

Baptist Church Holds Annual Meeting

The annual business meeting of the Charlottetown Baptist Church was held in the church building Wednesday evening. Mr. Harper MacNeill was appointed chairman. Reports of finances and all regular church activities were presented for consideration and approved. In the absence of the Superintendent of the report on the Superintendent was presented by Mr. Sidney Burhoe. Mrs. D.N. MacNeill gave an interesting report on the Home Department. Dr. J.A. Clark reported for the deacons and asked for appointment of two in addition to the present number. Mr. Louis Simmons and Mr. Sidney Burhoe were appointed to this office. Dr. Clark in reporting for the Board of Management paid glowing tribute to the memory of the late Mr. Wilfred Boulter. Mrs. T.G. Ives reported on the activities of the Women's Missionary Society. Miss Marguerite Brehaut reported for the C.C.T. Rev. Mr. Davison reported for the Sunday School. A financial report of the Women's Auxiliary was set forth by Mrs. Dorothy Douglas showing total receipts of \$1109.88. In the report of the Flower Committee, Mrs. Clark expressed the gratitude of her committee to Mrs. A.E. Baker for generous assistance. The Baptist Young People's Union made an encouraging report through Mrs. Stirling Inman and the World Wide Guild through Mrs. Victor Runtz. Mr. P.J. Proud reported for the ushers, Mr. E.D. Nicholson for the Trustees. The Music Committee was able to report a notably active and useful period, paying tribute to the excellent service of the organist, Mrs. Allison MacRae. The report on the Girls' Choir indicated that this organization had very finely taken their part in assistance to the Senior Choir. Mr. Bethune gave an informative report on Religious Education. A report of notable activity was set forth by Col. D.N. Bell, in his report of the Men's Association, a Church Visitation program had been enlightening, supper meetings with special speakers had been held monthly with much interest and in all a fine year's work. In his Financial Report, one of outstanding interest was presented by Mr. J.A. Webster who mentioned with appreciation the assistance of Mr. Bethune, and the co-operation of the men of the Church whose assistance in the special drive for funds had been a very real asset. In his pastoral report Mr. Davison expressed appreciation of the work done through the year, of hope for the years ahead and mentioned with feeling sympathy, the loss suffered in the passing of Deacon Boulter. Officers and Committees for 1949 were appointed with benediction by the minister, Rev. J.D. Davison.

Zion Presbyterian Church Annual Meeting Last Night

On Thursday evening, January 20th, the annual meeting of Zion congregation was held in the church hall. Rev. G. C. Webster led a short devotional period, after which the business of the evening was conducted. Mr. Webster was then appointed chairman for the evening and Mrs. Donald Mackinnon, secretary. The minutes of the last annual meeting were adopted, also the minutes of a special congregational meeting held to deal with matters pertaining to repairs on the exterior of the church building. Glowing reports were presented by the secretaries and treasurers of all church societies. At the conclusion of the Trustees' report, read by Mr. E. A. Cudmore, Mr. James MacFadyen expressed thanks to the board, especially to the chairman, Mr. Webster also complimented the board on its efforts during the past year. Mr. James MacFadyen paid special tribute to the Women's Auxiliary, and due credit was given to their president, Mrs. G. C. Dennis, when commenting on the Sunday School report expressed his views on the average present day Sunday School. The permission to have a Memorial window ordered was granted by the congregation. Several matters pertaining to the welfare of the church were debated by various members of the congregation, after which estimates for the coming year were presented. It was moved and seconded that a hearty vote of thanks be extended to the ladies of the Auxiliary during the course of the evening, provided refreshments; thanks was also expressed to Rev. G. C. and Mrs. Webster. Mr. Johnston, the organist and Mr. Albert MacDougall, the sexton. The following trustees were elected for 1949: Mr. George MacLeod, Mr. J. H. Hill, Mr. George Douglas, Mr. E. A. Cudmore, Mr. Preston MacLaine, Mr. A. H. Roper, Mr. E. Earle MacDonald, Mr. Gordon Letich, Mr. N. MacPherson, Mr. Joseph Rodd and Mr. W. Blair MacDonald. Following the adjournment of the meeting Mr. Webster pronounced the Benediction.

