Daily War Survey

(By The Canadian Press)

There was nothing ambiguous about Vyacheslaff Molotoff's speech at Moscow yesterday. In it the Russian Premier and Foreign Commissar ranged the Soviet definitely on the side of Nazi Germany in the war.

He became the first public official outside Germany to endorse wholly the German contention that war guilt rests on Great Britain and France and the first to approve the conquest of Poland.

For the future two passages in the Molotoff speech are interesting if not actually sinsister. They were his references to Finland and India.

As Finnish delegates were about to return to Moscow for final talks in their negotiations regarding Russian demands on their country the Soviet spokesmen appeared to bar any hope of compromise. He said Russia was demanding an agreement with Finland similar to those already made with Latvia, Estonia and Lithuania, the other Baltic States.

Such an agreement would infringe gravely on Finnish independence and Finnish leaders are on record as expressing a determination to fight for their country's independence. Thus the Molotoff speech is another application of the Nazi method of threatening force in the midst of negotiations.

Regarding India Molotoff re-echoed Nazi propaganda about alleged British oppression. This lends support to the view that one of Russia's main contributions to a totalitarian victory may be an attack on British interests in the east in which subversive Communist activity in India and other Asiatic countries would play an important part.

HOUSING PLANS CHANGED—Yesterday it was officially announced that the Royal Canadian Army Medical Corps will be billeted in the house on the corner of Weymouth and Richmond Streets formerly owned by the late Judge Stewart. It was announced earlier that this unit would be housed in the Strand Theatre but these plans were changed and it is reported that the No. 6 district Signallers will be transferred to the mainland. The Signallers were to have occupied the Stewart property under the former plan.

This new office is much larger than the crowded quarters formerly occupied by the staff and the employees are now able to conduct their business in a more comfortable atmosphere. The general public will also benefit by the change as it is now possible to do their waiting on comfortable chairs instead of the former custom of enforced standing in the hallways.

AIRPORT WORK SUSPENDED —It is rumored about the city that work at the Airport has been suspended for this year. The two runways were about completed but there is considerable work to be done yet in straightening out the buildings, etc. The hangar is not finished and work on the radio beam has yet to be completed. Mayor E. A. Foster yesterday wrote the Civil Aviation Headquarters investigating the reason for the suspension of the work and will bring a report in at the next Council meeting.

B. I. S. MEETS—President, J. M. Malone of the Benevolent Irish Society occupied the chair at the regular meeting of the Society held recently. Regular routine business of the meeting was carried out and reports of the different committees were read. Mr. P. B. MacTague gave a detailed report of the meeting of the Red Cross Society which he attended as representative of the B. I. S. The social part of the evening took the form of a debate which was much enjoyed by the members.

TRUCK OVERTURNS—Monday afternoon about 4 o'clock a two ton truck loaded with asphalt and driven by Raymond Creamer of Souris overturned at the curve on the top of the steep hill between Montague and Stewart's Corner about a mile from the Georgetown road. Creamer was on his way from the Kilmuir plant to Souris when the accident happened. He fortunately escaped injury but the truck which turned turtle on shoulder of the highway was badly damaged. The driver was caught in the cab and had to be released by passersby.

YORK NOTES — Montague Rodolph Hardie, York Mills, has entered the P. E. I. Hospital for treatment —George Tweed Buchanan, C. N. R. York, paid a business visit to the city yesterday—The recent rains have converted the highway at York Sta. into a Serbonian bog spoken of in Milton's Paradise Lost—Wallace Carr York, is building a new barn to replace the one destroyed by fire—Mr. John Clifford Hardie, has purchased the Wm. Crockett farm of that place. —The condition of Mrs. R. Inch, Winnipeg shows no improvement. Mrs. Inch is a native of York—Mr and Mrs. Louis H. Vessey York, spent Sunday at Winsloe, the guests of Herbert and Mrs. Horne.— Messrs. Lloyd and Richard Vessey York, spent Saturday at Kilmuir.

MISCELLANEOUS SHOWER — On Tuesday evening October 17th, the people of Winsloe gathered at the new home of Mr. and Mrs. Stanley Younker to tender a miscellaneous shower to Miss Alice Younker in honor of her approaching marriage. To the strains of the wedding march the bride-to-be was ushered to the seat of honor, which was prettily decorated in pink and yellow, by Miss Ruth Cudmore. The many useful gifts, which included a set of dishes, were then opened by Miss Eva Coles and presented to the bride by Miss Helen Roberts while Miss Rena Younker read the accompanying verses. The gifts were daintily arranged on a table by Miss Marjorie Roberts. Miss Younker in her usual witty manner, thanked the donors for their gifts and extended a hearty invitation to all to visit her in her new home. Everyone then joined in singing, "For She's A Joully Good Fellow" after which the bride was showered with confetti. Lunch was served by the hostess assisted by several of the ladies, and the remainder of the evening spent in dancing and social intercourse. Music was furnished by Miss Margaret Craswell and Mr. Walter MacLure.

FUNERAL TODAY—The remains of the late Mrs. John T. Pearden arrived from Montreal last night and were taken to the MacLean Funeral Home. The funeral will be held this afternoon, service starting at 2 o'clock.

ELECTION HEARING FRIDAY —Hearing by the Supreme Court en Banc of the appeal by Lieut. Governor B. W. LePage in connection with the election results in the 2nd district of Queen's could begin on November 3. it was learned last night. Originally it had been scheduled for tomorrow but was changed when other Court work was delayed.

