British Government Going Into the Oil Business

LONDON, Mar. 28.—The British Government is going into the oil business, profiting by the costly experience of the war, when it was compelled to send enormous sums into other countries in payment for petroleum and petroleum products. It has adopted a clearly defined oil policy and is already credited with financially backing what is expected here to develop into the most powerful oil producing, refining and transporting enterprise in the history of the industry.

In forecasting the adopting of tariff protection for British industries. Mr. Bonar Law designated high wages for working men as "the most vital vested interest in the country. Reasonable fiscal protection is essential to the welfare of Canadian workmen whose livelihoods depend entirely upon the success or failure of Canadian industries. Tariff protection alone will not suffice. The Canadian commerce must do their part day by day. They must give a patriotic preference to goods which are manufactured in this country, by so doing they can keep Canadian factories open, furnish work for returned soldiers, provide profitable home markets for Canadian farmers, and stimulate the general prosperity of the whole dominion.

QUIET REIGNS AT OTTAWA

Daylight Saving Main Topic The Railways Adopt New Time On Sunday

OTTAWA, March 28.—It was very quiet in the House this afternoon. Only odds and ends of business are being cleared up tonight. It is expected that the question of Sir Charles Fitzpatrick's remuneration for attending the Privy Council may again be discussed. The action of the House Thursday on the matter of daylight saving time and the situation developing therefrom is likely to result in endless confusion. The railways change time on Sunday. Many cities change also. It was announced this afternoon by the Dominion Secretary of the Retail Merchants Association that businessmen in every city of Canada favor daylight saving time.

In a report from Charlottetown, it was pointed out that the businessmen there unanimously passed a resolution endorsing the change and asking the Government to enact the legislation of last year. Now that parliament has definitely disposed of daylight saving, the city of Ottawa takes it up or down, and the likelihood is that in a few days everything in the capital except the Government departments will be running on daylight saving time.

The statement that McKenzie King is being boomed as the Liberal leader and would accept a seat in Quebec East, the former constituency of Sir Wilfrid Laurier, is denied today by Mr. King himself from Quebec.

He said that the newspaper account of his alleged intentions is the first intimation he had of the matter. Hon. F. B. Carvell left today for the East, principally in connection with taking over St. John harbor. Appraisals will be sent down from Ottawa. An estimate of the present worth of the harbor properties is expected, the Government to act on their report. Messrs. Ross and Hodge have that matter in charge.

British Military Bill Passes Report

LONDON, Mar. 27.—The military service bill has been passed through the report stage without amendment in the House of Commons. The proposal to limit the operation of the bill to December 31, 1919, instead of April 30, 1920, was reached by a vote of 282 to 70, and another amendment excluding liability to service in Russia from the scope of the bill was voted down 281 to 48. In declining to accept this amendment Winston Churchill, Secretary for War says the government has no intention of raising a large conscription army to be sent to Russia. FAILURE TO ENROLL MAY COST SUCCESS

Many of the Nominated Candidates for The Guardian Automobile and Piano Contest Need Only to Formally Enroll To Secure Good Place In Contest Line.

Many hundreds of votes have been cast for candidates not regularly nominated in The Guardian's free automobile and piano contest, and these votes must be thrown out unless nomination to these candidates are made before the ballots expire, as votes cannot be counted for anyone not regularly enrolled as a candidate. Undoubtedly a great many of these ballots were cast by friends who assume that their favorites would embrace the opportunity and enroll their names as contestants. It is not necessary to have received a notice of nomination to enroll, as candidates can enter their own name. The indications are that there will be a large representation of candidates from each district, not so many as to cause a mad scramble for honors, but enough to make the race genuinely interesting and to ensure plenty of excitement when each ensuing list appears.

CANDIDATE'S PLEASD WITH METHODS

The contest department has been commended by many of the candidates on the method which has been devised and the system of letters arranged to facilitate the securing of subscriptions. The contest has been elevated to the highest place, a great deal of thought and care having been given to the mapping out of a general campaign for the contestants. The letters and blanks have been supplied them by which they acquaint their

DISCUSSING FRONTIERS

Adjusting War Damage An Agreement Reached Regarding Reparation

PARIS, March 28.—The super council of the present and former, now known as the Council of four, divided its labors today between the White House and Clemenceau's private office adjoining the war office. The Franco-German frontier was the chief topic of discussion following upon an agreement reached last night on reparation for war damages. It is understood that this agreement includes the vital point of the total amount of indemnity which will not be announced at present as it would be likely to cause discussion and arouse hostility in enemy quarters. It is noted as a co-incidence that a German financial commission is being chosen to come to Versailles, where the settlement of this branch may include all interests. The frontier question turns on the disposition of the Saar Valley coal regions and the west bank of the Rhine. The territorial experts have said their last word and frankly declare that it is a question now of political expediency on which the super-council alone can pass. Marshal Foch and General Lasker H. Bois were called into the council during the afternoon, indicating that military questions including the serious situation in Hungary and Russia were receiving attention.