TRUMAN

Continued from page 1 security would be met with overwhelming force, the armed attack might never occur. He reiterated his statement that the United States "will provide military advice and equipment to free nations which will co-operate with us in the maintenance of peace and security." Promises Bold Program He promised a "bold new program" to help the world's needy. More than half the world's people are miserable, poverty-stricken, disease ridden, he said. Though the material resources of the United States are limited, it and other nations can pool their "technical knowledge" and work through the United Nations to help free peoples raise their living standards. The aim, he said, should be to help those people "produce more food, more clothing, more materials for housing, and more mechanical power to lighten their burdens." Truman announced that he would soon send to the Senate the North Atlantic security treaty, now being drafted with several nations. After the President concluded his 21-minute address, the skies came alive with the rattling dronies of war-like lightning-fast jet fighter planes and swift jet bombers forming an "air umbrella" over jam-packed Washington.

NON-RAIL

Continued from page 1 the Northern Alberta Railway would show a loss instead of the 1947 profit. Dealing with the Toronto Terminal Railway Commission, Mr. Brazier brought out that in 1947 the C.P.R. obtained from it \$646,000 in dividends, which went into the "other income" category. At the same time, the Canadian Pacific paid \$841,000 to the terminal out of its rail revenues. The Toronto concerns own the line jointly by the C.N.R. and C.P.R. Mr. Brazier also was curious about an item of \$120,000 going into the "other income" account as dividends from the wholly-owned Canadian Pacific Express Company. He suggested the express concern be an integral part of the C.P.R.'s rail operations. Mr. Liddy said the \$120,000 in dividends had come from non-transportation business. Mystery developed for a time over an item of \$2,497,000 in the company's "other income" accounts for 1947. It was lumped under the heading of "other," and Mr. Brazier and Frank D. Smith, Maritime counsel, sought to have it broken down. The board previously had ruled it need not be broken down, and C.P.R. counsel today again objected to doing this. Later, after a conference with provincial counsel, the C.P.R. broke it down partially by saying \$1,903,000 was bank interest and interest on government bonds, and \$494,000 was interest on the company's "deferred maintenance" fund. (This fund of about \$7,000,000

The Central Guardian

This column is reserved for news of local interest, but advertising of a novelty nature may be inserted at five cents a word, strictly payable in advance.

CONFEDERATION LIFE INSURANCE

RACK of children's dresses up to \$3.95, clearing at \$2.00, 2nd floor, S. A. McDonald.

C. W. L. CARD party, Holy Redeemer Hall, Friday, Jan. 21.

RED CROSS FIRST AID School of the Air, C.F.O.Y. 6.30 Saturday night.

BALANCE of ladies wool and gabardine dresses, one-third off, 2nd floor, S. A. McDonald.

ONE RACK Ski Suits, children's coats and suits up to \$10.50, clearing at \$4.95, 2nd floor, S. A. McDonald.

FIREMEN CALLED - City firemen were called out twice during last night to answer still alarms although no damage was reported in either case. The first was at seven o'clock at 103 Richmond street and the second was at eight o'clock at 25 Kensington Road.

CIVIC NOMINATIONS - Nominations for the civic by-election in Ward Three on January 27, for the vacancy caused by the death of Councilor S. F. Doyle, were received at the City Hall yesterday. Those nominating as candidates for election were Messrs. W. H. Beaton, E. Warren Houston and George E. Keefe.

FUNERAL YESTERDAY - The funeral of the late Miss Agnes Prowse was held yesterday afternoon from her residence, 49 Easton Street. Service was conducted by Rev. H.C. Rice, D.D. Interment was in the People's Cemetery. The pallbearers were: Dr. Roy Cudmore, Harry Drew, Harry Hardy, Gerald Proctor, Bert Davidson, Ira Shaw.

ATTRACTIVE BOOKLETS - Messrs. A. Pickard and Company Ltd., who are local agents for the following tractors and other farm equipment, are distributing finely illustrated booklets on the evolution of diesel tractors and the advantages of caterpillar equipment for farm and road-making purposes.

ADDRESSES NAVAL OFFICERS - Commander John Dallison, R.N. D.S.O., who is at present in Canada as Naval Advisor to the British High Commissioner, Ottawa, gave an interesting talk to the active and reserve officers of the C. S. "Queen Charlotte" last evening. His experiences with the combined Royal Navy and American Navy exercises last fall in the Southern Pacific in which several units of the Canadian Navy took part and descriptions of other places visited, were outlined. The Commander also exhibited three paintings which he had recently completed. One of them was a scene from Tea Hill, a beautiful pastel executed with consummate skill and showing almost photographic detail.

