

Foster's Laxative Cold Cure

Here is something that will cure your cold in a day and a night. Our laxative cold cure works on a new principle—drives the cold out of the system—doesn't merely smother it temporarily to have it reappear a day or so later. It does not cause ringing in the ears, for it contains no quinine. It simply relieves your system and leaves you feeling right. We couldn't afford to risk our reputation by recommending the wrong thing.

Shock Upset The Nerves

This letter from Mrs. Tweedle is interesting, because it shows how nervous trouble develops gradually from such derangement of the stomach trouble, until prostration and locomotor ataxia or paralysis render the victim helpless. It is even more important because it tells how the writer was cured by Dr. Chase's Nerve Food, the greatest of nerve restoratives.

Mrs. T. F. Tweedle, Brighton, Ont., writes: "For years I was troubled with the stomach, and have always been of a nervous temperament. The death of my husband was a great shock to me, and a few months later I was prostrated by nervous trouble. Locomotor ataxia developed later, and I was in a bad condition. I took treatment from different doctors, but did not gain until I began the use of Dr. Chase's Nerve Food. When I had used five boxes I was so fully restored that I was like a different person. I am sure that the Nerve Food is a good medicine, and have told many people about the remarkable way in which it has restored my health."

This Will Stop Your Cough in a Hurry

Save \$2 by Making This Cough Syrup at Home.

This recipe makes 15 ounces of better cough syrup than you could buy ready made for \$2.50. A few doses usually conquer the most obstinate cough—staves whooping cough quickly. Simple as it is, no better remedy can be had at any price. Mix two cups of granulated sugar with one cup of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a 16-ounce bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a long time. Take a teaspoonful every one, two or three hours. You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, croup, bronchitis, asthma and all throat and lung troubles. The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in gualcol and all the natural healing pine elements. Other preparations will not work in this form. This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. You might as well get it now, while you can. If not, send to the Pinex Co., Toronto, Ont.

CITY COUNCIL

(Continued from page one) special meeting of the Council.

FIREMEN'S APPLIANCES

Mr. Wright (draw attention to the dilapidated condition of the oil coats of the firemen, asserting that there were only 18 left for wear between 40 firemen. He also stated that additional hose, and repairs to the sleighs were necessary. It was agreed to bear this in mind when the estimates were being prepared. The proposal of Mr. Walker referring to the increasing of the park keeper's salary was left over till the estimates are under consideration.

POLICEMEN'S SALARIES

On the motion of Mr. Walker, seconded by Mr. Wright, it was resolved to increase the policemen's salary to \$500, sergeants to \$550, Sergeant Bradley to \$550, and the Chief to \$750. This means an increase of \$50 to policemen, \$25 to sergeants, and \$80 to the Chief. Mr. Reilly said it must be understood that under this new arrangement the police would not be entitled to extra pay as at present.

MEAT INSPECTION

Mr. McLean moved and Mr. Walker seconded that a Committee be appointed to supervise meat inspection, being appointed the mover and second being appointed. Mr. Campbell asked that authority be granted to obtain 150 ornamental trees to be planted in the streets. Mr. Reilly thought they should not invest in additional trees this year. Mr. McKenna concurred, saying it would be better to attend to these at present planted.

STREET EXTENSION

Messrs. Walker, Wright and Campbell were appointed a committee to report on the opening up of Prince and Orlebar and School and Gerald streets, the two first-named Councilors declaring it was the wish of the merchants that this improvement should be effected. This was all the business.

