"Personal Spite" Alleged By Mr. Justice Saunders For Attacks In Senate

Stormy Session In Parliament Over Administration Of F.C.A. Act In Prince Edward Island. Letter Of Judge Saunders Read Charging Personal Motives Behind Attacks Of Senators Hughes & McArthur, Who Made Vehement Allegations In Rebuttal.

(C. P. by Guardian's Special Wire)

OTTAWA, June 7—Prince Edward Island Senators launched violent attacks against the Farmers' Creditors Arrangement Act in the Senate Banking Committee this afternoon, concentrating principally on the legislation as it was administered in their own province.

The fact that 1,154 applications had been handled, in comparison with approximately 200 in Nova Scotia, with a corresponding expenditure in Prince Edward Island of $30,189 as against $3,756 in Nova Scotia, for the fiscal year ending March 31, 1937, prompted Hon. J. J. Hughes (Lib. King's) to characterize the operations of the act as a "racket".

Criticism was also voiced of the administrator, Justice A. C. Saunders of the Prince Edward Island Supreme Court, on account of a letter he had written to G. F. Gordon, director of the act, in Ottawa. Conservative leader Meighen declared it "an amazing thing" that a man would write such a letter, adding later that the figures "definitely revealed that the act is not properly administered in that Island."

Judge Saunders' letter charged that the attacks of both Senators Hughes and MacArthur were inspired by "personal spite."

Mr. Gordon's Statement

This afternoon's session heard Mr. Gordon tell how the flat rate of $150 a month for official receivers under the act had been substituted by a flat rate of $15 for each application. This remuneration was increased to $30 where settlements were effected. There was no fee for a "solicited case" he said. He had saved $250,000 in administration during the first year the flat rates for applications were substituted for salary.

A total of 34,000 farmers had had their debts reduced under the statute; and of these 1,154 were in Prince Edward Island. He attributed the large number for the Island Province to "the uproar" that had continued from the time the act was passed.

"Why was it permitted to run riot like that?" asked Mr. Meighen. There was ground for criticism if the large numbers of applicants in Prince Edward Island were due to the word going round that "every man in the province could get his debts cut down."

Criticises Conditions

The attitude of the creditors was largely at fault, Mr. Gordon said. The Prince Edward Island situation was different from elsewhere. The creditors there were the local merchants who accepted the farmers' produce in part payments and who exercised a pressure that was almost incredible. Some of the mortgages were 50 years old.

Hon. J. A. MacDonald (Con. Cardigan) protested against Mr. Gordon's characterization of the merchant creditors of the Island. Mr. Gordon did not know what he was talking about. From what source had he obtained his information?

"I got it as a result of the meeting of creditors," replied Mr. Gordon.

Attacks Administration

Senator Creelman MacArthur (Lib. Prince) took up the attack against the administration of the act, and wordy interchanges came thick and fast when Hon. John E. Sinclair (Lib. Queen's) asked Mr. Gordon if he had received any communications from the administrator; Mr. Gordon proceeded to read a letter he had had a few days ago from Judge Saunders.

Judge Saunders' Letter

In it Judge Saunders, referring to the Senate debate on the act some weeks ago, declared the attacks of both Senators Hughes and MacArthur to have been inspired by "personal spite." He challenged Mr. MacArthur's statement that the board had advertised its meetings.

Later Senator MacArthur produced a copy of a Summerside newspaper carying announcement of such a meeting, signed by F. A. Bell, the official receiver. Mr. Gordon said when his attention was drawn to this, he had wired that advertising be discontinued.

In his letter Judge Saunders also took issue with observations in the Senate by Mr. Meighen and Hon. J. T. Haig (Con. Winnipeg). Turning to Senator MacArthur, Judge Saunders recalled a case where, he wrote, a woman applicant named Gedson had protested to him that Senator MacArthur had threatened to turn her out of her farm, to convert the place into a park, and to make a "trout-pond" out of a small body of water on it.

Vehement Denial

This was vehemently denied by Senator MacArthur. He said the first chief commissioner of Prince Edward Island preview board was Mr. Justice Arsenault; and no one had been more critical of him than Judge Saunders, the present incumbent. All that Mrs. Gedson had asked was reduction in interest.

