The Grand Jury in the afternoon visited the Queen's County Jail, the Falconwood Hospital for the Insane, and the Infirmary.

The Grand Jury reported as follows:

To His Lordship the Chief Justice and Associate Judges.
May It Please Your Lordships:

The members of the Grand Jury of the County visited the Falconwood Insane Asylum and the Infirmary and are pleased to be able to report that they found these institutions in first class condition both being scrupulously clean and tidy.

The attention given to the patients by the attendants and nurses seem to be most careful and efficient. We inspected carefully the sleeping apartments, dining rooms, kitchen and kitchen, and also the laundry and found everything in first class condition.

We further wish to commend those in authority for the precautions taken and special care shown to four tubercular patients in the infirmary and would strongly recommend that necessary quarters be provided for those patients to occupy during the winter season, thereby avoiding the necessity of associating with non-contagious patients.

Everything seems to be done in both these institutions to make it pleasant and healthful for the patients, and all persons interested in the control and management of the institutions are deserving of very great praise. We further wish to express our unanimous opinion of all the jurors that both these institutions were a credit to the province.

We regret to have to say that we cannot report so favorably on the Queen's County Jail.

It is an old and obsolete building but is kept in as good condition as possible and the general opinion is that the building, rooms and the conditions generally are altogether unfit for the purposes required.

We are pleased to know that the Provincial Government has this year placed an amount in the estimates to commence the building of a new jail for the county which we hope may be done with as little delay as possible as the old building has outgrown its usefulness and is at the present time a disgrace to the Province.

We further recommend the great necessity of lights being provided for the Hillsboro Bridge, as under the present circumstances, serious accidents may take place.

Respectfully submitted
James Paton

MONCTON MAN ARRESTED

THIRTEEN TIMES SATURDAY.
MONCTON, June 27—Auguste Bellevue, of the Duke Hotel, figured in a record-breaking Scott Act prosecution Saturday. He was arrested no less than thirteen times during the day charged with selling and keeping for sale intoxicating liquors. He was arrested in the morning charged with selling and the police searched the hotel, finding nine bottles of whiskey in the attic. Being tried on the first charge he was convicted and fined \$50.

Then followed a remarkable series of arrests, charging him with keeping for sale and selling on different dates. In all he was apprehended thirteen times and twelve cases were adjourned. In several cases he was placed on his own defence.

Bellevue's case is the most remarkable in the history of Scott Act enforcement in Moncton. He paid the first fine but if he should be convicted in the rest the total fine would amount to \$650. If he should fail to pay and be given the alternative of spending three months in jail in each case, his term of imprisonment would last three years.

TALK OF BANK AMALGAMATION

Between Royal And Union Of Halifax, But Bank People Are Silent.

Special to The Guardian.
MONTRÉAL, June 28—The officials of the Royal Bank of Canada will not discuss the report that negotiations are in progress for the amalgamation of the Union Bank of Halifax and the Royal Bank.

The Union Bank officials would not confirm the report and the Royal people do not explicitly deny it. It has not yet reached the stage where public announcement can be made.

HALIFAX, June 27—A prominent director of the Union Bank of Halifax yesterday "The Morning Chronicle" reported that negotiations have been opened for the amalgamation of the Union and the Royal Bank of Canada. There has been considerable activity in the stocks of both of these banks recently, and the increase in the prices of the stocks is probably due to the negotiations that are on looking toward amalgamation. Nothing definite, however, has as yet been settled.

The Royal Bank has recently put through two big deals, one being the purchase of the Midland Railway for the sale of the vast Dickie Timber Limits to the Eastern, Canada Timber Company, Limited.

THREE MEN HURT IN COLLISION ON BOSTON & MAINE.

PEABODY, Mass., June 27—A wrecking train of the Boston & Maine Railroad on its way from Boston to Newburyport tonight ran into a freight train, demolishing the engine, setting fire to several cars, and seriously injuring three men. The wrecking engine, which is believed to have sustained internal injuries. He was taken to a Boston hospital. The other men, neither of whom was a railroad employe, were Patrick Collins and Ernest Martin. They sustained badly lacerated wounds of the head and thigh and Collins' leg broken.

The accident happened on the Georgetown branch between West Peabody and Springfield. A portion of the freight train had been off standing on the through track, while the engine shifted the other cars to the siding at Martin's gravel pit. The cause of the accident has not been ascertained.

CUBAN CONGRESSMAN TRIES TO KILL A FELLOW MEMBER.

HAVANA, June 27—A sensational attempt to kill Antonio San Miguel, editor of La Lucha, was made in the lobby of congress today. A few minutes before that body was to open its session, Congressman Miguel, the single shot fired went wild, but almost hit another congressman standing near.

