McDonald, Mary Bell McDonald, Mary Power, Mabel Chaisson teacher.

CANADA'S PROSPECTS

Sir Vincent Meredith Speaks in Optimistic Vein

LONDON, May 5.—Sir Vincent Meredith, president of the Bank of Montreal, takes an optimistic view of the commercial situation in Canada, in an interview which he has given in the Times. Sir Vincent declares that general conditions are on the whole fairly satisfactory, though there has in many cases been an accumulation of high priced stocks which will have to be liquidated, probably with some losses, before normal condition return.

Canada has a heavy war debt and high taxation, but will probably emerge from present difficulties sooner than many other countries the Montreal banker declared. The present Canadian banking system is admirably adapted to the requirements of the country. Sir Vincent affirmed with emphasis, adding that Canadian bankers had decided that the suggested Federal Reserve Bank, which has been sometimes advocated, would be an unnecessary and expensive luxury, giving no better facilities to the business of the country than was now provided.

THE RESURRECTION

Though in the grave we long have lain, Why by her cruel hand were slain, We shall yet victorious rise, And then her power we shall despise.

Of natural bodies in the grave, The Lord will every atom save; Spiritual they shall they shall arise, Prepared for Heavenly exercise.

Bodies that were in weakness sown, Shall yet in might and power be shown, The body in dishonor laid, Away, shall be in glory raised.

Many will rise from ocean's waves Who long slept in her dismal caves; The briny sea will keep its sway Until the Resurrection day.

When the archangel's trump is blown, And Christ from Heaven shall come down, The dead in Christ will first revive, An army great comes forth alive.

With bodies strong and pure and light, They shall arise both grand and bright, With life and health in every vein, And beauties that for aye remain.

They will ascend the Lord to meet, Their joy and gladness all complete, When Christ in glory they shall see, And with Him evermore shall be.

Christ will His Saints with glory crown, Theirs shall be honor and renown; Their places shall be in glory given, And like the angels be in Heaven.

D. MacLEAN.

FIRST, DOCTORS—Then a Skin Specialist.

Then a bottle of D.D.D.

We shall publish every week for the benefit of skin sufferers in this section, a few words written by Canadian people—some of them of prominence—all heartfelt stories of relief from terrible suffering.

A sentence or two from a letter from J. W. Corns, 33 Melbourne Ave., Toronto, a man of fine standing, "I have been a sufferer for two years with eczema on the legs and ankles. I have tried three or four different doctors. I went to a skin specialist. All of no use. I used one dollar bottle of D. D. D. that is all. Today I am perfectly well."

If you wish to try a bottle of this prescription that Mr. Corns found so remarkable, we will guarantee relief on the first bottle, or your money back. Stop that itch today. \$1.00 a bottle. Try D. D. D. Soap, too.

POTATOES APPEAR ABOVE GROUND

GEORGETOWN, N. B. May 5.—Alternate days of heat and cold mark the progress of the spring; but in spite of the cold, the season is well ahead of most years. Ploughing has been done, and a number of farmers already have potatoes planted. Chesley H. Randalls, however, has the record for early potatoes at his farm on Hart's Lake, where the potatoes are already coming up.

THE MUSKRAT.

Miss Agnes C. Laut author of "The Fur Trade of America," an interesting book in which valuable information is given regarding fur-bearing animals, devotes a chapter to the muskrat which is so well known in the marshes of New Brunswick. The market for the muskrat fur has expanded so rapidly in recent years, Miss Laut explains, that in a single year the muskrat is now bringing more money into the fur trade than the real Alaska seal ever did in ten years. In the Canadian marshes during the last season many thousands of muskrats were caught and when their skins are sold as "Hudson seal" they will bring \$5 to \$7 apiece. Says Miss Laut:

"The muskrat was selling at Cumberland Lake (Saskatchewan) and Norway House (Manitoba) for 90 cents at the outbreak of the war in 1914. Then came the perfecting of American dyeing processes producing muskrats that could not be detected from Alaska seal. Last year the muskrat sold at Cumberland Lake and Norway House for \$5 a pelt. That figure would be too high to average for the ten million muskrats yearly taken in America. Well, put the figure at an average of \$2. You have a total of \$20,000,000. It is only a few years ago that America's entire fur trade did not equal \$20,000,000. Even when 100,000 seal pelts were coming out of Alaska in a year valued, undyed, at \$10, as found in them in 1875, or \$30, as I found them in 1911-12-13, you have the entire output of Alaska seal in its best days not equal to one-sixth of the value of muskrat today."

