SIR HENRY THORNTON CONGRATULATES MESSENGER BOY

VANCOUVER, B. C., Aug. 10. —No little act which will gain friends or business for the company is too small to pass unnoticed by Sir Henry Thornton, President of the Canadian National Railways, whether it be the act of a high executive or the humblest employee in the service.

Several weeks ago Sir Henry heard of a messenger boy of the Canadian National Telegraphs who by his ready wit, turned an unfavorable situation to his advantage and earned business for the company. This morning at Sir Henry's request the boy, Douglas White, of Vernon, B. C., was introduced to him. For ten minutes the sixteen year old lad and the president of the company chatted like father and son until Sir Henry had to hurry away to keep appointments with several delegations of business men.

As Sir Henry left to go he patting Douglas on the shoulder and told him he was on the way up the ladder; as for Douglas, his face beaming with delight, he went out to get more business.

mainly very firm with the demand for extras and firsts in excess of supply. A car has been ordered from U. S. and storage eggs will likely go into consumption channels soon. Sales are being made here in a jobbing way at extra-40. Firsts 37-1-2, seconds 31-1-2. Victoria.—The egg market here is again higher with dealers now quoting producers extras 34, firsts 32, pullet extras 30.

St. John.—The market here is firm and higher and under good demand. Prices to country shippers have advanced one cent with dealers now quoting extras 34, firsts 31 seconds 25. Production is gradually falling off and increasing supplies are being brought from Prince Edward Island to meet local demand. The Boston market is looking here for fresh eggs but the spread in price is not sufficient to cover duty and freight.

Hallfax.—The egg market here continues firm with supplies very scarce, brokers are appearing in quantities on the local market and are retailing at 50 cents per pound.

She—"Does your wife get her own way?"  
He—"Rather, so much so that she even writes up her diary a week ahead."

"The Souris tea, on the 3rd, was not in aid of the Church at all, as many thought, but in aid of the town, brought a large attendance. They struck a fine day amid the showers.

"Crops of all kinds look well. There are very few potato-bugs this year. There are heavier crops East, this year than there ever were before, whether or not there will be a market this fall for the big overplus."

"Quite a number of our young men are getting ready for the coming harvest excursion."

### Eastern Guardian

..HAYING—Little progress has yet been made with the haying, so unfavorable has been the weather.

..MISSION—A mission opens in St. Margaret's Church, next Sunday, and will continue for one week.

..EASTERN AGENT—Mr. J. W. Murdock is Guardian agent in Montague and will be pleased to receive news items, advertising, new and renewal subscriptions.

..FEW SPORTS—We suppose it is unfavorable tourist weather that so few sports and joy-riders pass through this summer. It is also remarked that there are not many old home visitors this summer.

..GOOD GROWING WEATHER is not good "tourist weather." As an agricultural country we prefer the good growing weather that we have. Good crops are better than tourists.

..NO LEOPARTY takes place this year at St. Margaret's, as was first intended. Instead of a leoparty the parishioners are making a contribution of \$5, \$10 and \$15 per family, and which is now being very successfully collected.

..CONGRATULATIONS—To the sisters of the Souris Convent on the grand success of their pupils at the Matriculation Examinations for the school. The two scholarships for Kings' County come from this institution.

..BROWN-TOP—A few of the sheques for the Brown-top seed, sent in last fall, have been received and the remainder are duly expected. Only 40% is being paid. The sheques received are very small, and there is much disappointment amongst the growers. It is doubtful if much of this year's crop of Brown-top will be cut, by the Eastern farmers.

..HORSES IN BIG DEMAND—There is a great scarcity of horses in the Eastern parts of the Island, many farmers are travelling through the country on the look out for working horses for the haying, harvest and digging. The prices asked by these few who have animals for sale is now very high, as much as \$200 is being asked for a fairly good horse and as much as \$175, \$180 are refused. It's a long time since horses went to two hundred dollars in these parts.

### Elevator Operator Met Shocking Death

MONTREAL, Aug. 10.—Leopold Boicette, of Ville Lasalle, was instantly killed today when the elevator he was operating in the Casidy building here got beyond his control. He was descending from an upper floor with a passenger, a boy, when the controls of the machine failed to work. Passing the first floor he threw open the door and pushed the boy out, attempting to follow himself. He slipped and fell with his head resting on the step of the first floor. As the carriage continued to drop the head struck the back of Boicette's head and wedged on his body, came to a stop.