JUNIOR AID MEETING - The Junior Aid of the Prince Edward Island Hospital met in the Cunliffe Hotel on January 21th with thirty-three members present. The meeting opened with the Lord's Prayer after which the president, Mrs. Andrew Likely, welcomed the new members. The minutes were read and adopted. The secretary then read the financial report stating the sum of \$121.17 was realized from the recent rummage sale. Mrs. Donald Ross and Mrs. James Haslam were appointed conveners on the League of Mercy this coming year. Mr. Robert Large, convener of the Fashion Show Committee then gave her report. It was decided to hold the Fashion Show on the fifth and sixth of April this year. On the motion of Mrs. Arthur Peake and seconded by Mrs. Arthur Hogan the meeting adjourned. Tea was served by Mrs. Walter Goss, Mrs. Robert DeBlois and Mrs. Lewis Turner.

Personals

The many friends of Mrs. John M. Inman, New Argyle, are glad to see her home again after her recent operation in the P. E. Island Hospital. Friends of Joseph Flood, South Melville, will regret to learn of him having a foot crushed while engaged in lumbering, necessitating treatment in the City Hospital. Miss Agnes W. MacQuaid, of the Public Library staff, Charlottetown, has returned from an enjoyable holiday spent in Baltimore, the guest of her brothers and their wives.

BUILDING BOOM

VANCOUVER - (CP) - Among building projects planned for 1949 are four new bank buildings, several retail stores and a number of business office buildings. Business men predict the year will see one of the biggest building booms in the city's history. has been built up out of rail earnings for several years. It is to pay for maintenance work which could not be done at the time the money was set aside. Provincial counsel has contended the interest on it should not go into "other income." Earlier evidence by Mr. Liddy consisted of a continued defence of the C.P.R.'s depreciation allowance system, which has been under attack by provincial counsel.

FARM PROBLEMS

(Continued from Page 1)

Department of Agriculture "to deal exclusively with co-operative marketing and organizational problems. He should be free to work at all times with co-operatives and producers' organizations, and also to give advice and assistance in marketing problems." A Fieldman, to be employed by the Provincial Government, was recommended for the promotion of horticultural work in the province. The need for general trained personnel such as veterinarians was also stressed. In addition to the committees already established, a transportation committee, under the chairmanship of Past President Walter R. Shaw who may name the members, will consider the Island's current transportation problems. Newly elected members of the executive are Messrs. S. G. Peppin, representing Science Service; F. M. Nash, Production and Marketing; Heath Saunders, Cattle and Swine; and Chester E. Shaw, Marketing. Committees were re-elected en bloc, with power to add to their numbers.

Marketing Recommendations The marketing committee, Chester E. Shaw, chairman, recently recommended that the Provincial Government lend their full support toward having the Dominion Government pass regulated marketing legislation; that the Provincial Government adopt a program to encourage co-operatives; that the Provincial Government lend its full support to having all coarse grains from Western Canada marketed through the Canadian Wheat Board; that dealers and truckers should be licensed; and that definite action be taken towards having a complete rail grade policy in regard to lamb marketing, enforced in the Province.

It was also argued that immediate study be given to the possibility of a centralized marketing agency for poultry and dairy products; that more suitable storage space be provided in Government storage for poultry and dairy products; that when established, the centralized marketing agency handle eggs and similar essential dairy supplies; that temperature and humidity control for cheese storage be provided; that a program be developed for the marketing of cheese from the Province next year.

Suggests Stock Sale Yards

Recommendations of the live stock committee, H. W. Clay, chairman, included the study as to the advisability of establishing live stock sale yards in Charlottetown to assemble the stock for competitive buying; subsidized veterinary service; that Provincial officials salaries be placed on the same level with those of Dominion officials performing the same work, together with a satisfactory range scale; that consideration be given to the advisability of organizing an annual Winter Fat Stock Show and Sale in Charlottetown; and that a Central Selling Agency for all farm products be established at the earliest possible moment. The committee also recommended that a conference of Maritime packers, with officials of the Dominion and Provincial Departments be called to meet to find if packers are agreeable to make lamb grading 100% effective in this Province during 1949 and that the present financial assistance given to this policy be discontinued until such time as the policy becomes wholly effective; that agricultural societies or institutes be organized for the purpose of carrying out all matters pertaining to local and district agricultural activities; and that the possibility of farmers and farm organizations purchasing grain in car-load lots be investigated, and grades of grains marked on feed bags and all feeds subject to check analysis.