Miss Laut declares that muskrat farming will "easily produce aggregate that make the silver fox totals look small." Experts are quoted as saying that of all the fur-bearing animals muskrats can be the most easily farmed "All you have to do," says one, "is to stock the marsh where the muskrat's natural food is plentiful and nature will do the rest."

THE MARKETS

MONTREAL, May 3.—There was no important change in the condition of the local market for eggs yesterday, prices being steady under a good demand for supplies for local consumption and for storage account, consequently an active trade was done with sales of straight candled stock at 35c, and No 2 stock at 32c per dozen. The receipts were 3,653 cases, as compared with 2,725 for the same day last week, and 2,179 for the corresponding day a year ago. The stock in storage here on the first of the month was 7,857 cases, which shows a decrease of 2,309 cases as compared with April first, and an increase of 863 cases with a year ago, while the stock of cold storage eggs on May 1st, 1921, was 46,087 cases, which shows an increase of 41,812 cases with a month ago, and an increase of 20,862 cases with a year ago.

A good steady trade continues to be done in new crop maple product and, as supplies are coming forward fairly well, the market is moderately active with a steady undertone, and sales of maple syrup were made at \$2 to \$2.25 per tin of one gallon, and light colored maple sugar at 23c to 25c per lb., and dark colored at 21c to 22c.

The market for potatoes continues quiet and without any new feature to note, prices being nominally unchanged for car lots of Green Mountains at 75c to 80c, and Quebec stock at 65c to 70c per bag of 90 lbs, ex-track. The trade in a wholesale jobbing way reported fair, there being a steady demand for small lots at 90c per bag of 80 lbs. ex-track.

CHICAGO, May 3.—Eggs weak. Receipts 22,490 cases. Fresh gathered, extra firsts, 27c to 28c; firsts, 24½c to 26½c; State, Pennsylvania and nearby western henney, whites, firsts to extras, 28c to 33c; State, Pennsylvania and nearby western henney, browns, extras, 30c to 31c; do, gathered, browns and mixed colors, firsts to extras, 25½c to 30c; storage packed, extra firsts, 28½c to 29c; do firsts, 27c to 28c.

NEW YORK, May 3.—Hops quiet. State, 1920, 33c to 40c; 1919, 18c to 20c; Pacific Coast, 1920, 26c to 30c; 1919, 19c to 21c.

MONTREAL, May 5.—The receipts yesterday were 600 packages, as against 873 for the same day last week and 603 for the corresponding day a year ago. A weak feeling continues to prevail in the market and prices yesterday were fully 1c to 1½c per lb. lower. On the curb there were 500 packages creamery butter offered, which sold at 33c per lb. delivered here, and it was reported that purchases were made in the country at 32c per lb., f. o. b. The trade in a wholesale being only for small lots, and sales of finest fresh made creamery were made at 35c to 36c per lb. In a wholesale jobbing way prices were reduced 2c per lb., with sales to grocers and other dealers of inferior creamery at 35c per lb. in solid packages and at 39c to 1-lb. blocks.

The receipts of cheese yesterday were 3,061 boxes, as compared with 2,706 for the same day last week and 1,639 for the corresponding day a year ago. There were ab-

out 1,000 boxes of Quebec cheese offered on the curb yesterday, which went with a fairly good demand from exporters, and sales of colored goods were made at 23c per lb., and white at 20c delivered here. The undertone to the spot market is easy; but there was no actual change in prices to announce, sales of western colored being made at 24½c to 25c per lb., and eastern at 23½c to 24c, with white quoted at 21c to 22c.

New York, May 3.—Butter, 17c.

ASTHMA RAZ-MAH USE NO Smoking—No Spraying—No Scent Just Swallow a Capsule RAZ-MAH is Guaranteed to restore normal breathing, stop mucous gatherings in the bronchial tubes, give long nights of quiet sleep; contains no habit-forming drug. \$1.00 at your druggist.
