### A NEW SEAL ROOKERY FOU

VICTORIA, Oct. 22.— A new seal rookery located on an uninhabited island, not marked on charts, or maps, has been discovered by Kidauna Midzushima, a Japanese of Hakodate, according to advices received by the steamer Kagamaru which arrived in port yesterday morning. The island rookery is said to be an exceedingly rich one and the discoverer made a small fortune by a raid on the rookery. The situation of the island is some miles north of the Russian port of Saghalin, and a party which went to the island in January last is expected back at Hakodate in the near future.

### CHILD AVERTED TRAIN WRECK

FILLMORE, Sask., Oct. 22.— Alice Potter, aged 11 years was proceeding along the railroad track to school when she noticed a broken rail. At once realizing the danger to the east bound train the child, abandoning all thought of school and lessons, rushed home, with the train even at that time in sight, and informed her father of what she had seen. The father at once rushed in the direction of the fast approaching train and succeeded in flagging it and bringing it to a standstill. It is reported the C. P. R. authorities are investigating the matter and are going to reward the child.

### LARGEST SHIPS IN THE WORLD

NEW YORK, Oct. 22.— The White Star liners Titanic and Olympic, according to announcement made by the officials of the line here, will be in commission on the New York, Plymouth, Cherbourg and Southampton service in about two years and will be the biggest and finest ships, although not the swiftest, in the world. They will be 500 feet long, or seventy feet longer than the Cunarder Mauretania, the biggest ship afloat, and will have a speed of about twenty-two knots in all kinds of weather. They will be of unusual depth and beam, to accommodate tremendous cargoes that will help to make them profitable. The line thinks apparently the problem of ocean transportation is to be solved by big and swift ships that can be run almost on schedule except in very foggy weather. It was said that the new ships will exceed the Mauretania by four or five thousand gross tons—which in itself represents a liner of great dimensions. The keels of the Titanic and Olympic will be laid at the yards of Harland & Wolff in Belfast in January.

This is the verdict of all mothers who have used these Tablets. And better still, mothers have the guarantee of a government analyst that Baby's Own Tablets are absolutely safe—that they contain not one particle of opiate or poisonous soothing stuff.
