

The Charlottetown Guardian

President, Lieut.-Col. W. Chester S. McLaren... Secretary Lieut.-Col. D. A. MacKinnon, D. S. O.

Farm Employment

At the sitting in Charlottetown of the Veterans' Assistance Commission there was a good deal of discussion on various plans for providing farm employment.

Churchill's Warning

Mr. WINSTON CHURCHILL recently made a striking speech to a distinguished French audience at the Ambassadors Theatre in Paris on the need to defend democracies against Nazi and Bolshevist domination.

The British Market

In view of the revived interest in the prospect of developing the fruit and vegetable canning industry in this Province, a publication recently issued by the Intelligence Branch of the Imperial Economic Committee should prove of interest.

Editorial Notes

Dancing as a fine art was on display last evening. Competition is the life of agriculture as well as trade, and our farmers and experimental stations will be alert to prevent Ontario getting ahead of them with their new style of potato.

The new trade agreement with Germany is the old one arranged by Mr. Bennett plus a gift to Germany of the difference in the rate of exchange between the two currencies.

No fewer than eight of the nine members of the Spanish ambassadorial staff at Washington have quit to join the Fascists.

A Nightshirt Club has been started in Los Angeles with branches in New York and Ottawa. Adherents are quite numerous in Charlottetown as well, the night shirt being a welcome relief from the shackles of pants, besides being a one-piece item at the laundry.

You cannot fluster Prime Minister Baldwin or stampede the British Government. After consulting the Cabinet, the Prime Minister declined to grant the request of the Labor Opposition that an immediate emergency session of Parliament be called to discuss non-intervention in the Spanish war.

In New York a police campaign has been inaugurated against smoking autoists. Col Harold Fowler, First Deputy Police Commissioner, has issued the following notice to chauffeurs and car owners generally: "If you smoke while operating a car, you are likely to be distracted and cause either injury or death to yourself and those with you."

An Empire exhibition is to be held in Scotland in the summer of 1938. If Glasgow cooperation gives permission the site will be Bellahouston Park. A guarantee fund for the financing of the exhibition, aiming at 500,000 pounds (\$2,500,000), with a minimum of 250,000 pounds within the next few weeks, has been opened with offers of 10,000 pounds (\$50,000) each from Lord Weir, on behalf of Messrs. G. and J. Weir, Ltd., Cathcart, and Sir Harry McGowan, on behalf of Imperial Chemical Industries.

It is a novelty, surely, to speak in Ottawa and hear your remarks cheered or laughed at in Edinburgh. That was the experience of the Hon. Ian Mackenzie, Minister of Defence who contacted an Edinburgh banquet by means of telephone and beam wireless.

It may be recalled that on December 20, 1916, President Woodrow Wilson sought to end the Great War by neutral intervention. In his message he said: "The President is not proposing peace; he is not even offering mediation. He is merely proposing that soundings be taken in order that we may learn, the neutral nations with the belligerents, how near the haven of peace may be for which all mankind longs with an intense and increasing longing."

Rev. Dr. Bonnell advocates the return to the confessional on the part of The Church of The Reformation. At a conference in Atlantic City he declared Protestant ministers must some day recognize the need for "confessionals."

Notes by the Way

Both Hitler and Mussolini, within the last year, have gone the limit in tempting the other peoples of Europe. And yet so great has been the general desire for peace that they have been allowed to get away with almost anything.

Government planes pound away at San Martin de Valdeiglesias and bomb their own troops, who advance too quickly in counter-attack.

Since Sydney steel orders indirectly benefit the whole province, there will be general interest in an announcement that 23,000 tons of rails are to be rolled for the South African state railways.

There are now at least 2,000 consumers' co-operatives in the United States, about half of which operate stores, including 400 groceries and 500 oil and gas associations.

Britain goes almost to the extreme in her desire to safeguard freedom of speech, but the Mosley Fascists are becoming such a nuisance that it is possible some steps may be taken to abate them.

Gold production in Canada will likely exceed \$135,000,000 in 1936, according to a statement by the Department of Mines. It will be an all-time record for Canada, but less we become too boastful about it note might be taken of good production in the Transvaal.

That was a fine bit of work done by the government of Britain, when certain parties were talking out of turn about what they were going to do in the Mediterranean.

Capable of firing 1,600 shells per minute, eight-barrelled anti-aircraft guns are to be placed on the latest types of warships for the British Navy. In addition to this defensive weapon, the warships are to have an extra six inches of deck armor to protect them against bombing attacks from the air.

The surest way to bring about a revolution is to create a privileged class, and above all a class which has reason to feel that it is above

What Body of Hours

By James W. Barton, M.D.

GALL BLADDER RESPONSIBLE FOR MOST SYMPTOMS OF INDIGESTION

When an individual is troubled with indigestion—nausea, slight tendency to vomiting, pain or distress in region of the stomach and intestine—it is only natural that he should blame the stomach or intestine.

Physicians who do special work on the digestive apparatus—gastro-enterologists as they are called—have, for a number of years, been telling us that inflammation of the gall bladder causes more cases of indigestion than stomach or intestinal ulcer, cancer of the stomach or chronic enteritis.

Ten years ago the record of the Mayo Clinic showed that from 66 to 75 percent of the cases which did not recover had had severe gall bladder disease.

Five years ago Dr. C. Crump, Vienna, in 1000 cases examined after death, found that 596 of them (nearly 60 percent) had some form of gall bladder disease; more than half of this number—325 in all—had gall stones present.

The greatest single cause of gall bladder inflammation is believed to be infection of some kind—teeth, tonsils, sinuses, and large intestine (colon), which is carried to the gall bladder by the blood.

