

"ON TARGET... STEADY---BOMBS GONE"

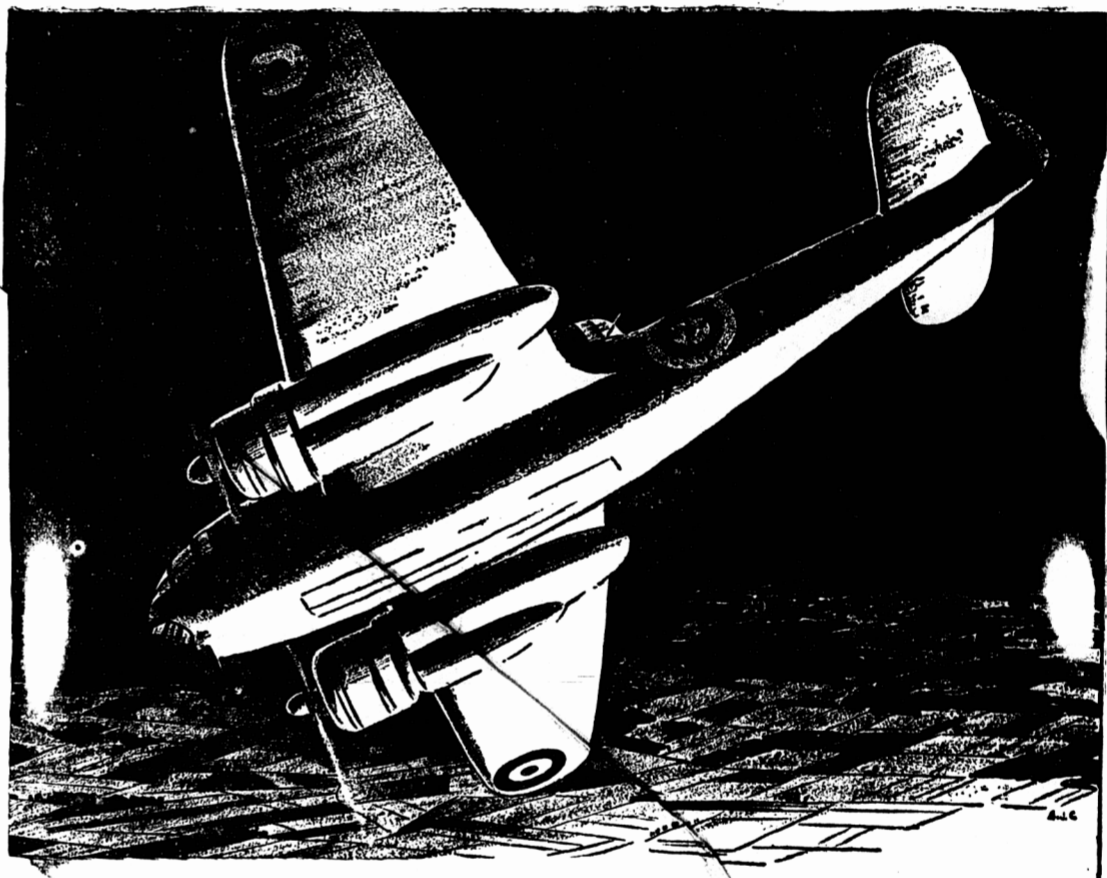

As the giant bomber hurtles through the air at 300 miles an hour, the bombardier gives directions and aims at the target. At the precise moment he releases the bombs, and down they go—right across the target. The R.C.A.F. has dealt another crushing blow to the nerve centre of Axis production.

AIRCREW ---

the greatest team in history

It takes more than the pilot and bombardier to make such devastating raids possible. The combined effort and co-ordination of every member of the crew is required to make each sortie a successful one. Pilot, Bombardier, Air Gunner, Navigator and Wireless Operator combine their every action with the precision of a well drilled team.

*Enlist Today! There's
A place on the team for you.*
