Diving Bell to Get Diamonds.

Deep in the Vaal river in South Africa are diamonds. To get them a device on the diving bell principle is employed, having a tubular shaft and air lock. This device consists of two pontoons rigidly connected by decks between which a roomy caisson or diving bell is sunk in the river bed.

THE RECTOR FINDS AN ALLY.

The rector was on his way to church when he met the gamekeeper. 'Ah,' said the rector, 'how is it, my friend, that I never see you at church?' 'Well,' said the gamekeeper, 'you see, sir, I don't want to make your congregation smaller.' 'What do you mean?' the rector said, sharply. 'Well, you see, sir,' the keeper said, 'if I came to church some of the others would go poaching.'

les represented labor which was not included in the immediate factory hands of \$7,000?

Like unto his raw-hide story, did he imagine that the wood and coal, and iron and paint, and rope and canvas, and oil, and vegetables and condiments ALL TRAVELLED INTO THESE FACTORIES FREE OF COST.

If he so totally ignorant of his subject as to imagine that this \$400,000,000 did not also provide employment for the miner, cannaker, producer and meat farmer and the many others whose products went to make up the output of these factories?

Then again is his vision so miserably contracted as not to see that all these 87,000 workmen and the uncounted outside labor that supplied these factories with material would be wearers of Canadian clothes, living in houses of Canadian build, eating the products of our own farms, and even wearing our own 'Cowhide Shoes', although not at Mr. Wright's \$16 figures of cost? If he should succeed, by tearing down our tariff wall, in sending these factories back to the United States, and throwing this vast uncounted number of people out of employment, who will do the canning of Canada's fruit crop, to whom will the small fruit grower and truck gardener sell his products, and who will do the corn and bacon curing business of our country?

Certainly not the Western Grain Growers who are financing this so called Progressive campaign, who have no object beyond that of getting a big price for their wheat at the expense of the Eastern consumer, and of getting their pork free of duty FOR ABOUT FIVE CENTS PER POUND from the corn fed hogs that are flooding the Chicago markets.

Hon. Horace Wright as the emissary of the Grain Growers guild should be carefully watched by the farmers of Prince County, and his arguments, which in the main are of the ridiculous kind, be analyzed in the light of common sense.

THE PRICE SHE PAID by the Young-Adams Co. at Souris tonight.

MONTAGUE SATURDAY—New western serial 'Purple Riders' with Joe Ryan, the greatest western actor known. Also see your favorite Earl Williams, in stupendous feature, also comedy.

DEATH REGRETTED—The news of the death of Mr. Dancy of Lower Montague came as a shock to his many friends and relations. The deceased was only a short time sick. The late Mr. Dancy was one of the most highly esteemed gentlemen of the community. He leaves a most sympathetic nature. The late Mr. Dancy endeared himself to all who knew him and his death will cause the deepest sorrow among a very large circle of relatives and friends. He leaves a wife and three children, two boys, namely Russell in the West and James at home and one daughter, Mrs. Archibald Reynolds, of Sturgeon. To whom great sympathy is extended.

GIVING GOOD SHOWS—The Young-Adams Co. opened a three-day engagement in Georgetown on Monday night and if every play is as good as those they have so far shown and indications are that they will be there should be crowded houses. The whole company is first rate and Mr. Young is particularly good. Miss Adams is also splendid. The play on Monday night was without doubt as interesting as the best drama ever shown in Georgetown. Mr. Young and his talented company are to be congratulated on the success of last night's play and it proved to be one of the most interesting plays ever seen in Georgetown. From first to last it kept the audience speculating on the identity of the burglar. Miss Marjorie Adams was at her best and it is not too much to say that Miss Adams is an ideal leading lady. The other characters without exception were well taken. A

Report of Bank of Montreal Excellent Proof of Soundness of Canada's Financial Position

Total Assets Now Stand at \$517,403,162—Liquid Assets Equal to 62% of Total Liabilities to Public—Indications Worst Period of Reconstruction Has Been Passed.

An excellent proof of the essential soundness of Canada's financial position is to be found in the annual statement of the Bank of Montreal, just issued. As everybody knows, the year has been an exceedingly trying one in business all over the world, and although Canada has not experienced anything like the distress that many other countries have had to contend with, yet the general unsettledment which has accompanied this period of deflation has had a marked effect on the trade of the Dominion, and sharp declines in bank clearings have been a feature of the official monthly reports.

In view of this situation the Bank of Montreal is to be congratulated not only on maintaining its traditionally strong liquid position, but on increasing assets from \$289,146,508.34 a year ago to \$290,296,511 at the present time. The significance of these figures is apparent when considered in relation to the fact that in the period under review the Bank's liabilities have decreased by \$42,747,605.16.

This, however, is not the only evidence of the actual strengthening of the Bank's reserves in a period of unusual stress. The ratio of call and time loans to the total deposits has also materially improved in the Bank's favor. Thus whereas a year ago the total deposits exceeded the call and time loans by \$6,240,135.27, today the total deposits exceed the call and time loans by \$107,974,115.32.

In view of the deflation which has been in progress in business generally, the decline in deposits not bearing interest from \$111,739,215.02 to \$88,518,100.57 must be considered very moderate. The amount of savings deposits are a very encouraging feature of the report. They stand at \$317,955,817.38 as compared with \$322,578,613.54 a year ago, a difference of only \$4,622,741.16. As compared with the figures in the Bank's statement for the half year ending April 30 last, present total of savings deposits is even more satisfactory, as they show an increase of \$7,089,384.12 for the half-year just closed.

The general statement of assets and liabilities, show total assets of \$517,403,162.69 as compared with \$507,199,916.49 on April 30 last.

The improvement which is revealed in the latter part of the fiscal year just closed is gratifying evidence of a general strengthening in financial conditions, and the violent reactions of the early period and give good ground for hope that the worst of the post-war reconstruction has been passed.

It is evident that the conservatism of the Bank has enabled it to come through the trying period without unusual losses, and with the maintenance of the general level of profits. Despite the fact that a full year's interest has been paid on the increased capital, compared with interest on the additional amount for the last half of the previous year, only the 12 per cent has been maintained as well as a bonus of 2 per cent. The profits for the year amounted to \$2,949,796.58, as compared with \$4,033,995 in the previous year.
