RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-lives" Cured Him

McMILLAN'S CORNER, ONT.

"Your remedy, 'Fruit-a-lives' is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-lives' and they cured me. Since then, I take 'Fruit-a-lives' occasionally and keep free of pain. I am satisfied 'Fruit-a-lives' cured me who takes them and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it." JOHN B. McDONALD, D.D. Indeed, this letter is of value to you and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. See a box, 6 for \$2.50 trial size, 25c. At dealers or from Fruit-a-lives Limited, Ottawa.

INSTITUTE MEETING.—The recently formed Stanley Bridge Women's Institute held its first meeting on July 3rd. The large attendance showed the deep interest in the women of the districts represented, and the fact that eight new members were added is a proof that this institute has come to stay. The seasonable and interesting subject of Canning and Preserving small fruits was very fully discussed by the members present and useful hints were freely interchanged. The next meeting will be held on August 21st, and it is expected that Miss Ross, and that of Macdonald College, will take part in the proceedings. All are looking forward with deep interest to a meeting which is certain to prove both interesting and instructive.

(From Yesterday's Evening Guardian) **TRINIDAD AND STEPHANO.**—The tourist steamer Trinidad, owned by the Quebec Steamship company, cleared for Halifax and Charlottetown from New York on Friday and should be here seven o'clock Monday. The Stephano also cleared on Saturday and a duplication of the race these craft put up two weeks ago over the same course may be expected. On the last occasion the Trinidad scooted away from the Stephano in a fog, though in similar cases last year the Stephano was the one to show her heels first. In these days of coal economy, however, it is not probable that any particularly strenuous efforts would be put forward by either craft to gain the advantage where a strain on engines and bunkers would be entailed.

SUMMER SCHOOL.—On Thursday last the School was the guest of the town of Dartmouth, and right royally did this enterprising town perform the duties of host. A sail on the lakes—an examination of the locks of the old canal—a picnic at the camps—canoe races—and a band concert were the different items on the bill-of-fare, every number of which were carried out to perfection. Friday evening found the School in goodly number in the assembly hall of the Technical College to listen to a lecture by Dr. Blackadar of Halifax. His subject was "Imperialism." In a pleasant and humorous manner he sketched the acquisition of the colonies by Great Britain, and emphasized the motto ascribed to the Anglo-Saxon, "What we get we hold." He considered that a Parliament composed of representatives from all parts of the Empire would be of questionable ability, but considered that Imperial Conferences have been of great good, and might be made much more useful. He also thought that a reciprocity of professional practice would be good, that is, that a doctor or teacher, etc., licensed in one part of the Empire might be allowed to follow his profession in all parts of the Empire. Saturday evening by arrangement with the authorities of the Academy of Music the School had the privilege at a reduced rate of witnessing the production of "Brewster's Millions."

CARDINAL GIBBONS
NEARS 80TH YEAR.

BALTIMORE, Md., July 22—Cardinal Gibbons will enter upon his eightieth year tomorrow, having been born July 23, 1834. His eminence was ordained in 1861 and began his priestly labors as curate at St. Patrick's Church, Falls Point, Baltimore. Six weeks later he was appointed pastor of a church at Locust Point. This was his only experience as pastor. Those were trying days for the young priest, the first days of the civil war, but he performed his duties faithfully and regularly. He served as chaplain of Fort McHenry, which was then used not only as a fort, but also as a prison for Confederates. As a result of his good work he was appointed, four years later, secretary to Archbishop Spalding of Baltimore. Thenceforward honors and promotions came to him rapidly. In 1868 he was consecrated bishop of Adramyttium. Four years later he was transferred from the vicariate of North Carolina to the bishopric of Richmond. In May, 1877, he became conductor of the Baltimore and a few months later he succeeded to the see. In 1886 he was created cardinal.

The Cardinal continues to live a busy life, despite his advanced age and is in good health. His vitality has caused expressions of amazement and his vigor is attributed to his systematic method of living. In addition to carrying on the work of his high office regularly, he has found time for the performance of many ceremonies and to assist at commencements, celebrations in honor of priests and sisters, first masses of

young priests, weddings and other exercises. Last month he was present at a dozen or more commencements in different parts of Maryland and in the latter part of the month ordained nearly fifty students to the priesthood. Almost every day he has a walk for an hour or more, and this doubtless accounts in part for his good health.