OF SPECIAL INTEREST

LONDON, March 10 (Special)—The Home Office's regulations concerning airships and aeroplanes are the cause of much merriment among the Englishmen who have a sense of humor. Their laughter is tempered however, by a realization of the fact that Europe, including Germany, is laughing with them. In the first place, the regulations, formidable as they seem, cannot be enforced. In the next the Home Secretary's list of places which airmen must not approach also happens to be a complete list, never before compiled by the British Government, of strategic localities. It includes several harmless but necessary railway stations hitherto not accused of being military strongholds, but which the United States of the Home Office and the War Office has determined shall be regarded as domestic Gibraltar. Among them is Newmarket station, that outpost of the British Empire, the stone of Britannic domination. Twice daily already it is invaded by countless hordes of Frenchmen crossing the Channel in steamboats from Dieppe. Trains penetrate it, automobiles desertate it, and yet the Home Secretary does not say a word; but hereafter if an aviator should come near it, even by accident, he will be shot as the subject of half a dozen complicated regulations and the vague chances of marksmanship. Cross Channel flights are impossible under the new code, for Mr. McKenna has looked far beyond the entente cordiale to the fearful epoch when some Bleriot alone in an aeroplane shall cross the Straits of Dover and single handedly capture Dover Castle and several important South Eastern Railway trains. Included in the scheme of military sanctuaries is Teapot Hard. This is regarded by the admirers of Mr. McKenna as a master stroke of far sighted policy. Teapot Hard never shall be threatened. No Zeppelin ever shall dare to draw near its secret precincts, for should Teapot Hard fall the empire falls with Teapot Hard. Where is it? WASHINGTON, March 10 (Special)—Washington is much interested in the cable despatch from Cairo stating that General Forriro Diaz charged that the Standard Oil Company financed the Madero revolution. The Senate committee of which Senator William Alden Smith is chairman, was chairman, made a special effort to obtain light upon this point, but was unable to find out where the money really came from. The testimony of Becerra Acosta, Health And Success

MANILA, P. I., March 8 (Special)—The town of Jolo has undergone incessant attacks by the Moros the last two weeks. Details of the operations are extremely difficult to obtain, but the censorship is most rigid. All letters sent by officers, and men defending the town are subjected to the minutest scrutiny. The fighting has been serious, however, is obvious from the fact of the arrival of a batch of thirty-two wounded Americans, seventeen suffering from serious injuries. The Moros, it is reported, continually fling snare traps at the defenders of the town, calling on them to "come out and fight in American fashion and not like pigs." The troops are chafing greatly at their inaction and many complaints are heard among officers and men. Brigadier General John J. Pershing, commander at Mindanao, denies the report that arms are being smuggled into Jolo. SYDNEY, N. S. W., March 8 (Special)—Another wireless message has been received from Adelle Land from Dr. Douglas Mawson, the Antarctic explorer. Dr. Mawson announces that he is exceeding the arrival of the steamship Adorra daily, and will attempt to embark, although he is not hopeful of success owing to the heavy winds. The despatch throws no further light on the deaths of Lieutenant Ninnis and Dr. Mertz, members of the Mawson expedition, who perished early in 1912.

Many Reasons Why Liquid Cough Mixtures Can't Cure Bronchitis But the Healing Fumes of Catarrhones, which are Breathed to the Furthest Recesses of the bronchial Tubes, Bring Quick Relief and Sure Cure. Every sufferer from coughs, colds, bronchitis and all throat and chest ailments needs a soothing, healing medicine which goes direct to the breathing organs in the chest and lungs, dispenses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhones." The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All medicinal essences, whereas with a syrup the affected parts could not be reached, and harm would result through numbing the stomach with drugs. "I have been a chronic sufferer from catarrh in the nose and throat for over eight years. I think I have spent four hundred dollars trying to get relief. I have spent six dollars on Catarrhones, and have been completely cured, and in fact, have been well for some time. Catarrhones is the only medicine I have been able to find that would not only give temporary relief but will always cure permanently." Yours sincerely, (Signed) WILLIAM RAGAN, Brockville, Ont.

PERSONALS

Mrs. Hugh Connors, Charlottetown, who underwent a successful operation at the Charlottetown Hospital, Saturday, is reported doing nicely. The many friends of Joseph Carter, Policeman, Charlottetown, will learn with regret of his illness. Mr. Carter was obliged to go to the Hospital yesterday for treatment. W. H. Underhay, Bay Fortune, who was in Summerside last week attending the Seed Fair, was a passenger on the eastern train yesterday returning home. The erstwhile Secretary of the Chamber of Commerce of Chihuahua; Lawrence F. Converse, an orange grower of California, and Robert O. Andre, an oil man of Lomica, Cal., related to the many friends of the Standard Oil Company, that he had seen a manifesto signed by Gonzalo C. Enrique, formerly on the staff of General Orozco, in which the statement was made that the Standard had financed the Madero revolution. Mr. Acosta also stated that he had seen a denial of this statement issued by the Standard Oil Company. In reply to a question by Senator Fall, of New Mexico, a member of the committee, in regard to the condition of the oil business in Mexico, at the time of the Madero revolution, Mr. Andre replied: "The Pearson interests had it pretty well cornered by reason of their being entrenched behind President Diaz. Colonel Reed, at one time chief of ordnance in Diaz's army, told me that Diaz was a silent partner in Pearson and Son, Limited, and that whenever the Standard Oil Company would make any move in the refined market or any other move to their own advantage and interest that Diaz would checkmate it on behalf of the Pearson, that is, he would do something to offset it." Mr. Converse declared that President Madero told him that as soon as the revolution made any headway the Standard Oil Company would furnish him with money to continue the fight against Diaz. "I suspect that the money came from the Standard Oil interests," said Mr. Converse, "because Mr. Madero's chief money was coming from that source. Mr. Madero himself bragged that statement to me two or three times."

