### Pot Lid and Pan Cover

A pot lid that will keep the cook from scalding her fingers while draining the potatoes or beans is worth having especially if it also keeps the pot from boiling over during the cooking. Such a convenient lid is now made and is equally serviceable when placed over a skillet of meat to keep grease from splattering onto the stove top. It consists of a lower section perforated to let steam escape; a draining section; and an upper moveable portion which can be adjusted to close all of the holes when desired. The lid is made in sizes from 9 1/2 to 12 1/2 in diameter and cost 25 to 35 cents. 3573-10-23M131pd.

### 1000 SOLDIERS KILLED IN BOMBARDMENT

LONDON, Oct. 25.—The bombardment of Dedagatch caused the death of ten civilians and over a thousand soldiers, and there also were a large number of soldiers wounded, says a despatch to the Exchange Telegraph Company from Athens.

A large portion of the military casualties, the correspondent adds, were in the barracks which housed the 40th Bulgarian regiment. The barracks was crowded with soldiers who were preparing for their meal when the bombardment was aimed at one o'clock with accurately aimed shells, which demolished the barracks, burying the occupants in the ruins. PETROGRAD, Oct. 24.—The Russian naval department has issued the following communication:—

"On the afternoon of October 21 a squadron of British and French warships, and the Russian cruiser Askold, bombarded the Bulgarian coast, directing their fire on observation posts for batteries that had recently been erected, and the port of Dedagatch. Their fire appears to have caused great destruction in the ammunition stores, military magazines and other buildings. The station and railway bridge were also bombarded. The enemy did not reply.

"On the same day a detachment of the Allied fleet, led by the Askold, bombarded the military establishments at Porto Lagos."

### AUSTRIANS HAVE FREE PASSAGE THROUGH BULGARIA

LONDON, Oct. 26.—The Bucharest, Roumania, correspondent of the Times sends the following:—

"The Serbian troops have withdrawn from the neighborhood of the Danube, and the Austrians have crossed the river, traversing the island of Odakale. The Austrian forces will now obtain free passage through Bulgaria from Orzova, where fifty steamers and lighters laden with munitions have assembled."

### FORMER ISLANDER DROWNED IN N.S.

DIGBY, N. S., Oct. 24.—Guide Bevil Cornwall, Byron Roney and Gerald Merkle returned from Grand Lake at 9 o'clock to-night, and reported the finding of the bodies of James A. MacNeill and his son, Frank, who were supposed to have been drowned while canoe hunting from the overturned canoe found Friday. The body of the father was found at 2 o'clock this morning on the beach of the South shore and near the head of Grand Lake. That of his son was found fifteen minutes later on the opposite side of the lake, a half mile away. Frank had his shoes off and was completely clothed with sweater and boots, but had no coats on.

In the father's vest pocket was a small amount of paper money, and a piece of white paper on which was written in a bold hand, "Notice this dog is taken back to the station on the other side of the lake." On the other side of the lake, a lot of the stores purchased for the trip. The bodies were lifted up on the bank of Grand Lake and covered over with brush. Coroner Daley and Undertaker Rice have been notified, also the gravestone widow and family.

The bodies are probably reach Digby to-morrow night. James A. MacNeill and his son, Frank, left Digby October 7, on a moose hunting trip. Beverly Cornwall, licensed guide, accompanied by Byron Roney and G. Merkle, left Digby Friday on the search for them. They returned Saturday morning and reported that at Grand Lake they found a canoe bottom up and beating to pieces on the shore. A paddle, a short distance away, and under the canoe, Frank's military bottle; also a grating cup.

James A. MacNeill, who was about 55 years of age, moved to Digby seventeen years ago, and had since carried on a tailoring business in this town. His son Frank, aged nineteen years, was a volunteer for overseas service and had recently received a medical discharge to rejoin his unit. Besides Mrs. MacNeill, Mr. MacNeill's family consists of two sons, Arthur, in Saskatoon; Leslie, of Digby, and two daughters, Mrs. G. L. Fleming, of Hensonville, N. Y., and Meta, at home. Mr. MacNeill was a member of Sea-view Court of the Oddfellows. Foresters, and was at one time a member of the Masonic Order of Oddfellows. The event has cast a great shadow over the entire community. It is the first Digby county hunting fatality recorded for many years.

[The late Mr. MacNeill was a former resident of Summerside, being employed as a tailor with the late Murdoch McLeod (Tailor). His wife is also a native of Summerside, being a daughter of the late Stephen MacNeill and a sister of Mrs. W. A. Ching, of this town.—C.]

### SERBIANS RECAPTURE IMPORTANT POSITION

(Special to the Guardian.)

ATHENS, Oct. 26.—An official despatch announces that the Serbians have recaptured the town of Veles on the railroad east of Krupulu, after desperate fighting.

