The High School at Souris West, and the schools at Mt. Stewart, were inspected last week by inspector McCormac. Mr. McCormac reports a great amount of sickness among the school children, and as a consequence a very poor attendance in the schools.

Wild geese are very scarce in Morell this season and very few have been shot. A local sportsman got a bad scare last week, when he heard rifle bullets zip past him on the ice. It seems some one on the other side of the bay has a military rifle and if he is not more careful a serious accident may some day be reported.

Word has been received here of the death in Woburn, Mass., of a former well known resident of Summerside, John Irving. Deceased left Summerside some 22 years ago, and was a prominent ship owner. He was 78 years of age, and leaves to mourn his widow, the eldest daughter of the late Wm. Chappelle, Summerside, and a large family of grown up sons and daughters.

The remains of the late Frank Kinch, son of Peter Kinch, of Tignish, crossed over to the Island in the Minto on Good Friday, and were conveyed to his home the same evening, the funeral service being held in connection with the regular train for the west at Royalty Junction. The remains were accompanied by two sisters, Mrs. W. Ridings of Wilmington, Delaware, and Miss Winnie G. Kinch of Boston. The late Mr. Kinch left his Island home four years ago, but last summer paid a visit to his old home, seemingly in the best of health and spirits, returning to Boston in September where he was engaged with the Hume Carriage and Automobile Co. He was a young man of excellent qualities, and his demise, at the early age of 23, from hemorrhage of the lungs, is greatly regretted by his many friends and acquaintances. The Guardian extends sincere sympathy.

The breakwater completed at Morell last fall is as solid as a rock and is sanded on the other side almost to the end. The work promises to be good for the harbor and reflects credit on the builder in charge, Kemble Webster. Knowing ones say that 500 feet more of the same kind of work would make an A. 1. Harbor.

Secy—John MacQueen, Dept. Marshal—John McLeod. A very interesting debate was moved by Samuel Shaw for next Tuesday night, namely: "Which is more beautiful, the works of nature or the works of Art."

There passed away at her home at Linkletter, on April the ninth, after a lingering illness, Hannah Dickson, aged 62 years, beloved wife of Frederick White. Mrs. White was born at Wilmot Valley and was a daughter of the late Daniel Dickson, she leaves to mourn her husband and one son, Henry, also four brothers, H. R. of Reynolds, Dakota, A. On March 25th a pleasant evening was spent at the parsonage of the Christian Church, Montague, the event being a farewell party to Rev. C. Brooks and Mrs. Voorhees who left on the 29th for their new home in New York after two years faithful work with this church. The house was well filled, not only with members of the church, but also with many neighbors and friends who came in making the hours all the more pleasant. After refreshments were served by the ladies present, Mr. and Mrs. Voorhees were presented with an address and a well filled purse. About eleven o'clock the party broke up after having spent a most enjoyable evening, all wishing Mr. and Mrs. Voorhees many years of happiness and prosperity in their new home, which they purchased some months ago in Hammondsport, New York.

"Buy a tag?" was the invitation that greeted one every few steps on Saturday.

From early morning, until late evening seventy one merry young folks with vim, vigor and good natured jollity pursued prospective customers. The splendid result of their days labor is a total of over \$100 collected for the P. E. I. Hospital.

Almost everybody wore tags! Few indeed possessed one tag alone, and the individual who wore none was an object of wonder, and a rare bird indeed.

Stores and hotels did a thriving trade in exchanging bank notes for silver.

One visitor to the city remarked "I changed a 'V' at the hotel and I've bought a tag from every young lady I've met on the way up."

Above all was the almost unanimous courtesy, and generosity which the young people met with, as almost everybody bought tags.

Evidently the P. E. I. Hospital has a strong hold on the hearts of the public.

The public auction sale of F. R. Hertz pure bred Clydesdales, took place Saturday at one sharp at his place on West Street. Hundreds were present from all parts of Queens County, and the bidding was brisk and the sale was over in one and one half hours.

The following sympathetic expressions have been forwarded to George Sutherland, Central Bedeque. As Orange Brethren we are taught to bear one another's burden, but we know how empty our words would sound in trying to convey to you our heartfelt sympathy in this hour of sorrow by mother's vacant chair. We can only direct you to the Great Head of our Order, who is ever ready to comfort. We know that your loss is her gain but if we live as Christians as she hath done, and as we should be united again where sorrow and parting is no more. The letter was signed on behalf of King Edward L. O. L. No. 1664 by T. J. Inman, W. M., and John Stuart, Rec.