Potato Legislation

The final recommendations by the potato committee, chairman Mr. G. Peppin included legislation to amend Bill No. 59, which requires all table stock potato growers to plant certified seed as a measure of controlling bacterial ring rot. As no ring rot has been found in 1948 and little in 1947 it is recommended that certified seed be planted and inspected every five years and more often if necessary; that truckers and loaders be licensed; that still greater emphasis be placed on island potato advertising in world markets; that a central potato marketing board be set up; and that all potatoes be shipped uniformly in large print, preferably Prince Edward Island Potatoes. It was also recommended that increased efficiency be the keynote of success; the poultry committee, F. M. Nash, chairman, offered the following recommendations: that this year's production program be carried on at a volume somewhere between 1947 and 1948 when 850,000 and 890,000 chicks respectively were sold; that the three boys' and girls' poultry clubs at present operating be increased to six; that fall and winter production be stressed; that measures be taken to better inform producers; better information regard to the quality of the grains and the protein in rations; that the 60-to-100 bird flocks be increased to a minimum of 200 layers, provided adequate facilities are available; satisfactory and properly equipped housing units; that economy of production expenditures with breeds and cross-breeds be undertaken at the Experimental Farm, and that the experiments in trace and minor elements in rations be continued. The committee also recommended that a close study be made of some form of co-operative central handling, marketing and storage effort to determine whether the establishment of such facilities and freezer equipment are available; that 70,000 cubic feet of storage space (\$200 cases

of eggs) be made available in two rooms for both eggs and poultry; that grants be undertaken to determine the reason and suggest remedies for the deterioration in egg quality commonly occurring during July, August and early September; to encourage truckers to install and apply some cooling devices in incubators, or pick up eggs during the night or early morning when temperatures are at their lowest.

Soils and Crops

The soils and crops committee, D. C. Schurman, chairman, recommended preservation of grasslands to curb erosion, strip farming methods on inclines, heavy sod on steep slopes through use of manure and fertilizers, terracing and diversion ditches where required, and long term rotations where each field remains under grass for several years. A Hummer Ditcher will facilitate soil conservation projects in 1949. "It is recommended that the Provincial Department of Public Works undertake the grading of clay banks along the sides of standardized roads to prevent wash and erode the countryside." Recommending that imports of lime should be increased to 40,000 tons annually, the committee urged its use with manure and commercial fertilizers, the latter being used as a supplement. A 19-year experiment shows that all-manure gives the highest clover yield in a 3-year rotation. An extra two to three acres of grain per farm is recommended, with treatments for smut and rots immediate. An increase in the acreage of mixed grains and corn is further advocated. Using potatoes in a balanced rotation with a provincial ceiling of not over 40,000 acres is recommended. Following a Clobber harvest, a clover crop of fall rye "might lend itself as a means of conserving soil fertility and help prevent soil erosion."

Farm Wood-Lots

Stressing the almost universal usefulness of the farm wood-lot, the committee recommended a foster; establishment of managed woodlots for demonstrations; initiation of area reforestation projects on abandoned farms and other projects throughout the Province; that forestry maintenance projects be developed as object lessons on individual farms; and that local students be encouraged to undertake forestry studies and return to the Province as leaders in this field.

Reforestation

"The work of reforestation being done at Delvay in the National Park is potentially of great educational and demonstrational value," the committee reported. It was urged that the attention of the teachers, trustees and parents of this work be directed to this work by giving children a picnic at the beach may thus be used to show to the pupils the work of reforestation already done. If seen at this stage in the year, it will come, furnish for their impressive evidence of the possibilities and value of trees as a means of reclaiming many acres of land which is unfit for cropping and at present non-productive."

Discuss Fertilizers

Advocating regular applications of manure and ground limestone, the committee recommended liberal quantities of bedding, tight trenches and manure pits and warned against the loss of plant food before reaching the field. Great care must be exercised in building composts in order to prevent loss through over-heating, leaching and loss of ammonia nitrogen through evaporation. Manure should be applied directly when proper storage facilities are not available. Points out that approximately 90% of the 60,000 tons of fertilizer used annually in the Province at a cost of approximately \$2,500,000, is used on potatoes, the committee recommended that a more equitable distribution of fertilizer on other crops in the rotation would produce greater volume of field crops generally. "Further education on fertilizers is necessary, and farmers should start from an economic standpoint, the use of chemicals versus mixed fertilizers," the committee concluded. Owing to the increased importance of fruits and vegetables in the horticultural and Bee Committee, Gordon C. Warren, chairman, stated the need for a fully qualified man for promotional work in horticulture. Assistance which had been advocated for worth-while students, with the necessary academic and practical training, to take advanced studies in this field, is now being provided by the Provincial Government. No real progress has been made regarding suitable freezing and cold storage space for fruits and vegetables, which is necessary with the expanding production. This includes freezer locker-space for private use. Local inspection is urged, similar to that for exported fruit and vegetables. Work is proceeding to make disease free plants available to the public. The Provincial Government is commended on its bee policy which has increased the number of beekeepers, and the committee recommends it be continued this year.