In the Senate, said Mr. Hughes, Government leader Dandurand had read statements, prepared by Mr. Gordon, that were "very unfair and very damaging."

At this point Mr. Haig intervened. He had made no reference to Judge Saunders in the Senate. All he had said, quoting from Hansard, was that "the Senators of Prince Edward Island have revealed what may happen under a weak board."

On the market day in Charlottetown, said Mr. Hughes, the receiver "goes out among the farmers and says: "Why not make an application to have your debts reduced. It will mean $15 or $20 in

Mr. W. N. Jenkins Is Elected President Of Lay Association

(By The Canadian Press)

SACKVILLE, N.B., June 7—W. N. Jenkins, Bedeque, P. E. I., was elected president when the Lay Association of the Maritime Conference of the United Church met this afternoon. He succeeds E. G. Evans, Sussex, N. B.

Other officers elected were, vice-presidents, R. J. Messenger, Bridgetown, N. S., and W.W. Burns, Fredericton; secretary, R. S. Theakston, Halifax.

Rev. Gordon Sisco, secretary of the United Church of Canada, addressed the Association, stressing the dominant part laymen always had taken in church work.

At a subsequent discussion speakers deplored increased interest in sports on Sunday.

As delegates continued to arrive, the largest meeting in the history of the conference was anticipated. An increase in the number of women delegates was noted.

United Churchmen Elect Officers

(C.P. By Guardian's Special Wire)

SACKVILLE, N. B., June 7—At the opening session of the 14th annual Maritime Conference of the United Church tonight Rev. Dr. L. H. MacLean of Newcastle, N. B., was elected president, succeeding Rev. Dr. H. T. S. Gornall, Saint John.

Rev. George Christie, York, P. E. I., and Rev. A. G. Pentz, Auburn, N. S., were re-elected secretary and assistant secretary, respectively.

The following were appointed as a business committee: Rev. E. E. Styles, Hantsport, N. S., Rev. G. Rackham, Bass River, N. S., and Robert Reid, Saint John.

Britain Plans Measures To Halt Attacks On Shipping

(C. P. by Guardian's Special Wire)

LONDON, June 7 — Concluding that protests are ineffective, Great Britain today decided to take stronger measures to halt repeated bombing of ships flying the Union Jack in Spanish waters.

British representatives at Barcelona and Burgos, respectively capitals of Government and Insurgent territory in Spain were asked to consider the problem and to advise the Government their views on the best means to end such attacks.

Captains of British ships have frequently complained strongly at what they termed a lack of protection, and have demanded something be done. Even as Downing Street pondered the problem fresh attacks were made on British ships in Spanish Government ports today.

Since hostilities began in July, 1936, 58 British ships have been bombed or attacked by submarines, with six sunk. Fourteen British sailors have been killed and nearly 50 injured.

Meanwhile Norway and Sweden accepted London's invitation to serve on a neutral committee to investigate charges of barbarous bombing of civilians in Spain. The United States has not yet made a definite reply. The prevalent opinion here was that attacks on British shipping in Alicante and Valencia is a deliberate attempt against British craft, made with the purpose of preventing British ships from entering Spanish waters with supplies bought by the Spanish government.

Government Inactivity Is Scored By Bennett In Clash With Dunning

OTTAWA, June 7—(CP)—Tempers flared in the House of Commons today as Conservative Leader Bennett charged the Government with doing nothing while the House was in session for five months and declared Prime Minister Mackenzie King did not spend an hour and a half a day in the House on the average. The Prime Minister was absent at the time and the clash was between Mr. Bennett and Finance Minister Dunning.

The clash started when Conservative Leader suggested the imposition of a dumping duty on crude oil from Montana to assist in the utilization of oil from the wells in Turner Valley, Alberta.

The Government was fully alive to the problem of the Turner Valley, said Mr. Dunning, but he did not consider a dumping duty would meet the situation.

Then Mr. Bennett read a quotation from a Calgary newspaper which said: "In Ottawa 245 costly politicians talk for five months and accomplish nothing. The Canadian Tariff Board investigates the Turney Valley situation and adjourns forever."

Mr. Dunning observed the quotation had been sent to all members and Mr. Bennett said that did not lessen its value.

Mr. Dunning: "It would be impossible to lessen its value."

Mr. Bennett: "Well I do not look upon the matter in just that way."

