Queensland Organized Over Western Region

PRACTICALLY, Queensland has been in the doldrums since the Legislative Assembly adjourned some weeks ago. More Canadian Pears Wanted The Canadian Bartlett pear cannot pack for sale and no superior in any world market. In that event, as the Agricultural Situation bulletin aptly remarks, there is a market for growers to increase the quantity of Bartletts and reduce production costs of commercially desirable fruit, in order to gain a more complete command of the market requirements and to take advantage of the opportunity to export.