Kinsmen Vote \$500 To Arts And Crafts Guild

A \$500 donation to the Arts and Crafts Guild was made last night by the Charlottetown Kinsmen Club. The action was taken at a regular bi-monthly meeting of the club, held at the Charlottetown Hotel. The president, B. M. Sears, was in the chair. Guests included Bob MacNearney, Paul Loeb and Dr. Clarence Coady, all of Charlottetown. The resignations of Bill Bryden, recently transferred by the Canadian Bank of Commerce to the Kingston, N. S. branch and of Bill Ashbury, who left recently to re-enlist in the Royal Canadian Air Force, were accepted with regrets. Stewart Ives was elected to succeed Mr. Bryden as treasurer of the club. It was decided to distribute the annual pot baskets on Valentine Day and \$100 was voted for this purpose. The club will hold its annual Founders Night on Thursday, Feb. 17.

C.G.I.T. NEWS

It's been (By H. M. R.) long time since the last edition of the News and we take all the blame. Guess we'd better look to that old saying, "Never put off till tomorrow what you can do today." Well, anyway, better late than never! I hope you all had a Merry Christmas and that Santa didn't forget any of you. We haven't had any reports from the group since Christmas so guess we're not the only ones who put a few things off. How about some news leaders? If any of you are in doubt as to just what we want, we'll explain here and that will save a lot of individual letters. Speaking of the column is to let other groups know what each group is doing in the way of study, projects, handcraft, recreation and special activities so the minutes of your meeting should cover all these things. We will sift them over and include the results in our column. A report came in from the "Ariante" Branch of the Murray River C.G.I.T. since our last edition. A large column is to let other groups know what each group is doing in the way of study, projects, handcraft, recreation and special activities so the minutes of your meeting should cover all these things. We will sift them over and include the results in our column. A report came in from the "Ariante" Branch of the Murray River C.G.I.T. since our last edition. A large column is to let other groups know what each group is doing in the way of study, projects, handcraft, recreation and special activities so the minutes of your meeting should cover all these things. We will sift them over and include the results in our column.

Bank Statement

OTTAWA, Jan. 20 - (CP) - Dominion Government deposits increased \$16,482,000 to \$158,897,000 during the week ending Jan. 19, the Bank of Canada reported today in its weekly financial statement. Chartered bank deposits increased \$14,035,000 to \$545,969,000, while notes in circulation declined \$17,348,000 to \$1,248,457,000. The study of apple maggot control for small orchards was approved, as the control in small orchards has a direct bearing on the control of diseases and insects in the larger commercial orchards.

Plant Diseases

Mr. R. R. Hurst, chairman, presented the recommendations of the Plant Disease and Pests Committee for an extension officer in Plant Pathology and Entomology; inducements to train native sons so that they will return; that, in conjunction with the Department of Education, the published material from the Experimental Farm and the Science Service be given wide distribution in the schools. A survey of cereal diseases in P. E. I. was recommended, with control, entomological investigations were recommended by Mr. Fred Cannon on the aphid, and more important species of fruit insects, and the pest-mite, which cucumber beetle were not prevalent, a close watch was necessary to assure P. E. I. immunity.

Local Y's Men's Club Meeting

The regular meeting of the Y's Men's Club was held last evening in the Y.M.C.A. dining room with Y's Ralph Jenkins in the chair. Again almost one hundred per cent of the members were in attendance. The guests were in Mr. George Mallett, a former islander now residing in Alberta, Mr. Bob Watt of Sackville, N.B., Harold Hertz and Earl Taylor of Charlottetown. After a splendid dinner served by the ladies, the usual hearty songs led by Frank Johnson with O.K. Presby at the piano was greatly enjoyed. A few items of business being disposed of without loss of time, the chairman introduced Mr. Vic Runtz of the staff of the Charlottetown Guardian. Mr. Runtz, a comparative newcomer to the city gave a very enjoyable and highly instructive talk on the subject of cartoons, illustrated by lantern slides. The latter covered the whole field, ancient and modern, humorous, cynical, comic strips of all kinds. Mr. Runtz's commentaries on the works of the contemporary artists, as well as the samples of his own work in various stages of development, passed among the members, will long be remembered. The thanks of the club was suitably extended by co-chairman Fred Osborne, and with the singing of the National Anthem the meeting adjourned.