The attempt to kill Congressman Miguel, when it became generally known, caused intense excitement throughout the city.

Congressman Lorens was not arrested on account of his congressional immunity.

KNIGHTHOOD HONORS.

TORONTO, June 28—In addition to the Honor of Knighthood, the King, who is Sovereign Head of the order, has given consent to the admission of Sir B. E. Waller, C. V. J., to be a Knight of Grace of the Order of the Hospital of St. John of Jerusalem, in England.

Two are now in operation and a third court is contemplated. The oval surrounded by the track has been rendered neat looking by the use of lawn mower and its surface now suggests the idea of one great lawn. Here is the baseball diamond, which the ball entertainers have been using practically every night since the season opened, and the football gridiron, where the Provincial champions and their ambitious rivals will fight it out in the coming autumn.

The work of fixing up these grounds and restoring them to an up-to-date condition is no small task for any club, but the matter is in good and capable hands and their work so far gives promise of even better things to come.

That a greater and renewed interest is being taken in athletic sports this year is plainly evidenced by the fact that each night the Abegweit grounds are well filled with runners, jumpers, bicyclists, etc., in training for the coming athletic events, probably the most important of which will be the M. P. A. A. Championships in August.

TRIPLE TRAGEDY IN MAINE TOWN

BANGOR, Me., June 27—Coroner Rackliffe, of Oldtown, on Monday visited the scene of the Springfield tragedy and after viewing the remains of David Downes and his two victims, Mrs. Elizabeth Downes, wife of Woodard, and her mother, Mrs. Woodard, decided that an inquest was not necessary. The funeral services will be held on Tuesday, Mrs. Downes and her mother to be buried side by side, Downes in a separate place.

Later accounts of the tragedy vary somewhat in interesting details from the first story. The shooting of the Downes family, but at the house of Mrs. Downes' parents, Mr. and Mrs. Woodard, across the road, and Mrs. Woodard had spent Saturday night with her parents and was still in the house when at 9.30 o'clock Sunday morning, her husband appeared in rather an ugly mood, and demanded to see his wife.

Mrs. Downes had appeared in the house when at 9.30 o'clock Sunday morning, her husband appeared in rather an ugly mood, and demanded to see his wife.

He seized her by the neck, brandishing the weapon in the doorway, whereupon Downes raised his rifle and shot the woman dead in her tracks.

Hearing the altercation, followed by the shot and the fall of his mother's body, Mrs. Downes appeared in the doorway and after a few words she, Woodard, and Mr. and Mrs. Gibson, Woodard's neighbors, who were in the house at the time, fled through the back door, and Downes retreated to the porch, where, with rifle ready, he gazed about as if seeking another victim, presumably Mr. Woodard. No brief pause, returned to the bloody doorway, stepped over the bodies of his wife and Mrs. Woodard, and placing the muzzle of the rifle in his mouth, fired, his corpse falling across the others.

It is said that Downes and his wife had been living apart for five weeks, and that he blamed Mrs. Woodard for their estrangement.

SCORES MINISTER OF JUSTICE

LUNenburg, June 27—The Rev. D. A. Frame severely scored Hon. A. B. Aylesworth, minister of justice, in his sermon last night. Mr. Frame referred to the case of King and Skill of Toronto, who were sentenced to a year's imprisonment each for selling obscene books. Though they pleaded guilty, the minister of justice said they had committed no offence and had them liberated. Such a statement on the part of the minister of justice, as one man said at the Presbyterian conference at Halifax, said Mr. Frame, argues to his unfitness for office.

WHOM DO YOU SERVE

There are two atmospheres in which you may work. The atmosphere of trust and the atmosphere of worry. The atmosphere of trust is religious; the atmosphere of worry is worldly.—George Macdonald.

Some are mastered by money; all they ask is, Will it pay? Some are devotees of dress; and are led about by a collar. Some serve society; and will follow anyone who can whistle loud enough. Some work by the day; a man on a piece of work had the hammer raised to hit when the whistle blew; he left the hammer in the air. A man who does no more than he is paid for will get paid for more than he does. A man works well when his own interests are at stake; the business is his own; his soul is in his work; he is impatient when the clock says stop. When a man starts to serve the Lord, too often he looks like it's drudgery. He wants to sit down and rest—how many beds of ease have you represented him. When you take up the work you are in for life not for loaf. You have just put hands to the plough; the harvest is not yet. The hours are short—the swift flight of the weaver's shuttle—The reward is eternal, and rich. Read Rom. 6: 16-18.

The rush from London has already started for the Pacific coast.

A Capetown despatch states that a majority of the newspapers there devote leading articles to the reported discovery.