CLIPPERS PLAYED LUNENBURG TO DRAW. HALIFAX, March 8.—Clippers redeemed themselves at Lunenburg Thursday night, playing all round the locals in the first and second periods, the game ending in a draw of five goals all. It was a good, clean game, and the Halifax team showed to much better advantage than in the other games on the South Shore. The scoring of the night's game came as follows. CLIPPERS LUNENBURG 1st period ..... 3 0 2nd period ..... 2 1 3rd period ..... 0 4 Total ..... 5 5

CLIPPERS LUNENBURG. The results of Clippers' other games were 3 to 11 against Bridgewater, and 6 to 10 against Liverpool. The Bridgewater game was very rough. Not a single Clipper came through the contest scathless. Cuts, bruises, etc., all combined to weaken the Clippers for their game the next night with Liverpool. So battered up were they that in that game they were incapable of doing any justice to their playing abilities.

F. R. HEARTZ RACES THIS MORNING. The F. R. Hertz ice races will positively be held today on the ice speedway at 10 a. m. All the officials will kindly be on hand at 9.30 so that no delay may be experienced in running of the races.

Three excellent prizes and a consolation prize have been donated. There is no admission fee and all chess players are welcome.

HUNG UP RECORDS. NEW YORK, March 6.—One world's record went tumbling, one runner, Abe R. Kiviat, of the Irish American A. C., won both the 500 and 1,000 yards race, and Hanna Kolehmainen, the speedy Finn, topped out of the two mile race at Madison Square Garden to-night, when the amateur athletic union held its annual senior and under championships. The new world's record was made by Patrick J. McDonald, the New York policeman, who won the Olympic honors last summer. McDonald, the 24-pound shot 39 feet 2 1/2 inches, nearly five inches more than his old world's record, made outdoors at Celtic park eighteen months ago. Kiviat was the star of the evening. His feat of romping away with the two big events carried with it a new American record in the 1,000 yards run of 2:14.5, shortening his own record of two years ago by two-fifths of a second.

OXFORD AND CAMBRIDGE RACE NEXT THURSDAY.

LONDON, March 7.—Both the light and dark blue eights are putting on finishing touches for the boat race to be held next Thursday over the Venezy to Mort Lake course. Oxford rowed the full distance today, covering the four and a quarter miles in twenty-two minutes and four seconds, which was considered fairly satisfactory under the weather conditions prevailing. The Cambridge eight were content with light work.

STRYCHNINE-AIDS SKATER

STOCKHOLM, March 7.—Recent remarkable results attained in skating races at 5,000 and 6,000 metres, when the Russian Apollitoy broke the world's record of the champion Norwegian Mathieson, at Helmingfors, are accounted for by the Russian taking strychnine immediately before the race. The poison is said to affect the energy and will power to a high degree. The blood pressure of the Russian immediately after the race was 148 as against 108 for the Norwegian.

Had a Dry, Tickling Sensation In Her Throat.

COUGHED ALMOST ALL NIGHT. A bad cough, accompanied by that distressing, tickling sensation in the throat, is most aggravating. Dr. Wood's Norway Pine Syrup is rich in the healing virtues of the Norway Pine tree, and for this reason it will quickly stop that tickling in the throat, which causes the dry hard cough that keeps you awake at night.

Miss Margaret MacDonald, Port Hood, N.S., writes: "Just a few lines to let you know what Dr. Wood's Norway Pine Syrup did for me. I took a severe cold, coughed almost all night, with that dry, tickling sensation in my throat. The first bottle did me so much good, I thought I would try a second one, which I am pleased to say resulted in a complete cure. I can strongly recommend it to any one suffering from a cough or any throat irritation." Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, 3 pine trees the trade mark; price, 25 and 50 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.