Last week three branches of the Anti-Tuberculosis Society were organized by Inspector McCormac—one at St. Peter's Bay, one at Souris, and one at Mt. Stewart. The organization meetings were well attended, which shows that the general public are taking a commendable interest in the white plague, commonly known as consumption. The Guardian is informed that people in some cases travelled over ten miles to attend the meetings. It should be indeed encouraging to Mr. McCormac and these associated with him in this campaign of education, to be greeted with such large meetings, especially at this season of the year when travelling is so bad.

The Anti-Tuberculosis Society determined that every citizen of the province and Queen's Counties shall now be observed for the prevention of tuberculosis as well as what is necessary to effect a cure. The Society is a purely philanthropic one, and is well worthy of support and encouragement.

HE TOOK A FRIEND'S ADVICE And Dodd's Kidney Pills soon Cured His Backache

How Malcolm McKinnion Found Complete and Permanent Relief From His Kidney and Stomach Troubles.

SHUNACADIE, Cape Breton Co., N. S., April 16, (Special).—Suffering with Backache so much that he could not work, Malcolm McKinnion, a well known resident of this place, took a friend's advice and used Dodd's Kidney Pills. The result is that he is back at work and his Backache is gone.

"Yes," he says, in speaking of his case, "I was troubled with Backache, due to wet feet and hard work. It got so severe at last I was quite unable to do my work."

"It was through a friend's advice I started to use Dodd's Kidney Pills, and I was soon aware that they were doing me good. My back was easier and I had less pain in urinating."

"As Dodd's Kidney Pills had done me so much good I thought I would try Dodd's Dyspepsia Tablets and I did so with marvellous effect. Two boxes set my stomach right."

White Blood Corpuscles and Disease Germs

Scientists have been learning more and more about the white blood corpuscles and our dependence on them for health and strength. They are everlastingly fighting for us, to protect our red blood corpuscles and bodily tissues. And the healthier and stronger we keep them the better they fight.

Many thousands more would be victims yearly of infectious and contagious diseases if the white corpuscles in their blood were not in fighting condition. It is only when these corpuscles are healthy that they can protect the red corpuscles and the bodily tissues from the germs and toxins or poisons of these diseases, which invade the system through the air we breathe, the water we drink, the food we eat, and otherwise.

If you are troubled with any humor or eruption, scrofula, eczema or salt rheum, catarrh or rheumatism, or if you are pale, weak, nervous, with little or no appetite, or generally run down, then the white corpuscles in your blood are not healthy and strong. You should take Hood's Sarsaparilla. It gives health and strength to the white corpuscles, multiplies and develops the red corpuscles, and is the greatest preventive as well as curative medicine the world has ever known. "My hands were a running sore and nothing seemed to do me any good, until I took Hood's Sarsaparilla. Three bottles cured me." GEORGE A. THOMPSON, Elkton, Md.

Begin taking Hood's Sarsaparilla today. 100 Doses One Dollar.

The sad news of the death of James A. McDonald, formerly of Bradalbane, Prince Edward Island, and for some time a resident of Omaha, Nebraska, has been received by Frederick McKenzie, Rose Valley. Mr. McDonald had not been feeling well for a few days, yet no cause for alarm was felt. On Saturday, April 3rd, he left home to attend a meeting of the Temple Brotherhood at the Labor minutes later, found him unconscious. All endeavors to bring him to consciousness were without avail, and he died in a short time, leaving a widow and three children, also three brothers and three sisters, besides a large number of friends, to whom we extend our sincere sympathy in this sad hour of bereavement.—Com.

The regular monthly meeting of the P. E. Island Poultry Association was held Tuesday evening with a very fair attendance including Robert Leonard of Eldon and L. H. D. Foster of Marshfield, and the Vice President for Queens Co., Henry Howard, York. It is such enthusiasts as these, who in spite of bad roads, come so far to attend meetings, that are going to make for the good of standard bred poultry in this Province.

After passing minutes of previous meeting, and general business, the President Mr. Ryan, gave a short address on the visit to Marshfield of several of the members. He spoke very highly of the reception tendered by the Marshfield Institute. A few very pointed words were spoken by Henry Howard, on feeding. L. H. D. Foster spoke of the unfairness of the practise of beating down in selling eggs for hatching. After considerable discussion from which much benefit was gained by the members, the Association has decided that none of its members shall sell eggs from standard bred poultry for breeding purposes, for less than one dollar. This is to protect those who have imported high priced blood from those with poorer stock who get sales by beating down. Meeting adjourned at 10 p.m.
