Cold Settled On Lungs. LEFT THEM IN VERY WEAK STATE.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all probability, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

FORECAST—A severe electrical storm passed over this district the night of the 6th inst. This is rather unusual and is regarded by the old-timers as portending unusually severe weather.

AN ACCIDENT—Alfred Fraser, Red Point, had the misfortune to have two of his ribs broken this week while loading a sleigh in the woods. He is doing nicely however, though suffering considerably.

REMARKABLE MAN—Alexander McLean, Red Point, who has been indisposed with a severe cold is about again. Mr. McLean is an octogenarian, having passed the allotted span by fifteen years, but is hauling wood every day with the rest of the "boys."

SCHOOL EXAMINATION—The following is the standing of the pupils of Byrne's Road School for the month of February: Grade VII—Lillian Dunn, Grade VI—Edna Keenan, Grade V—John Dunn, Grade IV—Raymond McInnis, Grade III—Ethel Meggs, Grade II—Agnes Duffy, Grade I—George Duffy. The names of those only who took first place in each grade are published.

QUESTIONABLE SPORT—The advent of so many fox ranches in this district, Eastern Kings, has brought about an unusual diversion of sport. Some of the younger bloods capture rabbits alive, bring them to the ranch, toss Mr. Bunny into the wife enclosure and await results. Mr. "bull fight" is soon over, the fox enjoys it immensely, also the spectators, but what about the poor rabbit?

NEW INDUSTRY—H. H. Acorn, Manager of the Knapdyke Lumber Co., Souris, is placing before the farmers of Eastern Kings County, through their Institutes, a proposition relative to placing a roller flour mill in Souris, in conjunction with his other plant there. The idea is a splendid one, and should be very carefully discussed by the wheat growers of Kings Co., as there is no modern and up-to-date milling process east of St. Peter's Bay. Mr. Acorn proposes to buy all surplus wheat for spot cash at Toronto prices, less ten per cent. Every farmer should be interested in this proposition and lend their hearty support to it and gain for East Point one more industry much needed.

WARNING to packers and fishermen. We have already booked orders for over forty motor boats and have two-thirds of them completed. We would strongly advise all intending purchasers to place their orders at once and avoid the rush at the last moment. L. & N. Paquet, Hull, Montague, 12-13th St.

HOCKEY MATCH—The hockey match at Montague last night between the Montague Imperials and the Souris Royals resulted in a victory for the home team of 5 to 0. The Souris Royals issued a challenge to any team in King's County and the Montague Imperials took up the challenge and the game was played in the Montague rink and was very fast and exciting throughout and at some times a little rough, the boys doing mostly anything else but playing hockey. The first half the light was a little dim at the Imperials' goal and the Royals scored five and the Imperials two. The second half was a decided change. The Imperials had learned the combination of the visiting team and decided in order to save their honors, it was about time to play hockey and they kept the rubber at the Royals' goals most all the time and one goal was shot and another and still another by the Imperials, then Poole made another fast rush and shot the last and sixth goal for the Imperials, amid a din and roar of applause that would do justice to even the Wanderers. Montague was proud of its band of seven who made such a gallant fight in the last half and saved their reputation. The air feels very much cooler now for the visiting team and they very quietly dispersed. The special train left Montague about midnight.

John Bruce, Red Point, is confined to his bed for the past week suffering from chronic rheumatism.

Mat. Mahar, Brakeman of the P. E. I. R., was a passenger from Montague to Charlottetown this morning.

Baby Bonds for the small investor

More and more attention is being paid by the financial journals to the growing custom of issuing "Baby Bonds." The "Financial World" says the "Baby Bond" has long been popular in European countries, especially in France, the richest nation in the world where millions are invested by the plain people in bonds of small denominations. Bonds of the usual \$500 and \$1000 denominations are not within investment reach of the ordinary salaried man. But now "Baby Bonds" of \$10 denominations can be had in such sound industrial corporations as the Nova Scotia Steel & Coal Co., the Maritime Telegraph & Telephone Co., and Bramford-Henderson Ltd. Such "Baby Bonds" yield at present low prices the attractive interest of 5.50 p. c. to 6.14 p. c. We shall be glad to send full information of these "Baby Bonds" to any man anxious to increase his income from his savings.
