Housing Act Effective In a Few Weeks

MACHINERY FOR ACT BEING BUILT UP—TO ANNOUNCE THE LIST

OTTAWA, July 17—Within a matter of weeks it will be possible for a prospective home builder in Canada to secure a loan up to 80 per cent of the cost for a long term and at a low interest rate—through the operations of the Housing Act adopted at the last session of Parliament.

Machinery of the act is being rapidly whipped into shape under the direction of Finance Minister E. N. Rhodes and Dr. W.C. Clark, Deputy Minister. It is anticipated it will be possible shortly to announce the list of approved loaning companies throughout Canada to whom borrowers may apply for benefits under the act.

Prospective builders will deal directly with loaning companies and there will be no special government body set up to deal with the public. An official of the Department of Finance will have specific charge of the government's loans but public contact will be with the companies only and they will operate under the act in accordance with contracts between them and the government.

Several conferences have been held with the representatives of leading loan companies and the form of contract will be finally discussed at conferences this week. Once it has been mutually agreed upon and approved by the Governor-in-Council, loaning operations may be opened.

Although details of operations through which loans may be secured remain to be settled, it is understood in a general way the individual seeking benefits of the Housing Act would apply to the nearest approved loaning company. He would set forth his building proposals and the company would secure an appraisal of the cost. The company could then offer a loan up to 80 per cent of the appraised value or estimated cost, whichever is the lesser, with the understanding 20 per cent of the money would be advanced from the \$10,000,000 appropriation provided in the Housing Act.

It is the hope of the Department the average interest rate to the home builder would not be more than five per cent, and the period would be for ten or 20 years where such loans in the past have been for not more than five-year periods.

To protect the safety of the investment and render it more convenient and simple for the owner, most of his instalments, payment of interest and principal will be monthly.

The act provides construction must be of a high standard of soundness and quality, and privilege is retained by both the Minister of Finance and the loaning company to have a representative inspect building operations at any time. Ultimately it is the intention of the act that a minimum standard of quality will be fixed in order to ensure that properties to be built will retain their value throughout the term of the loan.

Practically all life insurance companies, loan companies operating under a dominion charter, as well as some loan companies operating with provincial charters and some trust companies, have signified their desire to co-operate with the government in carrying out the act.

The act contemplates all buildings used solely for human habitation, from the single cottage to big apartment houses. Judging from the great interest throughout Canada, apparent from the flood of letters seeking information, officials today expressed the opinion that the entire \$10,000,000 appropriation would be quickly absorbed, creating work valued at \$50,000,000.

The act also provides the Economic Council of Canada shall institute an inquiry into slum clearance possibilities, low cost housing projects in other countries, methods of reducing costs in the building industry, pre-fabricated homes, and other developments in housing, and report to the government in preparation for a larger scheme than that now being initiated.

WORLD IS EAGER TO BUY GOLD

MELBOURNE, July 16—"Gold appears to be the only primary product we can export without harm to ourselves, and export to a world market eager to obtain it." Mr. A. A. Robertson, head of the mining and metallurgy department of Melbourne Technical College told members of the University Metallurgy Society.

Other primary products were unlikely to recover in price for a long time, he said. Urging increased production of gold, Mr. Robertson pointed out that Queensland, with an increase of 761 per cent on production in 1931, was the only State which had increased production to an extent sufficient to support the opinion that gold would life Australia out of her difficulties.

The increase in Victoria was 59 per cent, and in New South Wales 80 per cent.

SUFFOLK SCHOOL EXAMINATION

The annual public school examination of the pupils of Suffolk school was held on Friday, June 28th. A large number of pupils and visitors were present. The school was very artistically decorated for the occasion.

The pupils were examined in the various subjects by their teacher Mildred Coffin, and showed by their answers how well they had been instructed during the term.

After a short program grade 8 certificates were awarded to Genevieve Godfrey, Louis and Frank Bradley, Ruby Clow, Olmon Mellick and Lauretta Reid. A prize was given to Jean Johnston, for perfect attendance, also three other prizes to Billy Johnson, Opal and Albert Reid for attending all except two days. Each child in the school received a gift from the teacher. In return the teacher received many beautiful gifts.