Mr. Dunning: "That kind of comment I do."

Mr. Bennett: "Well I am not so sure having regard to my observation of the Government of this country for the last five months that one is not warranted in making that statement."

Mr. Dunning: "It says 245 members of parliament talk too much. My friend is one of them."

Mr. Bennett: "Of course he is. But it rests with the Government to take the initiative. It is their job to see that something is done for they only can spend money."

Justice Minister Ernest Lapointe said the Government had been listening to speeches.

"Well they have been poor listeners, for the Prime Minister has not been in this House an average of an hour and a half a day since the session opened," said Mr. Bennett.

Mr. Lapointe said this was not fair. The Prime Minister was tired and had not been well for a few days.

"I do not think the remark was called for. We did not do the same to my right honorable friend," he said.

"You did not?" asked Mr. Bennett. "Read the record. Day after day, week after week you referred to the fact that I was not in my place because I was working long hours on work that I had to do."

A reference by Mr. Bennett to promises made by the Liberals in Saskatchewan election drew from Thomas Vien (Lib. Outremont) the remark:

"I seem to recall a phrase, 'I will end unemployment or perish in the attempt.'"

"My friend is correct," said Mr. Bennett, "and we did end the unemployment that existed at that time. It is true those who were then unemployed were replaced by increasing numbers.

"And what is more we did perish in the attempt and that is what will happen to this Government. But I have never complained of any decision of the electorate."

Saskatchewan Electors Troop To Polls Today

(By The Canadian Press)

REGINA, June 7—Final appeals were being made for votes at meetings throughout Saskatchewan tonight as more than 400,000 voters prepared to cast ballots tomorrow and elect the ninth legislative assembly in Saskatchewan's 33-year history.

Candidates numbering 156 have been named for the 50 seats in 47 constituencies in which voting takes place from 9 a.m. to 5 p.m. M.S.T. while in two other constituencies, Athabaska and Cumberland, voting will take place July 28.

Thirty-five of the 50 Liberals seeking election were members of the last legislature of 55 members while all five C.C.F. members who constituted the official opposition have been renominated. Only these two parties were in the last legislature but four major parties have replaced candidates in the field for tomorrow's balloting.

The C. C. F. has named 31 candidates, Conservatives 23 and Social Credit, making the first bid for election to form a government in the province, has 39 candidates in the field.

There are four Independents, three Independent-Labor, two Labor-Progressives, two Independent Social Creditors, one Independent Conservative and one Union Progressive candidate.

Queen Elizabeth Slightly Indisposed

LONDON, June 7—(CP-Havas)—The Queen was forced to cancel a number of engagements today due to a slight cold and was advised by her physicians not to leave the Royal Lodge at Windsor Great Park where she passed the Whitsuntide holidays with the King and their children.

It was believed she would be able to attend the presentation June 25 of a Verdi opera at Glydenbourne, Sussex.

Princesses Elizabeth and Margaret attended a military tattoo at Aldershot today.

Soldiers Attended Fascist Meeting

(By The Canadian Press)

OTTAWA, June 7—Defence Minister Mackenzie announced tonight Col. O. S. Hollinrake, officer commanding the Royal Canadian Artillery, had been asked for a report on the conduct of five men who attended a Toronto Fascist meeting in uniform last night and gave the Fascist salute.

Mr. Mackenzie said the matter of an investigation had not been considered. He would add nothing more than that the report would be studied when it was received.

Round-the-World In A Rowboat Aim Of Pair Headed Here

(By The Canadian Press)

MONTREAL, June 7 — Heading first for Prince Edward Island, Henri A. Leclerc and Joseph Lawrence Perry coasted down the St. Lawrence River today in the 18-foot flatbottom rowboat they hope will carry them around most of the world.

Leclerc and his Acadian-born companion told reporters they had mapped out a route that would take them first to Prince Edward Island where Perry hopes to see his parents for the first time in 30 years; down the Atlantic to the Panama Canal, up the Pacific coast to Alaska, across the Bering Strait to Siberia, down the coast of Asia to the Indian Ocean. From there they hope to continue up the Suez Canal to the Mediterranean and then on to Paris—within five or six years.

The baggage-laden punt passed the eastern tip of Montreal Island late today, a spanking breeze enabling the travellers to take it easy. The current and the breeze behind the one light sail carried the little craft along at a goodly clip.