It has also been known for many years that there is a relation between the appendix and the gall bladder so that it is not unusual for a surgeon removing an appendix to make an examination of the gall bladder also.

Fortunately by the use of the X-ray and dyes the condition of the gall bladder can now be found, just as can stomach and intestinal disturbance. Just howwell the gall bladder can concentrate the bile is shown by the shadow produced on X-ray films. From these films the gastro-enterologist is able to tell the presence or absence of disease, and the degree of disease if present.

Another method of investigation is testing the ability of the gall bladder to empty itself by giving fat foods—egg yolk and cream—and in some cases Epsom salts.

Dr. T. R. Brown, Johns Hopkins University, in Journal of Digestive Diseases and Nutrition, says that the main points in the treatment is to avoid further infection from any source—teeth, tonsils, sinuses—and to promote free drainage or emptying of the gall bladder. The patient should avoid all highly seasoned, rich and excessively coarse foods and alcoholic drinks; and the bowels should be kept open by Epsom salts.

The law. Industrialists should welcome investigations if they have nothing to hide, as they will have an opportunity to demonstrate their righteousness. Continued protests betoken guilty consciences.—London Advertiser.

PUBLIC FORUM

This column is open for the discussion of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

THE UNITED STATES ELECTION

Sir.—The presidential election is fast drawing to a close and on November 3rd the people will decide the issue as between Roosevelt with his liberal and progressive policy and Landon who will be controlled by the more Conservative elements as represented by Big Business, Wall Street and similar interests.

The Roosevelt foreign policy is for the promotion of peace. It believes such can be accomplished by what the president terms his "Good Neighbor" policy, the stabilization of currencies, the remedying of a ruinous exchange situation and the promotion of fair, international trading agreements.

There is no question about it—recovery is on the way—there are greatly increased corporation earnings, larger dividends, larger payrolls, a thriving retail trade and higher prices for farm products. Roosevelt should naturally receive some credit for these happy conditions and if his re-election will result in further recovery then Canada cannot also fail to feel the effects of a prosperous nation of 130,000,000 people right along side our 3,000 miles of international boundary line.

That makes me a very interested observer because if the contentions of Republican leaders are to be relied on there will be a policy of extreme economic isolation. The trade treaty with Canada is denounced and pledges are given to repeal same and the same is true of all the reciprocal trade arrangements, made by the present administration. Such a policy may gain a few votes in certain sections but I am very pleased to find that the development of foreign markets as advocated by Secretary of State Hull has many warm advocates here among whom and perhaps the most influential is the New York Times.

Very rarely has an election taken place when party alignments have been broken to such an extent as at present. Leading Democrats such as John M. Davis and Al. Smith, former presidential candidates, Bainbridge Colby, a former Secretary of State, Senator Reed, of Missouri, Governor Ely of Massachusetts and many others are actively against Roosevelt. There are Liberty Leaguers Jeffersonian Democrats (so called) and other clubs and organizations but against that there are former Republicans and other organizations just as ardent in their support for Roosevelt.

This makes the result somewhat uncertain, but my guess is that Roosevelt will win out. It may be a close call or it may be a landslide for there are a good many States classed in the doubtful column. One thing is certain. The whole southern section of the country known as the Southern States are still solidly Democratic. This is conceded and these States have about 150 electoral votes which will all go to Roosevelt but he will require 266 electoral votes to secure the presidency.

First, was an item regarding the Local Traffic By-Law, which had passed the second reading of the City Council. The second news item was from Kentville, N.S. On a charge of manslaughter Harry V. Sims, of Hubbards, N.S. was sent up to stand trial, following the preliminary hearing before Stipendiary Yould. The charge against Sims resulted from a motor accident Sept. 20th, when a car driven by Farnell Gates and a light truck operated by Sims collided. Badly injured, Gates later died in hospital. Verdict of the coroner's jury was that both drivers were negligent.

IN A WORD.

What a thing is a word. Like a glittering sword It sweeps down the ages Born of fools, and of sages. Here it mocks at a throne. Here it stands out alone Above clamoring reas. Here it brings to their knees The stiff-necked and wilful. Here's a net that a skillful Poet has fashioned. Of strong words impasioned, Here is granite unchanging. Here's a word disarranging. The plans of a lifetime. Here's a word for a rime. Here's a word like a bangle. Here's a word will entangle For whole generations The pathway of nations. —David P. Berenberg, in the New York Sun.

Well and Firmly Made SWEET CAPORALS Captivate "The purest form in which tobacco can be smoked."

For Vitality always use BRAHMIN ORANGE PEKOE TEA

Do You Gamble? Some people gamble with the toil of a life time against a stray spark or a defective wire. But Provident People INSURE. Consult the Oldest Insurance Agency in Prince Edward Island—HYNDMAN & CO., LIMITED

passing. Yesterday I was in a Broadway Theatre and in the "News" feature the pictures of Landon and Roosevelt were shown with a short extract from their addresses. When the Landon picture was shown it drew a single clap of the hands whereas the entire audience seem to applaud Roosevelt. That is only a straw but I will be mightily surprised if New York State and City do not go Democratic by a very substantial majority.

INTERESTED October 23rd, 1936. (We have deleted reference to the recent Horgan fatality as the matter is still subjudice and will be until the January assize.—Ed. G.)

TWO MACS SPECIALS ALL THIS WEEK VICEROY HOT WATER BOTTLES ABSOLUTELY GUARANTEED FLAWLESS DR. L. B. EVANS If you have any trouble with your stomach such as indigestion, dyspepsia, sour stomach, heartburn, gastric distress, etc., then don't delay getting a bottle of Dr. Evans' stomach mixture immediately.