Who's Who In P. E. Island Agriculture

MR. R. C. PARENT

The newly-elected President of the Prince Edward Island Agricultural Council, the annual conference of which concluded yesterday, Mr. Parent has proved to be one of the leading personalities in Maritime agriculture. Born at Douglas, York County, New Brunswick, on December 24, 1901, he was raised on his father's homestead where mixed farming was carried on, but with a leaning towards fruits. One of his happiest memories was the thrill of hearing "Sara's running" and the excitement of harvesting the maple sugar in the home sugar-bush, which had been producing for 45 years. From the local school Mr. Parent attended "Frederick High School, and thence to a number of agricultural colleges, as Truro from which he graduated in 1921, winning the Governor-General's Medal as top man of his year. He then attended Guelph Agricultural College, graduating in 1922 in General Agriculture. Upon, and was a member of the College livestock judging team which competed with all the U.S. universities at Chicago. In 1924 he graduated with his master's degree in agriculture from MacDonald College, which was awarded to a William C. MacDonald scholarship representing New Brunswick.

Maritime director of the Agricultural Institute of Canada, Mr. Parent has acted on a number of special committees on land utilization in New Brunswick in conjunction with the forest engineers. His major interest in all his work has been, and is, the conservation of soil fertility and the use of land.

On graduating from MacDonald, Mr. Parent worked at the Experimental Station at Fredericton for several years as a graduate assistant and in 1927 came first in Prince Edward Island as Supervisor of Illustration Branch of the Canadian Legion, and remained for 10 years. In 1937 he returned to New Brunswick as Supervisor for the Illustration Stations there until 1947, when he was appointed Superintendent of the Charlottetown Experimental Farm.

To Reorganize Male Chorus

First steps in the reorganization of a community male chorus in the City of Charlottetown, which was announced yesterday, it was announced yesterday that Mr. Stanley Lancaster well known vocalist. It is planned, starting Thursday, February 24, to hold weekly practices every Thursday evening, the Charlottetown Branch of the Canadian Legion has kindly donated the use of their hall for this purpose. The services of Miss Louise Cook, who recently was awarded her licentiate in music, have been secured as pianist. Mr. Lancaster is hopeful of building up a chorus of 50 voices and feels confident that in a city the size of Charlottetown there should be plenty of material available. During the war Mr. Lancaster was a member of the R.A.F. which was stationed here. He became well known as a vocalist and took a keen interest in all musical entertainments. During the war he served in Ceylon and was demobilized in England at the war's end. His home is in Welwyn Garden about 20 miles north of London. Mr. Lancaster returned to this Province about a year ago. NAPOLEON'S BIRTHPLACE Napoleon was born at Ajaccio, capital of Corsica.

BIRTHS, MARRIAGES, DEATHS 50c Per Insertion

BIRTHS MacARTHUR - At the Prince Edward Island Hospital on Saturday, Jan. 15, to Mr. and Mrs. Ivan A. MacArthur, of Kingston, Ont., a daughter, Deborah Jane.

DEATHS HENRY - At Sunset Lodge, Charlottetown, January 20, 1949. Mrs. E. L. Henry in her 63rd year. Remains are resting at the Cutcliffe Funeral Home. Funeral notice later. ROBINSON - At his home in Summerside on Thursday, Jan. 20, Brewer W. Robinson, aged 58 years. Funeral Saturday afternoon at 2:30 p.m. from Summerside Trinity U.P. Church. Private service at the house at 9 o'clock.

N.D. MacLean UNDERTAKER EMBALMER Charlottetown and North Westshore Phone 149

To The Electors Of Ward Three

I have nominated as Councillor for Ward 3, and hereby solicit your support on January 27th. Should you elect me as your representative I will do my utmost to further the interests of Ward 3, and Charlottetown in general. As time may not permit me to call on you personally may I take this opportunity of soliciting your vote on Thursday next. W. H. BEATON
