maintenance and organization of Provincial Courts.'

"The Act of 1922 was thus within the exclusive legislative jurisdiction of the Prince Edward Island Legislature. The Act has been re-enacted on several occasions, for example, 1937, chapter 20, and 1940, chapter 35, and is still the law.

Minister's Admission

"The Hon. L. St. Laurent, Minister of Justice, in his speech in Parliament on Tuesday last admits that the constitution of the Courts of the Province is a matter within the jurisdiction of the Legislature of the Province. Referring to the people of Prince Edward Island Mr. St. Laurent declares: 'They are the ones who determine what courts they will have and how many Judges constitute the bench of each Court.'

"This, as already shown, has

(Continued On Page 5 Col. 6)

Sentenced To Loss Of Civil Rights

PARIS, July 26 — (Reuters) — Pierre-Etienne Flandin, former French Premier and foreign minister in the Vichy government, tonight was sentenced to five years' loss of civil rights by the French High Court.

Flandin was charged with "national indignity" in connection with his pre-war support of the Munich appeasement policy and the part he played in Pierre Laval's Vichy government.

In passing sentence the court said it was held that Flandin's actions while foreign minister at Vichy did not constitute collaboration. The court added that Flandin was sentenced "in principle only" since the penalties appertaining to the sentence would not be applied.

It also said the sentence represented condemnation "in principle but acquittal in fact."

White Men Slaughter Four Negroes

MONROE, Ga., July 26 — (AP) —The mob spirit flared among a group of armed but unmasked white men here resulting in the bloody massacre of two Negro farm hands and their wives.

The grotesquely sprawled bodies of the victims—the coroner said at least 60 bullets were pumped into them—were found in a clump of bushes beside a little-used side-road.

The hands of the two men were bound behind them. The hands of the women were free. The upper parts of the bodies were scarcely recognizable from the mass of bullet holes.

The stark rural tragedy—first of its kind in Georgia since long before the war—occurred about eight miles from here late Thursday, but the story did not "leak out" until today.

The slaughter came as the aftermath of the stabbing of a white man, Barney Hester, 22, a farmer, July 14. Hester is in hospital here.

One of the mob victims, Roger Malcolm, 27, had just been released from jail under $600 bond on charges of stabbing Hester, for whom he worked.

The other Negroes who fell at the cold, deliberate fury of the mob were the young Negro farm hand's wife, and another young Negro couple, George Dorsey and his wife.

Details of the killings came from the white man, Loy Harrison, who was taking them to his farm. Harrison said the women nearly escaped the purpose of the mob.

The Negro men were taken out of the automobile first and led down the sideroad. The women were held at the automobile. Then a member of the mob said one of the Negro women had recognized him.

"Get those damned women, too," the mob leader shouted.

Several of the men then came back and dragged the shrieking women from the car. Then, a few moments later, Harrison heard the shots—many of them. The mob dispersed.

Asks Death Penalty For 22 Nazis

NUERNBERG, July 26 — (CP) — Sir Hartley Shawcross, chief British prosecutor, today demanded the conviction of 22 top Nazis "murderers"—a group who directed "the cold, calculated, deliberate attempt to destroy nations...through murder."

Speaking after the chief United States prosecutor, Justice Robert H. Jackson, opened the prosecution's summation for Allied countries against Hermann Goering and 21 co-defendants on trial before the international military tribunal, Justice Shawcross said the prisoners were guilty of murder "conducted like some mass production industry in the gas chambers and ovens" of horror camps.

Justice Jackson assailed defence pleas as "Nazi double talk" and declared:

"If you were to say of these men that they are not guilty, it would be as true to say there had been no war, there are no slain, there has been no crime."

"What these men have overlooked is that Adolf Hitlers' acts are their acts. It was these men among millions of others. And it was these men, leading millions of others, who built up Adolf Hitler and vested in his psychopathic personality not only innumerable lesser decisions but the supreme issue of war or peace."

In the dock, earphones pressed to their heads, the accused listened to every word, displaying interest with a mixture of frowns and grins.