Most Popular Motion Picture Ever Filmed

Mr. F. G. Spencer Expresses Pleasure At Privilege Of Bringing "Snow White" To Charlottetown.

Mr. F. G. Spencer, who spent Monday and Tuesday in Charlottetown, made his visit synchronize with the first presentation on the F. G. Spencer Company circuit of "Snow White and the Seven Dwarfs," Walt Disney's magnificent dramatization of one of the most delightful fairy tales in all literature.

Talking with a Guardian representative, Mr. Spencer said it might be difficult for Prince Edward Island picture patrons to realize the impression which Disney's first full-length cartoon feature has made upon the entertainment world. The fact that it is the most sought-after picture of the year, and the greatest box office attraction in the history of the motion picture business, is the reason for this week's Prince Edward programme being the most expensive ever offered here.

He expressed the hope that full advantage would be taken by all entertainment lovers of seeing this

Destructive Aerial Raids Continue To Take Heavy Toll In Spain And China

British Ships Fall Targets To Insurgent Bombs—Japanese Carry Out Series Of Raids On Canton.

(By The Associated Press)

Heavy bombing by high-powered war planes which killed civilians as well as soldiers again high-lighted news from the Far Eastern and Spanish war arenas yesterday (Tuesday).

Japanese planes attacked Canton three times, adding to a list of dead and wounded which already had reached 6,000 in 10 days of aerial attack of Canton and environs.

The Japanese High Command warned the raids would continue with "even greater vigor," stating the loss of civilian life was "deeply regretted" but adding the onslaught would continue until the Chinese realized the "futility" of their anti-Japanese stand.

Spanish Insurgent planes ploughed up already heavily damaged government cities along the east coast of Spain, where casualties were expected to run into the hundreds.

Valencia, Alicante, and Segorbe were the chief scenes of aerial attacks. Barcelona was bombed anew this morning. Two British vessels were wrecked at Alicante, where it was said part of the attack was deliberately aimed against the British ships to keep them out of lucrative Spanish trade.

In China

CANTON, June 8—(Wednesday)—Japanese warplanes early today returned to attack this terror-stricken city for the 12th successive day Canton and its South China environs have been subjected to the horrors of bombings.

The new attack came shortly before dawn. Bombs apparently struck the city's power station. Lights failed throughout Canton and in Shameen Island, the international quarter. Extent of damage and casualties could not be determined immediately.

The onslaught came as apprehensive Chinese crowded railway stations and the waterfront attempting to escape the expected new raids.

Japanese planes struck at the city three times yesterday, adding to the toll of dead and wounded which already had reached 6,000 in 11 days of bombing.

(From the Japanese navy came a warning that the raids would continue with "even greater vigor." Rear Admiral Naokuni Nomura, chief of the navy special service section, declared at Shanghai that loss of civilian life was to be "deeply regretted" but added that the air raids would go on until Chinese authorities realized the futility of their anti-Japanese attitude.)

The first Japanese raid yesterday came shortly after daybreak. For 10 minutes Japanese planes bombed the crowded Tungshanr and Kaichuen districts.

In the second foray, in mid-afternoon offices and utility plants. Nine bombs dropped into the compound of a power station near Shameen, the foreign settlement and put the plant out of commission.

Canton was without lights when the third attack, a moonlight raid, was made. Incendiary bombs were dropped in the northern section of the city.

Face Flood Menace

SHANGHAI, June 8—(Wednesday)—Japanese invaders moved with little opposition today against the railway crossroads of Central China, where rising Yellow River waters threatened to inundate a vast battle area.

Dispatches from the front said capture of Chengchow, junction of the Peiping-Hankow and Lunghai railway lines, appeared assured as Japanese airplanes unloaded new destruction on the city and ground forces reaching a point only 10 miles to the east.

Some 70 miles further east, however, the mighty Yellow River lapped over dikes northwest of Lanfeng. Chinese said a number of Japanese soldiers were drowned in the inundated countryside. There has been almost continuous rainfall in the area, presaging flood conditions which would slow up and possibly halt Japanese forces operating westward along the Lunghai. Large numbers of flood-wise Chinese civilians had evacuated

NEWMARKET, England — Fined £2 ($10) for speeding here Sir Percy Malcolm Stewart, Bart., former commissioner of special areas, said he had been driving 40 years and had an unbesmirched record.

