W. S. HARKINS CO. IS APPRECIATED

The Sydney Record of Oct. 29 in speaking of The W. S. Harkins Players says:--"Capacity audience hears and appreciates The House Next Door. The members of the W. S. Harkins company who presented 'The House Next Door' to a capacity audience at the Lyceum last night, gave proof that a week of unalloyed pleasure awaits the lovers of the better class of drama in this city. The play, written by Hartley Manners, is well constructed, ingenious in dialogue and calls for intelligent conception. The players, every one of them have shown a grasp of the idea and a thoroughly efficient interpretation was the result. It is difficult to realize a better example of adaptability than that shown by Mr. Stubbs in his characterization of Sir John Cotswold, the old English aristocrat who would brook no interference with his household authority, but who nevertheless failed in exacting obedience. The extreme of pathos is reached when the testy old upholder of the traditions of his class is practically deserted by his family for 'the house next door' occupied by a Hebrew gentleman of patient dignity and force, Sir Isaac Jacobson, finely impersonated by C. N. Stark. Miss Susan Van Duzer, a favorite wherever she plays and an especial favorite of Sydney audiences, who was greeted with a cordial reception, was as usual highly artistic in her work. Her incursions, as Ulrica Cotswold, into the realm of pathos, not too frequent, were appealing to the audience. Praise is also due to Frank Conway as Cecil Cotswold, Herbert Charles as Adrian Jacobson, William Mallette as Capt. Trevor, Miss Evangelyn Blasdale as Lady Cotswold, Miss Grace Guernesey as Lady Jacobson, and Victor Steward as Vining. An extra word of commendation for Miss Eileen Cosgriff, who assumed the role of Estner Jacobson, is in order. This young lady, an artist to the finger tips, won her way to the hearts of the audience at once. In a word she was delightful from beginning to end, and her progress in the drama will be watched with unusual interest. The play was staged, not lavishly, but with due attention to all necessary details. It is almost sufficient to say that it was a Harkins company, a Harkins play, a Harkins audience and a Harkins reception at the Lyceum last evening."

The W. S. Harkins Players will open their Charlottetown engagement at the Opera House next Tuesday evening in The House Next Door. Seats are selling rapidly. Get yours early. 2462.

FOOTBALL

(From yesterday's Evening Guardian).

The series of games of football that have been arranged to take place between the St. Dunstan's College boys and the Connaughts promises to be of deep interest to the many lovers here of that game. The Connaughts are getting in some practice to-morrow and hope to get their team in pretty good condition for the first encounter which takes place on November the 6th. The games following will be on the 17th and 20th of November. It was thought that the Charlottetonians would not have a sight of football this season and so the arranged schedule will be a joy to many fans.

PRACTICE.

(From yesterday's Evening Guardian)

The Connaughts are holding a football practice at Victoria Park tomorrow afternoon at 3 o'clock. It is hoped that a great many of the youths of Charlottetown will be present to take part in the practice which it is intended will not be for the club alone but for all who wish to "kick the pigskin" and supple up their limbs a little.

MORE BOSTON CRITICISM

(Continued from page two)

take everything pertaining to the industry six months ago and only one paper today accepts or prints 'anything, and that paper practically recognized as independent of all financial interest?

I believe Prince Edward Island silver black foxes are superior to any in the world, but as to "pedigree," I ask the "optimists" if anyone has answered Mr. McKendrick's challenge uttered at the Fox Breeders Association some weeks ago, or perhaps would they like me to repeat his challenge in print?

However, this "pedigree" business is not getting us very far. It is alright when backed up by something more than talk. At present it is the desire, or should be, of every man interested in foxes and in particular the Prince Edward Island silver black fox to spread the news of the wonderful industry broadcast, and while an optimist is more desirable than a pessimist, to be of any use in the present case, the brand of optimist must be of a different type from what they grow on the Island of Hayti. Everyone down there is an optimist, but they never work today, it is "manana" or tomorrow.

Some wise old Greek wrote that "Suretyship is the percursor of ruin" and while I don't wish to pose as a "croaker," I am constrained to point to the activity of a New Brunswick fox company who have money and who are not afraid to spend it; also to a New Hampshire fox ranch company that sold silver black fox pups at a higher average price than any ranch on Prince Edward Island, and the original breeders were largely Alaskan; and I ask the "optimists" of Prince Edward Island how long they can hold the centre of the stage as against such energy is applied to numbers.

Altogether aside from my personal interests, I have devoted much valuable time to spreading the news of the fox industry in general and the Prince Edward Island silver fox business in particular amongst business men of Boston and New England, but such work is futile unless the fox ranchers of Prince Edward Island do something else besides talk.

At present market prices it will take 10,000,000, or more to finance the Prince Edward Island fox business for 1914. Will the "optimists" state that this amount can be raised without difficulty within the "Island?" Is it not a fact that financial conditions in Upper Canada and in the Canadian North West are in a serious state, due to the subsiding of the land boom, and that values have shrunk to an alarming extent, and further that new financing in such territory is not going to be difficult?

If the Provincial Government in conjunction with the Fox Breeders Association will consider seriously how and in what particular section or sections of the country, Canada, United States or both, the fox business can best be financed for 1914 and devote their money and time to enlightening the people of that particular section or sections, there is every reason to feel that 1914 will see the business taken out of the "Tulip Craze" list, where it now holds place in the minds of thousands of Canadians and Americans.

The fox business of Prince Edward Island can best be served by action. Writing and talking generalties is effort wasted. Misconstruing efforts of men who are trying to do something is simply hurting all interests concerned. Prove something and do something, Mr. "Optimist."

I am Sir, etc.,

Headaches and Heart Trouble

Nervous Prostration of Three Years' Standing Cured a Year Ago by Dr. Chase's Nerve Food.

Anyone who knows the discouragement and despair which accompanies the helplessness of nervous prostration will appreciate the gratitude felt by the writer of this letter.

Mrs. H. C. Jones, Scotch Lake, C. B., writes: "I suffered from nervous prostration for nearly three years I had frequent headaches, had no appetite and was troubled with my heart. After consulting two doctors, without obtaining satisfactary results, I began the use of Dr. Chase's Nerve Food, and was completely cured by this treatment. It is nearly a year since I was cured, and I want others to know of this splendid medicine. I now attend to my housework with pleasure and comfort, and an glad to have the opportunity of recommending Dr. Chase's Nerve Food."

At least some benefit is bound to be derived from each dose of this great food cure, as day by day it forms new blood, and builds up the system. 50 cents a box, 6 for $2.50, all dealers, or Edmanson, Bates & Co., Limited, Toronto.