The pupils were treated to candy by the parents of the district. Suitable remarks of satisfaction with the progress of the school during the year were made by parents. The National Anthem brought a very successful school year to a close.

Following was the program: Chorus by school, Canada, the Land of the Maple. Welcome speech—Jean Johnston. Recitation—Louis Bradley, A Lesson in Grammar. Recitation—Opal Reid. Drill—Smile Awhile. Recitation—Frank Bradley. Recitation—Billy Johnson, A Letter to My Mother.

Duet—School Days. Dialogue—Buying Eggs. Recitation—Doris Reid, A Boy With Two Faces. Drill—Britannia. Recitation—Lloyd Mellick. Recitation—Albert Reid. Reading—Laura Johnston. Recitation—Francis Reid, The First Letter. Chorus by school, Vacation Song. Recitation—Eileen Mellick. National Anthem.

The New G. P. ROADFLIGHT TIRES are for sale at THE ROGERS HARDWARE CO., LTD., BRUCE STEWART & CO., LTD., TANTON BROTHERS.

Mr. Lea's Statement A Further Indictment Of Liberal Insincerity

After six days' silence on the subject of the revelations in the Saunders—Robb correspondence, a statement appears in yesterday's Liberal press, over the name of Mr. W. M. Lea, purporting to give an explanation of his misstatement in the Legislature charging that the Conservative Premiers of Nova Scotia and New Brunswick had failed to co-operate with the Liberal administration of this Province in pressing the Mackenzie King Government for subsidy settlement.

The claim advanced by Mr. Lea is of the most flimsy and ridiculous kind. He says Mr. Saunders' letter, stating that "ON MANY OCCASIONS" he had "DECLINED TO CO-OPERATE" with the other Maritime Premiers, was written "some months before the matter was finally referred to the Audit Board." This is the same precious Audit Board which expressly stated it had no jurisdiction to make any final assessment, and into whose department the Maritime Claims question was pigeonholed by the King Government in the dying months of his administration.

After being refused the co-operation of the Liberal Government of this province "on many occasions,"—AND MR. LEA DOES NOT DENY THIS FACT—was it any wonder that the other Maritime Premiers paid no attention to any subsequent request this Province made for co-operation before a Board, which they knew was incompetent to deal with the matter. Why should they not treat such a suggestion with the contempt it deserved. They knew from past experience that the Liberal Government of this Province, like the Liberal Government at Ottawa, was simply playing politics, and that the whole proposal was just an election-hour bluff.

Did the Lea Government have any faith in its own claims presentation before the Audit Board? Let Mr. Lea's record speak on this point. He says the Island's case was presented on May 10, 1930; but he neglects to state that prior to that, on Jan. 21, 1930, in accord with a request from the Board, Premier Saunders filed a memorial containing a "model budget" in which claims for the amount of \$438,000 dollars were detailed. While Mr. Saunders was at Ottawa, and ON THE VERY SAME DAY ON WHICH THESE CLAIMS WERE FILED, MR. LEA, OVER HIS OWN NAME AS PROVINCIAL SECRETARY AND ACTING PREMIER, published his notorious "pamphlet" of claims to the amount of THREE AND A QUARTER MILLION DOLLARS ANNUAL SUBSIDY INCREASE.

The publication of this ridiculous claim statement in the Liberal organ was of course seen by the other Maritime Premiers, who were also aware that the brief filed before the Audit Board claimed only a seventh of this amount. WERE THEY NOT JUSTIFIED IN ASSUMING THAT THE WHOLE SUBJECT OF OUR CLAIMS, SO FAR AS THE LIBERAL GOVERNMENT OF THIS PROVINCE WAS CONCERNED, WAS BEING TREATED AS A JOKE?

Horse Notes
North River, Charlottetown, who won out in every race in her days. This grand race was sired by Royal Sporter, imported from the United States, a thoroughbred, and her dam was by the "Revenge," an English thoroughbred, also imported. There is not many blood carriage mares in King's County bred, or on Prince Edward Island.
CORRECT
Teacher had been giving a class of youngsters some ideas of proverbs, and after the lesson she put some questions. "Birds of a feather do what, Peggy?" she demanded. "Lay eggs," piped Peggy, without hesitation.