Dudolf Hess, third-ranking German before he parachuted into Scotland and started his insanity hoax, was the only defendant missing beside Martin Bormann, who is being tried in Absentia.

Justice Jackson limited his summation to the charge of conspiracy, thus leaving it to the British, Russian and French prosecutors to deal with these other counts of the indictment: crimes against peace, war crimes, and crimes against humanity.

Chief Constables Ass'n Elect Officers

SAINT JOHN, N. B., July 26 — (CP)—The four-day convention of the Chief Constables Association of Canada concluded today with election of officers and adoption of resolutions calling for national finger-printing, more severe penalties for assaults against women and children, and restoration of the two-license plate system for motor vehicles.

The convention decided that it will gather next year in Montreal where it met in 1936.

Chief Alexander Calder of Moose Jaw, Sask., was elected president of the association; Charles Barnes, Montreal, first vice-president; Horace E. McLeese, Saint John, second vice-president; and George A. Shea, director of the C.N.R. police, Montreal, was re-elected secretary.

The executive committee for the coming year includes: George Fox, Halifax; James Bowes, Sackville, N. B.; Peter White, Summerside, P. E. I.; Joseph Griffiths, Outremont, Que.; C. E. Bagnall, Chatham, Ont.; George Harvey, Lethbridge, Alta.; and J. B. Scott, C.N.R., Winnipeg, Robert Walker, Swift Current, Sask., and T.W.C. Parsons, commissioner of B.C. police, re-elected.

The convention adopted a resolution favoring "the police ideal—that every person in the nation be finger-printed for personal identification" after an address by Inspector H. R. Butcher, former R.C.M.P. expert.

Inspector Butcher said that police faced one chance in eleven of identifying bodies found without other clues. Universal finger-printing would raise the chances to almost 100 per cent.

The resolution dealing with severity of penalties in crimes of assault on women and children was based on an address by Chief George Taylor of Port Arthur, Ont.

In his address Chief Constable Taylor had drawn attention to the comparative lightness of penalties for all types of indecent assault and attempted assault.

A copy of the resolution will be drawn up, with the crimes, and forwarded to the Minister of Justice, Ottawa.

Copies of the "double license plate for automobiles" resolution will be sent to highway departments and others concerned with motor vehicles and their control, it was decided.

Deletion of one license plate from an automobile made it "more than doubly hard" for police officers to check cars involved, or possibly involved, in offenses.

TELEVISION "DOWN UNDER"

CANBERRA — (CP) — The Australian parliamentary committee on broadcasting has recommended the establishment of experimental television stations in Sydney and Melbourne. The committee also recommended steps over a period of several years to convert radio stations in the state capitals to frequency modulations.

Commons Now Making Study Of Proposals

By GEORGE KITCHEN
Canadian Press Staff Writer

OTTAWA, July 26—Acting Finance Minister Abbott today announced in the Commons the Government has decided to make a three-way modification in its proposals to tax co-operatives.

As the House, in committee stage, reached budget resolutions dealing with co-operatives, he announced:—

1. For taxation purposes, co-operative organizations will be allowed 12 months instead of six months, as proposed in the resolutions, to pay patronage dividends.

2. The provision that moneys expended by an organization in the purchase of the interest of members would be exempted only if that interest had been acquired after 1941 will be removed.

3. Provision will be made whereby a co-operative which wishes to pay patronage dividends only to members or at a lower rate to non-members will be able to treat such patronage dividends as a deduction from taxable income, provided they pay tax on income arising from non-member business.

Opposition Attitude

The immediate reaction of C.C.F. members was that while the changes announced by Mr. Abbott were important they did not go far enough in that the Government still intended to tax co-operatives, a proposal which the C.C.F. party fought throughout the week long budget debate preceding the resolution stage.

John Bracken, Progressive Conservative leader, who also had expressed opposition to some aspects of the Government's proposals, said the official opposition would accept the changes if they met specific objections raised by that group.

Mr. Abbott also announced that he had received from representatives of the Alberta and Saskatchewan wheat pools a counter-proposal for settlement of Government tax claims on the pools and said these suggestions now
