RUNNING SORES COVERED LIMBS

Little Girl's Obstinate Case of Eczema — Instantaneous Relief By Cuticura — Little Boy's Hands and Arms Also Were a Mass of Torturing Sores — Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointed them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up; so we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

A single set often cures the most distressing cases when all else fails. Potter Drug & Chem. Corp., Sole Props., Boston, Mass., U.S.A. Doctor Says

Some time ago we showed the formula of Kimo Tablets to a doctor of many years experience.

The other day he wrote us a letter. Doctor-like, he doesn't wish his name published, but says we may publish the letter. Here it is:

Messrs. B. N. Robinson & Co.,
Coaticook.

Gentlemen,—I have carefully examined the formula of your Kimo Tablets. They contain the active principles of the best known remedies for rheumatism. The Japanese solvent is something new. I have never seen it in the formula of any other remedy. I was so impressed with the combination that I decided to use the tablets myself, as I had a bad attack of rheumatism. I must admit that the one box you gave me did me more good than any other remedy I have ever used. The Japanese solvent, with the other ingredients, makes a really effective combination.

———— M.D.

As the doctor says, it is the Japanese solvent which makes Kimo Tablets so effective.

This solvent dissolves the granules which settles around the joints and muscles and cause the disease.

If you suffer from rheumatism, remember relief is possible.

KING EDWARD WOULD HELP CZAR NICHOLAS

Endeavored to Bring About "Entente" With Russia--No Favorable Results Have Been Obtained--Unprecedented Wire-Pulling--King Superior to Emperor as Diplomat.

MONTREAL, July 25—"King Edward, if possible, would undoubtedly endeavor to help the hopeless and helpless position of the Czar of Russia, if the latter was longsighted enough to meet us half way," stated Mr. Arthur Nicholson of London, in Montreal.

"It is a well-known fact that he King has been working very hard to bring about an 'entente' with Russia, but up to the present time no favorable results have been obtained.

"It is doubtful if the continent of Europe has ever before witnessed such politicial wire-pulling between the sovereigns of the different countries, and this is due to the diplomatic instincts and acknowledged talents of King Edward in the art of diplomacy.

"The German Emperor has always reckoned himself a master of the craft, but in the game of political chess which has been going on for such a long time between the King and the Kaiser, the former has so repeatedly checked the young player that William is no longer reckoned in the world of diplomacy as anything like a match for his astute uncle.

"The Kaiser's recent trip to Vienna, it is believed, resulted in Austria getting a free hand in the Balkans, for which Germany will receive Austria's support in Turkey, especially in Asia Minor, but here again the King of England has shown his hand, and is endeavoring as rapidly as possible to bring about an Anglo-Russian understanding. Should this campact be accompolished, it will result in a thorough understanding for mutual benefit on the basis of England and Russia being the most interested countries in Persia, and Germany's pretensions in the country of the Shah will suffer materially. Indeed, it would not be surprising if, in a very short while Germany would find herself with another Algeciras question on her hands, in which the chances are she will fare no better than in the former.

REPORT ON ORDER GRAND DIVISION

The following report on the "State of the Order was submitted at the quarterly session of the Grand Division, held at New Haven on July 20th, and was on motion adopted:—

1 With your G W P we greatly rejoice in the onward march of the principles of Prohibition, and that Prohibitory law is now in force thoroughout the entire province. It is our proud boast that Canada leads the world in the practice of temperance, and that our beautiful Island province leads Canada. The temperance sentiment which produces this desirable result is largely due to the work done by the good old Order of Sons of Temperance. It has sown the seed of the present glorious harvest.

We must zealously continue this work, and we rejoice that during the quarter just closed new Divisions have been organized by our indefatigable brother Lawson, and our Grand Scribe McCannell.

2 Your committee are pleased to record that our Divisions thorough the jurisdiction, with a few exceptions, did themselves the honor of electing our G W P, Rev. A D McDonald, as a special representative to the National Division in Toronto. We also rejoice that his talents and the work done by him were recognized by our highest court, and that he returns to us as Most Worthy Chaplain—the highest office ever bestowed by that august body upon a native of this province. We congratulate our G W P upon his preferment, and trust that all these things will go towards making up more zealous in our good work.

3 There is much yet to be done. The public bar has been banished, but alas, our drug stores have been corrupted, and are to-day largely doing the liquor business of the province. When druggists (?) are busy shipping cases of liquor into the country clandestinely it is high time for officers of the law to bestir themselves. Our drugstores and our vendors require to be looked after.

So long as vendors and druggists are permitted to sell for personal profit, your committee are of the opinion that the law will be violated. We believe we voice the sentiments of this Grand Division when we say that no vendors should be allowed to sell for personal profits, but should be placed under salary, and all goods supplied by the Government and sold under strict regulations.

Anent the matter of the vending of alcoholic liquors under our Prohibition Act, the following resolutions were adopted at the recent session of the Grand Division held at New Haven on the 20th inst.

Whereas much dissatisfaction exists in reference to the appointment of vendors under our Prohibition Act.

And whereas the vendors appointed are for the most part men entirely out of sympathy with the Act, some of them having been repeatedly fined for violation of the C T Act, and none of them having been recommended by this Grand Division or by any other temperance body.

And whereas the payment of a $200 fee or license to the Government for the privilege of vending inoxicating liquors is in itself a temptation to these men to overstep the bounds of the law in order to increase their sales and profits, which there is good reason to believe most of them are doing.

Therefore Resolved that in view of the importance of maintaining the dignity of the law, and efficent enforcement thereof, the Grand Division in quarterly session assembled do hereby respectfully ask the Government to cancel forthwith the appointment of all unnecessary and obnoxious vendors, especially those who have been convicted more than once of violating the C T Act.

Further Resolved, that the Government be requested to take the whole matter as to the appointment of vendors under our Prohibition Act the consideration; and in order to supply the limited quantity of alcoholic ACTUALLY required for medicinal, scientific and sacramental purposes as specified in the Act into Grand Division would respectfully recommend that the Government assume direct and complete control of the sale, appointing reliable men on a stated salary, and thus removing from the vendors all temptation to increase their profits by violating the law.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagance.—American Medical Journal

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists
