CUT ON FREIGHT MAY LEAD TO RATE WAR

BOSTON, Feb. 2.—The Boston & Maine Railroad sent to the Interstate Commerce Commission recently a statement that it should insist on a sixty cent a hundred freight rate to the west, the same as from Baltimore, although it agreed on January 1 to maintain a sixty-nine cent rate for a month. Up to the first of the year the rate from Boston has been slightly higher than that from Baltimore, which has acted adversely, according to the Boston & Maine officials, to the business interests of the city and in favor of Baltimore. It was the belief here today that the reduction by the Boston & Maine will be met by a further reduction by railroads centring in Baltimore and may lead to a rate war.