### ANTI-AUTOISTS AND THE SPRINKLER

Sir,—My friend, Mayor Sterns, has made an explanation to the citizens of Charlottetown brought about by a letter published by the Anti-Auto Association. While we as he says, are beneath his notice, yet there is an old saying that the "cat can look at the King," so we feel we can look at him yet.

As to running Car Number One on this day, it looks to the onlooker like a day for his toys. The Mayor started out with the sprinkler, ran it for a while, then took Car No. 1 and finished up with the sprinkler. If the sprinkler was good enough to start with, why not use it all the time?

If I read the law right every chauffeur must have his license before he can run a motor vehicle, and the Secretary, before he grants one, must be satisfied that the applicant is a proper person. Chauffeurs now employed, who want to make a lawful living, had to go to school in a garage to qualify.

Citizens of Charlottetown, just think of the admission made by our friend the Mayor! A machine costing upwards of six thousand dollars, used almost daily, running on the streets of our city placed in charge of one "who never drove a motor car before," whose only qualification for the running of this machine is a few hours' instruction from Mayor Sterns on a market day in Car No. 1. It seems very hard to believe the statement made in this wonderful episode, that a competent chauffeur could not be secured from among the many legally qualified young men from both town and country who spent time and money in acquiring the necessary knowledge to secure a license and it cannot surely be the small wage offered for a qualified chauffeur by such a past master at generosity as our Mayor.

In his letter he threatens to place Car No. 1 at the disposal of city officials for civic purposes night or day, should the writer dare to annoy him further in the sacred precincts of his official authority.

One would infer from this that the City of Charlottetown cannot afford to purchase the necessary vehicles for the accommodation of its officials in the discharge of their duties. The City of Charlottetown must certainly feel elated over this last announcement of its first magistrate, and the wonder is that the daily papers and other citizens through the press, have not voiced their appreciation of his generosity.

As regards the "Gill-Brodie sort," possibly as law-abiding citizens they will at least compare favorably with our friend, the Mayor, and the respect we show for the laws of the land and society, stamps us as good or bad citizens. With reference to tallights, badges, speed-limits, etc., the average person reads this out of the every-day occurrences that when so little respect is shown for law or order now when on their good behaviour, what will be the record if they get full swing?—and the Anti-Autoists are pledged to see that they will not.

Thanking you for space We are, Sir, etc., ANTI-AUTO ASSOCIATION, J. H. Gill, Secretary.

### MORE COSTS

Bill—"Ere, Sam, what are you putting on all of those coats for?" Sam—"It's like this, Bill. I'm going to paint my fence, and it's on the tin: 'To obtain good results put on three or more coats.' And that's what I'm doing."

### Gold Find in the Halifax Railway Cuttings

HALIFAX, Oct. 25.—A new terror in addition to the blasting at the terminals has been added to the citizens of the West End. This time it is not dynamite, but the discovery of gold that is likely to lead to further disturbance of the good people who live in a district bounded by Quinpool road, Oxford street and South street to the Arm. There is a great body of quartz in the rock in the railway cutting. The night foreman is used to western mines and night after night he saw the steam shovel turn out quartz with the gold showing plainly. Yesterday he and his brother filed an application in the mines office for about two hundred acres. This was done after he had an analysis of the quartz, which showed \$15.00 a ton. Mr. Fraser says that Bethlehem Steel is not in it with these figures.

### IT WILL BE DIFFERENT...

"Young man," inquired her father sternly, "will you give her a home like the one she has been used to?" "No," replied the truthful suitor, "for there will be no grumpy father to come home and make every one miserable by kicking over trifles and swearing at matters in general. There will be no mother to scold her from morning till night for wasting time, merely because she wants to be neat. There will be no big brother to abuse her for not doing half of his work, and no little brother to make enough noise to drive her crazy when her head aches. There won't be any younger sister to insist on reading some thrashy novel while she does all the work. She will not have with me a home like she has been used to not if I can help it." —Scottish American.

### GERMAN PARCEL POST TO U. S. IS DISCONTINUED

BERLIN, Oct. 26.—The parcel post service to America has been discontinued until further notice. No official reason for the discontinuance is given. Last April several thousand parcel post packages mailed from Germany to the United States via Switzerland were returned to the senders by the Swiss postal authorities because the British and French Governments had given notice that parcels addressed to German citizens in the United States would be seized whenever they would be found on shipboard. Parcels sent from Germany to Spain and Portugal have met a similar fate in France. On April 7 the German postal officials suspended the parcel post service to various parts of South America.

### Bavarian Army Was Wiped Out

PARIS, Oct. 26.—The First Bavarian Army Corps which has been attacking east of Souchez has been practically wiped out in five days. It made eight assaults, each time being repulsed with sanguinary losses. In the last two attacks it was reinforced by Prussian Guards, whose dead bodies mingled with those of the Bavarians. It is significant that not one single attack was able to withstand the French fire. The Germans simply melted away.