FOG GROUNDS PLANES —Fog over Prince Edward Island yesterday afternoon grounded the east bound flight of the Charlottetown-Summerside-Moncton air service at the New Brunswick end late yesterday. Despite rain and slight fog the plane made the trip from here to the mainland but flying conditions became worse later in the day.

SEASON CLOSED — The partridge season closed yesterday. This year it was permissable to shoot Hungarians all the month of October while the season on the native birds was open only during the last two weeks of the month. Gunners will have to wait for another year to go hunting the birds again. The weather was not very pleasant during the latter part of the season but this did not deter the sportsmen from obtaining many fine bags.

FUNERAL AT SOUTHPORT— Funeral of the late Mrs. (Capt.) George T. Genge was held yesterday afternoon from her late residence, Southport. Services at the home and grave-side were conducted by the Rev. G. Carlyle Webster, assisted by the Rev. Dr. Genge. Interment was in Bunbury Cemetery. Pallbearers were: Messrs, Malcolm McDonald, Ernest McInnis, Arthur Burke, John Alyward, H. A. Robertson and Henry Wood.

ATTEMPTED SUICIDE?—A man arrested last night on a charge of drunkeness when placed in a cell at the Police Station attempted to end his life. In some unaccountable way he reached out and caught a rope which was hanging from the skylight and with it took a couple of turns around his neck. Hearing a gagging noise, an officer went into the cellroom and discovered the plight of the prisoner. Unable to clear the rope the policeman quickly produced a knife and cut the man down. Police were of the opinion, however, that the man was not very sincere in his attempt to suicide.

TRUCKMEN RESUME WORK — Striking truckmen in Kings County were back to work yesterday but the weatherman has stepped in and but little gravel has been hauled since the dispute was settled. The men, about forty in all, went on strike last week when they declared they could not haul gravel for the rate fixed by the government. They were working on a 14 1-2 mile gravel project under the supervision of the provincial government. Department of highways officials at Charlottetown said the men were not given any increase in rate. They were told to haul or not—just as they liked. They were informed, however, efforts would be made to keep the road over which they were hauling in good condition, weather conditions permitting. Rain this week has kept the gravel trucks at a standstill, however. Each truck hauled one load yesterday morning and then had to quit because of heavy rain.

Fire Damages Plant Of Bruce Stewart and Co.

The firemen responded to an alarm at 10.30 yesterday morning for a blaze at the plant of Bruce Stewart & Co., which required an hour's work on the part of the firemen before being extinguished.

When the firemen arrived flames were shooting from the roof of a building housing on the ground floor the boiler shop, with machinery and boiler room; the plumbing shop on the second floor and the pattern shop on the third floor, while large clouds of smoke rolled from the building.

Two lines of hose were quickly laid from the motor pumper, the firemen tackling the job of saving what, to the spectators, looked to be a doomed building. After about an hour's work, however, the blaze was extinguished, but not before the upper portion of the building was badly gutted.

The greatest loss will be the destruction of a number of valuable patterns which cannot easily be replaced. Those not burned suffered considerable damage from water.

No one has any idea how the fire originated. It started over the furnace room.

Lieut.-Col. McKay, the manager, stated that at present he could give no estimate of the loss, which, he said, was covered by insurance.

U. S. Government To Investigate Pro-Nazi Bund

NEW YORK, Oct 30—(AP) — The United States Government, which only a week ago had Earl Browder, the National Communist leader indicted for passport fraud, has begun an investigation of Fritz Kuhn and the pro-Nazi German-American Bund he heads.

This was confirmed today by U. S. Attorney John T. Cahill, who would say only that allegations "of a very serious nature" were involved.

Kuhn already is under State indictment obtained by Thomas E. Dewey, New York county district attorney, charging theft of $14,800 of the Bund's money. News that Kuhn now is involved as well in a federal inquiry was met by his lawyer, Peter L. F. Sabbation, with the declaration it was a "witch hunt" brought about in "a struggle for glory between attorneys."

MAY NEED SYNTHETIC GASOLINE

NEW YORK, Oct. 26 —(CP) — Harold Ickes, secretary of the interior, told the National coal association today that unless a more conservative policy is adopted in oil production "we will prematurely be forced to turn to synthetic gasoline." Likewise, he said, there is too much waste in the coal industry.

CLEANING GILT PICTURE FRAME

When a decorated gilt picture frame has to be cleaned, if there is a picture in the frame which cannot be removed, it is best to take it to a picture-frame dealer and have him clean it.

If there is no picture in the frame it may be washed with a solution of soap flakes and warm water. A bottle brush is excellent for deep carving. Try a small piece first, as some gilt is not suitable for home cleaning.

Russia Prepares For Welcome To 'Liberated' Areas

MOSCOW, Oct. 30 —(AP) —Soviet Russia will set the stage tomorrow for welcoming "liberated" sections of Polish White Russia and the Western Ukraine into the Soviet Union and "under the sun of Stalin."

The fifth extraordinary session of the Soviet supreme councill, or parliament, called to take over the two provinces returned to Russia by the German-Russian partition of Poland, is expected to last a week.

Well-informed circles were of the opinion that the premier and foreign commissar, Vyacheslaff, Molotoff, would address the council on his foreign policy. It was believed he would report on the recently-concluded mutual assistance pacts with Latvia, Lithuania and Estonia as well as the treaty of friendship and new frontiers with Germany.

Taking their cue from recent opinions expressed in the controlled Russian press, some diplomatic observers held it likely Molotoff would make a statement on Russia's attitude on the war. The press repeatedly has blamed Great Britain and France for carrying on an "imperialistic" war. Soviet newspapers also are beginning to criticize the United States, especially the pending legislation to repeal the arms-embargo.