In Spain

MADRID, June 7—Insurgent bombers raked Spanish Government coastal areas today killing, maiming, and damaging foreign ships and property.

Casualties were expected to run into the hundreds. At least 42 were known dead at Valencia and Alicante both Mediterarnean ports and Segorbe, about 25 miles inland.

At Alicante, a lone seaplane swooped over two British ships, the 3,688-ton freighter Thorpehaven, which was wrecked by three bombs, and the bulk carrier, "English Tanker" of 5,387 tons, which was set afire.

Subsequently four raiders returned and unloaded 50 bombs into Alicante itself, destroying the Belgian vice consulate and other buildings and narrowly missing the British consulate.

The captain of the 3,072-ton British cargo boat Thurston, meanwhile hurriedly drydocked his ship at Valencia after Insurgent bombs sprung her plates and she had started to settle.

These raids raised to 11 the number of ships damaged or sunk in a fortnight's Insurgent attacks on Spanish Government ports. No casualties were reported today aboard the three ships.

Spanish Government sources in Valencia and Alicante said the attacks were deliberately planned against the British ships in an effort to drive those cargo boats from the Spanish trade.

Launch Offensive

HENDAYE, France, June 7—The spearhead of General Franco's Insurgent infantrymen smashed through Government defence lines in Castellon Province today to enter the broad river valley leading to Castellon de la Plana, important Government seaport.

Insurgent dispatches said a Galician column captured the village of Adzeneta, 18 miles from Castellon.

Abandonment of the village by Government troops, Insurgent dispatches said, left the way open for the "River of the Widow", a stream running through a low fertile valley south to Castellon.

The Insurgent advances were part of a new offensive that swung east from the Teruel-Valencia highway.

Backed by hundreds of airplanes and batteries of artillery, General Franco's Insurgent Spanish, Moorish and Italian troops had as their ultimate objective the conquest of Valencia, key Mediterranean seaport.

New Disturbances Flare In Jamaica

KINGSTON, Jamaica, June 7—New flare-ups of labor rioting were reported today. They broke out in two Jamaica parishes last night resulting in the death of one striker and injuries to 12 others when police fired into a demonstration of strikers and unemployed sympathizers.

rance Strengthens Frontier To Meet Threats Of Invasion

PERPIGNAN, France, June 7 — Premier Edouard Daladier completed an inspection of French defences on the Spanish frontier today and ordered artillery and air forces to shoot down any planes which threatened French territory.

The strength of France's land and air forces at southern centres like Tarbes and Montpelier within a few hours of the border is estimated at about 60,000 men.

Of these troops only a few thousand anti-aircraft and aviation units are actually within sight of the frontier where reinforcements were sent after bombers of "unknown nationality" from Spain thrice attacked French communities.

To prevent repetitions the Premier declared squadrons of French pursuit planes will guard the Spanish border region day and night.

Daladier, who is also minister of defence, was immediately concerned during his inspection tour with guaranteeing the frontier population against a repetition of the aerial forays, which he considers "deliberate and a grave menace of war."

He spent Monday and Tuesday examining the main-anti-aircraft batteries near the frontier and conferring with the general commanding the troops in each area. Besides regular army contingents in the vicinity, about 1,500 mobile guardsmen patrol the eastern half of the border alone.

The exact number of fighting planes and pilots assigned to border patrols, however, remained secret.

UNITED FRONT OF CHURCHES CLAIMED NEED

Maritime Conference Of United Churches Opens At Sackville.

(C. P. by Guardian's Special Wire)

SACKVILLE, N. B., June 7—"The one thing that Christianity needs, in face of the dominant materialism of our age, is a united front (of churches), no matter how many different regiments or different uniforms there may be," Rev. H. T. S. Gornall, Saint John, retiring president of the Maritime Conference of the United Church, said tonight at the opening session of the 14th. annual conference.

The surest way to break down ecclesiastical barriers was to find some common ground for co-operative work. "What the churches have in common, their life in Christ and the Master's great commission, is infinitely more important to us than anything that divides us," declared the retiring president.

Year of Unrest

The past year had been one of great unrest and forboding said
